- ✓ 391. Return of all Bills confirming Provisional Orders introduced into the House of Commons during the Session of 1876, with a Statement of Places included; Date of Introduction; Date of delivery of Printed Copies to Members, and Date of the Second Reading of each - - - - - 45

Public Bills:

- ✓ 0.156. Return of the Number of Public Bills, distinguishing Government from other Bills, introduced into this House, or brought from the House of Lords, during the Session of 1876; showing the Number which received the Royal Assent; the Number which were passed by the House of Commons, but not by the House of Lords; Number passed by the House of Lords, but not by the House of Commons; and distinguishing the Stages at which such Bills as did not receive the Royal Assent were dropped or postponed and rejected in either House of Parliament (in continuation of Paper, No. 0.144, of 1875) - - - 47
- ✓ 341. Return of the Public Bills, Session 1876, giving Title of Bill, by whom brought in, and when; Progress made, and distinguishing United Kingdom Bills, English, Irish, and Scotch Bills - - - - - 53
- ✓ 441. Further Return - - - - - 61

Reports and Returns (1874 and 1875):

- ✓ 53. Return for Session 1875 of all Reports and Returns presented in Dummy to this House - - - - - p. 65

Select Committees:

- ✓ 0.147. Return of the Number of Select Committees appointed in the Session of 1876; Subjects of Inquiry; Names of the Members appointed to serve on each, and of the Chairman of each; Number of Days each Committee met, and Number of Days each Member attended; Expense of Witnesses, and Name of the Member who moved for such Committee; also, Number of Members who served on Select Committees (in continuation of Paper, No. 0.138, of 1875), 71

Sittings of The House:

- ✓ 0.149. Return of the Number of Days on which The House Sat in the Session of 1876; stating, for each Day, Date of the Month, and Day of the Week, Hour of Meeting, and Hour of Adjournment; and Total Number of Hours occupied in the Sittings of the House, and Average Time; and showing the Number of Hours on which The House Sat each Day, and the Number of Hours after Midnight, and the Number of Entries in each Day's Votes and Proceedings (in continuation of Paper, No. 0.140, of 1875) - - - - - 87

Standing Orders:

- ✓ 411. Standing Orders of the House of Commons, 1876 - - - - - 93

ELECTIONS.

City of London (Liverymen):

- ✓ 454. Return of the Number of Liverymen in the City of London entitled to vote at the Election of Members of Parliament for the City of London, by reason of their Patrimony, Servitude, or Purchase - - - - - 195

Parliamentary Boroughs:

- ✓ 134. Return with respect to each Parliamentary Borough in England, the Parliamentary and Municipal Boundaries of which are Co-extensive, and of which the Population does not exceed 250,000:—Population in 1871; Number of Electors as Occupiers on the Register, exclusive of Lodgers; Rateable Value; Number of Persons assessed at 4*l.* and under; above 4*l.* and not exceeding 6*l.*; above 6*l.* and under 10*l.*; at 10*l.* and upwards - - - - - 197

Parliamentary Constituencies (Registered Electors):

- ✓ 170. Return showing, with respect to each Parliamentary Constituency in the United Kingdom, the Total Number of Electors on the Register - - - - - 199

Register of Electors (Cost of Printing):

- ✓ 429. Return of the Total Cost and other Charges connected with the Printing of the Register of Electors in the Counties and Boroughs in the United Kingdom, during the Year 1875 (in continuation of Paper, No. 436, of 1875) - - - 209

MISCELLANEOUS:

Agricultural Holdings Act, 1875:

- ✓ 163. Reports made to the Ecclesiastical Commissioners by their Surveyors relative to "The Agricultural Holdings Act, 1875" - - - - - 225

Enclosures:

- ✓ 126. Return of Acreage and Estimated Value of Lands Enclosed under the sanction of the Enclosure Commissioners, showing Extent and Estimated Value of the Land set out for Public Purposes, and Amount of Money Expended thereon; Extent of Land allotted to Lords of Manors and to Common Right Owners; Extent of Land Sold, and Number of Separate Estates thus created - - - - - 229

Greenock (Telegraphs):

- ✓ 248. Return of each Town with which Greenock had direct Telegraph Communication in 1872, &c. - - - - - p. 231
- ✓ 215. Return relative to Telegraph Messages handed in at Prince's Pier Railway Station, Greenock, for the Quarter ending 31st March 1876 - - - - - 235

Male Persons (United Kingdom, 1851 and 1871):

- ✓ 418. Return of the Number of Male Persons, of the Ages of Eighteen and Twenty-five, in the United Kingdom, according to the Census of 1851:—And, of 1871 - 239

Ordnance Survey:

- ✓ [c. 1412.] Report of the Progress of the Ordnance Survey to the 31st December 1875 - - - - - 241

Population, Areas, Houses:

- ✓ 59. Return relating to Areas, Inhabited Houses, and Male Population of the United Kingdom, 1871 - - - - - 275

Public Record Office:

- ✓ 389. Memorandum by the Deputy Keeper of the Public Records, on the subject of the Destruction of useless Documents now preserved in the Public Record Office - - - - - 597

River Conservancy Boards:

- ✓ 313. Paper by the Right Hon. Lord Robert Montagu, M.P., on Watershed Boards or Conservancy Boards for River Basins - - - - - 609

Royal Colonial Institute:

- ✓ 111. Memorial of the Royal Colonial Institute to Her Majesty, praying that Her Majesty would be pleased to assume such additional Style and Title as would distinctly indicate Her Majesty's Sovereignty over the whole of Her Colonial Dominions - - - - - 623

Royal Titles:

- ✓ 172. List of the several Descriptions of Official Instruments and Documents of State issued under the authority of Her Majesty, in which the full Statutory Style and Title of Her Majesty is customarily set forth - - - - - 625

Thames Conservancy:

- ✓ 370. General Report of the Conservators of the River Thames, from 1st January to 31st December 1875, with Accounts of Moneys Received and Expended for 1875 - - - - - 635
- ✓ 353. Statement of the Result of Notices served by the Conservators of the River Thames, for the discontinuance of the Passing of Sewage, &c., into the River, above the In-take of the Water Companies supplying the Metropolis - 641

Usk Elver Fishing:

- ✓ 300. Correspondence on the subject of Elver Fishing in the River Usk - - - 645

Belfast (Slob Lands):

- ✓ 66. Memorials and Correspondence relative to Reclamation of Slob Land in the Lough of Belfast - - - - - 649

Irish Society:

- ✓ 16. Statement of the Receipts and Expenditure of the Irish Society, 1865 to 1875 (in continuation of Paper, No. 514, of 1866):—And, Copy of all Orders, &c., of the Court since 1820, having reference to the Granting or Withholding the Grant of Leases or Renewals of Leases - - - - - 667

Irish Society—*continued*.

73. Return of the Receipts and Expenditure of the Honourable the Irish Society, from 9th February 1875 to 7th February 1876:—Also, Detail of the Total Receipts of such Society in each Year, 1866 to 1875 - - - - p. 671

Divisions on Public Business—*continued*.

Number of the Printed Division Lists.	DATE.	SUBJECT OF THE DIVISION.	Ayes (Tellers included).	Noes (Tellers included).	Aggregate Number of Members in the House (Speaker or Chairman included).	Before Midnight.	After Midnight.
76	April 4	Blending Irish Whiskey.—“That a Select Committee be appointed to inquire into the practice which has been permitted of late years of mixing Whiskey in Her Majesty’s Bonding and Inland Revenue Stores with other spirits; to report to this House whether the practice is injurious to the public and to the manufacturers of Irish Whiskey, and whether, in the opinion of the Committee, the practice ought or ought not to be discontinued; and that the Committee do also inquire into the effect of using new made spirits, and to report whether it would be in the interest of the public for the Government to detain all spirits and Whiskey in Bond until it is at least 12 months old.”—(<i>Mr. O’Sullivan</i>).—Amendment proposed, to leave out from the word “That” to the end of the Question, in order to add the words “in the opinion of this House, the practice of ‘blending’ Whiskey does not necessarily cause adulteration, and it is inexpedient to deprive traders in British spirits of trade facilities that are allowed to traders in Foreign spirits, wines, and various other bonded articles,”—(<i>Mr. Anderson</i>),—instead thereof:—Question put, “That the words proposed to be left out stand part of the Question.”	71	147	219	B. M.	
64	Mar. 28	Borough Franchise (Ireland).—“That the restricted nature of the Borough Franchise of Ireland as compared with that existing in England and Scotland is a subject deserving the best attention of Parliament, with a view of establishing a fair and just equality of the Franchise in the three countries.”—(<i>Mr. Meldon</i>).	168	181	350	B. M.	
177	July 13	Bow-street Police Court (Site) Bill.—Appointment of Select Committee:—“That the Debate be now adjourned.”—(<i>Captain Nolan</i>).	10	94.	105	- -	A. M.
176	” ”	Bow-street Police Court Site (Expenses of Commissioners).—On going into Committee:—“That the Debate be now adjourned.”—(<i>Captain Nolan</i>).	127	32	160	- -	A. M.
3	Feb. 17	Business of the House.—“That whenever notice has been given that Estimates will be moved in Committee of Supply, and the Committee stands as the first order of the day upon any day except Thursday and Friday, on which Government Orders have precedence, the Speaker shall, when the order for the Committee has been read, forthwith leave the Chair without putting any question, and the House shall thereupon resolve itself into such Committee, unless on first going into Committee on the Army, Navy, or Civil Service Estimates respectively an Amendment be moved relating to the division of Estimates proposed to be considered on that day.”—(<i>Mr. Disraeli</i>).—Debate arising:—Motion made, and Question put, “That the Debate be now adjourned.”—(<i>Mr. Beresford Hope</i>).	46	138	185	- -	A. M.
226	Aug. 7	— “That upon Tuesdays Orders of the Day have precedence over Notices of Motion, Government Orders having priority, and that Government Orders have priority upon Wednesdays.”—(<i>Mr. Disraeli</i>).—Amendment proposed, to leave out the words “and that Government Orders have priority upon Wednesdays.”—(<i>Mr. Butt</i>):—Question put, “That the words proposed to be left out stand part of the Question.”	101	47	149	B. M.	

Divisions on Public Business—continued.

Number of the Printed Division Lists.	DATE.	SUBJECT OF THE DIVISION.	Ayes (Tellers included).	Noes (Tellers included).	Aggregate Number of Members in the House (Speaker or Chairman included).	Before Midnight.	After Midnight.

1.
The Two
Classes of
Private Bills.

I.
THE TWO CLASSES OF PRIVATE
BILLS.

STANDING ORDERS.

1876.

PART I.

THE TWO CLASSES OF PRIVATE BILLS.

1. FOR the purposes of the Standing Orders of this House, all Private Bills to which the Standing Orders are applicable shall be divided into the Two following Classes, according to the subjects to which they respectively relate:—

Private Bills
divided into
Two Classes.

1st CLASS :

1st Class.

Burial Ground, Making, Maintaining or Altering.
 Charters and Corporations, enlarging or altering Powers of.
 Church or Chapel, Building, Enlarging, Repairing or Maintaining.
 City or Town, Paving, Lighting, Watching, Cleansing or Improving.
 Company, Incorporating, Regulating, or giving Powers to.

 County or Shire Hall, Court House.
 Crown, Church, or Corporation Property, or Property held in Trust for Public or Charitable Purposes.
 Ferry, where no work is to be executed.
 Fishery, Making, Maintaining or Improving.
 Gaol or House of Correction.
 Gas Work.
 Land, Inclosing, Draining or Improving.
 Letters Patent, Confirming, Prolonging or Transferring.
 Local Court, Constituting.
 Market or Market-place, Erecting, Improving, Repairing, Maintaining or Regulating.
 Police.
 Poor, Maintaining or Employing.
 Poor Rate.
 Powers to sue and be sued, Conferring.
 Stipendiary Magistrate, or any Public Officer, Payment of.

And

Continuing or amending an Act passed for any of the purposes included in this or the Second Class, where no further work than such as was authorized by a former Act is proposed to be made.

The Two
Classes of
Private Bills.

2nd CLASS :

2nd Class.

Making, Maintaining, Varying, Extending or Enlarging any

Aqueduct.

Archway.

Bridge.

Canal.

Cut.

Dock.

Drainage—where it is not provided in the Bill that the Cut shall not be more than Eleven feet wide at the bottom.

Embankment for reclaiming Land from the Sea or any Tidal River.

Ferry, where any work is to be executed.

Harbour.

Navigation.

Pier.

Port.

Railway.

Reservoir.

Sewer.

Street.

Tramway.

Tunnel.

Turnpike or other Public Carriage Road.

Waterwork.

APPOINTMENT OF EXAMINERS.

Examiners of
Petitions.

2. THERE shall be one or more Officers of this House, to be called "THE EXAMINERS OF PETITIONS FOR PRIVATE BILLS," who shall be appointed by Mr. Speaker.

II.

STANDING ORDERS,
COMPLIANCE WITH WHICH IS TO BE
PROVED BEFORE THE
EXAMINERS OF PETITIONS FOR
PRIVATE BILLS.

PART II.

STANDING ORDERS, COMPLIANCE WITH WHICH IS TO
BE PROVED BEFORE THE EXAMINERS.

2 A.

COMPLIANCE with the following Standing Orders shall be proved before one of the Examiners; viz.—

1. *Notices by Advertisement.*

3. IN all cases where Application is intended to be made for leave to bring in a Bill relating to any of the subjects included in either of the Two Classes of Private Bills, Notices shall be given stating the objects of such intended application, and the time at which copies of the Bill will be deposited in the Private Bill Office; and if it be intended to apply for powers for the compulsory purchase of Lands or Houses, or for extending the time granted by any former Act for that purpose, or to amalgamate with any other Company, or to sell or lease the Undertaking, or to purchase or take on lease the Undertaking of any other Company, or to enter into working agreements or traffic arrangements, or to amend or repeal any former Act or Acts, or to levy any Tolls, Rates or Duties, or to alter any existing Tolls, Rates or Duties, or to confer, vary or extinguish any exemptions from payment of Tolls, Rates or Duties, or to confer, vary or extinguish any other rights or privileges, the Notices shall specify such intention, and shall also specify the Company, person, or persons with, to, from, or by whom it is intended to be proposed that such amalgamation, sale, purchase, lease, working agreements, or traffic arrangements shall be made; and the whole of the Notice relating to the same Bill shall be included in the same Advertisement, which shall be headed by a short title, descriptive of the Undertaking or Bill.

Notices to state objects of application, when Bills will be deposited in Private Bill Office, and intention to seek for powers to purchase Lands, or to amalgamate, &c. or to levy or alter Tolls, to be stated, and also the Companies, &c., with whom any amalgamation, &c., is proposed.

4. In cases of Bills included in the Second Class, and of Bills of the First Class, in respect to which Plans are required to be deposited, such Notices shall also contain a description of all the Termini, together with the Names of the Parishes, Townships, Townlands and extra-parochial places from, in, through or into which the Work is intended to be made, maintained, varied, extended or enlarged, or in which any land or houses intended to be taken are situate, and shall state the time and place of deposit of the Plans, Sections, Books of Reference and Copies of the Gazette Notice respectively, with the Clerks of the Peace, Sheriff Clerks, Parish Clerks, Clerks of Vestries or District Boards, Session Clerks, Town Clerks and Clerks of Unions, as the case may be.

In Second Class Bills, Notices to contain Names of Parishes, &c.

5. In cases of Bills for making a Cemetery or Burial Ground, or for constructing Gas Works, or Sewage Works, or Works for the Manufacture or Conversion of the Residual Products, the Notices shall set forth and specify the limits within which such Cemetery or Burial Ground is intended to be made or such works constructed.

Notices to specify limits of Burial Ground or Gas Works.

6. In cases of Bills for laying down a Tramway in any Street, the Notices shall specify at what point or points, and on which side of the Street it is proposed to lay such Tramway, so that for a distance of Thirty feet or upwards a less space than Nine feet Six inches, or if it is intended to run thereon carriages or trucks adapted for use upon Railways, a less space than Ten feet Six inches shall intervene between the outside of the footpath on the side of the road and the nearest rail of the Tramway.

Street Tramways.

Standing Orders,
compliance
with which is to be
proved before
Examiners.

*Cuts, Canals,
Navigations,
&c.*

When it is
intended to
divert Water
from an exist-
ing Cut, &c.

*Letters
Patent.*

Name of
Invention to
be prefixed
in Capitals to
Notice.

Publication
of Notices in
Gazettes and
Newspapers.

*Street
Tramways.*

Notices to be
posted in
Street.

Application
to Owners,
&c. on or
before 15th
December.

7. In all cases where it is proposed to divert into any existing or intended Cut, Canal, Reservoir, Aqueduct or Navigation, or into any intended variation, extension or enlargement thereof respectively, any Water from any existing Cut, Canal, Reservoir, Aqueduct or Navigation, whether directly or derivatively, and whether under any agreement with the Proprietors thereof or otherwise, the Notices shall contain the name of every such last-mentioned Cut, Canal, Reservoir, Aqueduct or Navigation, the Waters supplying which will either directly or derivatively flow or proceed into any such existing or intended Cut, Canal, Reservoir, Aqueduct or Navigation, or into any intended variation, extension or enlargement thereof.

8. In cases of Bills for confirming or prolonging, or otherwise relating to Letters Patent, each Notice shall have prefixed to it in Capital Letters the name by which the Invention is usually distinguished, and shall contain a distinct description of the Invention for which such Letters Patent have been obtained, and also an account of the Term of their Duration.

9. In the Months of *October* and *November*, or either of them, immediately preceding the Application for a Bill, the Notices shall be published *once* in the *London, Edinburgh* or *Dublin Gazette*, as the case may be, and in Three successive Weeks in some one and the same Newspaper of the County in which the City, County of a City, Town, County of a Town, or Lands to which such Bill relates shall be situate; or if there be no Newspaper published therein, then in the Newspaper of some County adjoining or near thereto; and if such Bill relate specially to any particular City, County of a City, Town, or County of a Town, in which any Newspaper is published, the Notices shall be published in Three successive Weeks in one and the same Newspaper published therein; or if such Bill do not relate to any particular City, County of a City, Town, County of a Town or Lands, such Notices shall be published *once* in the *London, Edinburgh* or *Dublin Gazette* only, as the case may be; and if such Bill relate to Lands situate in more than one County, such Notices shall be inserted *once* in each of Three successive Weeks, in some Newspaper or Newspapers which shall be published in *London* at least Six Days in the Week, or in *Edinburgh* or *Dublin* at least Two Days in the Week, as the case may be, and in a Newspaper of the County in which the principal Office of the Company or Companies or other parties who are the Promoters of any such Bill, is situate, and in a Newspaper of every County in which any new Works are proposed to be constructed, or in which any lands are intended to be taken, or in which any lands are situate in respect of which any new or further powers for the completion of Works already authorized are intended to be applied for.

10. In the Months of *October* and *November*, or one of them, immediately preceding the Application for any Bill for laying down a Tramway, Notice thereof shall be posted for Fourteen consecutive Days in any Street or Streets along which it is proposed to lay the Tramway, in such manner as the authority having the control of such Street or Streets shall direct, and if after such Application to such authority no such direction shall be given, then in some conspicuous position in such Street or Streets, and such Notice shall also state the place or places at which the Plans of such Tramways will be deposited.

2. Notices and Applications to Owners, Lessees and Occupiers of Lands and Houses.

11. On or before the *Fifteenth* day of *December* immediately preceding the Application for a Bill by which any Lands or Houses are intended to be taken, or an extension of the time granted by any former Act for that purpose is sought, application in writing shall be made to the
Owners

Owners or reputed Owners, Lessees or reputed Lessees, and Occupiers of all lands and houses so intended to be taken, or which may be taken as being within the limits of deviation defined upon the Plan; and in cases of Bills included in the second class, such application shall be, as nearly as may be, in the form set forth in the Appendix marked (A.)

Standing Orders,
compliance
with which is to be
proved before
Examiners.

12. Separate Lists shall be made of the Names of such Owners, Lessees and Occupiers, distinguishing those who have assented, dissented or are neuter in respect to such application, or who have returned no answer thereto; and where no written acknowledgment has been returned to an application forwarded by post, or where such application has been returned as undelivered at any time before the making up of such lists, the direction of the letter in which the same was so forwarded shall be inserted therein.

Lists of
Owners, &c.
assenting,
dissenting
and neuter.

13. On or before the *Fifteenth* day of *December* immediately preceding the Application for a Bill for the laying down a Tramway, notice in writing shall be given to the Owners or reputed Owners, Lessees or reputed Lessees, and Occupiers of all houses, shops, or warehouses abutting upon any part of the said highway where, for a distance of Thirty feet or upwards, it is proposed that a less space than Nine feet Six inches shall intervene between the outside of the footpath on either side of the road and the nearest rail of the Tramway, or a less space than Ten feet Six inches, if it is intended to run on the Tramway carriages or trucks adapted for use upon Railways.

Notice to
Frontagers
in case of
Tramways.

14. On or before the *Fifteenth* day of *December* immediately preceding the Application for a Bill, whereby it is proposed to abstract Water from any Stream for the purpose of supplying any Cut, Canal, Reservoir, Aqueduct, Navigation, or Waterwork, notice in writing of such Bill shall be given to the Owners or reputed Owners, Lessees or reputed Lessees, and Occupiers of all Mills and Manufactories or other Works using the Waters of such Stream for a distance of Twenty miles below the point at which such Water is intended to be abstracted, such distance to be measured along the course of such Stream, unless such Waters shall, within a less distance than Twenty miles, fall into or unite with any navigable Stream, and then only to the Owners or reputed Owners, Lessees or reputed Lessees, and Occupiers of such Mills and Manufactories, or other Works as aforesaid, which shall be situate between the point at which such Water is proposed to be abstracted, and the point at which such Water shall fall into or unite with such navigable Stream; and such notice shall state the name (if any) by which the Stream is known at the point at which such Water shall be immediately abstracted, and also the Parish in which such point is situate, and the time and place of deposit of Plans, Sections, and Books of Reference and Copies of the Gazette notice respectively with the Clerks of the Peace and Sheriff Clerks, as the case may be.

Notices when
it is proposed
to abstract
Water from
any Stream.

15. On or before the *Fifteenth* day of *December* immediately preceding the Application for a Bill for making a Cemetery or Burial Ground, or for constructing Gas Works or Sewage Works, or Works for the Manufacture or Conversion of the Residual Products, Notice shall be served upon the Owner, Lessee and Occupier of every Dwelling House situated within 300 Yards of the limits within which such Cemetery or Burial Ground may be made, or such Works may be constructed.

Burial
Grounds
and
Gas Works.

Notice to
Owners and
Occupiers of
Houses.

16. On or before the *Fifteenth* day of *December* immediately preceding the Application for a Bill whereby the whole or any part of a Work authorized by any former Act is intended to be relinquished, Notice in writing of such Bill shall be served upon the Owners or reputed Owners, Lessees or reputed Lessees, and Occupiers of the Lands in which any part of the said Work intended to be thereby relinquished is situate.

Relinquish-
ment of
Works.

Notice to
Owners, &c.
when the Bill
is to abridge
any Public
Works.

Standing Orders,
compliance
with which is to be
proved before
Examiners.

Notice to
Owners, &c.,
in cases of
Alteration or
Repeal of
Provisions.

17. On or before the *Twenty-first* day of *December* immediately preceding the Application for a Bill, whereby any express statutory provision then in force for the protection of the Owner, Lessee, or Occupier of any Property, or for the protection or benefit of any public Trustees or Commissioners, Corporation or Person, specifically named in such provision, is sought to be altered or repealed, Notice in writing of such Bill, and of the intention to alter or repeal such provision, shall be served upon every such Owner, Lessee, or Occupier, public Trustees or Commissioners, Corporation or Person.

Notice to
Owners and
Lessees in
case of Crown,
Church or
Corporation
Property.

18. On or before the *Twenty-first* day of *December* immediately preceding the Application for a Bill relating to Crown, Church or Corporation Property, or Property held in Trust for Public or Charitable Purposes, Notice in writing of such Application to Parliament shall be served upon the Owners or reputed Owners of such Property, and the Lessees or reputed Lessees of such Property, holding Leases granted for a life or lives, or for any term of Twenty-one Years or upwards.

How Appli-
cation to be
made, and
Notices
served.

19. All Applications shall be made, and Notices served, either by delivering the same personally to the party entitled to such Application or Notice, or by leaving the same at his usual place of abode, or, in his absence from the United Kingdom, with his agent, or by forwarding the same by post in a registered letter, addressed with a sufficient direction to his usual place of abode, and posted on or before the third day previously to the day required for delivery of the same personally, at such places, at such hours and according to such regulations as the Postmaster General shall from time to time appoint, for the posting and registration of such letters, and shall be accompanied by a copy of the Standing Orders which regulate the time and mode of presenting Petitions in opposition to Bills.

Written
acknowledg-
ment of Party
applied to,
and, in case
of Application
or Notice
by post, Post
Office Receipt
sufficient evi-
dence of
application.

20. In all cases the written acknowledgment of the party applied to shall, in the absence of other proof, be sufficient evidence of such application having been made, or notice given; and in case of an application or notice having been forwarded by post, in a registered letter, the production of the Post Office receipt for such letter, duly stamped, in such form as the Postmaster General shall have appointed, shall be sufficient evidence of the due delivery of such letter; Provided it shall appear that the same was properly and sufficiently directed, and that the same was not returned by the Post Office as undelivered.

Notices not
to be given
on Sunday,
&c.

21. No Notice served or Application made on a Sunday or Christmas Day, or before Eight o'clock in the forenoon, or after Eight o'clock in the afternoon of any day, shall be deemed valid, except in the case of delivery of letters by post.

Consents in
case of Tram-
ways Bill.

22. In cases of Bills to authorise the laying down of a Tramway along any public highway, the promoters shall obtain the consent of the local authority of the district or districts through which it is proposed to construct such Tramway, and where in any district there is a road authority distinct from the local authority, the consent of such road authority shall also be necessary in any case where power is sought to break up any road, subject to the jurisdiction of such road authority. For the purposes of this Order, the local and road authorities in *England* and *Scotland* shall be the local and road authorities mentioned in Section 3 of "The Tramways Act, 1870," and in *Ireland* shall be the grand jury of the county in respect to any highway, or portion of highway, within the jurisdiction of such grand jury; and in respect to highways wholly or partly within any city, borough, town corporate, or other place or district in which the public roads are not under the control of the grand jury of the county, shall be the respective local and road authorities of such city, borough, town corporate,

Standing Orders,
compliance
with which is to be
proved before
Examiners.

porate, or other place or district mentioned in Section 38 of "The Tramways (Ireland) Act, 1860:" Provided that where it is proposed to lay down any Tramways in two or more districts, and any local or road authority having jurisdiction in any such districts does not consent thereto, the consents of the local and road authority, or the local and road authorities having jurisdiction over Two-thirds of the length of such proposed Tramway, shall be deemed to be sufficient.

3. *Documents required to be deposited, and the Times and Places of Deposit.*

23. No Deposit required by the following orders shall be deemed valid if made on a Sunday or Christmas Day, or before Eight o'clock in the forenoon, or after Eight o'clock in the afternoon of any day.

Deposit not
to be made on
Sunday, &c.

Deposits on or before the 30th November.

24. In cases of Bills of the Second Class, a Plan and also a Duplicate thereof, together with a Book of Reference thereto, and a Section and also a Duplicate thereof, as hereinafter described, and in cases of Bills of the First Class, by which any lands or houses are intended to be taken, a Plan and Duplicate thereof, together with a Book of Reference thereto, shall be deposited for public inspection at the office of the Clerk of the Peace for every County, Riding or Division in *England* or *Ireland*, or in the office of the Principal Sheriff Clerk of every County in *Scotland*, and where any County in *Scotland* is divided into districts or divisions, then also in the office of the Principal Sheriff Clerk in or for each district or division, in or through which the Work is proposed to be made, maintained, varied, extended or enlarged, or in which such lands or houses are situate, on or before the 30th day of *November* immediately preceding the Application for the Bill; and in the case of Railway Bills, the Ordnance Map, on the scale of one inch to a mile, or where there is no Ordnance Map, a published Map, to a scale of not less than half an inch to a mile (or in *Ireland*, to a scale of not less than a quarter of an inch to a mile), with the line of Railway delineated thereon, so as to show its general course and direction, shall be deposited with such Plans, Sections and Book of Reference; and the Clerks of the Peace or Sheriff Clerks, or their respective Deputies, shall make a Memorial in writing upon the Plans, Sections and Books of Reference so deposited with them, denoting the time at which the same were lodged in their respective offices, and shall at all seasonable hours of the day permit any person to view and examine one of the same, and to make copies or extracts therefrom; and one of the two Plans and Sections so deposited shall be sealed up and retained in the possession of the Clerk of the Peace or Sheriff Clerk until called for by order of one of the Two Houses of Parliament.

Plans and
Books of Re-
ference, and
Sections, to
be deposited
with Clerk
of the Peace,
&c.

In cases of
Railways,
Ordnance or
Published
Map, to be
deposited
with Clerk of
Peace, &c.

Clerks of
Peace to in-
dorse a Me-
morial on
Plans, &c.

25. On or before the 30th day of *November*, a copy of the said Plans, Sections and Books of Reference, and in the case of Railway Bills, also a copy of the said Ordnance or published Map, with the line of Railway delineated thereon, shall be deposited in the Private Bill Office of this House.

Deposit of
Plans, &c. in
Private Bill
Office.

26. In cases where the Work is to be situate on Tidal Lands within the ordinary Spring Tides, a copy of the Plans and Sections shall, on or before the 30th day of *November* immediately preceding the application for the Bill, be deposited at the Office of the Harbour Department, Board of Trade, marked "TIDAL WATERS," and on such copy all Tidal Waters shall be coloured blue, and if the Plans include any Bridge across Tidal Waters, the dimensions, as regards span and headway of the nearest Bridges, if any, across the same Tidal

When works

Department,
Board of
Trade.

Standing Orders,
compliance
with which is to be
proved before
Examiners.

Waters above and below the proposed new Bridge, shall be marked thereon; and in all such cases, such Plans and Sections shall be accompanied by an Ordnance or published Map of the country over which the Works are proposed to extend, or are to be carried, with their position and extent, or route accurately laid down thereon.

Deposit of
Plans, &c. at
the Office of
the Board of
Trade.

27. In the case of Railway and Tramway Bills, a Copy of all Plans, Sections, and Books of Reference, required to be deposited in the Office of any Clerk of the Peace or Sheriff Clerk, on or before the 30th day of *November* immediately preceding the application for the Bill (and in the case of Railway Bills also a copy of the said Ordnance or published Map, with the Line of Railway delineated thereon), shall on or before the same day be deposited in the Office of the Board of Trade.

Deposit of
Plans and
Sections with
Metropolitan
Board of
Works.

28. In cases where any portion of the Work shall be situate within the limits of the Metropolis, as defined by the "Metropolis Management Act, 1855," a Copy of so much of the Plans and Sections as relates to such portion of the Work shall, on or before the 30th day of *November*, be deposited at the Office of the Metropolitan Board of Works.

Deposit of
Parish Plan,
Section and
Book of Reference, with
Parish Clerk,
&c.

29. On or before the 30th day of *November*, a copy of so much of the said Plans and Sections as relates to each Parish in or through which the Work is intended to be made, maintained, varied, extended or enlarged, or in which any lands or houses, intended to be taken, are situate, together with a copy of so much of the Book of Reference as relates to such Parish, shall be deposited with the Parish Clerk of each such Parish in *England*, or, in the case of any Extra-parochial Place, with the Parish Clerk of some Parish immediately adjoining thereto, or in case of any place within the limits of the Metropolis, as defined by the "Metropolis Management Act, 1855," with the Clerk of the Vestry of each Parish in Schedule A., and with the Clerk of the District Board of Parishes in Schedule B. of the said Act; with the Session Clerk of each such Parish in Scotland, and in Royal Burghs with the Town Clerk, and with the Clerk of the Union within which such Parish is included in *Ireland*.

Deposit of
Plans, &c.,
at the Home
Office in case
of disturbance
of a Burial
Ground.

30. Where by any Bill power is sought to take any Churchyard, Burial Ground, or Cemetery, or any part thereof, or to disturb the bodies interred therein, a copy of so much of the Plans, Sections, and Books of Reference required by these Orders to be deposited in the Private Bill Office in respect of such Bill as relates to such Churchyard, Burial Ground, or Cemetery shall, on or before the *Thirtieth* day of *November*, be deposited at the office of the Secretary of State for the Home Department.

Gazette
Notice to be
deposited with
Plans, &c.

31. Wherever any Plans, Sections and Books of Reference, or parts thereof, are required to be deposited, a copy of the Notice published in the *Gazette* of the intended application to Parliament shall be deposited therewith.

Deposits on or before the 21st December.

Petition for
Bill, &c.,
to be deposited
in Private Bill
Office.

32. Every Petition for a Private Bill, headed by a short Title descriptive of the Undertaking or Bill, corresponding with that at the head of the Advertisement, with a Declaration, signed by the Agent, and a printed copy of the Bill annexed, shall be deposited in the Private Bill Office on or before the 21st day of *December*; and such Petition, Bill and Declaration shall be open to the inspection of all parties; and printed copies of the Bill shall also be delivered therewith for the use of any Member of the House or Agent who may apply for the same.

Such

Such Declaration shall state to which of the two Classes of Bills such Bill in the judgment of the Agent belongs; and if the proposed Bill shall give power to effect any of the following objects; that is to say:—

Power to take any lands or houses compulsorily, or to extend the time granted by any former Act for that purpose:

Power to levy tolls, rates or duties, or to alter any existing tolls, rates or duties; or to confer, vary or extinguish any exemption from payment of tolls, rates or duties, or to confer, vary or extinguish any other right or privilege:

Power to amalgamate with any other Company, or to sell or lease their Undertaking, or to purchase or take on lease the Undertaking of any other Company:

Power to interfere with any Crown, Church or Corporation property, or property held in trust for public or charitable purposes:

Power to relinquish any part of a work authorized by a former Act:

Power to divert into any existing or intended cut, canal, reservoir, aqueduct or navigation, or into any intended variation, extension or enlargement thereof respectively, any water from any existing cut, canal, reservoir, aqueduct or navigation, whether directly or derivatively, and whether under any agreement with the proprietors thereof, or otherwise:

Power to make, vary, extend or enlarge any cut, canal, reservoir, aqueduct or navigation:

Power to make, vary, extend or enlarge any Railway.

The said Declaration shall state which of such powers are given by the Bill, and shall indicate in which clauses of the Bill (referring to them by their number) such powers are given, and shall further state that the Bill does not give power to effect any of the objects enumerated in this Order, other than those stated in the Declaration.

If the proposed Bill shall not give power to effect any of the objects enumerated in the preceding Order, the said Declaration shall state that the Bill does not give power to effect any of such objects.

The said Declaration shall also state that the Bill does not give any powers other than those included in the Notices for the Bill.

33. On or before the 21st day of *December*, a printed Copy of every Private Bill shall be deposited at the Office of Her Majesty's Treasury; a printed Copy of every Railway and Canal Bill, and of every Bill for incorporating or giving powers to any Company, shall be deposited at the Office of the Board of Trade; a printed Copy of every Bill relating to any Dock, Harbour, Navigation, Pier or Port, shall be deposited at the Office of the Harbour Department of the Board of Trade, marked "Tidal Waters"; a printed Copy of every Bill relating to a Local Court, Stipendiary Magistrate, or Turnpike Roads, and of every Bill whereby power is sought to take any Churchyard, Burial Ground, or Cemetery, or any part thereof, or to disturb the bodies interred therein, at the Office of the Secretary of State for the Home Department; a printed Copy of every Bill whereby application is made by or on behalf of any Municipal Corporation, Local Board, Improvement Commissioners, or other local authority in England or Wales, for power in respect of any purpose to which the several Acts specified in Part I. of the Schedule to "The Local Government Board Act, 1871," relate, at the Office of the Local Government Board, and a printed Copy of every Private Bill whereby the boundaries of any School District or the jurisdiction of any School Board are affected at the Office of the Education Department.

Deposit of Private Bills at Treasury and other Public Departments.

34. On or before the 21st day of *December*, a printed Copy of every Bill of the second Class whereby any Work shall be authorised within the limits of the Metropolis, as defined by "The Metropolis Management Act, 1855," shall be deposited at the Office of the Metropolitan Board of Works.

Deposits of Bills with the Metropolitan Board of Works.

Deposits on or before the 31st December.

35. All Estimates and Declarations, and Lists of Owners, Lessees and Occupiers, which are required by the Standing Orders of The

Deposit of Estimates, &c., in Private Bill Office.

Standing Orders,
compliance
with which is to be
proved before
Examiners.

Documents to
be deposited
in Private
Bill Office in
regard to
Joint Stock
Companies
Bills.

House shall be deposited in the Private Bill Office on or before the 31st day of *December*.

35a. As respects all Bills for the incorporation of Joint Stock Companies, or proposed Companies for carrying on any Trade or Business, or for conferring upon such Companies the power of suing and being sued, there shall be deposited in the Private Bill Office, on or before 31st *December*, a copy of the Deed or Agreement of Partnership (if any) under which the Company or proposed Company is acting, and in all cases a Declaration stating the following matters:—

1st.—The present and proposed amount of the Capital of the Company.

2nd.—The number of Shares, and the amount of each Share.

3rd.—The number of Shares subscribed for.

4th.—The amount of Subscriptions paid up.

5th.—The names, residences and descriptions of the Shareholders or Subscribers (so far as the same can be made out), and of the actual or provisional Directors, Treasurers, Secretaries or other officer, if any.

And such documents shall be verified by the signature of some authorized officer of the Company or proposed Company (if any), and by some responsible party promoting the Bill; and copies of such Declarations shall be printed at the expense of the Promoters of the Bill, and delivered at the Vote Office for the use of the Members of The House, and at the Private Bill Office for the use of any Agent who may apply for the same.

Copies of
Estimate and
Declaration
to be printed,
and delivered
in at Private
Bill Office.

36. On or before 31st *December*, copies of the Estimate of Expense of the Undertaking; and where a Declaration alone, or Declaration and Estimate of the probable amount of Rates and Duties, are required, copies of such Declaration, or of such Declaration and Estimate, shall be printed at the expense of the Promoters of the Bill, and delivered at the Vote Office for the use of the Members of The House, and at the Private Bill Office for the use of any Agent who may apply for the same.

Form of
Estimate.

37. The Estimate for any Works proposed to be authorized by any Railway, Dock, or Harbour Bill, shall be in the following form, or as near thereto as circumstances may permit:—

ESTIMATE of the proposed (Railway).									
Line, No.	Miles. f. ch.			Whether Single or Double.					
Length of Line									
Earthworks:	Cubic yds.	Price per Yd.	£. s. d.			£. s. d.			
Cuttings—Rock									
Soft Soil									
Roads									
TOTAL									
Embankments, including Roads	Cubic yds.								
Bridges—Public Roads	Number								
Accommodation Bridges and Works									
Viaducts									
Culverts and Drains									
Metallings of roads and level crossings									
Gatekeepers' houses at level crossings									
Permanent way, including fencing:	Miles. fgs. chs.			Cost per Mile.					
	at			£. s. d.					
Permanent way for sidings, and cost of junctions									
Stations									
Contingencies								per cent.	
Land and buildings

Standing Orders,
compliance
with which is to be
proved before
Examiners.

38. In the case of any Bill by which power is sought to take, in any city, town, or parish, fifteen houses or more, occupied either wholly or partially by persons belonging to the labouring classes, as tenants or lodgers, the promoters shall deposit in the Private Bill Office, on or before the 31st day of *December*, a statement of the number, description, and situation of such houses, the number (so far as they can be ascertained) of persons to be displaced, and whether any and what provision is made in the Bill for remedying any inconvenience likely to arise from such displacement, and such statement shall stand referred to the Committee on the Bill.

Statement
relating to
Houses in-
habited by
the Labour-
ing Classes to
be deposited
in the Private
Bill Office.

39. Whenever Plans, Sections, or Books of Reference are deposited in the case of an application to any Public Department, for a Provisional Order or Provisional Certificate, duplicates of the said Documents shall at the same time be deposited in the Private Bill Office; provided that with regard to such deposits as are so made at any Public Department after the Prorogation of Parliament, and before the 30th day of November in any year, such duplicates shall be so deposited on the 30th day of November.

Deposit of
Plans, &c., in
case of Provi-
sional Orders
in Private
Bill Office.

4. *Form in which Plans, Books of Reference, Sections and Cross
Sections are to be prepared.*

Plans.

40. Every Plan required to be deposited shall be drawn to a scale of not less than *Four* inches to a Mile, and in the case of Bills of the First Class, shall describe the lands intended to be taken, and in the case of Bills of the Second Class, shall describe the line or situation of the whole of the Work (no alternative line or Work being in any case permitted), and the lands in or through which it is to be made, maintained, varied, extended or enlarged, or through which any communication to or from the Work shall be made; and where it is the intention of the Promoters to apply for powers to make any lateral deviation from the line of the proposed Work, the limits of such deviation shall be defined upon the Plan, and all Lands included within such limits shall be marked thereon; and unless the whole of such Plan shall be upon a scale of not less than a *quarter* of an *inch* to every 100 feet, an enlarged Plan shall be added of any Building, Yard, Court-Yard or Land within the curtilage of any Building, or of any Ground cultivated as a Garden, either in the line of the proposed Work, or included within the limits of the said deviation, upon a scale of not less than a *quarter* of an *inch* to every 100 feet.

Description
of Plans.

Lands within
Deviation to
be on Plan.

Buildings, &c.
on enlarged
Scale.

41. In all cases where it is proposed to make, vary, extend or enlarge any Cut, Canal, Reservoir, Aqueduct or Navigation, the Plan shall describe the Brooks and Streams to be directly diverted into such intended Cut, Canal, Reservoir, Aqueduct or Navigation, or into any variation, extension or enlargement thereof respectively, for supplying the same with Water.

In case of Cut,
Canals, &c.,
Plan to de-
scribe Brooks,
&c. to be di-
verted.

42. In all cases where it is proposed to make, vary, extend, or enlarge any Railway, the Plan shall exhibit thereon the distances in miles and furlongs, from one of the termini; and a memorandum of the radius of every curve not exceeding One Mile in length shall be noted on the Plan in furlongs and chains; and where tunnelling as a substitute for open cutting is intended, the same shall be marked by a dotted line on the Plan, and no work shall be shown as tunnelling, in the making of which it will be necessary to cut through or remove the surface soil.

In case of
Railways,
Distances to
be marked
in Miles and
Furlongs, and
memorandum
of Curves and
Tunnelling.

43. If it be intended to divert, widen or narrow any Turnpike Road, Public Carriage Road, Navigable River, Canal or Railway, the course of such diversion, and the extent of such widening or narrowing, shall be marked upon the Plan.

Diversion of
Roads, &c. to
be shown.

In case of
Junctions,
course of
existing Line
to be shown
on deposited
Plan.

*Street
Tramways.*

Plans in the
case of Street
Tramway
Bills.

44. When a Railway is intended to form a junction with an existing or authorized line of Railway, the course of such existing or authorized line of Railway shall be shown on the deposited plan for a distance of 800 yards on either side of the proposed junction, on the same scale as the scale of the General Plan.

45. In cases of Bills for laying down a Street Tramway, the Plans shall indicate whether it is proposed to lay such Tramway along the centre of any street, and if not along the centre, then on which side of, and at what distance from an imaginary line drawn along the centre of such street, and whether or not, and if so, at what point or points it is proposed to lay such Tramway, so that for a distance of thirty feet or upwards a less space than nine feet six inches, or if it is intended to run thereon carriages or trucks adapted for use upon railways, a less space than ten feet six inches shall intervene between the outside of the footpath on either side of the road, and the nearest rail of the Tramway.

Book of Reference.

Contents of
Book of
Reference.

46. The Book of Reference shall contain the names of the Owners or reputed Owners, Lessees or reputed Lessees and Occupiers of all Lands and Houses in the Line of the proposed Work, or within the limits of deviation as defined upon the Plan, and shall describe such Lands and Houses respectively.

Sections.

Section.

47. The Section shall be drawn to the same horizontal scale as the Plan, and to a vertical scale of not less than *one inch* to every 100 feet, and shall show the surface of the ground marked on the Plan, the intended level of the proposed Work, the height of every Embankment and the depth of every Cutting, and a datum horizontal line, which shall be the same throughout the whole length of the Work, or any Branch thereof respectively, and shall be referred to some fixed point (stated in writing on the section), near some portion of such Work, and in the case of a Canal, Cut, Navigation, Turnpike or other Carriage Road or Railway, near either of the Termini.

Improve-
ment, &c. of
Navigations.

48. In cases of Bills for improving the Navigation of any River, there shall be a Section which shall specify the Levels of both Banks of such River; and where any alteration is intended to be made therein, it shall describe the same by feet and inches, or decimal parts of a foot.

Line of Rail-
way on Sec-
tion to cor-
respond with
upper surface
of Rails.

Vertical mea-
sures to be
marked at
change of
gradient.

49. In every Section of a Railway, the line of the Railway marked thereon shall correspond with the upper surface of the rails.

50. Distances on the Datum Line shall be marked in miles and furlongs to correspond with those on the Plan; a vertical measure from the Datum Line to the Line of the Railway shall be marked in feet and inches, or decimal parts of a foot, at the commencement and termination of the Railway, and at each change of the gradient or inclination thereof; and the proportion or rate of inclination between every two consecutive vertical measures shall also be marked.

Height of
Railway over,
or depth
under surface
of Roads, &c.
to be marked,
and Bridges
and Level
Crossings.

51. Wherever the line of the Railway is intended to cross any turnpike-road, public carriage-road, navigable River, Canal or Railway, the height of the Railway over or depth under the surface thereof, and the height and span of every Arch of all Bridges and Viaducts, by which the Railway will be carried over the same, shall be marked in figures at every crossing thereof; and where the Railway will be carried

carried across any such turnpike-road, public carriage-road or Railway, on the level thereof, such crossing shall be so described on the Section; and it shall also be stated if such level will be unaltered.

Standing Orders, compliance with which is to be proved before Examiners.

52. If any alteration be intended in the water level of any Canal, or in the level or rate of inclination of any turnpike-road, public carriage-road or Railway, which will be crossed by the line of Railway, then the same shall be stated on the Section, and each alteration shall be numbered; and Cross Sections, in reference to the numbers, on a horizontal scale of not less than one inch to every 330 feet, and on a vertical scale of not less than one inch to every 40 feet, shall be added, which shall show the present surface of such Road, Canal or Railway, and the intended surface thereof when altered; and the greatest of the present and intended rates of inclination of such Road or Railway shall also be marked in figures thereon; and where any turnpike-road or public carriage-road is crossed on the level, a Cross Section of such Road shall also be added, and all such Cross Sections shall extend for 200 yards on each side of the centre line of the Railway.

Cross Sections of Roads, &c. crossed by the Railway when rates of inclination altered.

53. Wherever the extreme height of any embankment, or the extreme depth of any cutting shall exceed Five Feet, the extreme height over or depth under the surface of the ground shall be marked in figures upon the Section; and if any Bridge or Viaduct of more than three arches shall intervene in any Embankment, or if any Tunnel shall intervene in any Cutting, the extreme height or depth shall be marked in figures on each of the parts into which such Embankment or Cutting shall be divided by such Bridge, Viaduct or Tunnel.

Embankments and Cuttings.

54. Where tunnelling, as a substitute for open cutting, or a viaduct as a substitute for solid embankment, is intended, the same shall be marked on the Section, and no work shall be shown as tunnelling, in the making of which it will be necessary to cut through or remove the surface soil.

Tunnelling and Viaducts to be marked.

55. When a Railway is intended to form a junction with an existing or authorized line of Railway, the gradient of such existing or authorized line of Railway shall be shown on the deposited section, and in connection therewith, and on the same scale as the general section, for a distance of 800 yards on either side of the point of junction.

In case of Junctions, gradient of existing Line to be shown on deposited Section.

5. *Estimates and Deposit of Money, and Declarations in certain cases.*

56. An Estimate of the Expense of the Undertaking under each Bill of the Second Class shall be made and signed by the person making the same.

Estimate in Bills of the Second Class.

57. In the case of a Railway Bill or Tramway Bill, authorizing the construction of Works by other than an existing Railway Company or Tramway Company incorporated by Act of Parliament, possessed of a railway or tramway already opened for public traffic, and which has during the year last past paid Dividends on its ordinary Share Capital, and which does not propose to raise under the Bill a capital greater than its existing authorised capital, a sum not less than Five per cent. on the amount of the Estimate of Expense, or in the case of substituted works, on the amount by which the expense thereof will exceed the expense of the works to be abandoned, and in the case of all Bills other than Railway Bills and Tramways Bills, a sum not less than Four per cent. on the amount of such Estimate, or of such excess as aforesaid, shall, previously to the 15th day of *January*, be deposited with the Chancery Division of the High Court of Justice in *England*,

Five per cent. or Four per cent. of Estimate to be deposited.

Standing Orders,
compliance
with which is to be
proved before
Examiners.

if the Work is intended to be done in *England*, or with the Chancery Division of the High Court of Justice in *England*, or the Court of Exchequer in *Scotland*, if the Work is intended to be done in *Scotland*, and with the Court of Chancery in *Ireland*, if the Work is intended to be done in *Ireland*.

Cases in
which Decla-
rations may
be deposited
in lieu of
Money.

58. Where the Work is to be made, wholly or in part, by means of Funds, or out of Money to be raised upon the credit of present Surplus Revenue, belonging to any Society or Company, or under the control of Directors, Trustees or Commissioners, as the case may be, of any existing Public Work, such parties being the Promoters of the Bill, a Declaration stating those facts, and setting forth the nature of such control, and the nature and amount of such Funds or Surplus Revenue, and showing the actual Surplus of such Funds or Revenue, after deducting the Funds required for purposes authorized by any Act or Acts of Parliament, and also the Funds which may be required for any other Work to be executed under any Bill in the same Session, and given under the common seal of the Society or Company, or under the hand of some authorized Officer of such Directors, Trustees or Commissioners, may be deposited, and in such case no deposit of money shall be required in respect of so much of the Estimate of Expense as shall be provided for by such surplus Funds.

Cases
in which
Declaration
and Estimate
of Amount of
Rates may be
deposited.

59. In cases of any Bill under which no private or personal pecuniary profit or advantage is to be derived, and where the Work is to be made out of Money to be raised upon the Security of the Rates, Duties or Revenue already belonging to or under the control of the promoters, or to be created by or to arise under the Bill, a Declaration stating those facts, and setting forth the means by which Funds are to be obtained for executing the Work, and signed by the Party or Agent soliciting the Bill, together with an Estimate of the probable amount of such Rates, Duties or Revenue, signed by the Person making the same, may be deposited, and in such case no Money Deposit shall be required.

Bills brought from the House of Lords.

Copy of Rail-
way Bill to
be deposited
at Board of
Trade.

60. A copy of every Railway Bill brought from the House of Lords shall be deposited in the Office of the Board of Trade, not later than Two Days after the Bill is read a First time.

Notices to be
given and De-
posits made
in cases where
Work is
altered while
Bill is in
Parliament.

61. Whenever during the progress through the House of Lords of any Bill of the second class originating in that House, any alteration has been made in any work authorized by such Bill, proof shall be given before the Examiners that a Plan and Section of such alteration, on the same Scale and containing the same particulars as the original Plan and Section, together with a Book of Reference thereto, has been deposited in the Private Bill Office, and with the Clerk of the Peace of every County, Riding, or Division in *England* or *Ireland*, and in the Office of the Sheriff Clerk of every County in *Scotland*, in which such alteration is proposed to be made, and where any County in *Scotland* is divided into Districts or Divisions then also in the Office of the Principal Sheriff Clerk in and for each District or Division in which such alteration is proposed to be made; and that a Copy of such Plan and Section, so far as relates to each Parish, together with a Book of Reference thereto, has been deposited with the Parish Clerks of each such Parish in *England*, or, in the case of any extra-parochial Place, with the Parish Clerk of some Parish immediately adjoining thereto, with the Session Clerk of each such Parish in *Scotland*, and in Royal Burghs with the Town Clerk, and the Clerk of the Union within which such Parish in *Ireland* is included, in which such alteration is intended to be made, two weeks previously to the introduction of the

the

Standing Orders,
compliance
with which is to be
proved before
Examiners.

the Bill into this House; and that the intention to make such alteration has been published previously to the introduction of the Bill into this House once in the *London, Edinburgh, or Dublin Gazette*, as the case may be, and for three successive weeks in some one and the same Newspaper of the County in which such alteration is situate, or if there be no such Paper printed therein, then in the Newspaper of some County adjoining thereto; and that application in writing, as nearly as may be in the form set forth in the Appendix, marked (A), was made to the Owners or reputed Owners, Lessees or reputed Lessees, or in their absence from the United Kingdom, to their Agents respectively, and to the Occupiers of Lands through which any such alteration is intended to be made; and the consent of such Owners or reputed Owners, Lessees or reputed Lessees, and Occupiers, to the making of such alteration, shall be proved before the Examiner.

Provisions relating to the Consents of Proprietors or Members of Companies already constituted, and of Persons named as Directors.

62. Every Bill originating in this House, promoted by a Company already constituted by Act of Parliament, shall after the first reading thereof be referred to the Examiners, who shall report as to compliance or non-compliance with the following Order:—

Meeting of
Proprietors in
the case of
certain Bills
originating in
this House.

The Bill, as introduced, or proposed to be introduced, in this House, shall be submitted to the Proprietors of such Company at a meeting held specially for that purpose.

Such meeting shall be called by advertisement inserted once in each of two consecutive weeks in some one and the same morning newspaper published in *London, Edinburgh, or Dublin*, as the case may be, and in some one and the same newspaper of the county or counties in which the principal office or offices of the Company is or are situate; and also by a circular addressed to each proprietor at his last known or usual address, and sent by post, or delivered at such address, not less than Ten days before the holding of such meeting, enclosing a blank form of proxy, with proper instructions for the use of the same; and the same form of proxy and the same instructions, and none other, shall be sent to every such proprietor, and shall be addressed to each proprietor on the back of the form of proxy; but no such form of proxy shall be stamped before it is sent out, nor shall the funds of the Company be used for the stamping any proxies, nor shall intimation be sent as to any person in whose favour the proxy may be granted, and no other circular or form of proxy relating to such meeting shall be sent to any proprietor from the office of the Company, or by any director or officer of the Company so describing himself.

Such meeting shall be held not earlier than the seventh day after the last insertion of such advertisement, and may be held on the same day as an ordinary general meeting of the Company.

At such meeting the said Bill shall be submitted to the proprietors aforesaid then present, and approved of by proprietors, present in person or by proxy, holding at least three-fourths of the paid-up capital of the Company represented at such meeting, such proprietors being qualified to vote at all ordinary meetings of the Company in right of such capital. The votes of proprietors of any paid-up shares or stock other than debenture stock, not qualified to vote at ordinary meetings, whose interests may be affected by the Bill, if tendered at the meeting shall be recorded separately.

There shall be deposited at the Private Bill Office a statement of the number of votes if a poll was taken, and of the number of votes recorded separately.

Meeting of
Members of
Limited
Companies,
&c., in the
case of certain
Bills originat-
ing in this
House.

63. Every Bill originating in this House, and empowering or requiring any Company, Association, or Co-partnership formed or registered under the Companies Act, 1862, or constituted by Royal Charter, Letters Patent, Deed of Settlement, Contract of Co-partnery, Cost Book Regulations, or other Instrument other than Act of Parliament, and under the management of Directors or Trustees, to do any act not authorized by the Memorandum and Articles of Association of such Company, or other Instrument or Instruments constituting or regulating the same, shall, after the First Reading thereof, be referred to the Examiners, who shall report as to compliance or non-compliance with the following Order :

In the case of a Company formed or registered under the Companies Act, 1862,

The Bill as introduced or proposed to be introduced in this House shall be approved by a special resolution of the Company.

In the case of any other such Company, Association, or Co-partnership as aforesaid,

The Bill as introduced or proposed to be introduced in this House shall be consented to by a majority of three-fourths in number and value of the shareholders or members of such Company, Association, or Co-partnership present, in person or by proxy, at a meeting convened with notice of the business to be transacted ; such consent to be certified in writing by the chairman of the meeting.

A Copy of such special resolution or certificate of consent shall be deposited in the Private Bill Office.

Meeting of
Proprietors in
the case of
certain Bills
originating
in the House
of Lords.

64. In the case of every Bill brought from the House of Lords in which provisions have been inserted in that House, empowering the Promoters thereof being a Company already constituted by Act of Parliament to execute, undertake, or contribute towards any work other than that for which it was originally established, or to sell or lease their undertaking, or any part thereof, or to enter into any working agreements with any other Company, or to amalgamate their undertaking, or any part thereof with any other undertaking, or to purchase any other undertaking, or part thereof, or to abandon their undertaking, or any part thereof, or to dissolve the said Company, or in which any such provisions originally contained in the Bill have been materially altered in that House, or in which any such powers are conferred on any Company not being the Promoters of the Bill, the Examiner shall report as to compliance or non-compliance with the following Order :—

The Bill, as introduced or proposed to be introduced into this House, shall be submitted to the proprietors of any such Company, at a meeting held specially for that purpose.

Such meeting shall be called by advertisement inserted once in each of two consecutive weeks in some one and the same morning newspaper published in *London*, *Edinburgh*, or *Dublin*, as the case may be, and in some one and the same newspaper of the county or counties in which the principal office or offices of the Company is or are situate ; and also by a circular addressed to each proprietor at his last known or usual address, and sent by post, or delivered at such address, not less than Ten days before the holding of such meeting, enclosing a blank form of proxy, with proper instructions for the use of the same ; and the same form of proxy and the same instructions, and none other, shall be sent to every such proprietor, and shall be

Standing Orders,
compliance
with which is to be
proved before
Examiners.

be addressed to each proprietor on the back of the form of proxy; but no such form of proxy shall be stamped before it is sent out, nor shall the funds of the Company be used for the stamping any proxies, nor shall intimation be sent as to any person in whose favour the proxy may be granted, and no other circular or form of proxy relating to such meeting shall be sent to any proprietor from the office of the Company, or by any director or officer of the Company so describing himself.

Such meeting shall be held not earlier than the seventh day after the last insertion of such advertisement, and may be held on the same day as an ordinary general meeting of the Company.

At such meeting the said Bill shall be submitted to the proprietors aforesaid then present, and approved by proprietors present in person or by proxy, holding at least three-fourths of the paid-up capital of the Company represented at such meeting, such proprietors being qualified to vote at all ordinary meetings of the Company in right of such capital. The votes of proprietors of any paid-up shares or stock other than debenture stock, not qualified to vote at ordinary meetings, whose interests may be affected by the Bill, if tendered at the meeting shall be recorded separately.

There shall be deposited at the Private Bill Office a statement of the number of votes if a poll was taken, and of the number of votes recorded separately.

65. In the case of every Bill brought from the House of Lords, in which provisions have been inserted in that House empowering or requiring any Company, Association, or Co-partnership formed or registered under the Companies Act, 1862, or constituted by Royal Charter, Letters Patent, Deed of Settlement, Contract of Co-partnery, Cost Book Regulations, or other Instrument or Instruments other than Act of Parliament, and under the management of Directors or Trustees, to do any act not authorised by the Memorandum and Articles of Association of such Company, or other Instrument constituting or regulating the same, the Examiner shall report as to compliance and non-compliance with the following Order:

Meeting of
Members of
Limited
Companies,
&c., in the
case of certain
Bills originat-
ing in the
House of
Lords.

In the case of a Company formed or registered under the Companies Act, 1862,

The Bill as introduced or proposed to be introduced into this House shall be approved by a special resolution of the Company.

In the case of any other such Company, Association, or Co-partnership as aforesaid,

The Bill as introduced or proposed to be introduced in this House shall be consented to by a majority of Three-fourths in number and value of the shareholders or members of such Company, Association, or Co-partnership present, in person or by proxy, at a meeting convened with notice of the business to be transacted, such consent to be certified in writing by the chairman of the meeting.

A copy of such special resolution or certificate of consent shall be deposited in the Private Bill Office.

Provided always, that if by the terms of such special resolution or consent the Bill as introduced or proposed to be introduced into the House of Lords shall have been approved or consented to, subject to such additions, alterations, and variations as Parliament may think fit to make therein, then it shall not be necessary for the purposes of this Order to obtain any further approval or consent in respect of any provisions inserted in the Bill in the

House

Standing Orders,
compliance
with which is to be
proved before
Examiners.

House of Lords : Provided nevertheless that it shall be competent for the Committee on the Bill, if they think fit, having regard to the nature and effect of such Provisions to require any further evidence of the approval or consent to such provisions on the part of the shareholders or members of the Company, Association, or Co-partnership.

Consent of Proprietors
of any Company to
sum authorized to be
raised in aid of under-
taking of another
Company.

Petition for addi-
tional Provision.

66. When any Bill as introduced into Parliament, or as amended, or proposed to be amended, on petition for additional provision, contains a provision authorizing any Company incorporated by Act of Parliament to subscribe towards or to guarantee or to raise any money in aid of the undertaking of another Company (which Bill is not brought in by the Company so authorized, or of which such Company is not a joint promoter), proof shall be required before the Examiner that the Company so authorized has consented to such subscription, guarantee, or raising of money, at a meeting of the proprietors of the ordinary shares in such Company, held specially for that purpose, in the same manner and subject to the same provisions as the meeting directed to be held under Standing Order 62, and that such consent was given by such proprietors, present in person or by proxy, holding at least three-fourths of the ordinary paid-up capital of the Company represented at such meeting, such proprietors being qualified to vote at the meeting in right of such capital; and in case such provision is contained in the Bill as introduced into Parliament, that the Notices for the Bill state the sum proposed to be subscribed, or guaranteed or raised, and also state that such consent of the Company has been given as aforesaid, or in case such provision shall be proposed to be inserted in the Bill, on a petition for additional provision that notices stating the sum proposed to be subscribed, or guaranteed or raised, and stating that the consent of the Company has been given as aforesaid, have been published once in the *London Gazette*, and in the County Newspapers in which the Notices for the Bill were published, for three successive weeks during the six weeks immediately preceding the presentation of such petition for additional provision; in any case in which such consent has been given, it shall not be necessary to submit the Bill, in respect of such provision as aforesaid, to the approval of a meeting to be held in accordance with Standing Order 64.

Railway Bills charging
Payments on Grand
Jury Cess or Local
Rate in Ireland to be
submitted to and
approved by Grand
Jury or Local
Authority.

67. When in any Railway Bill originating in this House a Provision is contained by which the payment of any Moneys is directly or contingently charged upon Grand Jury Cess, or any other Local Rate in *Ireland*, by means of a guarantee or otherwise, such Bill shall, after the First Reading thereof, be referred to the Examiners, who shall report as to compliance or non-compliance with the following Order :—

A Copy of the Bill, as deposited in the Private Bill Office, shall be submitted to the Grand Jury or other Authority empowered to present such Grand Jury Cess, or to make such Local Rate, and according as the payment of any Moneys is by the said Bill proposed to be charged upon a County at large, or upon one or more Baronies in any County, or upon any part or parts of any Barony or Baronies, such Bill shall also be submitted to the Presentment Sessions for such County at large, or for such Barony or Baronies, as the case may be, and also to the Poor Law Guardians of every Union in which any Lands proposed to be charged with the payment of any Moneys are situate.

Notice of Bill to Grand
Jury or Local
Authority.

Notice of the intention to submit a Copy of such Bill to such Grand Jury or other Authority, and to such Presentment Sessions and Board of Guardians, shall be given Ten days previously to submitting the same to the Secretary or Clerk of such Grand Jury or Authority, or Presentment Sessions and Board of Guardians, and shall be advertised

tised

tised once in each of two consecutive weeks in some one and the same Morning Newspaper published in *Dublin*, and in some one and the same Newspaper published in the County upon which, or upon any Barenny or Baronies in which it is proposed by the Bill to impose any Local Rate or Charge, or if in such County no Newspaper is published, then in some one and the same Newspaper published in any adjoining County.

Standing Orders,
compliance
with which is to be
proved before
Examiners.

A Copy of such Bill shall be so submitted not earlier than Six months before the time fixed for the deposit of such Bill, and not earlier than the Seventh day after the last insertion of such Advertisement; and shall be approved by a majority of the members of the Grand Jury or Authority, Presentment Sessions, and Board of Guardians respectively, then present and voting thereon, and the Presentment or Resolution of each of the said Bodies approving the same shall be deposited at the Private Bill Office, together with a Statement under the hand of the Foreman, Chairman, or other person presiding when such Presentment was made, or such resolution was passed, of the number of the Members then present and voting.

Limit of time for Bill
to be submitted, and
Presentment or
Resolution to be
deposited in Private
Bill Office.

68. When in any Bill brought from the House of Lords for the purpose of establishing a Company for carrying on any Work or Undertaking, the name of any person or persons appears as Manager, Director, Proprietor, or otherwise concerned in carrying such Bill into effect, proof shall be required before the Examiner that the said person or persons have subscribed their names to the Petition for the Bill, or to a printed Copy of the Bill, as brought up to this House.

Consent of Directors,
&c. who are named in
a Bill, to be proved.

III.
PROCEEDINGS OF EXAMINERS,
OF CHAIRMAN OF COMMITTEE OF
WAYS AND MEANS,
AND OF COMMITTEES.

PART III.

PROCEEDINGS OF, AND IN RELATION TO, THE
EXAMINERS.REFERENCE OF BILLS, &c., TO, AND DUTIES OF, AND PRACTICE
BEFORE EXAMINERS.

69. The Examination of the Petitions for Private Bills which shall have been duly deposited in the Private Bill Office, shall commence on the 18th day of *January*, in such order and according to such regulations as shall have been made by Mr. Speaker.

When Examination of Petitions to commence.

70. One of the Examiners shall give at least Seven clear Days' Notice in the Private Bill Office of the day appointed for the Examination of each Petition which shall have been duly deposited in the Private Bill Office; and in case the Promoters shall not appear at the time when the Petition shall come on to be heard, the Examiner to whom the case shall have been allotted shall strike the Petition off the General List of Petitions, and shall not re-insert the same, except by order of The House.

Notice to be given by one of the Examiners of day appointed for Examination.

71. The Examiner shall certify by indorsement on each Petition whether the Standing Orders have or have not been complied with; and, when they have not been complied with, he shall also report to The House the facts upon which his decision is founded, and any special circumstances connected with the case.

Examiner to indorse Petition, and when Standing Orders not complied with, to report.

72. All Petitions for additional Provision in Private Bills, with the proposed Clauses annexed, and all Private Bills brought from the House of Lords, and all Bills introduced by leave of The House in lieu of other Bills which shall have been withdrawn, and all Bills to confirm any Provisional Order or Provisional Certificate, after having been read a First Time, shall be referred to the Examiners, and the Examiner shall report to The House whether the Standing Orders have or have not been complied with, and when they have not been complied with, the facts upon which his decision is founded, and any special circumstances connected with the case, and in the case of any Bill which, in pursuance of any Report from the Chairman of the Committee of Ways and Means, has originated in the House of Lords, the compliance with such Standing Orders only as shall not have been previously inquired into shall be proved.

Petitions for additional Provision and Estate Bills from Lords, &c. to be referred to Examiner of Petitions.

73. In all cases of Petitions for additional provision in Private Bills and of Private Bills brought from the House of Lords, and of Bills introduced by leave of this House in lieu of other Bills which shall have been withdrawn, and of Bills for confirming any Provisional Order or Certificate, the Examiner shall give at least Two clear Days' notice in the Private Bill Office of the day on which the same will be examined.

Notice in cases of Petitions for additional provision in Private Bills, &c.

74. Any parties shall be entitled to appear and to be heard, by themselves, their agents and witnesses, upon a Memorial addressed to the Examiner, complaining of a non-compliance with the Standing Orders, provided the matter complained of be specifically stated in such Memorial, and the party (if any) who may be specially affected by the non-compliance with the Standing Orders have signed such Memorial and shall not have withdrawn his signature thereto, and such Memorial have been duly deposited in the Private Bill Office.

Memorials complaining of non-compliance.

Proceedings
of
Examiners.

Proprietors
dissenting
at meeting
under Orders
61 to 65 may
petition and
be heard.

75. In case any proprietor, shareholder, or member of or in any Company, association, or co-partnership shall by himself, or any person authorized to act for him in that behalf, have dissented at any meeting called in pursuance of Standing Orders 62 to 66, such proprietor, shareholder, or member shall be permitted to be heard by the Examiner of Petitions, on the compliance with such Standing Order, by himself, his agents and witnesses, on a Memorial addressed to the Examiner, such Memorial having been duly deposited in the Private Bill Office.

Proof by
Affidavit.

76. The Examiner may admit Affidavits in proof of the compliance with the Standing Orders, or may require further evidence; and such Affidavit shall be sworn, if in *England*, before a Justice of the Peace, or a Commissioner for taking Affidavits; if in *Scotland*, before any Sheriff Depute or his Substitute; and if in *Ireland*, before any Judge or Assistant Barrister of that part of the United Kingdom, or before a Justice of the Peace.

To report in
cases of Bills
originating
in the Lords.

77. The Examiner shall make a Report of the several cases in which he shall have certified that the Standing Orders have or have not been complied with in respect of any Bills which, in pursuance of any Report from the Chairman of the Committee of Ways and Means, under Standing Order 88, shall originate in the House of Lords; and where they have not been complied with, he shall also report, separately, the facts upon which his decision is founded, and any special circumstances connected with the case.

Special Re-
port in cer-
tain cases.

78. In case the Examiner shall feel doubts as to the due construction of any Standing Order in its application to a particular case, he shall make a Special Report of the facts, without deciding whether the Standing Order has or has not been complied with; and in such case he shall indorse the Petition with the words "Special Report," either alone, or if non-compliances with other Standing Orders shall have been proved, in addition to the words "Standing Orders not complied with."

PROCEEDINGS OF, AND IN RELATION TO, THE CHAIRMAN OF THE COMMITTEE OF WAYS AND MEANS, AND THE COUNSEL TO MR. SPEAKER.

Proceedings
of
Chairman of
Ways and
Means.

79. The Chairman of the Committee of Ways and Means shall, at the commencement of each Session, seek a conference with the Chairman of Committees of the House of Lords for the purpose of determining in which House of Parliament the respective Private Bills should be first considered, and such determination shall be reported to The House.

Chairman of
Ways and
Means to seek
a conference
with the
Chairman of
Committees
of House of
Lords.

80. The Chairman of the Committee of Ways and Means, with the assistance of the Counsel to Mr. Speaker, shall examine all Private Bills, whether opposed or unopposed, and call the attention of The House, and also of the Chairman of the Committee on every opposed Private Bill, to all points which may appear to him to require it; and Copies of all such Bills shall be laid by the Agent before the said Chairman and Counsel not later than the day after the Examiner of Petitions shall have indorsed the Petition for the Bill.

Chairman of
Ways and
Means to
examine all
Private Bills,
&c.

81. The Chairman of the Committee of Ways and Means shall make a Report to The House previously to the Second Reading of any Private Bill by which it is intended to authorize, confirm, or alter any Contract with any department of the Government whereby a public charge has been or may be created; and such Report, together with a Copy of the Contract, and of any Resolution to be proposed in relation thereto, shall be circulated with the Votes Two clear days at least before the day on which the Resolution is to be considered in a Committee of the Whole House, which consideration shall not take place until after the time of Private Business; nor shall the Report of any such Resolution be considered until Three clear Days at least after the Resolution shall have been agreed to by the Committee.

Chairman of
Ways and
Means to re-
port on Bills
relating to
Government
Contracts.

82. Two clear Days at least before the day appointed for the consideration of any Private Bill by a Committee, there shall be laid before the Chairman of Ways and Means and the Counsel to Mr. Speaker, by the Agent, Copies of every such Bill as proposed to be submitted to the Committee, and such Copies shall be signed by the Agent for the Bill.

Copies of Bill,
as proposed to
be submitted
to Com-
mittee, to be
laid before
Chairman of
Ways and
Means, &c.

83. The Chairman of the Committee of Ways and Means shall be at liberty, at any period after any Private Bill shall have been referred to a Committee, to report to The House any special circumstances relative thereto which may appear to him to require it, or to inform The House that in his opinion any unopposed Private Bill should be treated as an opposed Private Bill.

Power to
Chairman to
report special
circum-
stances, &c. to
The House.

84. Three clear Days at least before the consideration of any Private Bill ordered to lie upon the Table, a Copy of every such Bill, as amended in Committee, shall be laid by the Agent before the Chairman of the Committee of Ways and Means and the Counsel to Mr. Speaker, and deposited at the Office of the Board of Trade.

Copy of Bill
as amended in
Committee to
be laid before
Chairman of
Ways and
Means, &c.

85. When it is intended to bring up any Clause, or to propose any Amendment on the consideration of any Private Bill ordered to lie upon the Table, or any verbal Amendment on the Third Reading of any Private Bill, the same shall be submitted by the Agent to the Chairman of the Committee of Ways and Means and the Counsel to Mr. Speaker, on the day on which notice is given thereof in the Private Bill Office.

Clause or
Amendment
on considera-
tion of Bill,
or on Third
Reading, to
be submitted
to Chairman
of Ways and
Means, &c.

86. A Copy of all Amendments made in the House of Lords to any Private Bill, and of all Amendments to such Amendments intended to be proposed in this House, shall be laid by the Agent before the Chairman of the Committee of Ways and Means and the Counsel to Mr. Speaker, before Two o'clock on the day previous to that on which the same are respectively appointed for consideration by The House.

Copy of
Amendments
by House of
Lords, and of
proposed
Amendments
thereto, to be
laid before
Chairman of
Ways and
Means, &c.

Proceedings
of Referees
on Private
Bills.

PROCEEDINGS OF AND IN RELATION TO THE REFEREES ON
PRIVATE BILLS.

Referees on
Private Bills
to be consti-
tuted.

87. The Chairman of Ways and Means, with not less than Three other persons, who shall be appointed by Mr. Speaker for such period as he shall think fit, shall be Referees of The House on Private Bills; such Referees to form one or more Courts; Three at least to be required to constitute each Court: provided that the Chairman of any second Court shall be a Member of this House; and provided that no such Referee, if he be a Member of this House, shall receive any salary.

Rules of prac-
tice and pro-
cedure to be
made by
Chairman of
Ways and
Means.

88. The practice and procedure of the Referees, their times of sitting, order of business, and the forms and notices required in their proceedings, shall be prescribed by rules, to be framed by the Chairman of Ways and Means, subject to alteration by him as occasion may require, but only one Counsel shall appear before such Referees in support of a Private Bill, or in support of any Petition in opposition thereto, unless specially authorized by the Referees. All such rules and alterations, when made, to be laid on the Table of The House.

Referees on
Private Bills
to decide as to
rights of Peti-
tioners to be
heard upon
their Pe-
titions, &c.

89. The Referees shall decide upon all Petitions against Private Bills, or against Provisional Orders, or Provisional Certificates, as to the rights of the Petitioners to be heard upon such Petitions, without prejudice, however, to the power of the Select Committee to which the Bill is referred to decide upon any question as to such rights arising incidentally in the course of their proceedings.

Committees
on Bills em-
powered to
refer ques-
tions in spe-
cial cases to
Referees.

90. The Select Committee to which any Bill has been referred may, subject to the approval of the Chairman of Ways and Means, refer any question arising in the course of their inquiry, which they may deem suitable to be so referred, to the Referees for their decision, such question to be stated in writing, and signed by the Chairman of the Committee. The Referees, so soon as their inquiry has been completed, to return the question, with their decision certified thereon, to the Chairman.

PROCEEDINGS OF AND IN RELATION TO THE SELECT COMMITTEE
ON STANDING ORDERS.

91. There shall be a Committee, to be designated "THE SELECT COMMITTEE ON STANDING ORDERS," to consist of *Eleven* Members, who shall be nominated at the commencement of every Session, of whom *Five* shall be a Quorum.

Committee
on Standing
Orders.

92. When any Report of the Examiner of Petitions for Private Bills, in which he shall report that the Standing Orders have not been complied with, shall have been referred to the Select Committee on Standing Orders, and after the Petition for the Bill shall have been duly presented, they shall report to The House whether such Standing Orders ought or ought not to be dispensed with, and whether in their opinion the parties should be permitted to proceed with their Bill, or any portion thereof, and under what (if any) conditions.

To report
whether
Standing
Orders ought
or ought not
to be dis-
pensed with.

93. The Select Committee on Standing Orders shall have power to report on the cases referred to them in respect of Private Bills originating in the House of Lords, notwithstanding that the Petitions for the same shall not have been presented to The House.

In cases of
Bills origi-
nating in
Lords.

94. When any Special Report from the Examiner of Petitions as to the construction of a Standing Order shall have been referred to the Select Committee on Standing Orders, they shall determine, according to their construction of the Standing Order, and on the facts stated in such Report, whether the Standing Orders have or have not been complied with, and they shall then either report to The House that the Standing Orders have been complied with, or shall proceed to consider the question of dispensing with the Standing Orders, as the case may be.

Proceeding in
case of Special
Report.

95. When any Petition, praying that any of the Sessional or Standing Orders of The House relating to Private Bills may be dispensed with, shall stand referred to the Select Committee on Standing Orders, they shall report to The House whether such Sessional or Standing Orders ought or ought not to be dispensed with.

To report
whether
Sessional
or Standing
Orders ought
or ought not
to be dis-
pensed with.

96. WHEN any Petition for the re-insertion of any Petition for a Private Bill in the General List of Petitions shall stand referred to the Select Committee on Standing Orders, they shall report to The House whether in their opinion such Petition ought or ought not to be re-inserted, and, if re-inserted, under what (if any) conditions.

To report
whether Peti-
tion ought or
ought not to
be re-inserted
in the General
List.

97. When any Clause or Amendment proposed on the consideration of any Private Bill ordered to lie upon the Table shall have been referred to the Select Committee on Standing Orders, they shall report to The House whether such Clause or Amendment should be adopted by The House or not, or whether the Bill should be re-committed.

To report
whether Clause
or Amendment
on considera-
tion of Bill
should be
adopted by
House or not,
or whether
Bill should be
re-committed.

PROCEEDINGS OF AND IN RELATION TO THE COMMITTEE OF
SELECTION, AND OF THE GENERAL COMMITTEE ON RAILWAY
AND CANAL BILLS.

Committee
of Selection.

98. There shall be a Committee, to be designated "THE COMMITTEE OF SELECTION," to consist of the Chairman of the Select Committee on Standing Orders, who shall be *ex-officio* Chairman thereof, and *Five* other Members, who shall be nominated at the commencement of every Session, of which Committee *Three* shall be a Quorum.

General
Committee
on Railway
and Canal
Bills.

99. There shall be a Committee, to be designated "THE GENERAL COMMITTEE ON RAILWAY AND CANAL BILLS," which shall be nominated at the commencement of every Session by the Committee of Selection, of which Committee *Three* shall be a Quorum.

Committee
of Selection
may discharge
Members and
add others.

100. The Committee of Selection may, from time to time, discharge Members from further attendance on such General Committee, and add other Members in their room, and shall appoint the Chairman of such Committee.

General
Committee
to appoint
Chairman.

101. The General Committee on Railway and Canal Bills shall appoint from among themselves the Chairman of each Committee on a Railway or Canal Bill, or on a Group of such Bills, and may change the Chairman so appointed from time to time.

Printed
Copies of
Bills to be
laid before
Committee of
Selection and
General Com-
mittee.

102. Printed Copies of all Private Bills, not being Railway or Canal Bills, shall be laid before the Committee of Selection, and Printed Copies of all Railway and Canal Bills before the General Committee on Railway and Canal Bills, by the parties promoting the same, at the first Meeting of the said Committees respectively.

Committee of
Selection and
General Com-
mittee to
group Private
Bills.

103. The Committee of Selection may, if they think fit, form into Groups all Private Bills, not being Railway or Canal Bills, and the General Committee on Railway and Canal Bills may form into Groups all Railway and Canal Bills, which, in their opinion, it may be expedient to submit to the same Committee, and such Groups shall be published in the Votes.

Railway and
Canal unop-
posed Bills.

104. The General Committee on Railway and Canal Bills may, whenever they shall think fit, refer any unopposed Railway or Canal Bill to the Chairman of the Committee of Ways and Means, together with two other Members not locally or otherwise interested, or one such Member and a Referee, to be nominated by the Committee of Selection.

Committee of
Selection and
General Com-
mittee on
Railway, &c.
Bills to
appoint First
Sitting of
Committee.

105. The Committee of Selection in the case of all Private Bills other than Railway and Canal Bills, and the General Committee on Railway and Canal Bills in the case of such Bills, shall, subject to the order in regard to the interval between the Second Reading of every Private Bill and the Sitting of the Committee thereupon, fix the time for holding the *First Sitting* of every Committee on a Private Bill which shall have been referred to either of the said Committees.

Committee of
Selection and
General
Committee
to name Bill
or Bills to be
considered on
the first day.

106. The Committee of Selection shall name the Bill or Bills which shall be taken into consideration on the first day of the meeting of the Committee on any Group of Bills not being Railway or Canal Bills; and the General Committee on Railway and Canal Bills shall name the Bill or Bills which shall be taken into consideration on the first day of the meeting of each Committee on any Group of such Bills.

107. The

107. The Committee of Selection shall consider no Bill as an opposed Private Bill, unless, not later than Ten clear Days after the First Reading thereof, a Petition shall have been presented against it, in which the Petitioner or Petitioners shall have prayed to be heard, by themselves, their Counsel or Agents, or unless, where no such Petition shall have been presented, the Chairman of the Committee of Ways and Means shall have reported to The House that in his opinion any Bill ought to be so treated.

Proceedings
of
Committee
of
Selection, &c.

What Bills
not to be
considered
opposed.

108. The Committee of Selection shall refer every opposed Private Bill which shall have been referred to them, or any Group of such Bills, to a Chairman and Three Members, and a Referee or a Chairman and Three Members, not locally or otherwise interested therein.

Constitution
of Com-
mittees on
opposed Pri-
vate Bills.

109. The Committee of Selection shall refer every unopposed Private Bill, which shall have been referred to them, not being a Road Bill, to the Chairman of the Committee of Ways and Means, together with one of the Members ordered to prepare and bring in the same, and one other Member not locally interested therein, or a Referee, if the Bill shall have originated in this House; and if the Bill shall have been brought from the House of Lords, to the Chairman of the Committee of Ways and Means, together with Two other Members, of whom one at least shall not be locally or otherwise interested therein, or one Member and a Referee.

Constitution
of Com-
mittees on
unopposed
Private Bills.

110. The Committee of Selection shall refer all Road Bills, whether opposed or unopposed, to a Committee, consisting of a Chairman and Three other Members not locally or otherwise interested therein.

Committee of
Selection to
refer all Road
Bills to a
Committee.

111. The Committee of Selection shall give each Member not less than Seven Days' notice, by publication in the Votes or otherwise, of the week in which it will be necessary for him to be in attendance for the purpose of serving, if required, as a Member, not locally or otherwise interested, of a Committee on a Private Bill.

Committee of
Selection to
give notice to
Members.

112. The Committee of Selection shall give to each Member sufficient notice of his appointment as a Member of a Committee on any Private Bill, or Group of such Bills, and, in every case where a Declaration is required to be signed and returned by such Member, shall transmit to him a blank form of the Declaration required, with a request that it may forthwith be returned properly filled up and signed.

Notice of
Appointment
and Decla-
ration to be
transmitted
to Members.

113. The Committee of Selection shall report to The House the name of every Member from whom they shall not have received in due time such Declaration, so filled up and signed, or, in lieu thereof, an excuse which they shall deem sufficient.

Members
returning no
answer to be
reported.

114. The Committee of Selection shall have the power of discharging any Member or Members of a Committee, and of substituting other Members.

Committee of
Selection may
substitute
Members for
others.

115. The Committee of Selection shall have power, in the execution of their duties, to send for Persons, Papers and Records.

Committee of
Selection to
send for
persons, &c.

Pro ceedings
of
Committees
on
Opposed
Bills.

PROCEEDINGS OF COMMITTEES ON OPPOSED BILLS.

Committees
on Railway
and Canal
Bills.

116. The Committee on every opposed Railway and Canal Bill, or Group of Railway and Canal Bills, shall be composed of Four Members and a Referee, or Four Members not locally or otherwise interested in the Bill or Bills referred to them; the Chairman to be appointed by the General Committee on Railway and Canal Bills, and Three other Members by the Committee of Selection.

Committees
on opposed
Private Bills.

117. The Committee on every opposed Private Bill (not being a Railway, Canal or Divorce Bill), or Group of Bills, and the Committee on any Bill to confirm any Provisional Order or Provisional Certificate, shall be composed of a Chairman and Three Members and a Referee, or a Chairman and Three Members not locally or otherwise interested in the Bill or Bills referred to them, to be appointed by the Committee of Selection.

Declaration
of Members.

118. Each Member of a Committee on an opposed Private Bill, or Group of such Bills, shall, before he be entitled to attend and vote on such Committee, sign the following Declaration :

I do hereby declare, That my constituents have no local interest, and that I have no personal interest, in such Bill; and that I will never vote on any question which may arise without having duly heard and attended to the Evidence relating thereto.

And no such Committee shall proceed to business until the said Declaration shall have been so signed by each of such Members.

Quorum
to be always
present.

119. Committees shall not be allowed to proceed if more than One of their Members be absent, unless by special leave of The House.

Members not
to absent
themselves.

120. No Member of a Committee on an opposed Private Bill shall absent himself from his duties thereon, except in the case of sickness, or by order of The House.

When Chair-
man absent.

121. If the Chairman shall be absent from the Committee, the Member next in rotation on the List of Members who shall be present shall act as Chairman, but in the case of Railway and Canal Bills only until the General Committee on such Bills shall have appointed, if they shall so think fit, another Chairman.

Proceedings
to be sus-
pended if
Quorum not
present.

122. If at any time during the sitting of any Committee more than One of the Members be absent, the Chairman shall suspend the proceedings of such Committee; and if at the expiration of *One Hour* from the time fixed for the meeting of the Committee, or from the time when the Chairman shall so have suspended the proceedings, more than One Member be absent, the Committee shall be adjourned to the next day on which The House shall sit, and then shall meet at the hour on which such Committee would have sat, had no such adjournment taken place.

Members
absent to be
reported to
The House.

123. If any of the Members shall not be present within One Hour after the time appointed for the meeting of the Committee, or if any Member shall absent himself from his duties on such Committee, every such Member shall be reported to The House at its next sitting.

Absence of
Members by
Death or
otherwise to
be reported.

124. If, at any time after the Committee on a Bill shall have been formed, a Quorum of Members required by the Standing Orders cannot attend in consequence of any of the Members who shall have duly qualified to serve on such Committee having become incompetent to continue such service by having been placed on an Election Com-

mittee,

Proceedings
of
Committees
on
Opposed
Bills.

mittee, or by death or otherwise, the Chairman shall report the circumstances of the case to The House, in order that such measures may be taken by The House as shall enable the Members still remaining on the Committee to proceed with the business referred to such Committee, or as the emergency of the case may require.

125. All questions before Committees on Private Bills shall be decided by a majority of voices, including the voice of the Chairman; and whenever the voices are equal, the Chairman shall have a second or casting vote.

Questions to be decided by majority of voices.

126. The Committee on each Group of Bills shall take the Bill or Bills first into consideration which shall have been named by the Committee of Selection, or by the General Committee on Railway and Canal Bills; and the Committee shall, from time to time, appoint the day on which they will enter upon the consideration of each of the remaining Bills, and on which they will require the parties severally promoting or opposing the same to enter appearances; and Two clear Days' notice, at the least, of such appointment, shall be given by the Clerk attending the Committee to the Clerks in the Private Bill Office; and in case the Committee shall postpone the consideration of any Bill, notice shall be given of the day to which the same is postponed.

Committee on Group to consider that Bill first which Committee of Selection or General Committee shall have named, and to appoint day for Consideration of remaining Bills, of which Clerk of Committee to give Notice.

127. Every Committee on an opposed Private Bill shall report specially to The House the cause of any Adjournment over any day on which The House shall sit.

Causes of Adjournment to be specially reported.

128. No Petition against a Private Bill, or a Bill to confirm any Provisional Order or Provisional Certificate, shall be taken into consideration by the Committee on such Bill, which shall not distinctly specify the ground on which the Petitioners object to any of the provisions thereof; and the Petitioners shall be only heard on such grounds so stated; and if it shall appear to the said Committee, that such grounds are not specified with sufficient accuracy, the Committee may direct that there be given in to the Committee a more specific Statement, in writing, but limited to such grounds of Objection so inaccurately specified.

Petition against Bill not to be considered except grounds of objection sufficiently specified.

129. No Petitioners against any Private Bill, or any Bill to confirm any Provisional Order or Provisional Certificate, shall be heard before the Committee on the Bill, unless their Petition shall have been prepared and signed in strict conformity with the Rules and Orders of this House, and shall have been presented to this House by having been deposited in the Private Bill Office, in the case of Private Bills, not later than *Ten* clear Days after the First Reading of such Bill, and in the case of Bills to confirm any Provisional Order or Provisional Certificate, not later than *Seven* clear days after the Report of the Examiner on such Bill, except where the Petitioners shall complain of any matter which may have arisen during the progress of the Bill before the said Committee, or of any proposed additional provision, or of the Amendments as proposed in the filled-up Bill deposited in the Private Bill Office.

Petitioners against Bill not to be heard unless Petition presented not later than Ten clear Days after First Reading, &c.

130. It shall be competent to the Referees on Private Bills to admit Petitioners to be heard upon their Petitions against a Private Bill, on the ground of competition, if they shall think fit.

Competition to be a ground of locus standi.

131. Where a Bill is promoted by an Incorporated Company, Shareholders of such Company shall not be entitled to be heard before the Committee against such Bill, unless their interests, as affected thereby, shall be distinct from the general interests of such Company.

In what cases Shareholders to be heard.

132. In case any Proprietor, Shareholder, or Member of or in any Company, Association, or Copartnership, shall by himself or any person authorised to act for him in that behalf, have dissented at

Dissenting Shareholders to be heard.

Proceedings

Committees
on
Opposed
Bills.

any Meeting called in pursuance of Standing Orders 62 to 66, or at any Meeting called in pursuance of any similar Standing Order of the House of Lords, such Proprietor, Shareholder, or Member shall be permitted to be heard by the Committee on the Bill on a Petition presented to the House, such Petition having been duly deposited in the Private Bill Office.

In what cases
Railway
Companies to
be heard.

133. Where a Railway Bill contains provisions for taking or using any part of the Lands, Railway, Stations or Accommodations of another Company, or for running Engines or Carriages upon or across the same, or for granting other facilities, such Company shall be entitled to be heard upon their Petition against such provisions or against the Preamble and Clauses of such Bill.

Municipal
Authorities
and Inhabi-
tants of
Towns, &c.

134. It shall be competent to the Referees on Private Bills to admit the Petitioners, being the Municipal or other Authority having the local management of the Metropolis, or of any Town, or the Inhabitants of any Town or District alleged to be injuriously affected by a Bill, to be heard against such Bill, if they shall think fit.

Petitions
against Tram-
way Bills.

135. The owner or occupier of any house, shop, or warehouse in any street through which it is proposed to construct any Tramway, and who alleges in any Petition against a Private Bill or Provisional Order that the construction or use of the Tramway proposed to be authorized thereby will injuriously affect him in the use or enjoyment of his premises, or in the conduct of his trade or business, shall be entitled to be heard on such allegations before any Select Committee to which such Private Bill, or the Bill relating to such Provisional Order is referred.

When op-
posed Bills
may be
treated as
unopposed.

136. In all cases of opposed Private Bills, in which no parties shall have appeared on the Petitions against such Bills, or having appeared shall have withdrawn their opposition before the evidence of the Promoters shall have been commenced, the Committees on such Bills shall forthwith refer them back, with a statement of the facts, if not Railway or Canal Bills, to the Committee of Selection, and if Railway and Canal Bills, to the General Committee on Railway and Canal Bills, who shall deal with them as unopposed Bills.

COMMITTEES ON UNOPPOSED BILLS.

Committees
on Unopposed
Private Bills.

137. The Committee on every unopposed Private Bill (not being a Railway, Canal or Divorce Bill), shall, if the same shall have originated in this House, be composed of the Chairman of the Committee of Ways and Means, who shall be *ex-officio* Chairman of every such Committee, together with one of the Members ordered to prepare and bring in the Bill, and one other Member not locally or otherwise interested therein, or a Referee, such Members of the Committee to be appointed by the Committee of Selection, and shall, if such Bill shall have been brought from the House of Lords, be composed of the Chairman, as aforesaid, and Two other Members, of whom one at least shall not be locally or otherwise interested in the Bill, or one Member and a Referee, to be appointed by the Committee of Selection; and the Chairman and one other Member of such Committee shall be the Quorum thereof.

PROCEEDINGS OF, AND IN RELATION TO, COMMITTEES ON BILLS,
WHETHER OPPOSED OR UNOPPOSED.

138. At the first Meeting of the Committee, Copies of the Bill, as proposed to be submitted to them, and signed by the Agent, shall be laid by him before each Member of the Committee.

Filled-up
Copies of Bill
to be laid
before each
Member.

139. No Member, locally or otherwise interested, of a Committee on any unopposed Private Bill shall have a Vote on any question that may arise, but every such Member shall be entitled to attend and take part in the proceedings of the Committee.

Local Mem-
ber not to
vote.

140. The Names of the Members attending each Committee shall be entered by the Clerk on the Minutes of the Committee; and if any Division shall take place in the Committee, the Clerk shall take down the Names of Members voting in any such Division, distinguishing on which side of the question they respectively vote, and that such Lists be given in with the Report to The House.

Names of
Members to
be entered on
Minutes.

141. No Committee shall have power to examine into the compliance or non-compliance with such Standing Orders as are directed to be proved before the Examiner of Petitions for Private Bills, unless by special order of The House.

Committee
on Bill not to
inquire into
certain Stand-
ing Orders.

142. The Committee on any Private Bill may admit affidavits in proof of the compliance with such Standing Orders of The House as are directed to be proved before them, or may require further evidence; and such affidavits shall be sworn, if in *England*, before a Justice of the Peace, or a Commissioner for taking Affidavits; if in *Scotland*, before any Sheriff-depute or his substitute; and if in *Ireland*, before any Judge or Assistant Barrister of that part of the United Kingdom, or before a Justice of the Peace.

Committee
may admit
affidavits in
proof of com-
pliance with
Standing
Orders.

143. The Committee may admit proof of the Consents of Parties concerned in interest in any Private Bill, by Affidavits sworn as aforesaid, or by the Certificate in writing of such Parties, whose Signatures to such Certificate shall be proved by *one* or more Witnesses, unless the Committee shall require further Evidence.

Consents,
how to be
proved.

144. In all Bills presented to The House for carrying on any Work by means of a Company, Commissioners or Trustees, Provision shall be made for compelling Persons who have subscribed any Money towards carrying any such Work into execution, to make payment of the Sums severally subscribed by them.

Clause com-
pelling pay-
ment of Sub-
scriptions.

145. Where the level of any Road shall be altered in making any Public Work, the ascent of any Turnpike Road, or of any Road in *Ireland* so defined in the Railway Clauses Consolidation Act, 1845, shall not be more than One foot in 30 feet, and of any other public Carriage Road not more than One foot in 20 feet; and a good and sufficient Fence, of Four feet high at the least, shall be made on each side of every Bridge which shall be erected.

Level of
Roads.

Fence to
Bridge.

146. Every Plan, and Book of Reference thereto, which shall be produced in evidence before the Committee upon any Private Bill (whether the same shall have been previously lodged in the Private Bill Office, or not), shall be signed by the Chairman of such Committee, with his Name at length; and he shall also mark with the Initials of his Name every Alteration of such Plan and Book of Reference, which shall be agreed upon by the said Committee; and every such Plan and Book of Reference shall thereafter be deposited in the Private Bill Office.

tered.

147. The Chairman of the Committee shall sign, with his Name at length, a printed Copy of the Bill (to be called the Committee Bill), on which the Amendments are to be fairly written; and also sign, with the Initials of his Name, the several Clauses added in the Committee.

148. The Chairman of the Committee shall report to The House, that the allegations of the Bill have been examined; and whether the Parties concerned have given their Consent (where such Consent is required by the Standing Orders) to the satisfaction of the Committee.

149. The Chairman of the Committee shall report the Bill to The House, whether the Committee shall or shall not have agreed to the Preamble, or gone through the several Clauses, or any of them; or where the Parties shall have acquainted the Committee that it is not their intention to proceed with the Bill; and when any alteration shall have been made in the Preamble of the Bill, such alteration, together with the ground of making it, shall be specially stated in the Report.

150. Whenever a recommendation shall have been made in a Report on a Private Bill from a Department of the Government referred to the Committee, the Committee shall notice such recommendation in their Report, and shall state their reasons for dissenting, should such recommendation not be agreed to.

151. Whenever the House shall order that any Bill for confirming a Provisional Order or a Provisional Certificate be referred to the Committee of Selection with respect to any Order or Certificate to be confirmed thereby, the Proceedings of the Select Committee to which the Bill is referred, and of the Referees, shall be conducted in like manner as in the case of Private Bills, and shall be subject to the same Rules and Orders of The House so far as they are applicable except those which relate to the payment of fees by the Promoters of such Provisional Order or Certificate.

152. The Minutes of the Committee on every Private Bill shall be brought up and laid on the Table of the House, with the Report of the Bill.

Railway Bills.

153. In the case of a Railway Bill, no Company shall be authorized to raise, by Loan or Mortgage, a larger sum than *One-third* of their capital; and until *Fifty per cent.* on the whole of the capital shall have been paid up, it shall not be in the power of the Company to raise any Money, by Loan or Mortgage, unless the Committee on the Bill shall report that such restrictions or either of them ought not to be enforced, with the reasons on which their opinion is founded.

154. Where the level of any road shall be altered in making any Railway, the ascent of any Turnpike Road, or of any Road in *Ireland*, so defined in the Railway Clauses Consolidation Act, 1845, shall not be more than One foot in 30 feet, and of any other public carriage-road not more than One foot in 20 feet, unless a Report thereupon from some Officer of the Board of Trade shall be laid before the Committee on the Bill, and unless the Committee, after considering such Report, if they shall disagree with the said Report, shall recommend steeper ascents, with the reasons and facts upon which their opinion is founded: Also, a good and sufficient Fence, of Four feet high at the least, shall be made on each side of every Bridge which shall be erected.

155. No Railway whereon carriages are propelled by steam, or by atmospheric agency, or drawn by ropes in connexion with a stationary steam-engine, shall be made across any Railway, turnpike-road or other public carriage-way on the level, unless a Report thereupon from some Officer of the Board of Trade shall be laid before the Committee on the Bill, and unless the Committee, after considering such Report, if they shall disagree with the said Report, shall recommend such level crossing, with the reasons and facts upon which their opinion is founded; and in every Clause authorizing a level crossing, the number of lines of rails authorized to be made at such crossing shall be specified.

Proceedings

on a Level
unless Com-
mittee report,
&c.

156. No Railway Company shall be authorized to construct or enlarge, purchase or take on lease, or otherwise appropriate any Canal, Dock, Pier, Harbour or Ferry, or to acquire and use any Steam-vessels for the conveyance of goods and passengers, or to apply any portion of their capital or revenue to other objects, distinct from the Undertaking of a Railway Company, unless the Committee on the Bill report that such a restriction ought not to be enforced, with the reasons and facts upon which their opinion is founded.

Railway
Company not
to acquire
Canals,
Docks, &c.
unless Com-
mittee report,
&c.

157. Every Committee on a Railway Bill shall report specially to The House,—

Reports of
Public De-
partments.

Whether any Report from any Public Department in regard to the Bill, or the objects thereof, has been referred by The House to the Committee; and, if so, in what manner the several recommendations contained in such Report have been dealt with by the Committee:

Whether it be intended that the Railway shall cross on a level any Railway, turnpike road, or highway:

Crossing
Railways,
&c. on a level.

And any other circumstances which, in the opinion of the Committee, it is desirable that The House should be informed of.

Other cir-
cumstances.

158. In every Railway Bill and Tramway Bill, whereby the construction of any new line of Railway or Tramway is authorized, or the time for completing any line already authorized is extended, promoted by an existing Railway Company or Tramway Company which is possessed of a Railway or Tramway already opened for public traffic, and which has, during the year last past, paid dividends on its ordinary share capital, and which does not propose to raise under the Bill a capital greater than its existing authorized capital, there shall be inserted a Clause to the following effect, viz.:

Clause to be
inserted in
Railway and
Tramway
Bills imposing
penalty,
unless Line
be opened.

(A.) If the Company fail within the period limited by this Act to complete the Railway or Tramway authorized to be made by this Act, the Company shall be liable to a Penalty of 50*l.* a day for every day after the expiration of the period so limited until the said Railway or Tramway is completed and opened for public traffic, or until the sum received in respect of such penalty shall amount to five per cent. on the estimated cost of the Works; and the said penalty may be applied for by any landowner or other person claiming to be compensated in accordance with the provisions of the next following section of this Act, and in the same manner as the penalty provided in the 3rd section of the Act 17 & 18 Vict. c. 31, known as "The Railway and Canal Traffic Act, 1854," and every sum of money recovered by way of such penalty as aforesaid shall be paid under the warrant or order of such Court or Judge as is specified in the said 3rd section of the Act 17 & 18 Vict. c. 31, to an account opened or to be opened in the name and with the privity of Her Majesty's Paymaster General on behalf of the Court of Chancery in *England* [the Queen's Remembrancer of the Court of Exchequer in *Scotland*, or the Accountant General of the Court of Chancery in *Ireland* (according as the Railway or Tramway is situate in *England*,

Scotland,

Proceedings
of
Committees
on Bills.

Scotland, or Ireland,)] in the bank named in such order, and shall not be paid thereout except as hereinafter provided; but no penalty shall accrue in respect of any time during which it shall appear, by a certificate to be obtained from the Board of Trade, that the Company was prevented from completing or opening such line by unforeseen accident or circumstances beyond their control: Provided, That the want of sufficient funds shall not be held to be a circumstance beyond their control.

Clause to be
inserted,
providing
that Deposit
be impounded
as security
for comple-
tion of the
Line.

In every Railway or Tramway Bill whereby the construction of any new line is authorized, or the time for completing any line already authorized is extended; if such Bill be promoted by an existing Railway Company or Tramway Company which is not possessed of a Railway or Tramway already opened for public traffic, or which has not during the year last past paid dividends on its ordinary share capital; or by an existing Railway or Tramway Company when the capital to be raised under the Bill is greater than the existing authorized capital of the Company, or by persons not already incorporated, there shall be inserted a Clause to the following effect, viz. :—

(B.) Whereas, pursuant to the Standing Orders of both Houses of Parliament, and to an Act of the ninth and tenth years of Her present Majesty, c. 20, a sum of £.

being five per cent. upon the amount of the Estimate in respect of the Railway or Tramway authorized by this Act, has been deposited with the Court of Chancery in *England* [or with the Court of Exchequer in *Scotland*, or the Court of Chancery in *Ireland*, as the case may be], [or Exchequer Bills, Stocks, or Funds to the amount of £.

have been deposited or transferred pursuant to the said Act, as the case may be], in respect of the application to Parliament for this Act: Be it enacted, That notwithstanding anything contained in the said recited Act, the said sum of £.

[or the said Exchequer Bills, or other Funds as the case may be] so deposited [or transferred] as aforesaid, in respect of the application for this Act, shall not be paid or transferred to or on the application of the person or persons, or the majority of the persons named in the warrant or order issued in pursuance of the said Act, or the survivors or survivor of them, unless the said Company shall, previously to the expiration of the period limited by this Act for completion of the Railway or Tramway hereby authorized to be made [or the time for completing which is hereby extended], either open the said Railway or Tramway for the public conveyance of passengers, or prove to the satisfaction of the Board of Trade that the said Company have paid up one-half of the amount of the capital by this Act authorized to be raised by means of shares, and have expended for the purposes of this Act a sum equal in amount to such one-half of the said capital; and if the said period shall expire before the said Company shall either have opened the said Railway or Tramway for the public conveyance of passengers, or have given such proof as aforesaid to the satisfaction of the Board of Trade, the said sum of money [Exchequer Bills, Stocks, or Funds] deposited [or transferred] as aforesaid shall be applied in the manner hereinafter specified; and the certificate of the said Board that such proof has been given to their satisfaction as aforesaid, shall be sufficient evidence of the fact so certified; and it shall not be necessary to produce any certificate of this Act having passed, anything in the said recited Act to the contrary notwithstanding.

Clause to be
inserted
providing for
application of
Deposit or
Penalty in
compensation
to parties
injured.

In every Railway Bill and Tramway Bill whereby the construction of any new line of Railway or Tramway is authorized, or the time for completing any line already authorized is extended, the following Clauses shall be inserted, in the order in which they are here placed, immediately after that one of the two last preceding Clauses which shall have been inserted in the Bill, viz. :—

(C.) The said sum of money [Exchequer Bills, Stocks, or Funds] deposited

deposited [or transferred] as aforesaid, [or, every sum of money so recovered by way of penalty, as aforesaid], shall be applicable, and, after due notice in the "*London Gazette*," [or "*Edinburgh*" or "*Dublin Gazette*," as the case may require], shall be applied towards compensating any landowners or other persons whose property may have been interfered with, or otherwise rendered less valuable, by the commencement, construction, or abandonment of the said Railway, or Tramway, or any portion thereof, or who may have been subjected to injury or loss in consequence of the compulsory powers of taking property conferred upon the Company by this Act, and for which injury or loss no compensation or inadequate compensation shall have been paid, and also in the case of Tramways in compensating all road authorities for the expense incurred by them in taking up any Tramway, or materials connected therewith, placed by the Company in or on any road vested in or maintainable by such road authorities respectively, and in making good all damage caused to such roads by the construction or abandonment of such Tramway, and shall be distributed in satisfaction of such compensation as aforesaid, in such manner and in such proportions as to the Court of Chancery in *England* [or Court of Exchequer in *Scotland*, or Court of Chancery in *Ireland*, as the case may be] may seem fit; and if no such compensation shall be payable, or if a portion of the said sum of money [Exchequer Bills, Stocks, or Funds] [or of the sum or sums of money so recovered by way of penalty as aforesaid] shall have been found sufficient to satisfy all just claims in respect of such compensation, then the said sum of money [Exchequer Bills, Stocks, or Funds] [or the said sum or sums of money recovered by way of penalty], or such portion thereof as may not be required as aforesaid, shall either be forfeited to Her Majesty and accordingly be paid or transferred to or for the account of Her Majesty's Exchequer, in such manner as the Court of Chancery in *England* (or Court of Exchequer in *Scotland*, or Court of Chancery in *Ireland*, as the case may be), thinks fit to order on the application of the solicitor of Her Majesty's Treasury, and shall be carried to and form part of the Consolidated Fund of the United Kingdom, or, in the discretion of the Court, if the Company is insolvent and has been ordered to be wound up, or a receiver has been appointed, shall wholly or in part be paid or transferred to such receiver, or to the liquidator or liquidators of the Company, or be otherwise applied as part of the assets of the Company for the benefit of the creditors thereof: Provided, That until the said sum of money [Exchequer Bills, Stocks, or Funds] shall have been repaid to the depositors, or shall have become otherwise applicable as hereinbefore mentioned, any interest or dividends accruing thereon shall from time to time, and as often as the same shall become payable, be paid to or on the application of the person or persons or the majority of the persons named in such warrant or order as aforesaid, or the survivors or survivor of them.

N.B.—If the Clause lettered (A) is inserted in the Bill, the Proviso at the end of the Clause lettered (C) shall be omitted.

(D.) If the Railway or Tramway authorized by this Act shall not be completed within the period limited by this Act, then, on the expiration of such period, the powers by this Act granted to the Company for making and completing the said Railway or Tramway respectively, or otherwise in relation thereto, shall cease to be exercised, except as to so much thereof as shall then be completed. The period limited shall not exceed five years in the case of a new Railway line, and two years in the case of a new Tramway line, and three years in the case of extension of time for completing any Railway line, and one year in the case of extension of time for completing any Tramway line. In the case of extension of time the additional period shall be computed from the expiration of the period sought to be extended.

Time limited
for comple-
tion of line.

Proceedings
of
Committees
on Bills.

Where pre-
ceding provi-
sions are in-
applicable.

Committee to
fix the Tolls
and Charges.

In any Railway or Tramway Bill to which the preceding provisions are not applicable, the Committee on the Bill shall make such other provision as they shall deem necessary for ensuring the completion of the line of Railway or Tramway.

159. The Committee on every Railway Bill shall fix the Tolls, and shall determine the maximum rates of Charge for the conveyance of Passengers, with a due amount of Luggage and of Goods on such Railway, and such rates of Charge shall include the Tolls and the costs of locomotive power, and every other expense connected with the conveyance of Passengers, with a due amount of Luggage and of Goods upon such Railway; but if the Committee shall not deem it expedient to determine such maximum rates of Charge, a Special Report, explanatory of the grounds of their omitting so to do, shall be made to The House, which Special Report shall accompany the Report of the Bill.

In Bills
granting pre-
ference in
payment of
interest, &c.,
provision to
be made that
the same shall
not prejudice
former grants
of preference,
unless Com-
mittee report
otherwise.

160. In every Railway Bill by which it is proposed to authorize the Company to grant any preference or priority in the payment of Interest or Dividends on any Shares or Stock, there shall be inserted a Clause providing that the granting of such preference or priority shall not prejudice or affect any preference or priority in the payment of Interest or Dividends on any other Shares or Stock which shall have been granted by the Company in pursuance of or which may have been confirmed by any previous Act of Parliament, or which may otherwise be lawfully subsisting, unless the Committee on the Bill shall report that such Provision ought not to be required, with the Reasons on which their opinion is founded.

Company not
to alter any
preference
previously
granted.

161. No Railway Company shall be authorized to alter the terms of any preference or priority of Interest or Dividend which shall have been granted by such Company in pursuance of or which may have been confirmed by any previous Act of Parliament, or which may otherwise be lawfully subsisting, unless the Committee on the Bill report that such alteration ought to be allowed, with the Reasons on which their opinion is founded, together with the number of Preference Shareholders who have assented to or dissented from such alteration.

No powers of
purchasing,
&c., Steam
Vessels in
Railway
Bills.

162. No powers of purchasing, hiring, or providing Steam Vessels shall be contained in a Bill by which any other powers are sought to be obtained by a Railway Company, except when the transit by such Steam Vessels is required to connect portions of Railway belonging to or proposed to be constructed by such Company.

No powers
of purchase,
&c. to be
given, except
after proof
of certain
matters be-
fore Board of
Trade, &c.

163. No powers of purchase, sale, lease or amalgamation shall be given to any Railway Company, with reference to any other undertaking already authorized by any Act or Acts, nor to any other incorporated Company, with reference to any Railway, unless, previously to the application to Parliament for such purpose, the several Companies who may be parties to such purchase, sale, lease or amalgamation shall have proved to the satisfaction of the Board of Trade, that they have respectively paid up One-half of the capital authorized to be raised by any previous Act or Acts by means of Shares, and have expended for the purposes of such Act or Acts a sum equal thereto; and in case such powers shall be applied for in respect of Works intended to be authorized by any Bill or Bills of the same Session, it shall be proved to the satisfaction of the Board of Trade that such Companies have respectively paid up one-half the amount of their capital, and that the Company proposed to be empowered to construct such Works have included in such amount the capital proposed to be authorized by such Bill or Bills; and that no such powers shall be given in respect of Works intended to be authorized by any Act or Acts for which it is intended to apply in any subsequent Session.

164. No

164. No Railway Company shall be authorized, except for the execution of its original Line or Lines sanctioned by Act of Parliament, to guarantee interest on any shares which it may issue for creating additional Capital, or to guarantee any rent or dividend to any other Railway Company, until such first-mentioned Company shall have completed and opened for traffic such original Lines.

Proceedings
of
Committees
on Bills.

Railway
Company not
to guarantee
interest or
dividend be-
fore comple-
tion of Line.

165. In Bills for the Amalgamation of Railway Companies, the amount of Capital created by such Amalgamation shall in no case exceed the sum of the Capitals of the Companies so amalgamated.

Limitation
of Capital on
amalgamation
of Companies.

166. In Bills for empowering any Railway Company to purchase any other Railway, no addition shall be authorized to be made to the Capital of the purchasing Company, beyond the Amount of the Capital of the Railway purchased; and in case such Railway shall be purchased at a premium, no addition on account of such premium shall be made to the Capital of the purchasing Company.

Additional
Capital of
purchasing
Company not
to amount to
more than
Capital of
Company
purchased.

167. A Clause shall be inserted in every Railway Bill, prohibiting the payment of any Interest or Dividend to any Shareholder on the amount of the Calls made in respect of the Shares held by him, except such interest or money advanced by any Shareholder beyond the amount of the Calls actually made as is in conformity with the Companies Clauses Consolidation Act, 1845, or the Companies Clauses Consolidation (Scotland) Acts, 1845, as the case may be.

Clause that
no Interest or
Dividend be
paid on Calls.

168. A Clause shall be inserted in every Railway Bill by which any money is authorized to be raised, prohibiting the Company from paying, out of such money, the Deposits required by the Standing Orders to be made for the purposes of any application to Parliament for a Bill for the construction of another Railway.

Clause as to
Deposits not
to be paid out
of Capital.

169. The following Clause shall be inserted in all Railway Bills passing through this House:

And be it further Enacted, That nothing herein contained shall be deemed or construed to exempt the Railway by this or the said recited Acts authorized to be made from the provisions of any General Act relating to Railways now in force, or which may hereafter pass during this or any future Session of Parliament, or from any future revision and alteration, under the authority of Parliament, of the maximum rates of fares and charges authorized by this Act [or by the said recited Acts].

Clause as to
Railway not
to be exempt
from any
General Act.

170. In every Railway Bill and Tramway Bill the length of each Railway and Tramway be set forth in miles, furlongs, chains, and yards, or decimals of a chain, in the Clause describing the works, with a statement in the case of each Tramway whether it is a single or a double line.

Length of Railway and
Tramway to be set
forth and specified in
Clause describing the
works.

Tramway Bills.

171. No powers shall be given to any Municipal Corporation, Local Board, Improvement Commissioners, or other local authority, to place or run carriages upon any Tramway, and to demand and take tolls and charges in respect of the use of such carriages.

No powers to be given
to Local Authorities to
place or run carriages
upon Tramways, &c.

Local Government.

172. In the case of all Bills whereby any Municipal Corporation, Local Board, Improvement Commissioners, or other local authority in England or Wales, are authorised to borrow money for any purpose to which the several Acts specified in Part I. of the Schedule to the Local Government Board Act, 1871, relate, without the sanction of

Estimates of proposed
application of money
borrowed by Local
Authorities in certain
cases to be recited in
the Bill, and proved
before the Select Com-
mittee thereon.

Proceedings
of
Committees
on Bills.
—

the Local Government Board, estimates showing the proposed application of the money for permanent works within the meaning of the 57th section of the Local Government Act, 1858, or as defined by any subsequent Acts, shall be recited in the Bill as introduced into Parliament, and proved before the Select Committee to which the Bill is referred.

As to Bills
relating to
Local
Government
in Ireland.

173. Whenever by any Bill application is made by or on behalf of any Municipal Corporation, Municipal Commissioners, or Town or other Commissioners in *Ireland* for any new Powers, or for any increased or additional Powers, the Promoters shall be required to obtain a certificate under the seal of the Local Government Board of *Ireland*, setting forth whether such application is made with or without the sanction and approval of the said Local Government Board, which certificate shall be produced before the Committee to whom the Bill is referred, and shall be reported upon by the said Committee.

Agreements.

Agreement to
be annexed to
Bill.

174. Where it is sought by any Bill to give Parliamentary sanction to any Agreement, such Agreement shall be annexed to the Bill as a Schedule thereto, and shall be printed *in extenso* therewith.

Letters Patent.

Copy of
Letters
Patent to be
annexed to
the Bill.

175. When any Bill shall be brought into The House for confirming of Letters Patent, there shall be a true Copy of such Letters Patent annexed to the Bill.

Inclosure and Drainage Bills.

Notices and
Allegations.
—
Gen. Inc. Act.

176. In the case of any Bill for inclosing Lands, the Committee may admit proof of the Notices required by the Standing Orders, and of the Allegations in the Preamble of such Bill, by Affidavit taken and authenticated, according to the form prescribed in the Schedule to the General Inclosure Act (41 Geo. 3, c. 109), unless such Committee shall otherwise order.

Consent Bill
and State-
ment of Pro-
perty to be
delivered in.
(Inclosure
Bills.)

177. The Committee on every Bill for inclosing Lands shall in the first place require the Agent for the same to deliver in to the Committee printed copy of the Bill, signed by the Lord of the Manor (in cases where the Lord of the Manor has any interest as such in the lands to be inclosed), and by such Owners of Property within the Parish to which the Bill relates as shall have assented thereto; but the Parties, if they shall think fit, shall be permitted to deliver in different copies of the Bill, separately signed by the several Parties hereinbefore mentioned, instead of one copy, signed by all of them collectively; together with a List of all the Owners of Property within such Parish, showing the value according to the Poor Rate or Land Tax Assessment of each Owner's Property therein, and distinguishing which of them have assented, dissented, or are neuter in respect thereto.

Consent Bill
and State-
ment of Pro-
perty to be
delivered in.
(Drainage
Bills.)

178. The Committee on every Bill for draining Lands shall in the first place require the Agent for the same to deliver in to the Committee a printed copy of the Bill, signed by such Owners and Occupiers of Property within the drainage district to which the Bill relates as shall have assented thereto; but the Parties, if they shall think fit, shall be permitted to deliver in different copies of the Bill, separately signed by the several Parties hereinbefore mentioned, instead of one copy, signed by all of them collectively; together with a List of all the Owners of Property within such district, showing the value according to the Poor Rate or Land Tax Assessment of each Owner's Property therein, or the extent in acres, roods, and perches, and distinguishing which of them have assented, dissented, or are neuter in respect thereto.

179. In

179. In every Bill for inclosing Lands, provision shall be made for leaving an open space in the most appropriate situation, sufficient for purposes of exercise and recreation of the neighbouring population; and the Committee on the Bill shall have before them the number of acres proposed to be inclosed, as also of the population in the parishes or places in which the land to be inclosed is situate; and also shall see that provision is made for the efficient fencing of the allotment, for the investment of the same in the Churchwardens and Overseers of the parish in which such open space is reserved, and for the efficient making and permanent maintenance of the fences by such parish; and in any case where the information hereby required is not given, and the required provisions are not made in the Bill, the Committee on the same shall report specially to The House the reasons for not complying with such Order.

Proceedings
of
Committees
on Bills.

Clause for
leaving open
Space for
exercise and
recreation.

180. In every Bill for inclosing Lands, the Names of the Commissioners proposed to be appointed, and the Compensation intended for the Lord of the Manor, and the Owners of Tithes, in lieu of their respective Rights, and also the Compensation intended to be made for the enfranchisement of Copyholds, where any Bargains or Agreements have been made for such Compensations, shall be inserted in the copy of the Bill presented to The House: And all copies of such Bills which shall be sent to any of the Persons interested in the said Manor, Tithes, Lands or Commons, for their Consent, shall contain the Names of such proposed Commissioners, and also the Compensations so bargained or agreed for.

Consent Bill
to contain
Names of
Commission-
ers and Com-
pensations for
Manorial
Rights,
Tithes, and
Enfranchise-
ments.

181. No Person shall be named in any Bill for inclosing Lands as a Commissioner, Umpire, Surveyor or Valuer, who shall be interested in the Inclosure to be made by virtue of such Bill; or the Agent ordinarily intrusted with the care, superintendence or management of the Estate of any Person so interested.

Disqualifica-
tion of certain
Persons as
Commis-
sioners, Sur-
veyors, &c.

182. In every Bill for inclosing, draining or improving Lands, there shall be inserted a Clause, providing what sum of Money in the whole, or by the day, shall be paid to each of the Commissioners to be appointed by such Bill, in satisfaction of the expense and trouble which he shall incur in the execution of the powers thereby given; and also a Clause, providing that the Account of such Commissioner or Commissioners, containing a true statement of all Sums by him or them received and expended, or due to him or them for their own trouble or expenses, shall, at least once in every year, from the date of the passing of the Act till such Accounts shall be finally allowed, together with the Vouchers relating to the same, be examined by some Person or Persons to be appointed by the Bill, and the Balance by him or them stated in the Book of Accounts required to be kept in the Office of the Clerk of such Commissioners; and that no charge or item in such Accounts shall be binding on the Parties concerned, or be valid in law, unless the same shall be duly allowed by such Person or Persons.

Clause for
settling Pay
of Commis-
sioners, and
passing their
Accounts.

Inclosures.

183. Whenever a Private Bill contains any provisions relating to the Inclosure of Land, which might be comprised in a Provisional Order, under the Acts for the Inclosure and Improvement of Land, the Committee do make a Special Report thereon to The House.

Committee on
any Private Bill
containing pro-
visions relating
to the Inclosure
of Land in
certain cases to
make a Special
Report.

Houses of the Labouring Classes.

184. In every Bill by which power is sought to take, in any City, Town, or Parish, Fifteen Houses or more, occupied either wholly or partially as Tenants or Lodgers, by persons belonging to the Labouring Classes, a Clause shall be inserted to enact that the Company shall, not less than Eight weeks before taking any such houses, make known their

Notice to
Occupiers by
Placards.

intention

Proceedings
of
Committees
on Bills.

intention to take the same by Placards, Handbills, or other General Notice placed in public view upon or within a reasonable distance from such Houses, and that the Company shall not take any such Houses until they have obtained the Certificate of a Justice in *England* and *Ireland*, and of the Sheriff in *Scotland*, that it has been proved to his satisfaction that the Company have made known their intention to take the same in manner required by this Provision.

Clause to be
inserted in
Bills.

185. In every such Bill a Clause shall be inserted, if applicable, requiring the Promoters to procure, within a time to be limited, sufficient accommodation for Persons belonging to the Labouring Classes, who will be displaced under the Powers of the Bill.

Committee
to report
specially to
The House.

186. The Committee upon every such Bill shall report specially to The House, whether such a Clause has been inserted in the Bill; and, if not, the grounds upon which the Committee have decided it to be inapplicable.

Turnpike Roads (Ireland).

Clause for
Qualification
of Commis-
sioners.

187. In every Bill for making a Turnpike Road in *Ireland*, or for the continuing or amending any Act passed for that purpose, or for the increase or alteration of the existing Tolls, Rates or Duties upon any such Road, or for widening or diverting any such Road, a Clause shall be inserted, to prevent any Person who shall be nominated a Commissioner from acting or voting in the business of the said Turnpike, unless he shall be possessed of an Estate in Land, or of a Personal Estate, to such certain value as shall be specified in such Bills; and such Qualification shall be extended to the Heirs apparent of Persons possessed of an Estate in Land to a certain value to be specified.

Clause for
defining
limits
of Burial
Ground,
Cemetery, or
Gas Works.

188. In every Bill for making a Burial Ground or Cemetery, or the erection of Works for the manufacture of Gas, there shall be a Clause defining the limits within which such Burial Ground, Cemetery or Gas Works shall be erected or made.

PROCEEDINGS OF SELECT COMMITTEE ON DIVORCE BILLS.

189. There shall be a Committee, to be designated "The Select Committee on Divorce Bills," to consist of *Nine* Members, who shall be nominated at the commencement of every Session, of whom *Three* shall be a Quorum.

Committee
on Divorce
Bills.

190. The Select Committee on Divorce Bills shall require evidence to be given before them that an action for damages has been brought in one of Her Majesty's Courts of Record at *Westminster*, or in one of Her Majesty's Courts of Record in *Dublin*, or in one of Her Majesty's Supreme Courts of Judicature of the Presidencies of *Calcutta*, *Madras*, *Bombay* or the Island of *Ceylon*, respectively, against the persons supposed to have been guilty of Adultery, and judgment for the plaintiff had thereupon; or sufficient cause to be shown to the satisfaction of the said Committee why such action was not brought, or such judgment was not obtained.

What
Evidence to
be given in
Divorce
Cases.

191. The Select Committee on Divorce Bills shall, in all cases in which the Petitioner for the Bill has attended the House of Lords upon the Second Reading of the Bill, require him to attend before them to answer any questions they may think fit that he should answer.

When Peti-
tioner for Bill
to attend
Committee.

192. The Select Committee on Divorce Bills shall report every such Bill to The House, whether such Committee shall or shall not have agreed to the Preamble, or gone through the several Clauses, or any of them.

Committee
to report Bill
in all cases.

IV.
THE ORDERS
REGULATING THE PRACTICE OF THE
HOUSE WITH REGARD TO
PRIVATE BILLS.

PART IV.

THE ORDERS REGULATING THE PRACTICE OF THE
HOUSE WITH REGARD TO PRIVATE BILLS.

193. No Private Bill shall be brought into this House, but upon a Petition first presented, which shall have been duly deposited in the Private Bill Office, and indorsed by one of the Examiners, with a printed copy of the proposed Bill annexed: And such Petition shall be signed by the Parties, or some of them, who are Suitors for the Bill.

Petition for
Bill, and how
to be signed.

194. All Bills promoted by the Metropolitan Board of Works, containing Power to raise Money, shall be introduced as Public Bills; but after being read a Second Time by The House, shall be referred to a Select Committee to be nominated by the Committee of Selection, in like manner as Private Bills.

Procedure
in case of
Bills pro-
moted by the
Metropolitan
Board of
Works.

195. All Petitions for Private Bills shall be presented to The House not later than Three clear Days after the same shall have been indorsed by the Examiner, or if, when the same is indorsed, The House shall not be sitting, then not later than Three clear Days after the First sitting thereof subsequent to such indorsement; and if The House shall not be sitting on the latest day on which any Petition ought to be presented, then the same shall be presented on the first day on which The House shall again sit.

Petitions,
when to be
presented.

196. All Private Bills which have been ordered to be brought in shall be presented to The House by depositing the same in the Private Bill Office, and shall be laid, by one of the Clerks of that Office, on the Table of The House for First Reading, together with a list of such Bills.

How Private
Bills to be
presented.

197. No Private Bill shall be read a First Time unless it be presented not later than One clear Day after the presentation of the Petition for leave to bring in the same; or where the Petition has been referred to the Select Committee on Standing Orders, then not later than One clear Day after The House shall have given leave to the Parties to proceed with the Bill.

Bill, when to
be presented.

198. No Petition for additional Provision in any Private Bill will be received by this House, unless a printed Copy of the proposed Clauses be annexed thereto.

Petition for
additional
Provision.

199. All Reports of the Examiner of Petitions for Private Bills, in which he shall report that the Standing Orders have not been complied with, and all Special Reports of the said Examiner, shall be referred to the Select Committee on Standing Orders.

Reports of
Examiner to
be referred to
Committee
on Standing
Orders.

200. All Petitions praying that any of the Sessional or Standing Orders of The House relating to Private Bills may be dispensed with, and all Petitions for the re-insertion of Petitions for Private Bills in the General List of Petitions, and all Petitions opposing the same, shall be presented to this House by depositing the same in the Private Bill Office;

Petitions for
Dispensation,
&c. to be
referred to
Committee
on Standing
Orders.

Practice
of
The House

Office; and every such Petition, so deposited, shall stand referred to the Select Committee on Standing Orders.

Printed Bill
to be pre-
sented.

201. Every Private Bill, printed on paper, of a size to be determined upon by Mr. Speaker, shall be presented to The House, with a Cover of Parchment attached to it, upon which the Title of the Bill is to be written; and the short Title of the Bill, as first entered on the Votes, shall correspond with that at the head of the Advertisement.

Rates, Tolls
and other
Matters to be
inserted in
Italics.

202. The proposed amount of all Rates, Tolls, and other matters heretofore left blank in any Private Bill, when presented to The House, shall be inserted in *Italics* in the printed Bill annexed to the Petition.

What Bills
to be printed,
and when.

203. Every Private Bill (except Name Bills) shall be printed; and printed copies thereof delivered to the door-keepers for the use of the Members before the First Reading.

Time between
First and Se-
cond Reading.

204. There shall not be less than *Three* clear *Days*, nor more than *Seven*, between the First and Second Reading of any Private Bill, or any Bill to confirm any Provisional Order or Provisional Certificate, unless any such Private Bill have been referred to the Examiners of Petitions for Private Bills, in which case such Bill shall not be read a second time later than *Seven* clear *Days* after the Report of the Examiner, or of the Select Committee on Standing Orders, as the case may be.

Petition re-
lating to
Bills to be
presented to
House by
being depo-
sited in the
Private Bill
Office, and
Name of Bill
to be indorsed
on every
Petition.

205. Every Petition in favour of or against any Private Bill, or any Bill to confirm any Provisional Order or Provisional Certificate before The House, or otherwise relating thereto (not being a Petition for additional Provision), shall be presented to this House, by depositing the same in the Private Bill Office, and there shall be indorsed thereon the name or short Title by which such Bill is entered in the Votes, and a Statement that such Petition is in favour of or against the Bill, or otherwise, as the case may be, together with the name of the Member, Party or Agent depositing the same.

Petitioner or
Memorialist
may with-
draw Petition
or Memorial.

206. Any Petitioner or Memorialist may withdraw his Petition or Memorial, on a requisition to that effect being deposited in the Private Bill Office, signed by him or by the Agent who deposited such Petition or Memorial; and where any such Petition or Memorial is signed by more than one person, any person signing such Petition or Memorial may withdraw his opposition by a similar requisition, signed and deposited as aforesaid.

When Second
or Third
Reading op-
posed, to be
postponed.

207. In cases where the Second or Third Reading of a Private Bill, or the consideration of a Bill as amended by the Committee, or any proposed Clause or Amendment, is opposed, the same shall be postponed until the day on which The House shall next sit.

Bills to stand
referred to
Committees
of Selection,
General
Committee,
and Divorce.

208. Every Private Bill, not being a Railway, Canal or Divorce Bill, after having been read a Second Time and committed, shall stand referred to the Committee of Selection; and if a Railway or Canal Bill, to the General Committee on Railway and Canal Bills; and if a Divorce Bill, to the Select Committee on Divorce Bills.

When unop-
posed Bill is
to be treated as
opposed, to be
again referred
to Committee
of Selection
or General
Committee.

209. When The House shall have been informed by the Chairman of Ways and Means, that in his opinion any unopposed Private Bill should be treated as an opposed Bill, such Bill shall be again referred to the Committee of Selection; or in the case of a Railway or Canal Bill, to the General Committee on Railway and Canal Bills.

210. Every

Practice
of
The House.

Petition
against Bill,
if duly depo-
sited in Pri-
vate Bill
Office, to
stand referred
to Committee
on Bill, &c.

210. Every Petition against a Private Bill which shall have been deposited in the Private Bill Office not later than Ten clear days after the First Reading of such Bill, and every Petition against any Bill to confirm any Provisional Order or Provisional Certificate, which shall have been deposited in the Private Bill Office not later than Seven clear days after the Report of the Examiner on such Bill, or which shall have been otherwise deposited in accordance with the Standing Orders of the House, and in which the Petitioners shall have prayed to be heard, by themselves, their Counsel or Agents, shall stand referred to the Committee on such Bill, and such Petitioners, subject to the Rules and Orders of the House, shall be heard upon their Petition accordingly, if they think fit, and Counsel heard, in favour of the Bill, against such Petition.

211. There shall be *Six* clear Days between the Second Reading of every Private Bill, and of every Bill to confirm any Provisional Order or Provisional Certificate, and the sitting of the Committee thereupon, except in the case of Name Bills, Naturalization Bills, and Estate Bills (not being Bills relating to Crown, Church or Corporation property, or property held in trust for Public or Charitable purposes), in respect of which there shall be *Three* clear Days between the Second Reading and the Committee

Time between
Second Read-
ing and Com-
mittee.

212. All Reports made under the authority of any Public Department upon a Private Bill, or the objects thereof, laid before The House, shall stand referred to the Committee on the Bill.

Reports of
Departments
to stand
referred to
Committee
on Bill.

213. The Report upon every Private Bill shall lie upon the Table: and every such Bill, if amended in Committee, or a Railway or a Tramway Bill, shall be ordered to lie upon the Table; but if not amended in Committee, and not a Railway or a Tramway Bill, it shall be ordered to be read a Third Time.

Report of
Bills.

214. Every Private Bill, as amended in Committee, shall be printed at the expense of the Parties applying for the same, and delivered to the Door-keepers for the use of the Members, *Three* clear Days at least before the consideration of such Bill.

Bill to be
printed after
Report.

215. In the case of Private Bills ordered to lie upon the Table, *Three* clear Days shall intervene between the Report and the consideration of the Bill, and no consideration of any such Bill shall take place, unless the Chairman of the Committee of Ways and Means shall have informed The House, or signified in writing to Mr. Speaker, whether the Bill contain the several provisions required by the Standing Orders.

Time be-
tween Report
and Consider-
ation of Bill,
&c.

216. No Clause or Amendment shall be offered in The House on the consideration of any Private Bill ordered to lie upon the Table, nor any verbal Amendment on the Third Reading of any Private Bill, unless the Chairman of the Committee of Ways and Means shall have informed The House, or signified in writing to Mr. Speaker, whether, in his opinion, such Clause or Amendment be such as ought or ought not to be entertained by The House, without referring the same to the Select Committee on Standing Orders.

No Clause or
Amendment
on considera-
tion of Bill,
or on Third
Reading, to
be offered,
unless Chair-
man of Ways
and Means
shall have
informed The
House, &c.

217. When any Clause or Amendment is offered on the consideration of any Private Bill ordered to lie upon the Table, or any verbal Amendment on the Third Reading of any Private Bill, such Clause or Amendment shall be printed: And when any Clause is proposed to be amended, it shall be printed *in extenso*, with every addition or substitution in different type, and the omissions therefrom included in brackets and underlined. The expense of printing such Clauses or Amendments, when offered by a party promoting or opposing a Bill, shall be paid by such party.

Clauses and
Amendments
offered on
consideration
of Bill, or ver-
bal Amend-
ments on
Third Read-
ing, to be
printed.

Practice
of
The House.

When referred, no further proceeding to be had until Report of Select Committee on Standing Orders.

No Amendments, except verbal, on Third Reading.

Lords' Amendments to be printed and circulated with the Votes prior to consideration, &c.

Bill to be printed fair after Third Reading.

Notice of Committee to inspect Lords' Journals to be given to Committee Clerks.

Bill not to proceed two stages on same day.

Notice to be given of Motion for dispensation.

Order of Proceedings in House on Private Business.

Tolls and Charges not in the nature of a Tax.

218. When any Clause or Amendment on the consideration of any Private Bill ordered to lie upon the Table, or any verbal Amendment on the Third Reading of any Private Bill, shall have been referred to the Select Committee on Standing Orders, no further proceeding shall be had until the Report of the said Select Committee shall have been brought up.

219. No Amendments, not being merely verbal, shall be made to any Private Bill on the Third Reading.

220. All Amendments made by the House of Lords to any Private Bill shall be printed at the expense of the parties, and circulated with the Votes, prior to such Amendments being taken into consideration; and where any Clause has been amended, it shall be printed *in extenso*, with every addition or substitution in different type, and the omissions therefrom included in brackets and underlined; and when any Amendments are intended to be proposed to the Lords' Amendments, such proposed Amendments shall also be printed in like manner.

221. Every Private Bill, after it has been read a Third time, shall be printed fair, at the expense of the Parties applying for the same.

222. In all cases where it is intended to appoint a Committee to inspect the Journals of the House of Lords with relation to any proceedings upon any Private Bill, previous notice thereof in writing shall be given by the Agent to the Clerks in the Committee Office.

223. No Private Bill shall pass through two stages on one and the same day without the special leave of The House.

224. Except in cases of urgent and pressing necessity, no Motion shall be made to dispense with any Sessional or Standing Order of The House without due notice thereof.

225. Each day, so soon as The House shall be ready to proceed to Private Business, the Clerk at the Table shall read from the Private Business List, and from the List of Bills presented for First Reading (*see* Order 192), the Titles of the several Bills set down therein, according to their precedence, as arranged under the following heads:—

1. Consideration of Lords' Amendments;
2. Third Reading;
3. Consideration of Bills ordered to lie upon the Table;
4. Second Reading;
5. First Reading;

and if upon the reading of each such Title as aforesaid, no Motion shall be made with respect to such Private Bill, the further proceedings thereon shall be adjourned until the next sitting of The House.

226. This House will not insist on its privileges with regard to any Clauses in Private Bills, or in Bills to confirm any Provisional Orders or Provisional Certificates sent down from the House of Lords which refer to tolls and charges for services performed, and are not in the nature of a Tax, or which refer to rates assessed and levied by local authorities for local purposes.

V.
THE ORDERS
REGULATING THE PRACTICE IN THE
PRIVATE BILL OFFICE.

PART V.

THE ORDERS REGULATING THE PRACTICE IN THE
PRIVATE BILL OFFICE.

227. Registers shall be kept in "THE PRIVATE BILL OFFICE," in which shall be entered by the Clerks appointed for the business of that Office, the Name and Place of Residence of the Parliamentary Agent in Town, and of the Agent in the Country (if any) soliciting the Bill; and all the Proceedings, from the Petition to the passing of the Bill:—Such Entries to specify, briefly, each day's Proceeding before the Examiners of Petitions respectively, or in The House, or in any Committee to which the Bill may be referred; the day and hour on which the Examiner or the Committee is appointed to sit; the day and hour to which the Proceedings before such Examiners or Committee may be adjourned, and the name of the Clerk attending the same. Such Registers to be open to public inspection daily in the said Office.

Private Bill
Office and
Registers.

228. The receipt of all Documents required by the Standing Orders of The House to be deposited in the Private Bill Office, shall be acknowledged by one of the Clerks of the said Office, upon the said Documents, when deposited.

Receipt of
Documents
to be acknow-
ledged.

229. A List of all Petitions for Private Bills shall be kept in the Private Bill Office in the order of their deposit, according to such regulations as shall have been made by Mr. Speaker, which shall be called the "General List of Petitions," and each Petition therein shall be numbered.

List of Peti-
tions to be
kept.

230. All Memorials complaining of non-compliance with the Standing Orders, in reference to Petitions for Bills deposited in the Private Bill Office on or before the 21st December, shall be deposited as follows:

Memorials,
when to be
deposited.

If the same relate to Petitions for Bills numbered in the General List of Petitions;

From

1 to 100	} They shall be deposited {	January 9th.
101 to 200		" 16th.
201 and upwards		" 23rd.

And in the case of any Petitions for Bills which may be deposited by leave of The House after the 21st December, such Memorials shall be deposited Three clear Days before the day first appointed for the examination of the Petition.

231. All Memorials shall be deposited in the Private Bill Office before Six of the clock in the evening of any day on which The House shall sit, and before Two of the clock on any day on which The House shall not sit; and Two copies of every such Memorial shall be deposited for the use of the Examiners before Twelve of the clock on the following day.

Deposit of
Memorials
and Copies
thereof in
Private Bill
Office.

232. Every Memorial complaining of non-compliance with the Standing Orders of The House in reference to Petitions for additional provision

Time for
depositing
Memorials

Office.

in certain
cases, &c.

provision in Private Bills, to Bills brought from the House of Lords and to Bills introduced by leave of this House in lieu of other Bills which shall have been withdrawn, and to Bills for confirming any Provisional Order or Provisional Certificate, shall be deposited in the Private Bill Office, together with Two Copies thereof, before Twelve o'clock on the day preceding that appointed for the examination of any such Petition or Bill by the Examiner; and the Examiner shall be at liberty to entertain such Memorial, although the party (if any) who may be specially affected by the non-compliance with the Standing Orders shall not have signed the same.

Custody of
Bills.

233. Every Private Bill, after it has been read the First Time, shall be in the custody of the Clerks of the Private Bill Office, until laid upon the Table for the Second Reading; and when committed, shall be taken by the proper Committee Clerk into his charge, till reported.

Examination
of Bills.

234. Between the First and Second Reading of every Private Bill, the Bill shall be examined, with all practicable despatch, by the Clerks of the Private Bill Office, as to its conformity with the Rules and Standing Orders of The House.

Notice of
Second Read-
ing.

235. *Three* clear Days' Notice in writing shall be given by the Agent for the Bill, to the Clerks in the Private Bill Office, of the day proposed for the Second Reading of every Private Bill; and no such Notice shall be given until the day after that on which the Bill has been ordered to be read a second time.

Notice of
Committee.

236. *Four* clear Days' Notice in the case of Opposed Bills, and *One* clear Day's Notice in the case of Unopposed and Re-committed Bills, shall be given to the Clerks in the Private Bill Office by the Clerk to the Committee of Selection, or by the Clerk to the General Committee on Railway and Canal Bills, with regard to all Bills referred to either of the said Committees, and, with regard to Bills not referred to either of the said Committees, by the Clerk to the Committee to which any such Bill is either referred or Re-committed, of the day and hour appointed for the first meeting of the Committee on every Private Bill, and notice shall be given in like manner of the postponement of the first meeting of the Committee on every Private Bill on the day on which such postponement is made.

Filled-up
Bill to be de-
posited in
Private Bill
Office.

237. A filled-up Bill, signed by the Agent for the Bill, as proposed to be submitted to the Committee on the Bill, and in the case of a re-committed Bill, a filled-up Bill, as proposed to be submitted to the Committee on re-committal, shall be deposited in the Private Bill Office *Two* clear days before the meeting of the Committee on every Private Bill; and a Copy of the proposed Amendments shall be furnished by the Promoters to such Parties petitioning against the Bill as shall apply for it, *One* clear day before the meeting of the Committee.

Notice of
Adjournment.

238. Notice, in writing, shall be given by the Committee Clerk to the Clerks in the Private Bill Office, of the day and hour to which each Committee is adjourned.

Notice of
consideration
of Bill.

239. *One* clear Day's Notice, in writing, shall be given by the Agent for the Bill, to the Clerks in the Private Bill Office, of the day proposed for the consideration of every Private Bill ordered to lie upon the Table.

240. The Committee Clerk, after the Report is made out, shall deliver in to the Private Bill Office a printed Copy of the Bill, with the written Amendments made in the Committee; in which Bill all the Clauses added by the Committee shall be regularly marked in those parts of the Bill wherein they are to be inserted.

Practice
in the
Private Bill
Office.

Bill as
amended in
Committee
to be deli-
vered in.

241. Every Private Bill printed as amended in Committee, shall be examined by the Clerks in the Private Bill Office, with the Bill delivered in by the Committee Clerk, and the Examining Clerks shall indorse thereon a certificate of such examination.

Bill printed
as amended,
to be exa-
mined.

242. When it is intended to bring up any Clause or to propose any Amendment on the consideration of any Private Bill ordered to lie upon the Table, or any verbal Amendment on the Third Reading of any Private Bill, Notice shall be given thereof, in the Private Bill Office, *One* clear day previous to such consideration or Third Reading.

Notice to be
given of
Clauses, &c.
on considera-
tion of Bill,
or verbal
Amendments
on Third
Reading.

243. *One* clear Day's Notice, in writing, shall be given by the Agent for the Bill, to the Clerks in the Private Bill Office, of the day proposed for the *Third Reading* of every Private Bill; and no such Notice shall be given until the day after that on which the Bill shall have been ordered to be read a Third Time.

Notice of
Third
Reading.

244. The Amendments (if any) which are made on the consideration of any Private Bill ordered to lie upon the Table, and on the Third Reading of any Private Bill, and also such Amendments made by the House of Lords as shall have been agreed to by this House, shall be entered by one of the Clerks in the Private Bill Office, upon the printed Copy of the Bill as amended in Committee; which Clerk shall sign the said Copy so amended, in order to its being deposited and preserved in the said Office.

Amendments
on considera-
tion of Bill
and Third
Reading.

245. Every Private Bill, after it has been printed fair shall, before the same is sent to the Lords, be examined by the Clerks in the Private Bill Office with the Bill as read a third time; and the Examining Clerks shall indorse thereon a certificate of such examination.

Private Bills
sent to The
Lords to be
indorsed with
Certificate of
Examination.

246. When Amendments made by the House of Lords to any Private Bill are to be taken into consideration, *One* clear Day's Notice shall be given thereof in the Private Bill Office, and if any Amendments be intended to be proposed thereto, a copy of such Amendments shall also be deposited, and Notice given thereof, *One* clear Day previous to the same being proposed to be taken into consideration; and no such Notice shall be given until the day after that on which such Bill shall have been returned from the House of Lords.

Notice of
consideration
of Lords'
Amendments.

247. All *Notices* required to be given or Deposits to be made in the Private Bill Office shall be delivered in the said Office before *Six* of the clock in the *Evening* of any day on which The House shall sit, and before *Two* of the clock on any day on which The House shall not sit; and after any day on which The House shall have adjourned beyond the following day, no Notice shall be given for the first day on which it shall again sit.

Time for
delivering
Notices.

248. The Clerks in the Private Bill Office shall prepare, daily, Lists of all Private Bills, and Petitions for Private Bills upon which any Committee or Examiner is appointed to sit; specifying the hour of meeting, and the Room where the Committee or Examiner shall sit; and the same shall be hung up in the Lobby of the House.

APPENDIX (A.)

[FORM referred to in Page 11.]

No. _____

Sir,

WE beg to inform you, that Application is intended to be made to Parliament in the ensuing Session for "An Act" [*here insert the Title of the Act*], and that the Property mentioned in the annexed Schedule, or some Part thereof, in which we understand you are interested as therein stated, will be required for the Purposes of the said Undertaking, according to the Line thereof as at present laid out, or may be required to be taken under the usual Powers of Deviation to the Extent of _____ Yards on either side of the said Line which will be applied for in the said Act.

We also beg to inform you, that a Plan and Section of the said Undertaking, with a Book of Reference thereto, have been or will be deposited with the [*several Clerks of the Peace, or principal Sheriff Clerks, as the case may be*] of the Counties of [*specify the Counties in which the Property is situate*], on or before the 30th of November, and that Copies of so much of the said Plan and Section as relates to the [*Parish or extra-parochial place, as the case may be*], in which your Property is situate, with a Book of Reference thereto, have been or will be deposited for public Inspection with the [*Clerk of the said Parish, Clerk of the Parish of _____ adjoining to such extra-parochial place, Session Clerk, Town Clerk of the Royal Burgh, or the Clerk of the Union in which such Parish is included, as the case may be*], on or before the 30th day of November, on which Plans your Property is designated by the Numbers set forth in the annexed Schedule.

As we are required to report to Parliament whether you assent to or dissent from the proposed Undertaking, or whether you are neuter in respect thereto, you will oblige us by writing your Answer of Assent, Dissent or Neutrality in the Form left herewith, and returning the same to us with your Signature on or before the _____ day of _____ next; and if there should be any Error or Misdescription in the annexed Schedule, we shall feel obliged by your informing us thereof, at your earliest convenience, that we may correct the same without delay.

We are, Sir,

Your most obedient servants,

To

Note.—If the Application be forwarded by Post, the words "Parliamentary Notice" are to be printed or written on the cover.

SCHEDULE referred to in the foregoing Notice, describing the Property therein alluded to.

	Parish, Township, Townland, or Extra-parochial Place.	Number on Plans.	Description.	Owner.	Lessee.	Occupier.
Property on the Line of the proposed Work, or within the Limits of the Deviation intended to be applied for.						

APPENDIX (B.)

ANNO PRIMO VICTORIÆ REGINÆ.

CAP. LXXXIII.

AN ACT to compel Clerks of the Peace for Counties and other Persons to take the Custody of such Documents as shall be directed to be deposited with them under the Standing Orders of either House of Parliament.

WHEREAS the Houses of Parliament are in the habit of requiring that, previous to the introduction of any Bill into Parliament for making certain bridges, turnpike-roads, cuts, canals, reservoirs, aqueducts, waterworks, navigations, tunnels, archways, railways, piers, ports, harbours, ferries, docks and other works, to be made under the authority of Parliament, certain maps or plans and sections, and books and writings, or extracts or copies of or from certain maps, plans or sections, books and writings, shall be deposited in the office of the clerk of the peace for every county, riding or division in England or Ireland, or in the office of the sheriff clerk of every county in Scotland, in which such work is proposed to be made, and also with the parish clerk in every parish in England, the schoolmaster of every parish of Scotland, or in Royal Burghs with the town clerk, and the postmaster of the post town in or nearest to every parish in Ireland, in which such work is intended to be made, and with other persons: And whereas it is expedient that such maps, plans, sections, books, writings and copies or extracts of and from the same, should be received by the said clerks of the peace, sheriff clerks, parish clerks, schoolmasters, town clerks, postmasters and other persons, and should remain in their custody for the purposes hereinafter mentioned; BE it therefore Enacted by The QUEEN's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, THAT whenever either of the Houses of Parliament shall by its Standing Orders, already made or hereafter to be made, require that any such maps, plans, sections, books or writings, or extracts or copies of the same, or any of them, shall be deposited as aforesaid, such maps, plans, sections, books, writings, copies and extracts shall be received by and shall remain with the clerks of the peace, sheriff clerks, parish clerks, schoolmasters, town clerks, postmasters and other persons with whom the same shall be directed by such Standing Orders to be deposited, and they are hereby respectively directed to receive and to retain the custody of all such documents and writings so directed to be deposited with them respectively, in the manner and for the purposes and under the rules and regulations concerning the same respectively directed by such Standing Orders, and shall make such memorials and endorsements on and give such acknowledgments and receipts in respect of the same respectively as shall be thereby directed.

II. And be it further Enacted, That all persons interested shall have liberty to, and the said clerks of the peace, sheriff clerks, parish clerks, schoolmasters, town clerks and postmasters, and every of them, are and is hereby required, at all reasonable hours of the day, to permit all persons interested to inspect during a reasonable time and make extracts from or copies of the said maps, plans, sections, books, writings, extracts and copies of or from the same, so deposited with them respectively, on payment by each person to the clerk of the peace, sheriff clerk, clerk of the parish, schoolmaster, town clerk or postmaster having the custody of any such map, plan, section, book, writing, extract or copy, One Shilling for every such inspection, and the further sum of One Shilling for every hour during which such inspection shall continue after the first hour, and after the rate of Sixpence for every One hundred words copied therefrom.

III. And be it further Enacted, That in case any clerk of the peace, sheriff clerk, parish clerk, schoolmaster, town clerk, postmaster or other person, shall in any matter or thing refuse or neglect to comply with any of the provisions hereinbefore contained, every clerk of the peace, sheriff clerk, parish clerk, schoolmaster, town clerk, postmaster or other person shall for every such offence forfeit and pay any sum not exceeding the sum of Five Pounds; and every such penalty shall, upon proof of the offence before any Justice of the Peace for the county within which such offence shall be committed, or by the confession of the party offending, or by the oath of any credible witness, be levied and recovered, together with the costs of the proceedings for the recovery thereof, by distress and sale of the goods and effects of the party offending, by warrant under the hand of such Justice, which warrant such Justice is hereby empowered to grant, and shall be paid to the person or persons making such complaint; and it shall be lawful for any such Justice of the Peace to whom any complaint shall be made of any offence committed against this Act to summon the party complained of before him, and on such summons to hear and determine the matter of such complaint in a summary way, and on proof of the offence to convict the offender, and to adjudge him to pay the penalty or forfeiture incurred, and to proceed to recover the same, although no information in writing or in print shall have been exhibited or taken by or before such Justice; and all such proceedings by summons without information shall be as good, valid and effectual to all intents and purposes as if an information in writing had been exhibited.

Clerks of the Peace, &c. to receive the Documents herein mentioned, and retain them for the purposes directed by the Standing Orders of the Houses of Parliament.

Clerks of the Peace, &c. to permit such Documents to be inspected or copied by persons interested.

Clerks of the Peace, &c. for every omission to comply with the provisions of this Act, liable to the Penalty of 5*l.*, to be recovered in a summary way.

Appendix.

APPENDIX (C.)

ANNO NONO VICTORIÆ REGINÆ.

CAP. XX.

AN ACT to amend an Act of the Second Year of Her present Majesty, for providing for the Custody of certain Monies paid in pursuance of the Standing Orders of either House of Parliament by Subscribers to Works or Undertakings to be effected under the Authority of Parliament.

1 & 2 Vict.,
c. 117.

Recited Act
repealed.
Monies
already paid
in to be dealt
with as di-
rected by
former Act.

Authority to
deposit.

WHEREAS an Act was passed in the second year of the reign of Her present Majesty Queen VICTORIA, intituled, "An Act to provide for the Custody of certain Monies paid in pursuance of the Standing Orders of either House of Parliament, by Subscribers to Works or Undertakings to be effected under the Authority of Parliament:" And whereas it is expedient that the said Act should be repealed and should be re-enacted, with such modifications, extensions and alterations as after mentioned: BE it therefore Enacted, by The QUEEN's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, THAT the said Act shall be and is hereby repealed: Provided always, That all acts done under the provisions of the said Act shall be good, valid and effectual to all intents and purposes, and that all sums of money paid under the provisions of the said Act shall be dealt with in all respects as if this Act had not been passed.

II. And be it Enacted, That in all cases in which any sum of money is required by any Standing Order of either House of Parliament, either now in force or hereafter to be in force, to be deposited by the subscribers to any work or undertaking which is to be executed under the authority of an Act of Parliament, if the director or person or directors or persons having the management of the affairs of such work or undertaking, not exceeding Five in number, shall apply to one of the Clerks in the office of the Clerk of the Parliaments with respect to any such money required by any Standing Order of the Lords Spiritual and Temporal in Parliament assembled, or to one of the Clerks of the Private Bill Office of the House of Commons with respect to any such money required by any Standing Order of the Commons in Parliament assembled, to be deposited, it shall be lawful for the Clerk so applied to, by warrant or order under his hand, to direct that such sum of money shall be paid in manner hereinafter mentioned; (that is to say) into the Bank of England in the name and with the privity of the Accountant-general of the Court of Chancery in England, if the work or undertaking in respect of which the sum of money is required to be deposited is intended to be executed in that part of the United Kingdom called England; or into any of the Banks in Scotland established by Act of Parliament or Royal Charter in the name and with the privity of The Queen's Remembrancer of the Court of Exchequer in Scotland, at the option of the person or persons making such application as aforesaid, in case such work or undertaking is intended to be executed in that part of the United Kingdom called Scotland; or into the Bank of Ireland in the name and with the privity of the Accountant-general of the Court of Chancery in Ireland, in case such work or undertaking is intended to be made or executed in that part of the United Kingdom called Ireland; and such warrant or order shall be a sufficient authority for the Accountant-general of the Court of Chancery in England, the Queen's Remembrancer of the Court of Exchequer in Scotland, and the Accountant-general of the Court of Chancery in Ireland, respectively, to permit the sum of money directed to be paid by such warrant or order to be placed to an account opened or to be opened in his name in the bank mentioned in such warrant or order.

Payment of
Deposit.

III. And be it Enacted, That it shall be lawful for the person or persons named in such warrant or order, or the survivors or survivor of them, to pay the sum mentioned in such warrant or order into the bank mentioned in such warrant or order in the name and with the privity of the officer or person in whose name such sum shall be directed to be paid by such warrant or order, to be placed to his account there ex-parte the work or undertaking mentioned in such warrant or order, pursuant to the method prescribed by any Act or Acts for the time being in force for regulating monies paid into the said Courts, and pursuant to the General Orders of the said Court respectively, and without fee or reward; and every such sum so paid in, or the securities in or upon which the same may be invested as hereinafter mentioned, or the stocks, funds or securities authorized to be transferred or deposited in lieu thereof as hereinafter mentioned, shall there remain until the same, with all interest and dividends (if any) accrued thereon, shall be paid out of such bank, in pursuance of the provisions of this Act: Provided always, That in case any such director or person, directors or persons, having the management of any such proposed work or undertaking as aforesaid, shall have previously invested in the Three per Centum Consolidated or the Three per Centum Reduced Bank Annuities, Exchequer Bills, or other Government Securities, the sum or sums of money required by any such Standing Order of either House of Parliament as aforesaid to be deposited by the subscribers to any work

or

or undertaking which is to be executed under the authority of an Act of Parliament, it shall be lawful for the person or persons named in such warrant or order, or the survivors or survivor of them, to deposit such Exchequer Bills or other Government securities in the bank mentioned in such warrant or order in the name and with the privity of the officer or person in whose name such sum shall by such warrant or order be directed to be paid, or to transfer such Government stocks or funds into the name of the officer or person; and such transfer or deposit shall be directed by such Clerk of the Office of the Clerk of the Parliaments, or such Clerk of the Private Bill Office of the House of Commons, as the case may be, in lieu of payment of so much of the sum of money required to be deposited as aforesaid as the same Exchequer Bills, or other the Government stocks or funds, will extend to satisfy at the price at which the same were originally purchased by the said person or persons, director or directors, as aforesaid, such price to be proved by production of the broker's certificate of such original purchase.

Appendix.

IV. And be it Enacted, That if the person or persons named in such warrant or order, or the survivors or survivor of them, desire to have invested any sum so paid into the Bank of England or the Bank of Ireland, or any interest or dividend which may have accrued on any stocks or securities so transferred or deposited as aforesaid, the Court in the name of whose Accountant-general the same may have been paid may, on a Petition presented to such Court, in a summary way by him or them, order that such sum or such interest or dividends shall, until the same be paid out to the parties entitled to the same in pursuance of this Act, be laid out in the Three per Centum Consolidated or Three per Centum Reduced Bank Annuities, or any Government security or securities, at the option of the aforesaid person or persons, or the survivor or survivors of them.

Investment of
Deposit.

V. And be it Enacted, That on the termination of the Session of Parliament in which the Petition or Bill for the purpose of making or sanctioning any such work or undertaking shall have been introduced into Parliament, or if such Petition or Bill shall be rejected or finally withdrawn by some proceeding in either House of Parliament, or shall not be allowed to proceed, or if the person or persons by whom the said money was paid or security deposited, shall have failed to present a Petition, or if an Act be passed authorizing the making of such work or undertaking, and if in any of the foregoing cases the person or persons named in such warrant or order, or the survivors or survivor of them, or the majority of such persons, apply by Petition to the Court in the name of whose Accountant-general the sum of money mentioned in such warrant or order shall have been paid, or such Exchequer Bills, stocks, or funds shall have been deposited or transferred as aforesaid, or to the Court of Exchequer in Scotland, in case such sum of money shall have been paid in the name of the said Queen's Remembrancer, the Court in the name of whose Accountant-general or Queen's Remembrancer such sum of money shall have been paid, or such Exchequer Bills, stocks or funds shall have been deposited or transferred, shall by order direct the sum of money paid in pursuance of such warrant or order, or the stocks, funds or securities in or upon which the same may have been invested, and the interest or dividends thereof, or the Exchequer Bills, stocks or funds so deposited or transferred as aforesaid, and the interest and dividends thereof, to be paid or transferred to the party or parties so applying, or to any other person or persons whom they may appoint in that behalf; but no such order shall be made in the case of any such Petition or Bill being rejected or not being allowed to proceed, or being withdrawn or not being presented, or of an Act being passed authorizing the making of such work or undertaking, unless upon the production of the certificate of the Chairman of Committees of the House of Lords with reference to any proceeding in the House of Lords, or of the Speaker of the House of Commons, with reference to any proceeding in the House of Commons, that the said Petition or Bill was rejected or not allowed to proceed, or was withdrawn during its passage through one of the Houses of Parliament, or was not presented, or that such Act was passed, which certificate the said Chairman or Speaker shall grant on the application in writing of the person or persons, or the majority of the persons, named in such warrant, or the survivor or survivors of them: Provided always, That the granting of any such certificate, or any mistake or error therein or in relation thereto, shall not make the Chairman or Speaker signing the same liable in respect of any monies, stocks, funds and securities which may be paid, deposited, invested or transferred in pursuance of the provisions of this Act, or the interest or dividends thereof.

Repayment
of Deposit.Granting
Certificate,
&c. not to
make the
Chairman or
Speaker
signing the
same liable.

STANDING ORDERS relative to PUBLIC MATTERS.

BILLS respecting RELIGION.

[30 April 1772.]

THAT no Bill relating to Religion, or the alteration of the Laws concerning Religion, be brought into this House, until the Proposition shall have been first considered in a Committee of the whole House, and agreed unto by The House.

BILLS respecting TRADE.

[9 April 1772.]

THAT no Bill relating to Trade, or the alteration of the Laws concerning Trade, be brought into The House, until the Proposition shall have been first considered in a Committee of the whole House, and agreed unto by The House.

APPLICATIONS for PUBLIC MONEY.

[20 March 1866.]

THAT this House will receive no Petition for any Sum relating to Public Service, or proceed upon any Motion for a Grant or Charge upon the Public Revenue, whether payable out of the Consolidated Fund or out of Monies to be provided by Parliament, unless recommended from The Crown.

[29 March 1707.]

THAT this House will not proceed upon any Petition, Motion or Bill, for granting any Money, or for releasing or compounding any Sum of Money owing to The Crown, but in a Committee of the whole House.

[20 March 1866.]

THAT if any Motion be made in The House for any Aid, Grant, or Charge upon the Public Revenue, whether payable out of the Consolidated Fund or out of Monies to be provided by Parliament, or for any Charge upon the People, the consideration and debate thereof shall not be presently entered upon, but shall be adjourned till such further day as The House shall think fit to appoint, and then it shall be referred to a Committee of the whole House before any Resolution or Vote of The House do pass therein.

[25 March 1715.]

THAT this House will not receive any Petition for compounding any Sum of Money owing to The Crown, upon any branch of the Revenue, without a Certificate from the proper Officer or Officers annexed to the said Petition, stating the Debt, what Prosecutions have been made for the Recovery of such Debt, and setting forth how much the Petitioner and his Security are able to satisfy thereof.

[22 February 1821.]

THAT this House will not proceed upon any Motion for an Address to The Crown, praying that any money may be issued, or that any expense may be incurred, but in a Committee of the whole House.

Revenues of India.

[21 July 1856.]

THAT this House will not receive any Petition, or proceed upon any Motion for a Charge upon the Revenues of India, but what is recommended by The Crown.

PECUNIARY PENALTIES.

[24 July 1849.]

THAT with respect to any Bill brought to this House from the House of Lords, or returned by the House of Lords to this House, with Amendments, whereby any pecuniary penalty, forfeiture or fee shall be authorized, imposed, appropriated, regulated, varied, or extinguished, this House will not insist on its ancient and undoubted privileges in the following cases :

1. When the object of such pecuniary penalty or forfeiture is to secure the execution of the Act, or the punishment or prevention of offences.

2. Where such fees are imposed in respect of benefit taken or service rendered under the Act, and in order to the execution of the Act, and are not made payable into the Treasury or Exchequer, or in aid of the Public Revenue, and do not form the ground of public accounting by the parties receiving the same, either in respect of deficit or surplus.

3. When such Bill shall be a Private Bill for a Local or Personal Act.

TEMPORARY LAWS.

[24 July 1849.]

THAT the precise duration of every Temporary Law be expressed in a distinct Clause at the end of the Bill.

PRESENTATION of PUBLIC PETITIONS.

[14 April 1842 and 5 August 1853.]

THAT every Member offering to present a Petition to The House, not being a Petition for a Private Bill, or relating to a Private Bill before The House, do confine himself to a statement of the Parties from whom it comes, of the number of signatures attached to it, and of the material allegations contained in it, and to the reading of the prayer of such Petition.

THAT every such Petition not containing matter in breach of the Privileges of this House, and which, according to the Rules or usual Practice of this House, can be received, be brought to the Table by the direction of The Speaker, who shall not allow any Debate, or any Member to speak upon, or in relation to, such Petition ; but it may be read by the Clerk at the Table, if required.

THAT, in the case of such Petition complaining of some present personal grievance, for which there may be an urgent necessity for providing an immediate remedy, the matter contained in such Petition may be brought into discussion on the presentation thereof.

THAT all other such Petitions, after they shall have been ordered to lie on the Table, be referred to the Committee on Public Petitions, without any Question being put ; but if any such Petition relate to any matter or subject, with respect to which the Member presenting it has given Notice of a Motion, and the said Petition has not been ordered to be printed by the Committee, such Member may, after Notice given, move that such Petition be printed with the Votes.

THAT, subject to the above regulations, Petitions against any Resolution or Bill imposing a Tax or Duty for the current service of the year, be henceforth received, and the usage under which The House has refused to entertain such Petitions be discontinued:

MEMBERS' PLACES.

[6 April 1835.]

THAT no Member's name be affixed to any seat in the House before the hour of Prayers; and that the Speaker do give directions to the doorkeepers accordingly.

[29 April 1838.]

THAT any Member having secured a seat at Prayers shall be entitled to retain the same until the rising of The House.

STRANGERS.

[5 February 1845.]

THAT the Serjeant-at-Arms attending this House do, from time to time, take into his custody any Stranger whom he may see, or who may be reported to him to be, in any part of the House or Gallery appropriated to the Members of this House, and also any Stranger who, having been admitted into any other part of the House or Gallery, shall misconduct himself, or shall not withdraw when Strangers are directed to withdraw, while The House, or any Committee of the whole House, is sitting; and that no person so taken into custody be discharged out of custody without the special order of The House.

THAT no Member of this House do presume to bring any Stranger into any part of the House or Gallery appropriated to the Members of this House, while The House, or a Committee of the whole House, is sitting.

PRAYERS.

[25 June 1852 and 21 July 1856.]

THAT the Serjeant-at-Arms attending this House do, from time to time, when The House is going to Prayers, give Notice thereof to all Committees; and that all proceedings of Committees, after such Notice, be declared to be null and void, unless such Committees be otherwise empowered to sit after Prayers.

LETTERS.

[25 June 1852.]

THAT, to prevent the intercepting or losing of Letters directed to Members of this House, the person appointed to bring Letters from the General Post Office to this House, or some other person to be appointed by the Postmaster-General, do for the future, every day during the Session of Parliament, Sundays excepted, constantly attend, from Ten of the clock in the morning till Seven in the afternoon, at the place appointed for the delivery of the said Letters, and take care, during his stay there, to deliver the same to the several Members to whom they shall be directed, or to their known servant or servants, or other persons bringing notes under the hands of the Members sending for the same.

THAT the said Officer do, upon his going away, lock up such Letters as shall remain undelivered; and that no Letter be delivered but within the hours aforesaid.

THAT the said Orders be sent to the Postmaster-General at the commencement of each Session.

THAT, when any Letter or Packet directed to this House shall come to Mr. Speaker, he do open the same; and acquaint the House, at their next sitting, with the contents thereof, if proper to be communicated to this House.

PUBLIC BUSINESS.

ORDERS OF THE DAY.

[3 May 1861.]

THAT, unless The House shall otherwise direct, all Orders of the Day set down in the Order Book for Mondays, Wednesdays, Thursdays and Fridays, shall be disposed of before The House will proceed upon any Motions of which Notices shall have been given, the right being reserved to Her Majesty's Ministers of placing Government Orders at the head of the list on every Order Day, except Wednesday.

[5 August 1853.]

THAT at the time fixed for the commencement of Public Business, on days on which Orders have precedence of Notices of Motions, and after the Notices of Motions have been disposed of on all other days, Mr. Speaker do direct the Clerk at the Table to read the Orders of the Day, without any Question being put.

THAT the Orders of the Day be disposed of in the order in which they stand upon the Paper; the right being reserved to Her Majesty's Ministers of placing Government Orders at the head of the List, in the rotation in which they are to be taken on the days on which Government Bills have precedence.

THAT all Dropped Orders of the Day be set down in the Order Book after the Orders of the Day for the next day on which the House shall sit.

NOTICES OF MOTIONS.

[5 August 1853.]

THAT no Notice shall be given beyond the period which shall include the Four Days next following on which Notices are entitled to precedence; due allowance being made for any intervening adjournment of The House, and the period being in that case so far extended as to include Four Notice Days falling during the sitting of The House.

WEDNESDAY SITTINGS.

[5 August 1853.]

THAT The House do meet every Wednesday, at Twelve o'clock at noon, for Private Business, Petitions, Orders of the Day, and Notices of Motions, and do continue to sit until Six o'clock, unless previously adjourned.

THAT when such business has been disposed of, or at Six o'clock precisely, notwithstanding there may be business under discussion, Mr. Speaker do adjourn The House, without putting any Question.

THAT the business under discussion, and any business not disposed of at the time of such Adjournment, do stand as Orders of the Day for the next day on which The House shall sit.

[19 July 1854.]

THAT at a quarter before Six o'clock on Wednesday, the Debate on any business then under discussion shall stand adjourned to the next day on which The House shall sit; after which no opposed business shall be proceeded with.

[5 August 1853.]

THAT whenever The House shall be in Committee on Wednesday at a quarter before Six o'clock, the Chairman do report Progress, and Mr. Speaker do resume the Chair.

MORNING SITTINGS.

[19 July 1854.]

THAT whenever The House shall meet, for despatch of business, before Two o'clock, except Wednesday and Saturday, unless The House shall otherwise order, The House will resume its sitting at Six o'clock; and when business has not been disposed of at Ten minutes before

before Four o'clock, unless The House shall otherwise order, Mr. Speaker shall adjourn the Debate on any business then under discussion, or the Chairman shall report Progress, as the case may be, and no opposed business shall then be proceeded with.

THAT when such business has not been disposed of at Four o'clock, unless The House shall otherwise order, Mr. Speaker (or the Chairman, in case The House shall be in Committee) do leave the Chair, and The House will resume its sitting at Six o'clock, when the Orders of the Day not disposed of at the morning sitting, and any Motion which was under discussion at Ten minutes to Four o'clock, shall be set down in the Order Book after the other Orders of the Day.

[5 August 1853.]

THAT whenever The House shall be in Committee at Four o'clock, the Chairman do report Progress when The House resumes its sitting.

QUESTIONS DECIDED WITHOUT AMENDMENT OR DEBATE.

[5 August 1853.]

THAT when any Bill shall be presented by a Member, in pursuance of an Order of this House, or shall be brought from the Lords, the Questions "That this Bill be now read a first time," and "That this Bill be printed," shall be decided without Amendment or Debate.

SUPPLY AND WAYS AND MEANS.

[28 July 1870.]

THAT this House will, in future, appoint the Committees of Supply and Ways and Means, at the commencement of every Session, so soon as an Address has been agreed to, in answer to Her Majesty's Speech.

[3 May 1861.]

THAT the Committees of Supply and Ways and Means shall be fixed for Monday, Wednesday and Friday, and may also be appointed for any other day on which the House shall meet for despatch of business.

THAT, while the Committees of Supply and Ways and Means are open, the House, when it meets on Friday, shall, at its rising, stand adjourned until the following Monday, without any Question being put, unless The House shall otherwise resolve.

THAT, while the Committees of Supply and Ways and Means are open, the first Order of the Day on Friday shall be either Supply or Ways and Means, and that on that Order being read, the Question shall be proposed, "That Mr. Speaker do now leave the Chair."

BILLS, &c. IN PROGRESS.

[5 August 1853.]

THAT when a Bill or other matter (except Supply, or Ways and Means) has been partly considered in Committee, and the Chairman has been directed to report Progress, and ask leave to sit again, and The House shall have ordered that the Committee shall sit again on a particular day, The Speaker shall, when the Order for the Committee has been read, forthwith leave the Chair, without putting any Question, and The House shall thereupon resolve itself into such Committee.

BILLS REPORTED.

[5 August 1853.]

THAT at the close of the Proceedings of a Committee of the whole House on a Bill, the Chairman shall report the Bill forthwith to The House, and when Amendments shall have been made thereto, the same shall be received, without debate, and a time appointed for taking the same into consideration.

AMENDMENTS ON THIRD READING.

[21 July 1856.]

THAT no Amendments, not being merely verbal, shall be made to any Bill on the Third Reading.

AMENDMENTS IN COMMITTEE.

[19 July 1854.]

THAT it be an Instruction to all Committees of the whole House to which Bills may be committed, that they have power to make such Amendments therein as they shall think fit, provided they be relevant to the subject-matter of the Bill; but that if any such Amendments shall not be within the Title of the Bill, they do amend the Title accordingly, and do report the same specially to The House.

QUESTIONS IN COMMITTEE DISCONTINUED.

THAT the Questions for reading a Bill a First and Second Time in a Committee of the whole House be discontinued.

BLANKS.

[19 July 1854.]

THAT in going through a Bill no Questions shall be put for the filling up words already printed in *italics*, and commonly called blanks, unless exception be taken thereto; and if no alterations have been made in the words so printed in *italics*, the Bill shall be reported without Amendments, unless other Amendments have been made thereto.

CLAUSES.

THAT on a Clause being offered in the Committee on the Bill, or on the consideration of Report of a Bill, Mr. Speaker or the Chairman do desire the Member to bring up the same, whereupon it shall be read a First Time without Question put, but no Clause shall be offered on consideration of Report without notice.

LORDS' AMENDMENTS.

THAT Lords' Amendments to Public Bills shall be appointed to be considered on a future day, unless The House shall order them to be considered forthwith.

REPORTS.

THAT every Report from a Committee of the whole House be brought up without any Question being put.

BILLS REFERRED TOGETHER TO A COMMITTEE OF THE WHOLE HOUSE.

[19 July 1854 and 21 July 1856.]

THAT Bills which may be fixed for consideration in Committee on the same day, whether in Progress or otherwise, may be referred together to a Committee of the whole House, which may consider on the same day all the Bills so referred to it, without the Chairman leaving the Chair on each separate Bill; provided that, with respect to any Bill not in Progress, if any Member shall object to its consideration in Committee, together with other Bills, the Order of the Day for the Committee on such Bill shall be postponed.

OFFICE OF SPEAKER.

[20 July 1855.]

THAT whenever The House shall be informed by the Clerk at the Table of the unavoidable absence of Mr. Speaker, the Chairman of the Committee of Ways and Means do perform the duties and exercise the authority of Speaker in relation to all proceedings of this House, as Deputy Speaker, until the next meeting of The House, and so on from day to day, on the like information being given to The House, until The House shall otherwise order; provided that if The House shall adjourn for more than twenty-four hours, the Deputy Speaker shall continue to perform the duties and exercise the authority of Speaker for twenty-four hours only after such adjournment.

STRANGERS

STRANGERS AND DIVISIONS.

[19 July 1854.]

THAT, except when Mr. Speaker or the Chairman of a Committee of the whole House shall otherwise direct, his order for the withdrawal of Strangers during a Division, shall be understood to apply to Strangers occupying seats below the Bar and in the Front Gallery, and shall be enforced by the Serjeant-at-Arms accordingly.

THAT so soon as the voices have been taken, the clerk shall turn a two-minute sand-glass, to be kept on the table for that purpose, and the doors shall not be closed until after the lapse of two minutes, as indicated by such sand-glass.

THAT the doors shall be closed so soon after the lapse of two minutes as the Speaker or the Chairman of the Committee of the whole House shall think proper to direct.

SELECT COMMITTEES.

[21 July 1856.]

THAT on Wednesdays and other Morning Sitzings of The House, all Committees shall have leave to sit, except while The House is at Prayers, during the sitting, and notwithstanding any adjournment of The House.

[25 June 1852.]

THAT no Select Committee shall, without leave of The House, consist of more than Fifteen Members; that such leave shall not be moved for without Notice; and that in the case of Members proposed to be added or substituted after the first appointment of the Committee, the Notice shall include the Names of the Members proposed to be added or substituted.

THAT every Member intending to move for the appointment of a Select Committee, do endeavour to ascertain previously whether each Member proposed to be named by him, on such Committee, will give his attendance thereupon.

THAT every Member intending to move for the appointment of a Select Committee, shall, One day next before the nomination of such Committee, place on the Notices the Names of the Members intended to be proposed by him, to be Members of such Committee.

THAT lists be affixed in some conspicuous place in the Committee Office, and in the Lobby of the House, of all Members serving on each Select Committee.

THAT to every Question asked of a Witness under examination, in the Proceedings of any Select Committee, there be prefixed in the Minutes of the Evidence the Name of the Member asking such Question.

THAT the Names of the Members present each day on the sitting of any Select Committee be entered on the Minutes of Evidence, or on the Minutes of the Proceedings of the Committee (as the case may be), and reported to The House on the Report of such Committee.

THAT in the event of any Division taking place in any Select Committee, the Question proposed, the Name of the Proposer, and the respective Votes thereupon of each Member present, be entered on the Minutes of Evidence, or on the Minutes of the Proceedings of the Committee (as the case may be), and reported to The House on the Report of such Committee.

THAT if, at any time during the sitting of a Select Committee of this House, the Quorum of Members fixed by The House shall not be present, the Clerk of the Committee shall call the attention of the Chairman to the fact, who shall thereupon suspend the Proceedings of the Committee until a Quorum be present, or adjourn the Committee to some future day.

[9 August 1875.]

THAT every Select Committee having power to send for Persons, Papers, and Records, shall have leave to report their Opinion and Observations, together with the Minutes of Evidence taken before them, to The House, and also to make a Special Report of any matters which they may think fit to bring to the notice of The House.

OATHS OF MEMBERS.

[30 April 1866.]

THAT Members may take and subscribe the Oath required by Law, at any time during the Sitting of The House, before the Orders of the Day and Notices of Motions have been entered upon, or after they have been disposed of; but no debate or business shall be interrupted for that purpose.

OATHS OF WITNESSES.

[20 February 1872.]

THAT any oath or affirmation taken or made by any Witness before the House, or a Committee of the whole House, be administered by the Clerk at the Table.

THAT any oath or affirmation taken or made by any Witness before a Select Committee may be administered by the Chairman, or by the Clerk attending such Committee.

PUBLIC ACCOUNTS.

[3 April 1862; amended 28 March 1870.]

THAT there shall be a Standing Committee, to be designated "The Committee of Public Accounts," for the examination of the Accounts showing the appropriation of the sums granted by Parliament to meet the Public Expenditure, to consist of Eleven Members, who shall be nominated at the commencement of every Session, and of whom Five shall be a Quorum.

PACKET AND TELEGRAPHIC CONTRACTS.

[13 July 1869.]

THAT in all Contracts extending over a period of years, and creating a public Charge, actual or prospective, entered into by the Government for the Conveyance of Mails by Sea, or for the purpose of Telegraphic Communications beyond Sea, there should be inserted the condition that the Contract shall not be binding until it has been approved of by a Resolution of The House.

THAT every such Contract, when executed, should forthwith, if Parliament be then sitting, or, if Parliament be not then sitting, within Fourteen days after it assembles, be laid upon the Table of The House, accompanied by a Minute of the Lords of the Treasury, setting forth the grounds on which they have proceeded in authorizing it.

THAT, in cases where any such Contract requires to be confirmed by Act of Parliament, the Bill for that purpose should not be introduced and dealt with as a Private Bill, and that Power to the Government to enter into agreements by which obligations at the public charge shall be undertaken should not be given in any Private Act.

T. Leslie Hay,

Cl. Sec. Com.

A TABLE of the FEES to be charged at The House of Commons.

FEES to be paid by the PROMOTERS of a PRIVATE BILL.

	£.	s.	d.
On the deposit of the Petition, Bill, Plan, or any other Document in the Private Bill Office - - - - -	5	-	-
For every day on which the Examiners shall inquire into the compliance with the Standing Orders - - - - -	5	-	-

For PROCEEDINGS in the HOUSE.

On the presentation of the Petition for the Bill - - - - -	5	-	-
On the First Reading of the Bill - - - - -	15	-	-
On the Second Reading of the Bill - - - - -	15	-	-
On the Report from the Committee on the Bill - - - - -	15	-	-
On the Third Reading of the Bill - - - - -	15	-	-

Bills from the Lords, commonly called Estate Bills, Divorce Bills, Naturalization Bills and Name Bills, to be charged only one-half of the preceding Fees.

The preceding Fees on the Petition, First, Second and Third Readings, and Report, to be increased according to the money to be raised or expended under the authority of any Bill for the execution of a Work, in conformity with the following Scale :—

If the sum be 100,000*l.* and under 500,000*l.*, twice the amount of such Fees.

If the sum be 500,000*l.* and under 1,000,000*l.*, three times the amount of such Fees.

If the sum be 1,000,000*l.* and above, four times the amount of such Fees.

For PROCEEDINGS before any COMMITTEE or the REFEREES.

For every day on which the Committee or the Referees shall sit,—	£.	s.	d.
If the Promoters of the Bill appear by Counsel - - - - -	10	-	-
If they appear without Counsel - - - - -	5	-	-

FEES to be paid by the OPPONENTS of a PRIVATE BILL.

On the deposit of every Memorial complaining that the Standing Orders have not been complied with - - - - -	£.	s.	d.
	1	-	-
On the presentation or deposit of every Petition against a Private Bill - - - - -	2	-	-

For PROCEEDINGS before the EXAMINERS, or before any COMMITTEE,
or the REFEREES.

	£.	s.	d.
For every day on which the Examiners shall inquire into any Memorial complaining of a non-compliance with the Standing Orders - - - - -	3	-	-
For every day on which the Petitioners appear before any Committee or the Referees - - - - -	2	0	7

GENERAL FEES.

	£.	s.	d.
On every Motion, Order or Proceeding in the House upon a Private Bill, Petition, or matter not otherwise charged - - - - -	1	-	-
For Copies of all Papers and Documents, at the rate of 72 words in every folio, —			
If five folios or under - - - - -		2	6
If above five folios, per folio - - - - -		2	6
For the Copy of a Plan made by the parties - - - - -	1	-	-
For the inspection of a Plan, or of any document - - - - -	-	5	-
For every Plan or Document certified by The Speaker pursuant to any Act of Parliament - - - - -	10	-	-
For every day on which any parties shall be heard by Counsel at the Bar, from each side - - - - -	10	-	-
For every day on which a Committee of the whole House shall sit on a Private Bill or matter - - - - -	6	-	-
For serving any Summons or Order on a Private Bill or matter - - - - -	1	-	-
For Riding Charges, if on any Private Bill or matter, per mile - - - - -	-	1	-
For every Order for the commitment or discharge of any person - - - - -	1	-	-
For taking any person into custody for a Breach of Privilege or Contempt - - - - -	5	-	-
For taking any person into custody for any other cause - - - - -	2	-	-
For every day on which any person shall be in custody - - - - -	1	-	-
For Riding Charges, per mile - - - - -	-	-	6

FEES to be paid on the TAXATION of COSTS on PRIVATE BILLS.

	£.	s.	d.
For every application or reference to "The Taxing Officer of the House of Commons," for the Taxation of a Bill of Costs - - - - -	1	-	-
For every £.100 of any Bill which shall be allowed by the Taxing Officer - - - - -	1	-	-
On the deposit of every Memorial complaining of a Report of the Taxing Officer - - - - -	1	-	-
For every Certificate which shall be signed by The Speaker - - - - -	1	-	-
For Copies of any Documents in the office of the Taxing Officer, per folio of seventy-two words - - - - -	-	1	-

That the same Fees be paid in case The Speaker shall refer to the Taxing Officer any Bill of Costs, under the authority of an Act of the sixth year of his late Majesty King George the Fourth, "To establish a Taxation of Costs on Private Bills in the House of Commons."

That every Bill for the particular interest or benefit of any person or persons, whether the same be brought in upon Petition, or Motion, or Report from a Committee, or brought from the Lords, hath been and ought to be deemed a Private Bill within the meaning of the Table of Fees.

FEES to be taken by the SHORT HAND WRITER.

	£.	s.	d.
For every day he shall attend	2	2	-
For the transcript of his notes, per folio of 72 words	-	-	9

The preceding Fees shall be charged, paid and received at such times, in such manner, and under such regulations, as The Speaker shall from time to time direct.

W. and,
Speaker

Mercurii, 27^o die Julii, 1864.

Ordered, That the said Table of Fees be a Standing Order of this House.

T. Leslie, Secy.

Police:

Bills relative to, included in the 1st Class of Private Bills, 1.

Poor and Poor Rate:

Bills relative to, included in the 1st Class of Private Bills, 1.

Ports. See *Docks, Harbours, &c.*

Post Office:

Service of applications and notices by post, and evidence thereof, 12. 19–21.

Postponement of Consideration of Bills in Committee:

The Committee Clerk to give notice of postponement in the Private Bill Office, 126.

See also *Adjournment of Committees. Committee Clerk.*

Prayers: Order as to, p. 71.

Preamble of Private Bills:

When any alteration has been made in the Preamble of any Bill, such alteration, together with the ground of making it, to be specially reported, 149.

Preference Shares:

In Railway Bills granting preference in payment of interest, &c., provision to be made that the same shall not prejudice former grants of preference, 160.

And no such Company to be authorized to alter the terms of any preference except under special circumstances, 161.

Presentation of Private Bills:

Form in which Private Bills are to be presented to The House, 196. 201, 202.

No Bill to be read a first time unless presented not later than One clear day after the presentation of the Petition for leave to bring in the same, 197.

Principal Sheriff Clerk (Scotland):

Deposit of Documents in his Office, 24. 27. 31.

Private Bill Office:

Notices of intended application for Private Bill to specify time when copies of the Bill will be deposited in the Private Bill Office, 3.

No deposit to be valid if made on a Sunday or Christmas-day, or before Eight o'clock in the forenoon, or after Eight o'clock in the afternoon, 23.

Documents required to be deposited in the Private Bill Office on or before 30th November; viz. Plans, Sections, and Books of Reference, and in the case of Railways, published Map, 25.

Also, Copy of Gazette Notices, 31.

Duplicates of Plans, &c., in cases of applications for Provisional Orders, or Certificates, 39.

Sundry other documents to be deposited in the Private Bill Office, 39. 63. 67. 200. 230–232.

Documents required to be deposited in the Private Bill Office on or before 21st December; viz. Petition for Bill, with Agent's Declaration, and printed copy of Bill annexed, 32.

Also printed copies of the Bill for the use of Members and Agents applying for the same, *ib.*

Documents required to be deposited on or before the 31st December, viz.:

Estimates,

Private Bill Office—continued.

Estimates, Declarations, and Lists of Owners, Lessees and Occupiers, 35.

Lists of Assents, Dissents and Neuters, 12. 35.

Documents to be deposited in the case of Bills of the 1st Class, for incorporating Joint Stock Companies, 35*a*.

Printed copies of Estimate and Declaration, 36.

Statement as to displacement of the Labouring Classes from Houses sought to be taken by Promoters, to be deposited in Private Bill Office on or before 31st December, 38.

Two days' notice of day appointed by the Committee on each Group, for entering upon the consideration of each Bill in such Group, to be given by the Committee Clerk to the Private Bill Office, 126.

Petition against Bill to be deposited in the Private Bill Office not later than Ten clear days after the First Reading, &c., 129.

Petitions in favour of, or against, or otherwise relating to, Private Bills to be presented to The House, by being deposited in the Private Bill Office, 205.

Petition may be withdrawn on deposit in the Private Bill Office of requisition to that effect, 206.

Orders regulating the Practice in the Private Bill Office, 227-249.

Registers to be kept by the Clerks in the Private Bill Office, 227.

Notices in the Private Bill Office, time for delivery of, 247.

See also *Committees on Private Bills*, III.

Private Bills:

Division of Private Bills into two Classes, 1.

A printed Copy of every Private Bill to be deposited in the Private Bill Office on or before the 21st December, 32.

Printed copies of the Bill to be delivered at the Private Bill Office, for the use of any Member or Agent applying for the same, *ib*.

Printed copy of every Private Bill to be deposited at Her Majesty's Treasury on or before 21st December, 33.

Of every Railway and Canal Bill, and of every Bill for incorporating or giving powers to any Company at the Board of Trade, *ib*.

Of every Bill relating to Docks, Harbours, &c. at the Harbour Department of the Board of Trade, *ib*.

And of every Turnpike Bill at the Home Office, *ib*.

Copy of Bills relating to Works within limits of the Metropolis to be deposited with the Metropolitan Board of Works on or before 21st December, 34.

Bills originating in this House and conferring additional powers on the promoting Company, to be submitted to Proprietors of such Company, 62.

Bills brought from the House of Lords to be submitted to Proprietors of promoting Company and of other Companies in certain cases, 64.

Dissenting Proprietors to be allowed to be heard against proposed Bills, 75.

Private Bills—continued.

The Chairman of Ways and Means to confer with the Chairman of Committees of the House of Lords, for the purpose of determining in which House of Parliament the respective Bills should be first considered, 79.

Orders regulating the Practice of The House with regard to Private Bills, 193-226.

To be brought in upon Petition, signed by the Parties, and indorsed by one of the Examiners, 193.

Time limited for First Reading, 197.

Orders as to the mode of printing, 201-203.

Every Private Bill (except Name Bills) to be printed, and copies delivered to Door-keepers before the First Reading, 203.

Interval between First and Second Reading, 204.

Three clear days' notice of Second Reading to be given in the Private Bill Office, 235.

When Second Reading is opposed, consideration thereof to be postponed until the next Sitting of The House, 207.

Printed copies of Private Bills to be laid before the Committee of Selection and General Committee at the First Meeting of the said Committees, 102.

Every Private Bill (except Railway, Canal or Divorce Bills), when read a second time and committed, to be referred to Committee of Selection, 208.

If a Railway or Canal Bill, to the General Committee on Railway and Canal Bills, *ib*.

If a Divorce Bill, to the Select Committee on Divorce Bills, *ib*.

Interval between Second Reading and Committee, 211.

No Private Bill to be passed through two stages on the same day, without special leave, 223.

In whose custody Private Bills are to be kept, 233.

Filled-up Bill as proposed to be submitted to Committee to be deposited in Private Bill Office, 237.

Every Private Bill, as amended in Committee, to be printed, and copies delivered to the Door-keepers Three clear days before the consideration of the Bill, 214.

Bill printed, as amended in Committee, to be examined, 241.

Three clear days, in the case of Private Bills ordered to lie upon the Table, to intervene between the Report and the consideration of the Bill, 215.

Chairman of Committee of Ways and Means to acquaint The House whether Bill contains the provisions required by the Standing Orders, *ib*.

Notice of consideration of Bill, 239.

Notice to be given of Clauses, &c., on consideration of Bill, or verbal Amendments on Third Reading, 242.

Amendments on consideration of Bill ordered to lie upon the Table, and on Third Reading, and also Lords' Amendments, to be entered in the printed copy of the Bill as amended in Committee, 244.

Clauses

Private Bills—continued.

Clauses and Amendments offered on consideration of Bills ordered to lie upon the Table, and verbal Amendments on Third Readings, to be submitted to Chairman of Ways and Means, and the Counsel to Mr. Speaker, who is to acquaint The House whether the same ought to be entertained without being referred to the Select Committee on Standing Orders, 85. 216.

When proposed on consideration of Bills ordered to lie upon the Table, and referred to Standing Orders Committee, the Committee to report whether they should be adopted, or whether the Bill should be re-committed, 97.

Such Clauses and Amendments to be printed at the expense of the Parties, 217.

If referred to Standing Orders Committee, no further proceeding until their Report, 218.

One clear day's notice to be given of Third Reading, 243.

Proceedings when Clauses and Amendments are offered on Third Reading, 94. 217-220. 247; p. 73.

No Amendment, except verbal, to be made on Third Reading, 219.

Bill to be printed fair after Third Reading, at the expense of the parties applying for the same, 221.

Re-committed Private Bill; one clear day's notice to be given of meeting of Committee, 236.

Copy of Lords' Amendments, and of proposed Amendments thereto, to be laid before the Chairman of the Committee of Ways and Means and the Counsel to Mr. Speaker, 86.

Lords' Amendments, and proposed Amendments thereto, to be printed at the expense of the parties, and circulated with the Votes prior to consideration thereof, 220.

Lords' Amendments, when agreed to, to be entered in the printed copy of the Bill as amended by the Committee, 244.

Notice of consideration of Lords' Amendments and of any Amendments thereto, 246.

Tables of Fees payable at the House of Commons in regard to Private Bills, pp. 77-79.

What Bills are to be deemed Private Bills within the meaning of the Table of Fees, p. 78.

Copy of Letters Patent to be annexed to any Bill for confirming Letters Patent, 175.

Bills containing provisions for Inclosures, 183.

Horners - - -	1	3	—				

The Companies marked thus (a) have made no Return to the Orders of the House.

* The above numbers are taken from the list of Liverymen voters as revised in September 1875.

† The body of Fellowship Porters is not a Livery Company, and membership of that body consequently confers no right of voting whatever.

‡ The Liverymen of this Company are such by reason only of their election by the Master Wardens and Court of Assistants (the governing body of the Company), and not by reason of patrimony, purchase, redemption, or servitude.

§ These numbers accord with the names that will be returned to the Secondary's Office for revision by the Revising Barrister.

|| Return of Liverymen who before being admitted as such, took up their Freedom under the headings enumerated in the Return. The Livery is not gained by either patrimony, servitude, or redemption.

¶ The Parish Clerks' Company is not a Livery Company, and the members thereof do not possess the right of voting by patrimony, servitude, or purchase.

** As this Company is not a Livery Company the members thereof are not entitled to vote for Members of Parliament.

LIVERYMEN (CITY OF LONDON).

RETURN of the Number of LIVERYMEN in the CITY of LONDON entitled to Vote at the Election of MEMBERS of PARLIAMENT for the CITY of LONDON by reason of their Patrimony, Servitude, or Purchase in any of the Companies, arranged in the order of their respective Companies.

ORDER, 20 July 1876;

"That so much of the said Return as has not been made, be laid before this House forthwith."

(Mr. James.)

Ordered, by The House of Commons, to be Printed,
15 August 1876.

PARLIAMENTARY BOROUGHs.

RETURN to an Address of the Honourable The House of Commons,
dated 26 July 1875 ;—for,

“RETURN with respect to each PARLIAMENTARY BOROUGH in *England*, the Parliamentary and Municipal Boundaries of which are Co-extensive, and of which the Population does not exceed 250,000:

1. The Population according to the Census of 1871 ;

(1) This account does not include any part of the salary of the clerk of the peace or other remuneration for his services herein.

(2) The clerk of the peace's charges for preparing the register, &c. are included in his salary, for which his fees were commuted. The average annual amount of such charges was 105*l.* 4*s.* 10*d.*, which sum is included under this heading.

(3) The clerk of the peace is paid by salary, so that this Return does not include any professional charges for his services and those of two

clerks; nor are the charges for advertising the revising barrister's courts in the newspapers included.

(4) Cannot give this information.

(5) Besides parts of registers.

(6) Of this amount 24*l.* 17*s.* 6*d.* was for advertising.

(7) £. 5. 5. also was received for old registers for the years 1873, 1874, 1875, used for the purposes of the election in February 1876.

(¹) Includes an alphabetical index to the names of the electors.

(²) Includes all expenses incurred under the Registration Acts in compiling the register; also printing the whole of the forms supplied to the overseers, including copies of the lists of voters for publication on the church doors.

(³) This amount does not include the charges connected with the Registration Court, but only those subsequently to the holding of that court.

(⁴) £. 3. 9. for 69 portions of register, and 2 l. 18 s. for sale of old registers.

(⁵) Including 21 parts of register.

(⁶) This amount includes all expenses except remuneration to clerk of peace for preparing and revising the register; but as one salary is paid

for all county work, it is impossible to say what part is paid in respect of the preparation of the register.

(⁷) Besides copies for overseers for publication.

(⁸) And eight in polling districts.

(⁹) Including 4 l. 5 s. 6 d. for sale of unused registers as waste paper.

(¹⁰) And parts of registers.

(¹¹) This includes all expenses incurred under the Registration Acts, in superintending, preparing, revising, &c. the register of electors, the clerk of the peace being paid by salary, comprising his duties under the Registration Acts.

(¹²) This sum includes all charges paid out of the county rate for preparation of registers and relating to the revising barrister's courts.

(¹) This return does not include any remuneration to the clerk of the peace for the preparation of the register, that officer being paid by salary.

(²) Some separate lists only.

(³) And a number of copies for polling districts.

(⁴) And a portion of a register.

(⁵) The whole of the county printing is done under one contract, at a cost of 60 £. per annum, and the clerk of the peace estimates the proportion chargeable as the cost of printing the registers at 35 £.

(⁶) The clerk of the peace is paid by salary, which includes all his duties, and therefore there are no other charges.

(⁷) The general printing of the county is contracted for; the amount here given is the estimated proportion for printing the register of electors.

(⁸) Includes 130 £. as remuneration to the clerk of the peace for preparing sheets for printer, and for correcting proofs.

(1) And portions of the register.

(2) And part of a register.

(3) This return includes the expenses of the overseers for preparing and printing the Parliamentary lists as certified by the revising barrister. The total amount of the town clerk's expenses for printing, &c. in connection with the register of electors was 345 l. 10 s. 6 d.

(4) For registers, lists of freemen, and claims and objections.

(5) This sum is the cost of the preparation of the register, &c. by the town clerk.

(6) And three freemen's lists.

(7) Includes all expenses incurred under the Registration Acts.

(8) Includes 3 l. 8 s. 9 d. for charges not strictly "cost of printing," or charges "as to printing."

(9) This return does not include the overseers' costs of preparing, printing, and publishing the original lists.

(1) Includes town clerk's allowance, 8*l.*

(2) Includes all expenses incurred under the Registration Acts.

(3) This sum includes all incidental charges, as allowed at sessions.

(4) The town clerk is unable to state the number of registers sold during the year.

(5) Of this sum 157*l.* 13*s.* is for printing the lists of voters for revision.

(6) This sum includes the town clerk's expenses for preparing the register, &c.

(7) And part of a register.

(8) Includes 4*l.* 7*s.* 6*d.* for registers sold as waste paper.

(9) The register of electors, forming the constituency of the University is identical with the register of members of Convocation, which is printed for the purposes of the University; so that, in so far as this register serves any Parliamentary purpose, no expenses have been incurred in the preparation thereof; neither have any copies been disposed of by sale.

(¹) Includes the whole cost of the register after the lists have been received by the town clerk from the revising barrister. It does not include the overseers' charges for preparing the lists prior to revision.

(²) None by corporation. Numbers sold by overseers not given.

(³) This sum is allowed the town clerk for performing the various duties connected with the registration of voters for the borough.

(⁴) This is exclusive of 85% allowed to the town clerk and clerks in office.

(⁵) Includes all expenses incurred under the Registration Acts.

(⁶) No register of the members of Convocation has been printed during this period.

(⁷) Does not include the preliminary cost, paid by the overseers, of printing the list of persons entitled to vote.

(⁸) This amount includes all the expenses incurred in superintending, preparing, and revising the register.

(⁹) Includes overseers' and returning officers' charges, as certified by the revising barrister.

(¹⁰) Includes sale of "claims and objections," and of two sets of lists.

(1) No note has been kept of the actual number sold. The price of a complete copy for each division of the county is 18s. Both divisions included in this Return.

(2) The registers are bound in divisions, and complete copies are seldom sold.

(3) In addition, the salary of the assessor and collector, cost of advertising registration courts, travelling expenses thereto, &c., amounted, in all, to 120 l. 19 s. 5 d.

(4) Assessor's salary, 60 l., and outlays by assessor, less amount received by him for sale of lists, 12 l. 16 s.

(5) Also 50 district rolls.

(6) To sheriff-clerk for superintending printing, for correspondence, and for copies of register supplied to assessor.

(7) This sum was for printing the lists to be put on the church doors, and also for advertising the same.

(8) For revising proof. The assessor receives an allowance of 60 l. a year for trouble and expenses in preparing the roll.

(9) Besides portions (parishes).

(10) Also six parts of register.

(11) Allowance to sheriff-clerk for furnishing printers with corrected copy of register, and revising proof-sheets.

(12) Besides 40 of each of four districts.

(13) Also 11 district registers.

⁽¹⁾ The county of Antrim is divided into 21 polling districts, and 200 of each polling district were printed. The copies were principally sold in polling district registers, and number 40. There were only three full copies sold in addition to the above number sold in polling districts.

⁽²⁾ The sale of registers is effected by the town clerk, who makes a return to the clerk of the peace.

⁽³⁾ Fifty copies of 16 polling districts printed separately.

⁽⁴⁾ Forty-eight of polling districts sold.

⁽⁵⁾ The county and borough printing is one contract.

⁽⁶⁾ This county is divided into 18 polling districts: the sale for copies of the registers very limited (except at an election), and generally sold in districts at 1 s. per copy.

⁽⁷⁾ This is for all work and expenses necessarily done and incurred by the clerk of the peace in execution of the Acts for the Registration of Parliamentary Voters.

⁽⁸⁾ This 96 l. is the sum presented to the clerk of the peace for the expenses incurred in preparing, publishing, and making out the several lists for the printer, and posting them throughout the county, as required by the several statutes; and 10 l. 15 s., amount of presentment to town-clerk of the borough of Ennis.

⁽⁹⁾ The printing of the registry for the county of Cork is included in the general contract of 500 l. per annum of F. L. Mahony, printing contractor for the county.

⁽¹⁰⁾ Under Ballot Act, 36 & 37 Vict. c. 21, 13th March 1875.

⁽¹¹⁾ Unascertainable, a proportion being included in general contract.

⁽¹²⁾ Unascertainable, a proportion of the expense being included in general contract.

⁽¹³⁾ The printing of the registry for the borough of Kinsale is included in the general contract of 500 l. per annum of F. L. Mahony, printing contractor for the county of Cork.

⁽¹⁴⁾ Taken from the clerk of the town commissioners' presentment.

⁽¹⁵⁾ The printing of the registry for the borough of Mallow is included in the general contract of 500 l. per annum of F. L. Mahony, printing contractor for the county of Cork.

⁽¹⁶⁾ The printing of the registry for the borough of Bandon is included in the general contract of 500 l. per annum of F. L. Mahony, printing contractor for the county of Cork.

⁽¹⁷⁾ The printing of the registry for the borough of Youghal is included in the general contract of 500 l. per annum of F. L. Mahony, printing contractor for the county of Cork.

⁽¹⁸⁾ Including lists of voters other than register.

⁽¹⁹⁾ In addition to the number of registers, there were copies of the supplemental lists. List of claims and objections also sold, the amount received being for all lists. One hundred copies of each of these lists are also printed, the cost of which is included in the above charge.

⁽²⁰⁾ A contract for the payment of the whole expense of the printing in connection with the office of clerk of the peace of this county is entered into each summer assizes between the grand jury and some person selected by them.

The clerk of the peace is unable to say what proportion of the sum determined on should be considered as payment for the printing of the voters' lists.

⁽²¹⁾ A contract for the payment of the whole expenses of the printing for the grand jury and peace office, including voters' lists, &c., are entered into at each summer assizes in a bulk sum between the grand jury and a contractor.

The clerk of the peace is unable to state what proportion of the sum contracted for should be considered as payment for the printing of the voters' lists.

⁽²²⁾ Which is paid to the clerk of the peace by presentment for his trouble.

TOTAL* FOR IRELAND, COUNTIES AND BOROUGH - - -	-	-	-	-	-	-	-

(1) The clerk of the peace receives 100 lists of each polling district in the county, total 2,900 lists, there being 29 polling districts; and 200 borough lists are printed. None were sold in 1875, as they are never purchased except in case of an election. Public offices and officials are supplied gratis with copies when called for.

(2) The cost of printing is provided for by the contract entered into for the county printing and advertising, and there is no specific sum mentioned to defray expense of printing register of electors. The county printer estimates the expense of printing register of electors in 1875 at 150 £.

(3) One hundred for each of the polling districts, 14 in number.

(4) In the amount charged for printing is included the cost of printing the supplemental lists, notices of claims, notices of objections, with other forms under Registry of Voters Acts.

(5) The cost of printing the register of voters is included in the county printer's general contract, and paid for same by presentment by grand jury, without any interference of the clerk of the peace.

(6) Comprising 19 polling districts.

(7) All the county printing being included in one contract, and not

paid for separately, the clerk of the peace cannot state the cost of printing the register for the year 1875.

(8) The entire of the printing and advertising is made into one contract at 170 £. per year, and from calculations made, the clerk of the peace considers the above sum is a fair proportion of the cost.

(9) Allowance to the clerk of the peace.

(10) Twenty-seven polling districts, 100 each.

(11) Including advertisements, &c.

(12) The clerk of the peace cannot separate the printing for the county and the borough, the contract being for both.

(13) This Return cannot be accurately complied with, as the contract for printing is in a gross sum for all printing required by the clerk of the peace, the town clerk, and the secretary of the grand jury, being in gross 38 £. per annum, and the sale of copies of the registry of voters not exceeding on an average 1 £. per annum. In the year 1875 none were sold or called for.

(14) Paid printer's clerk comparing.

(15) Including publishing, postage, &c.

* Note.—I. The Return has been compiled from returns furnished by the clerks of the peace.

II. It will be seen from the foregoing notes that a correct total cannot be given of the "Expenses of Printing."

AGRICULTURAL HOLDINGS ACT, 1875.

RETURN to an Order of the Honourable The House of Commons,
dated 31 March 1876;—for,

RETURN “of all the REPORTS made to the ECCLESIASTICAL COMMISSIONERS
by their SURVEYORS relative to ‘THE AGRICULTURAL HOLDINGS ACT,
1875.’”

— No. 1. —

From Messrs. *Smiths & Gore* and Messrs. *Cluttons* to the Secretary.

Dear Sir,

Whitehall Place, 24 November 1875.

Agricultural Holdings Act, 1875.

IN accordance with your instructions of the 18th instant, we have considered jointly how the provisions of the “Agricultural Holdings Act, 1875,” affect the position of the Commissioners as landlords, and what course should be adopted by them in reference to these provisions.

The Commissioners are willing in all cases to make any expenditure advantageous to their agricultural property. We are of opinion that the Act little affects their position except so far as affording to their tenants from year to year the security of one year’s notice, instead of half a year’s notice, to quit, and we see no reason why the Board should generally contract itself out of the Act.

There are many cases of building and accommodation lands held under notices for less than six months which will not, we conclude, fall under the Act at all; and with respect to any other special cases we propose to report specially from time to time.

But we do not think that the tenants should be compelled to hold under the Agricultural Holdings Act where they do not themselves desire that the Act shall be operative.

We remain, &c.,
(signed) *Smiths & Gore.*
Cluttons.

— No. 2. —

From Messrs. *Smiths & Gore* and Messrs. *Cluttons* to the Secretary.

Dear Sir,

Whitehall Place, 18 January 1876.

Agricultural Holdings Act, 1875.

WE have further considered this Act in its relations to tenancies held from year to year, or at will, of lands either wholly agricultural or wholly pastoral, or in part agricultural, and as to the residue pastoral, and exceeding two acres in extent.

As stated in our Report of the 24th November last, the Commissioners possess building and other lands held by their tenants subject to notices for surrender

at periods *less* distant than six months. It has been suggested that such tenants are not, as we supposed, altogether outside the Act, but are within its provisions, being practically tenants at will.

We have not thought that this view is correct, but the point is of so much importance that we shall be glad to be advised upon it as it affects a large number of tenancies.

We remain, &c.
(signed) *Smiths & Gore.*
Cluttons.

— No. 3. —

From Messrs. *Smiths & Gore* and Messrs. *Cluttons* to the Secretary.

Dear Sir,

Whitehall Place, 22 March 1876.

Agricultural Holdings Act, 1875.

WE reported, on the 24th November last, that this Act little affected the position of the Commissioners except so far as it affords to their tenants the security of one year's notice, and that we saw no reason why the Board should generally contract itself out of the Act.

We added, firstly, that we concluded that building and other lands subject to notices for *less* than six months would be altogether outside of the Act; and, secondly, that tenants should not be compelled to hold under the Act.

On the first of these two points we afterwards reported, that, as doubts had arisen upon it, we desired to have a legal opinion, and the Commissioners have since transmitted to us the opinion of the Attorney and Solicitor General, and of Mr. Charles Bowen, that we were legally right, but that it would be better to give notice in such cases that the Act should not take effect. In these cases (which are numerous) notices must therefore be given.

On the second point we find a general indisposition on the part of the tenants to adopt the Act, and in many cases the tenants have already given us notice.

We find also that the Act will be rarely adopted on the estates of other land-owners. If the Commissioners' tenants should be under its provisions, much inconvenience might arise on a change of tenancy, by reason of their tenants being under a peculiar system of tenant right. The aggregate extent of the Commissioners' lands is large, but in each county their tenancies bear a very small proportion to the total number of tenancies.

We transmit herewith prints of the transactions of the institution of surveyors containing three discussions on the Act, which fairly exhaust the subject.*

We thought (page 193) that the Act supplemented, but did not interfere with, existing contracts of tenancy. Great difference of opinion arose on that point, and you will see from Lord Lichfield's letter (page 265) that legal opinions are about equally divided, whether the Act overrides agreements, or agreements override the Act.

The tenants generally are willing to adopt portions of the provisions of the Act. Some object to a year's notice, as it might oblige executors to hold the farm for nearly two years after death; many find their present contracts of tenancy more favourable to them than the operation of Sections 13, 14, and 15; most fear the operation of Clause 19; and nearly all the tenants fear the right of appeal to the County Court, and require more time to consider the provisions of the Act.

Under

* Transactions of the Institution of Surveyors, Session 1875-76, Vol. viii., Parts 6, 7, 8; published at 12, Great George-street, Westminster.

Under these circumstances we advise that each of the Commissioners' tenants have notice that their tenancies remain unaffected by the Act, but that each notice be accompanied with an intimation that the Commissioners themselves have no objection to the Act, and will be prepared to arrange with each tenant for the addition to his agreement of such portions of the Act as may be deemed expedient.

We continue of opinion that the Act will prove very advantageous to the interests of the country through the adaptation of its provisions to the circumstances of each tenancy, but it will rarely be in the first instance adopted.

We remain, &c.
(signed) *Smiths & Gore.*
Cluttons.

REPORT.

Section I.

PROGRESS OF THE SURVEY SINCE THE YEAR 1854.

The plan on which the Ordnance Survey of Great Britain is now being conducted was settled in 1854, shortly after Sir Henry James had been appointed Director. At that time the counties of York and Lancaster had been mapped on the scale of 6 inches to a mile, and the whole of England and Wales to the south of those counties on the scale of 1 inch to a mile. In Scotland the counties of Wigton, Kirkcudbright, Haddington, Edinburgh, Fife, and Kinross, with the island of Lewis, had been mapped on the scale of 6 inches to a mile; and a 1-inch map of the part of the kingdom included in those counties was in progress.

The arrangements made in 1854 were confirmed by a Treasury Minute of the 18th May 1855, which directed that all the cultivated land in Great Britain should be surveyed on a scale of $\frac{1}{2500}$ (about 25 inches to a mile, and 1 square inch to an acre), and further, that the whole of the country should be mapped on a scale of 6 inches to a mile.

It was also directed that all the towns containing 4,000 inhabitants and upwards should be mapped on a scale of $\frac{1}{500}$ (about $10\frac{1}{2}$ feet to a mile, and 42 feet to an inch). For the present the survey on the scale of $\frac{1}{2500}$ was not to be carried on in those counties which had already been mapped on the scale of 6 inches to a mile; and similarly, the towns which had been mapped on the scale of 5 feet to a mile were not to be re-mapped.

In conformity with these orders the department has, since 1854, completed the surveys of the four northern counties of England on the $\frac{1}{2500}$ scale, viz., Westmorland, Cumberland, Durham, and Northumberland; and in the South of England, Kent, Essex, Middlesex, Surrey, Hampshire, and Sussex have been all surveyed, and the plans mostly drawn on the $\frac{1}{2500}$ scale, and we are now engaged in extending the survey into Hertfordshire, Buckinghamshire, Berkshire, and Oxfordshire. Besides surveying these districts in the south of England, parties have also for some years been surveying the mining districts, which it was considered should take precedence of the rest of the kingdom, and we have accordingly surveyed Cheshire, Flintshire, and Denbighshire, and are now surveying Derbyshire, the mineral district of Nottinghamshire and Staffordshire, also the South Wales mining district, and lastly Cornwall.

In *Scotland* we have, since 1854, completed the whole of the Mainland, and the Hebrides, excepting small portions of Islay and Harris; and we have now parties employed in Harris and in the Orkneys, after which the Shetland Isles will be the only part of Scotland remaining to be surveyed.

In *Ireland* 6-inch maps of all the counties have long been published, and the Department has been employed for many years in revising these maps. Up to the present time the counties of Donegal, Londonderry, Tyrone, Antrim, Down, Armagh, Monaghan, Fermanagh in Ulster, and Louth, Dublin, Carlow, Kildare, and Westmeath in Leinster, have been revised; and we are now revising the county of Cavan. A 1-inch map of Ireland in outline has also been published, and is in course of completion by the addition of the hill features.

PROGRESS DURING THE YEAR 1875.

The total area surveyed in *England and Wales* during the last year was 1,186 square miles in the counties of Derby, Shropshire, Stafford, Nottingham, Glamorgan, Monmouth, Brecknock, Carmarthen, Cornwall, Essex, Hertford, Berks, Bucks, Oxford, Gloucester, and Wilts.

In *Scotland* 1,117 square miles have been surveyed in the Hebrides and Orkneys. The large amount done in Scotland in proportion to the force employed, which was only a fourth of that employed in England, is, of course, mainly owing to the wild and uncultivated nature of the country; but considerable hardships have been entailed on the surveyors employed in the Scotch Islands, who have had to be encamped; and the

work has been carried on with more than ordinary zeal; the exertions of the men having been stimulated by the adoption of piece work.

The following *extra surveys* have been in progress, viz., a survey on the $\frac{1}{500}$ and $\frac{1}{2500}$ scales of Exeter, the Town Council having undertaken to pay two-thirds of the cost; a revision of the 5-feet plans of Edinburgh, at the expense of the city authorities; and a plan on the $\frac{1}{2500}$ scale of the township of Barton on Irwell, in Lancashire, also at the cost of the local authorities. Orders have been given, besides, for the preparation of plans on the $\frac{1}{500}$ scale of an extended district round Cardiff, the town authorities having undertaken to pay the extra cost of preparing the plans on that scale instead of on the $\frac{1}{2500}$ scale.

In *Ireland*, the revision of the six inch survey of the county of Westmeath has been completed, and that of the county of Cavan is in progress. An area of 259 square miles has been revised during the year.

THAMES VALLEY.

Consequent upon the excessive rainfall of last autumn, the Thames Valley Drainage Commissioners requested that additional bench marks should be made at several bridges and other points, to mark the height of the extraordinary floodline of 1875. This has been done; and the whole of the plans and photographs required by the Commission have been delivered.

The plans have been highly approved of, and will, it is stated, enable the limits of the several jurisdictions to be arranged and settled with very little further trouble and expense.

PUBLICATION OF THE MAPS.

Owing to the increased progress that has been made of late years in the Cadastral Survey, and the limited force of engravers, the publication of the 6-inch map has not followed as closely as could be desired on the completion of the plans. We are, however, now training a larger number of assistants in engraving, and hope soon to be able to make greater progress in this important branch of the work.

The engraving of the hill features on the one-inch map of Scotland is also delayed at present by the want of a sufficient number of engravers for this part of the work, which requires considerable artistic skill.

PROPOSED DISTRIBUTION OF THE SURVEY PARTIES IN 1876.

England.

Two survey divisions are working in the central mineral district, one in North Staffordshire and the other in Derbyshire. The surveyors who were employed in the outer Hebrides during the summer were also, for the most part, transferred to the latter county on the approach of the winter, and will continue to work there, as they will not again be required in the north of Scotland.

In the South Wales mineral district two divisions are employed, and have nearly completed Glamorganshire and the mining district of Monmouthshire. It is proposed that one of these divisions shall take up, in the summer, the Forest of Dean, and that the other shall be removed into the Bristol coalfield. A fifth division will continue the survey of West Cornwall and of the town of Exeter. The three remaining divisions in England will be employed in Hertfordshire, Buckinghamshire, Oxfordshire, and Berkshire.

Scotland.

Only one division of field surveyors will be employed in Scotland during the present year, and will carry on the survey of the Orkneys and Shetlands. The surveyors of the other division have been, as before mentioned, transferred to England, with the exception of a few who remain to complete Harris. The office party of this division will follow as soon as they have further completed the examination and drawing of the plans of the Hebrides.

Ireland.

The revision of the county of Cavan will be in progress, together with plans on the $\frac{1}{500}$ scale of such towns as the Valuation Department may require to be taken up.

II.

Comparisons of Standards.

The apparatus for the measurement of Kater's Pendulum after several alterations and improvements was completed last autumn. The temperature of the Bar Room having by that time got below 62°, the observations remain incomplete until in the spring that temperature is reached again.

III.

Photozincography and Photography.

1. DOMESDAY BOOK.

The whole of Domesday Book has been copied in facsimile by the photozincographic process, and published.

The translation of the part relating to Cornwall, which we were authorised to make, has been completed, and is on sale by H. M. Stationery Office.

Translations of the parts relating to several other counties have been published by various authors.

2. NATIONAL MANUSCRIPTS OF IRELAND.

The first volume of this series, which is to consist of three parts, has been published.

Part 2. has been in course of printing during the last year, and is nearly completed.

Part 3. has been transferred to zinc, and the colour plates have also been prepared; and it is hoped that the printing of this volume will be completed by the end of the present year: 300 copies of the work are to be published.

3. ANGLO-SAXON CHARTERS.

The Lords of the Treasury have reserved their decision as to the desirability of publishing a series of these Charters until they shall have been furnished by the Master of the Rolls with a list of the Charters he recommends to be published, and a statement of the cost of their publication.

4. RETURN OF WORK PERFORMED IN THE PHOTOGRAPHIC DEPARTMENT OF THE ORDNANCE SURVEY OFFICE, SOUTHAMPTON, DURING THE YEAR 1875.

IV.

1. Services for other Government Departments.

ADMIRALTY.

Supplied trigonometrical distances, &c. for the hydrographical survey in the Solway Firth; along the east coast of Ireland between Mizen Head and Dublin; and for part of the west coast of Scotland.

FOREIGN OFFICE.

Printed and coloured 6 additional copies of the large and elaborately executed map of the Turco-Persian boundary, in 14 sheets.

Difficulty having been experienced at the Foreign Office in obtaining qualified draftsmen to prepare the joint maps of the North American Boundary Commission, four draftsmen were applied for, and lent from the Ordnance Survey.

GEOLOGICAL SURVEY OFFICE.

The results of the geological survey have been engraved on 49 plates of the one-inch and six-inch maps of Great Britain; and additional information has been engraved on 95 others.

Ten plates of the one-inch and six-inch maps of Ireland have been engraved in like manner. We also lithographed and supplied 250 coloured copies of an index to the progress of the geological survey in Ireland.

HOME OFFICE.

Supplied two maps defining the limits of the Ouse Fishery District, for the Salmon Fisheries Department.

LOCAL GOVERNMENT BOARD.

The series of maps which has been in preparation since 1873 for this Board has been finally completed for those counties, viz., Northumberland, Cumberland, Durham, Westmorland, Yorkshire, Lancashire, Flintshire, Kent, Hampshire, Middlesex, and Surrey, of which we have 6-inch maps. Complete sets of these maps have been supplied, showing by colour the boundaries of the Poor Law Unions, and of all the parishes and townships, with their detached parts, which, in many instances, are so small that they could only be clearly delineated on maps of that scale.

These maps are accompanied by tabulated returns showing the areas of the parishes and townships, &c. which constitute each poor law union.

We have given besides, for the whole kingdom, a mounted map on the 1-inch scale of each civil county, showing the several poor law unions and parishes in the so-called union county, by means of which, and the 6-inch sheets, the boundaries may be studied in detail.

A map of the City of London on the scale of 5 feet to the mile has also been supplied, showing by colour the boundaries of the poor law unions and of the parishes and extra-parochial places, of which there are no fewer than 115.

STATIONERY OFFICE.

Zincographed a map on the 1-inch scale, and supplied 1,760 copies to illustrate a work entitled "Instructions for Auxilliary Cavalry."

Supplied 3,380 impressions of the plates illustrating the work on The Methods and Processes adopted in the Ordnance Survey.

WAR OFFICE.

Photozincographed 12 maps, on which the hill features were delineated, of districts used for manœuvring purposes about Aldershot, and supplied 1,360 copies, 19 of which were mounted for the use of commanding officers.

Supplied 1,800 copies of a map on the 1-inch scale of the country about Aldershot, for the army manœuvres, and mounted 190 copies, and furnished cases for them.

Made a survey and plan on the $\frac{1}{2500}$ scale of the rifle range at Mullingar.

Completed the plans on the $\frac{1}{2500}$ scale of the country about Milford Haven, and prepared a photozincographed map of the same district on the scale of 3 inches to a mile.

Prepared a mounted set of plans, showing contours, on the $\frac{1}{2500}$ scale of the country within three miles of the Royal Military College, Sandhurst.

Photozincographed a map showing the hill features about Cork Harbour, and supplied 10 copies.

Supplied 100 coloured copies of the military sketch map of the Curragh of Kildare.

EXCHEQUER DEPARTMENT, SCOTLAND.

Supplied 10 sheets of the 1-inch map of Scotland, coloured to distinguish the various parishes represented on them.

CHIEF SECRETARY'S DEPARTMENT, IRELAND.

Prepared for the use of the Irish Government skeleton plans of each county in Ireland, showing the electoral, barony, and county boundaries, and supplied 52 copies.

CENSUS COMMISSIONERS, IRELAND.

Prepared 12 coloured maps and diagrams to illustrate the general report of the Census Commissioners, and supplied 1,800 copies of each, or 21,600 impressions.

COMMISSIONERS OF PUBLIC WORKS IN IRELAND.

Maps have been made of estates and holdings required by the Commissioners to attach to conveyances in cases where they have received Treasury sanction for making advances in aid of purchase under the Irish Land Acts, the cost being repaid by the Commissioners.

IRISH CHURCH TEMPORALITIES COMMISSIONERS.

Surveys have been made of 139 glebes, containing 5,350 acres, and the plans and reports have been supplied to the Commissioners, who repay the cost incurred.

LANDED ESTATES COURT, IRELAND.

Maps of 197 estates, containing 193,549 acres, were completed for the Landed Estates Court, and 133,639 maps supplied to the Commissioners, the whole cost of the work being charged against the sale of the estates.

VALUATION DEPARTMENT, IRELAND.

The tenement boundaries and numbers have been inserted on 364 maps on the scale of six inches to a mile, and 9,100 impressions have been supplied.

NON-COMMISSIONED OFFICERS AND SAPPERS TRANSFERRED TO OTHER DEPARTMENTS.

To School of Military Engineering at Chatham	-	-	1
To Palestine Exploration	-	-	1
For employment in India	-	-	2
For employment in Fiji	-	-	6

CAPE OF GOOD HOPE.

The Crown agents for the colonies applied for the services of two competent topographical draftsmen for the Surveyor General's department at the Cape of Good Hope, and two of the civil assistants accepted the appointments offered.

2. Foreign Countries.

The specimens of ordnance maps sent to the International Geographical Exhibition at Paris in 1875 obtained the most favourable recognition, a Letter of Distinction, the highest award given by the Congress, being adjudged to this department for its services in geodesy.

Colonel Stubendorf, of the staff of the Russian army, and Professor George Davidson, of the United States Coast Survey, have visited the office at Southampton during the year, by permission, for the purpose of making themselves acquainted with the methods by which our work is executed.

V.

Methods and Processes.

An account of the methods and processes adopted in the execution of the various branches of the Ordnance Survey has been printed; and copies have been presented to several public offices, and to various foreign Governments, which have either applied for information on this subject, or have been in the habit of sending us examples of their topographical work.

Copies of the book are on sale by Her Majesty's Stationery Office.

VI.

ENGLAND AND WALES.

AREA, 58,000 square miles.

1. SURVEY (vide Index Map, No. 1).

The progress made in the survey of England and Wales is as follows:—

	Area Square Miles.	Surveyed Square Miles.
Cumberland	-	-
Denbigh	-	-
Durham	-	-
Hants	-	-
Flint	-	-
Lancashire	-	-
Northumberland	-	-
Westmorland	-	-
Yorkshire	-	-
Middlesex	-	-
Kent	-	-
Surrey	-	-
Isle of Man	-	-
Berks	752	604
Brecknock	719	55
Bucks	733	291
Carmarthen	947	57
Chester	1,064	1,064
Cornwall	1,359	229
Derby	988	423
Essex	1,595	1,595
Glamorgan	810	733
Gloucester	1,258	58
Hertford	630	221
Merioneth	602	63
Monmouth	576	83
Nottingham	822	41
Oxford	738	367
Pembroke	615	167
Shropshire	1,291	150
Stafford	1,144	197
Sussex	1,443	1,443
Wilts	1,352	342
Other counties	-	158
Total	-	27,491

The area surveyed during the year 1875 was 1,186 square miles.

2. PUBLICATION OF THE PARISH PLANS ON THE $\frac{1}{2500}$ SCALE.

The parish plans have been published of Cumberland, Durham, Flint, Hants, Kent, Northumberland, Westmorland, Middlesex, Surrey, the Isle of Man, and those parts of Cornwall, Devonshire, Dorsetshire, Pembrokeshire, and Staffordshire, which were surveyed for military purposes.

The publication is now in progress of parts of Berks, Bucks, Chester, Denbigh, Derby, Essex, Glamorgan, Gloucester, Hertford, Oxford, Shropshire, Sussex, and Wiltshire.

The total area for which plans on the $\frac{1}{2500}$ scale were published during the year was 1,639 square miles, making a total of 13,166 square miles in England and the Isle of Man published on this scale.

3. SIX-INCH MAP.

The six-inch maps of Lancashire, Yorkshire, Durham, Westmorland, Northumberland, Cumberland, Isle of Man, Middlesex, and Surrey, excepting the Metropolis, and of some small parts of other counties which were surveyed for military purposes, are published, and the engraving of the maps of Berks, Chester, Essex, Denbigh, Flint, Kent, Hants, Hertford, Sussex, and London is in progress.

The area published during last year was 216 square miles; and the total area of England published on this scale amounts to 16,894 square miles.

4. ONE-INCH MAP (vide Index Maps, No. 2 and No. 2A).

The map of the whole of England and Wales, including the Isle of Man, is completed and published, and the new railways opened during the year have been engraved on the plates.

The engraving of the new one-inch map of the south of England is progressing, and eight sheets in outline have been published.

5. TOWNS.

The engraving of the detailed plan of London in 326 sheets, on the scale of 5 feet to a mile, has advanced towards completion, and most of the sheets have been published.

Plans have been made during the year of several towns, viz.: Braintree, Brighton, Great Marlow, High Wycombe, Horsham, Maidenhead, Nantwich, Northwich, Oxford, and Worthing.

In addition to twenty-two sheets of the completed map of London, plans of the following towns have been published during the year, viz.: Brixham, Chester, Chichester, Congleton, Crewe, Denbigh, Hastings, and Maldon.

The state of progress of the survey of towns in England and the Isle of Man is now as follows, viz.:—

		Sheets.
Engraved and published in block	{	London on 5-feet scale - 819
		London on 12-inch scale - 44
		London on 6-inch scale - 15
Engraved and published with details complete.	{	London on 5-feet scale - 297
		London on $\frac{1}{2500}$ scale - 79
Engraved and published on 10-feet and 2-feet scales.	}	Alnwick.
Engraved and published on scale of 12 inches to a mile.	}	Plymouth.

Engraved or zinco-
graphed and pub-
lished on 10-foot or
 $\frac{1}{500}$ scale.

Aberdare.	Maidstone.
Aldershot.	Maldon.
Andover.	Margate.
Appleby.	Maryport.
Ashford.	Mold.
Barnard Castle.	Morpeth.
Barrow-in-Furness.	Newcastle-on-Tyne.
Basingstoke.	Newport.
Bishop Auckland.	Pembroke.
Blyth.	Pembroke Dock.
Bournemouth.	Penrith.
Brentwood.	Petersfield.
Brixham.	Petworth.
Canterbury.	Plumstead.
Carlisle.	Plymouth.
Chatham.	Portsmouth.
Chertsey.	Ramsay (Isle of Man).
Chester.	Ramsgate.
Chichester.	Redhill.
Christchurch.	Reigate.
Cockermouth.	Rhyl.
Congleton.	Rochester.
Cowes.	Romford.
Crewe.	Romsey.
Croydon.	Ryde.
Dartford.	Rye.
Deal.	Sandwich.
Denbigh.	Sevenoaks.
Devonport.	Sheerness.
Dorking.	North Shields.
Dover.	South Shields.
Durham.	Southampton.
Douglas (Isle of Man).	Stockton-on-Tees.
Farnham.	Stonehouse.
Faversham.	Strood.
Folkstone.	Sunderland.
Gateshead.	Torquay.
Gosport.	Tunbridge.
Gravesend.	Tunbridge Wells.
Guildford.	Tynemouth.
Hanley.	Uxbridge.
Hartlepool.	Waltham Abbey.
Hastings.	Watford.
Hexham.	Weymouth.
Holywell.	Whitehaven.
Hyde.	Wigton.
Kendal.	Winchester.
Lewes.	Wokingham.
Longton.	Woolwich.
Lymington.	Workington.
Macclesfield.	Wrexham.

Drawn on 10-foot and
2-foot scales, but
not engraved.

These plans were
made for the Board
of Health, and in
part paid for by the
several towns.

Ashby-de-la-Zouch.	Knighton.
Burslem.	Newcastle-under-Lyne.
Cardiff.	Ormskirk.
Coventry.	Rugby.
Derby.	Sandgate.
Gloucester.	Stratford-upon-Avon.
Hitchin.	Ware.
Hull.	Warwick.

Drawn, engraved, or
zincographed, and
published on the
5-feet scale.

Accrington.
Ashton-under-Lyne
and Staleybridge.
Bacup.
Barnsley.
Beverley.
Bingley.
Blackburn.
Bolton.
Bradford.
Brentford.
Bridlington.
Burnley.

VII.

SCOTLAND.

AREA, 30,000 square miles.

1. SURVEY (vide Index Map, No. 3).

The following counties have been surveyed or are in progress of surveying, viz.:—

	Area Square Miles.	Surveyed Square Miles.
Aberdeen	-	-
Ayr	-	-
Banff	-	-
Bute	-	-
Berwick	-	-
Caithness	-	-
Clackmannan	-	-
Dumbarton	-	-
Dumfries	-	-
Edinburgh	-	-
Elgin	-	-
Fife	-	-
Forfar	-	-
Haddington	-	-
Kincardine	-	-
Kinross	-	-
Kirkcudbright	-	-
Lanark	-	-
Linlithgow	-	-
Nairn	-	-
Peebles	-	-
Perth	-	-
Renfrew	-	-
Ross and Cromarty	-	-
Roxburgh	-	-
Selkirk	-	-
Stirling	-	-
Sutherland	-	-
Wigton	-	-
Argyll	3,380	3,371
Inverness	4,255	4,192
Orkneys	440	162
Total		<u>29,297</u>

The area surveyed during the year 1875 was 1,117 square miles.

2. PUBLICATION OF PARISH PLANS ON $\frac{1}{2500}$ SCALE.

The plans of Parishes on the $\frac{1}{2500}$ scale have been published for the cultivated portions of the counties of Aberdeen, Ayr, Banff, Berwick, Bute, Caithness, Clackmannan, Dumbarton, Dumfries, Elgin, Forfar, Kincardine, Lanark, Linlithgow, Nairn, Peebles, Perth, Renfrew, Roxburgh, Selkirk, Stirling, Sutherland, and for the mainland of Argyll and Inverness.

The publication is now in progress for Ross and Cromarty.

The area published in the course of last year was 199 square miles; and the total area published on this scale amounts to 11,107 square miles.

3. SIX-INCH MAP.

The six-inch maps have been published of the following counties, viz.: Aberdeen, Ayr, Banff, Berwick, Bute, Clackmannan, Dumbarton, Dumfries, Edinburgh, Elgin, Forfar, Fife, Haddington, Kincardine, Kinross, Kirkcudbright, Lanark, Linlithgow, Nairn, Peebles, Perth, Renfrew, Roxburgh, Selkirk, Stirling, Wigton, and the Isle of Lewis; and the maps of Argyll, Caithness, Inverness, Ross, Cromarty, and Sutherland are in progress of engraving.

The area published during last year was 1,482 square miles, making a total area of 21,332 square miles published on the six-inch scale.

4. ONE-INCH MAP (vide Index Map, No. 4).

Six sheets, including 1,556 square miles, were published during the year.

The area now published on the one-inch scale is 15,950 square miles.

5. TOWNS.

The survey of the towns in Scotland is completed. The following list shows the towns which have been surveyed on the scales adopted for the survey of large towns:—

Published on $\frac{1}{500}$ or 10-feet scale.	Aberdeen.	Forres.	Maybole.
	Airdrie.	Galashiels.	Montrose.
	Alexandria and Bonhill.	Girvan.	Nairn.
	Alloa.	Glasgow.	Oban.
	Annan.	Greenock.	Paisley.
	Arbroath.	Hamilton.	Peebles.
	Berwick.	Hawick.	Perth.
	Brechin.	Inverness.	Peterhead.
	Campbelton.	Irvine.	Port Glasgow.
	Coatbridge.	Jedburgh.	Rothsay.
	Dumbarton.	Kelso.	Rutherglen.
	Dundee.	Kilmarnock.	Stonehaven.
	Elgin.	Kirkintilloch.	Strathavon.
	Falkirk.	Kirriemuir.	Stirling.
	Forfar.	Lanark.	Wick.
Engraved and published on 5-feet scale.	Ayr.	Kirkcudbright.	
	Cupar.	Linlithgow.	
	Dalkeith.	Musselburgh.	
	Dumfries.	Selkirk.	
	Dunfermline.	St. Andrew's.	
	Edinburgh.	Stranraer.	
	Haddington.	Wigton.	
	Kirkcaldy.		

VIII.

IRELAND.

1. REVISION OF THE SIX-INCH MAPS.

The following are the counties of which the maps have been revised and new editions of them published:—

Antrim.	Dublin.	Louth.
Armagh.	Fermanagh.	Monaghan.
Donegal.	Kildare.	Tyrone.
Down.	Londonderry.	

The maps of Cavan are being revised, and the engraving of the revised maps of the counties of Carlow and Westmeath on the six-inch scale is being proceeded with.

2. TOWNS.

Plans have been made of Queenstown.

The field survey of Passage West and Rathmines has been completed, and that of Youghal is in progress.

The plans of Bagenalstown, Carlow, Dungannon, Leighlinbridge, and Tullow, on the $\frac{1}{500}$ scale, have been published during the year, and the plans of Athlone, Clonmel, Mullingar, and Sligo are now in hands for publication.

Drawn and published on the
scale of 5 feet to a mile.

Ballymena.	Kilkenny.
Belfast.	Kingstown.
Blackrock.	Limerick.
Boosterstown.	Lurgan.
Cork.	Pembroke township.
Dublin.	Portadown.
Enniskillen.	Waterford.

Drawn and published
on the scale of $\frac{1}{500}$.

Athy.	Hillsborough
Ardglass.	Holywood.
Armagh.	Keady.
Bagenalstown.	Kildare.
Ballybay.	Kilkeel.
Ballynahinch.	Killyleagh.
Banbridge.	Leighlinbridge.
Bangor.	Lisburn.
Bray.	Londonderry.
Carlow.	Markethill.
Carrickmacross.	Maynooth.
Castleblayney.	Monaghan.
Celbridge.	Naas.
Clones.	Newbridge.
Comber.	Newry.
Donaghadee.	Newtownards.
Downpatrick.	Newtownhamilton.
Drogheda.	Portaferry.
Dromore.	Rathfriland.
Dundalk.	Tanderagee.
Dungannon.	Tullow.
Galway.	Warrenspoint.
Gilford.	

Drawn on the 5-
feet scale, but
not published.

Antrim.	Fethard.
Askeaton.	Graigne, Kilkenny.
Athlone.	Granard.
Balbriggan.	Johnstown.
Ballina.	Kanturk.
Ballinasloe.	Kells.
Ballymacarret.	Killarney.
Ballyshannon.	Kilrush.
Bandon.	Kingstown and Dunleary.
Baltinglass.	Kinsale.
Birr or Parsonstown.	Listowel
Boyle.	Longford.
Cahir.	Loughrea.
Carlingford.	Lucan.
Carrick-on-Shannon.	Magherafelt.
Castlebar.	Mallow.
Cashel.	Maryborough.
Cavan.	Middleton.
Charleville.	Michelstown.
Clonakilty.	Mullingar.
Clonmel.	Mountmellick.
Dungarvon.	Mountrath.
Ennis.	Navan.
Fermoy.	

Drawn on the 5-foot scale, but not published.	{	Nenagh.	Thomastown.
		Newcastle.	Thurles.
		Newton Stewart.	Tipperary.
		Omagh.	Tralee.
		Passage.	Trim.
		Portarlinton.	Tuam.
		Queenstown.	Tullamore.
		Rathkeale.	Westport.
		Roscommon.	Wexford.
		Roscrea.	Wicklow.
		Sligo.	Williamstown.
	{	Templemore.	Youghal.

Drawn on scale of 24 inches to 1 mile, but not published. } Strabane.

Drawn on scale of 20 inches to 1 mile, but not published.	{	Adare.	Gort.
		Ardfelt.	Killaloe.
		Ballymote.	Killyshandra.
		Caherciveen.	Kings Court.
		Cootehill.	Macroom.
		Dingle.	Roscarberry.
	{	Dunmanway.	Swineford.

Drawn on scale of 12 inches to 1 mile, but not published.	{	Augher.	Fintona.
		Ballygawley.	Irvinstown.
		Ballymoney.	Larne.
		Belturbet.	Lisnaskea.
		Clogher.	Maguiresbridge.
	{	Cookstown.	Stewartstown.

Surveyed on $\frac{1}{300}$ scale, but not yet published.	{	Athlone.	Queenstown.
		Clonmel.	Rathmines.
		Mullingar.	Sligo.
	{	Passage West.	

3. ONE-INCH MAP (vide Index Map, No. 6).

AREA OF IRELAND, 32,813 square miles.

The whole of this map is engraved and published in outline. The sketching of the hill features has been completed, and the engraving is being proceeded with. The area published with the hills is 18,190 square miles, of which 1,496 square miles were completed during the year.

IX.

DISTRIBUTION OF THE OFFICERS AND MEN.

Colonel Bayly, C.B., is in charge of the general correspondence, examination of the accounts, and engraving of the maps of Great Britain, at Southampton.

Lieutenant-Colonel A. R. Clarke, C.B., has charge of the trigonometrical branch of the work, and of the initial levelling.

Lieutenant-Colonel Parsons, assisted by Lieutenant Washington, has charge of the examination of the manuscript plans, of the zincographing of the $\frac{1}{2500}$ plans, and their reduction to the six-inch and one-inch scales, and of the publication of the maps.

Major R. O. Jones has charge in London of the boundary department of England, and of the survey of part of Hertfordshire.

Officers in charge of divisions, and the districts upon which they are employed :—

England and Wales.	{	Captain Ferrier (at Oxford) - - -	{ Berks. Oxford. Wilts.
		Captain Nixon (at Bristol) - - -	{ Brecknock. Glamorgan. Monmouth.
		Captain Pilleau (at Bedford) - - -	{ Bucks. Hertford.
		Captain Archer (at Derby) - - -	{ Derby. Nottingham.
		Lieutenant Elsdale (at Chester) - - -	{ Stafford.
		Lieutenant Georges (at Plymouth) - - -	{ Cornwall.
		Lieutenant Puzey (at Clifton) - - -	{ Brecknock. Carmarthen. Glamorgan.
Scotland	{	Captain Macpherson (at Inverness) - - -	{ Island of Harris. Derby.
		Lieutenant Fawkes (at Inverness) - - -	{ Orkney and Shetland Islands.

In Ireland :—Lieutenant-Colonel Wilkinson has charge of the engraving and publication of the maps, and of the office in the Phoenix Park, together with the Surveys for the Landed Estates Court, &c.

Lieutenant Spaight has charge of the revision surveys, &c.

In England :—The levelling, contouring, and hill sketching are carried on under Captain Wynne, who is stationed at Reading.

In Scotland :—These duties are in the charge of Captain Burke, who is stationed at Edinburgh.

In Ireland :—The hill drawing is executed under the direction of Lieutenant-Colonel Wilkinson.

STATEMENT of the PAY and ALLOWANCES chargeable to the SURVEY ITEM of the Officers,
Non-commissioned Officers, and Men of the ROYAL ENGINEERS, attached to the
SURVEY DEPARTMENT.

	£	s.	d.
Pay of the Director-General - - - - -	870	0	0
Pay and allowances of 1 colonel, and 3 lieutenant-colonels, at 30s.; 1 major, at 24s.; 7 captains, at 13s. 6d.; 6 lieutenants, at 13s. 3d.; and 1 quartermaster, at 11s. 6d. each - - - - -	6,013	0	0
Working pay of 123 non-commissioned officers, at rates varying from 2s. to 4s., and of 235 sappers and buglers, at rates varying from 6d. to 3s. 3d. - - - - -	14,750	0	0
	£21,633	0	0

XIV.

STATEMENT of the NUMBERS and RATES of PAY of the CIVIL ASSISTANTS and LABOURERS employed on the ORDNANCE SURVEYS, and their Numerical Distribution in the three portions of the United Kingdom:

Rates of Pay.	England.		Scotland.		Ireland.		Total.
	Civil Assistants.	Labourers.	Civil Assistants.	Labourers.	Civil Assistants.	Labourers.	
Above 15s. and not exceeding 20s.	4	-	-	-	2	-	6
" 10s. " " - 15s.	17	-	-	-	5	-	22
" 8s. " " - 10s.	47	-	-	-	12	-	59
" 6s. " " - 8s.	90	-	9	-	28	-	127
" 4s. " " - 6s.	221	1	38	-	35	-	295
" 2s. " " - 4s.	266	347	56	60	41	26	796
2s. and under - - -	122	6	12	-	10	14	164
TOTAL - - -	*767	354	115	60	133	40	1,469

* The large proportion of assistants employed in England is accounted for by the head-quarters of all the Surveys being at the Ordnance Survey Office, Southampton.

The annual charge arising from the pay of civil assistants and labourers as above enumerated is (approximately)—

Civil Assistants	-	-	-	£74,200
Labourers	-	-	-	18,700

XV.

BUILDINGS.

The offices at Southampton are in a good state of repair; and considerable progress has been made with the new building at Dublin, which is to take the place of an old and condemned building hitherto used for offices.

POPULATION, AREAS, HOUSES.

RETURN to an Address of the Honourable The House of Commons,
dated 11 August 1875;—for,

“ RETURN of Numbers and Ages of MALES, AREAS, and INHABITED HOUSES, classified under Counties, Registration Counties, Lieutenancy Sub-Divisions, Petty Sessional Divisions, Cinque Ports, Stannaries, Superintending Registration, and Registration Districts, and Enumeration Districts as far as the Reports of the Census can supply, with any Information available connected with the Militia Acts, with the Military Divisions, Clerks of Lieutenancy, &c. : ”

“ Similar RETURN for *Ireland* : ”

“ And, similar RETURN for *Scotland*. ”

(*Sir George Balfour.*)

Ordered, by The House of Commons, to be Printed,
23 February 1876.

ENGLAND AND WALES.

RETURN of Numbers and Ages of MALES, AREAS, and INHABITED HOUSES, classified under Counties, Registration Counties, Lieutenancy Sub-Divisions, Petty Sessional Divisions, Cinque Ports, Stannaries, Superintending Registration, and Registration Districts, and Enumeration Districts as far as the Reports of the Census can supply, with any Information available connected with the Militia Acts, with the Military Divisions, Clerks of Lieutenancy, &c.

NOTE.—The Male Population in Lieutenancy Sub-Divisions, Petty Sessional Divisions, Cinque Ports, and Stannaries at *different Ages*, and the Male Population enumerated at *all Ages* in each *Enumeration District*, were not published in the Census Returns of 1871.

General Register Office,
Somerset House, December 1875.

GEORGE GRAHAM,
Registrar General.

* The Boroughs of Thetford and Great Yarmouth extend into *Suffolk*. The entire Borough of Thetford contains 4,166 persons. The entire Borough of Yarmouth contains 41,819 persons. As the area of the Norfolk portion of the parish of St. Mary's, Thetford, is not known, the entire area of that parish is returned in *Suffolk*, the principal portion of the population of St. Mary's being in that County. Hence the area assigned above to the Norfolk portion of the Borough of Thetford, though as near an approximation as can be obtained, is not precisely accurate.

AREA, INHABITED HOUSES, and MALE POPULATION of the LIEUTENANCY SUB-DIVISIONS.

REGISTRATION OR UNION COUNTIES,
SUPERINTENDENT REGISTRARS' DISTRICTS, AND REGISTRARS'
SUB-DISTRICTS.

DIVISION I.—LONDON.

AREA, INHABITED HOUSES, and MALE POPULATION in 1871, in REGISTRATION OR
UNION COUNTIES (*parts of*).*

Registration or Union Counties.	Area in Statute Acres.	Inhabited Houses.	Male Population.
DIVISION I.—LONDON †	75,362	417,767	1,523,151
MIDDLESEX (<i>part of</i>)	31,499	276,846	1,063,110
SURREY (<i>part of</i>)	22,501	105,698	352,562
KENT (<i>part of</i>)	21,362	35,223	107,479

* Registration or Union Counties consist of groups of Superintendent Registrars' Districts, which are generally co-extensive with the Poor Law Unions. Those Districts which extend into two or more Counties (proper) are included entirely in that County in which the principal town of the District or the greater part of the population is located. The boundaries of Registration or Union Counties, therefore, differ more or less from the boundaries of Counties (proper).

† The limits to which the term "LONDON" applies are those of the District of the Metropolitan Board of Works, and the Registrar General's "*Weekly Tables of Births and Deaths in London*," with the following exceptions: the hamlet of Penge, in the Croydon Union, is within the District of the Metropolitan Board, but is not included in the Registrar General's limits; and the hamlet of Mottingham, being part of the Lewisham District, is included by the Registrar General, but is not included with the remainder of Eltham Parish in the District of the Metropolitan Board.

AREA, INHABITED HOUSES, and MALE POPULATION in 1871, in SUPERINTENDENT
REGISTRARS' DISTRICTS.

Superintendent Registrar's District.		Area in Statute Acres. ‡	Inhabited Houses.	Male Population.
MIDDLESEX (<i>part of</i>).				
<i>Registration or Union County.</i>				
<i>West Districts.</i>	1. KENSINGTON	7,444 w	37,770	118,103
	2. CHELSEA	796 w	8,986	32,971

Note.—The letter (W.) denotes that a Workhouse is situate within the limits of the Registrar's Sub-District, and included in the return. Other public institutions containing a large number of inmates are indicated in the first column of the Table by (H) for Hospital or Infirmary, (L) for Lunatic Asylum, (R.) for Reformatory, (WS.) for Workhouse School, (O.) for Orphanage, (B.) for Barracks, and (w) for Workhouse situate out of the District to which it belongs; repetitions of these letters show the number of such institutions in any Sub-District. The smaller institutions are not here noticed.

DIVISION I.—LONDON—continued.

Note.—The letter (W.) denotes that a Workhouse is situate within the limits of the Registrars' Sub-district, and included in the return. Other public institutions containing a large number of inmates are indicated in the first column of the Table by (H.) for Hospital or Infirmary, (L.) for Lunatic Asylum, (R.) for Reformatory or (WS.) for Workhouse Schools, (O.) for Orphanage, (B.) for Barracks, and (w.) for Workhouse situated out of the District to which it belongs; repetitions of these letters show the number of such institutions in any Sub-district. The smaller institutions are not here noticed.

Note.—The letter (W.) denotes that a Workhouse is situated within the limits of the Registrar's Sub-District, and included in the Return. Other public institutions containing a large number of inmates are indicated in the first column of the Table by (H.) for Hospital or Infirmary, (L.) for Lunatic Asylum, (R.) for Reformatory, (WS.) for Workhouse School, (O.) for Orphanage, (B.) for Barracks, and (w.) for Workhouse situated out of the district to which it belongs; repetitions of these letters show the number of such institutions in any Sub-district. The smaller institutions are not here noticed.

Note.—The Letter (W.) denotes that a Workhouse is situate within the limits of the Registrar's Sub-District, and included in the return. Other public institutions containing a large number of inmates are indicated in the first column of the Table by (H.) for Hospital or Infirmary, (L.) for Lunatic Asylum, (R.) for Reformatory, (WS.) for Workhouse School, (O.) for Orphanage, (B.) for Barracks, and (w.) for Workhouse situate out of the District to which it belongs; repetitions of these letters show the number of such institutions in any Sub-District. The smaller institutions are not here noticed.

3. Fairford - - - - -	3,005	385	383	370	307	194	150	174	135

Note.—The letter (W.) denotes that a Workhouse is situate within the limits of the Registrars' Sub-district, and included in the return. Other public institutions containing a large number of inmates are indicated in the first column of the Table by (H.) for Hospital or Infirmary, (L.) for Lunatic Asylum, (R.) for Reformatory (WS.) for Workhouse School, (O.) for Orphanage, (B.) for Barracks, and (W) for Workhouse situated out of the District to which it belongs; repetitions of these letters show the number of such institutions in any Sub-district. The smaller institutions are not here noticed.

DIVISION VI.—WEST MIDLAND COUNTIES—continued.

Note.—The letter (W.) denotes that a Workhouse is situate within the limits of the Registrars' Sub-district, and included in the return. Other public institutions containing a large number of inmates are indicated in the first column of the Table by (H.) for Hospital or Infirmary, (L.) for Lunatic Asylum, (R.) for Reformatory, (WS.) for Workhouse School, (O.) for Orphanage, (B.) for Barracks, and (w.) for Workhouse situated out of the District to which it belongs; repetitions of these letters show the number of such institutions in any Sub-district. The smaller institutions are not here noticed.

In all the counties marked thus *, the number of square miles and of acres is given from actual survey by the Ordnance Staff. The measurements of the other counties, with the exception of Shetland and Orkney, are taken from Major Dawson's estimate for the Census of 1851. In that estimate he included as land all the channels between the islands of Shetland and Orkney. These channels are excluded in the estimate given in the above Table.

Jas. Auldjo Jamieson,
Crown Agent.

PUBLIC RECORD OFFICE.

RETURN to an Order of the Honourable The House of Commons,
dated 1 August 1876 ;—for,

COPY “of MEMORANDUM, dated 20th day of November 1875, by the DEPUTY
KEEPER of the PUBLIC RECORDS, on the subject of the DESTRUCTION of
useless DOCUMENTS now preserved in the PUBLIC RECORD OFFICE.”

Treasury Chambers, }
1 August 1876. }

W. H. SMITH.

MEMORANDUM approved by the MASTER OF THE ROLLS, for the Information
of Mr. W. H. SMITH.

THERE are extant in the Public Record Department large masses of legal and Governmental documents which are wholly useless for legal, historical, military, statistical, economical, or official purposes, and of no possible interest to any one. These documents occupy a very large space, and prevent the reception of valuable papers into the Repository (which is at present filled to overflowing), to say nothing of those documents which the Public Record Act makes it compulsory on the Master of the Rolls to receive at stated periods. This state of things consequently necessitates a considerable enlargement of the building, unless a speedy remedy be found.

It was under these circumstances that the Master of the Rolls suggested to the Treasury the expediency of appointing a Committee to examine the several classes of legal and Government documents now in the Record Repository, and to ascertain what portions of them could be judiciously destroyed, and thus make room for those which the Record Act compels the Master of the Rolls to receive, or the requirements of Government Departments render necessary to be preserved. Unless some step be taken to relieve the office of useless and cumbersome documents, it will in time get into a state of embarrassment, out of which it will not be able easily to extricate itself. In considering this question it must be borne in mind that, if every species of document or memorandum, preparatory or incidental to an act before it is completed, is to be preserved, there would be no limit to the size of a building sufficient to contain them, and a much larger staff of officers would be required to superintend them. It may be safely asserted that if such papers and documents had been preserved from the Norman Conquest to the present time, a building of 10 times the dimensions of the present Repository would be insufficient for them, and really valuable materials for history in all its branches would be swamped and crushed by their surroundings of useless rubbish.

The Committee which the Master of the Rolls would recommend to be appointed to suppress these evils, should consist of three persons at least, all being men of practical and general knowledge, as well as of legal and historical acquirements. (I.) One should be a barrister, having a thorough knowledge of the nature and value, in every aspect, of the Chancery and Parliamentary Records. (II.) Another should be a barrister possessing a full knowledge of the nature and value of the Records of the late Courts of Queen's Bench, Common Pleas, Exchequer, and inferior courts; and (III.) The third should be an officer of the Public Record Department, who is fully acquainted with the historical, topographical, and statistical bearing of the different classes of records at present in the Office, or proposed to be sent there.

The Committee should have power to deal, not only with the legal records, but also with the departmental papers at present in the Repository, and to consider what portions might be safely destroyed, without detriment to the

public service, to individual rights, or historical investigations; also to examine the nature of those documents, both legal and Governmental, which it is proposed to send into the Record Repository, and decide whether they ought to be received, and in case of a difference of opinion between the Committee and the department desiring to send its documents to the Record Repository, the Treasury should decide the question; but if any question should arise between the members of the Committee themselves, they should refer it to the Master of the Rolls.

In carrying out these suggestions the Committee must have free access to every class of documents in the Public Record Office, and unanimously determine what classes or portions of classes are recommended for destruction, and ought to submit their recommendation to the Master of the Rolls, and the court of law or office to which the documents appertain, for approval.

In deciding upon the documents recommended to be destroyed, the Committee must exercise the greatest caution and discretion, and preserve, as evidence of what has been done, short lists, abstracts, or indications of such documents as are condemned, as well as preserve two or three specimens of the same. Moreover, the Committee must ascertain, if possible, whether any of the condemned documents have been copied or printed; and if any such should be found, they should be withdrawn from condemnation, and perpetually preserved in the office, so that they may be referred to at any time hereafter.

When it shall be finally determined what documents ought to be destroyed, a short Act of Parliament ought to be obtained authorising such destruction.

The papers and documents thus legally condemned should be duly delivered to the Comptroller of the Stationery Office, to be pulped, accompanied with the strictest injunctions that no papers or documents, or any portion of them, should be permitted to escape destruction, and some person of confidence, appointed by the Committee, should attend during the operation of pulping.

In addition to the three members of the Committee, a clerk or secretary will be required to record their acts and proceedings.

It may be remarked, that it will be next to impossible for the Clerk of the Petty Bag to be able to discharge his present operations upon the Records of the late Masters in Chancery, with the extra duties which have been put upon him, in consequence of the late Judicature Act. With reference to this point the Lords Commissioners of the Treasury are referred to the letter of the Master of the Rolls, dated 9th December 1873, in which he pointed out how unsatisfactory it is to have the judgment of a single individual, however competent for the task, exercised upon such an important question as the destruction of any documents hitherto preserved as of record.

(signed) *T. Duffus Hardy,*
Deputy Keeper of the
Public Records.

20 November 1875.

QUEEN'S BENCH, CROWN SIDE.

RECORDS which it is suggested may be Pulped.

PUBLIC RECORD OFFICE.

COPY of MEMORANDUM, dated 20th day of November 1876, by the DEPUTY KEEPER of the PUBLIC RECORDS, on the subject of the DESTRUCTION of useless DOCUMENTS now preserved in the PUBLIC RECORD OFFICE.

(*Mr. William Henry Smith.*)

*Ordered, by The House of Commons, to be Printed,
1 August 1876.*

RIVER CONSERVANCY BOARDS.

RETURN to an Address of the Honourable The House of Commons,
dated 13 June 1876;—for,

“COPY of a DISSENT to the SECOND REPORT of the ROYAL SANITARY COMMISSION, Vol. II., page 339, being a PAPER on WATERSHED or CONSERVANCY BOARDS for RIVER BASINS, dated the 28th day of April 1870.”

PAPER by the Right Honourable Lord *Robert Montagu*, M.P., on WATERSHED
BOARDS or CONSERVANCY BOARDS for RIVER BASINS.

IN compliance with the request of the Commission, I offer the following remarks in explanation of the motion which I placed, some time ago, on the notice paper of the Commission. The establishment of watershed boards, or conservancy boards for the areas of river basins, arose spontaneously during the investigation of the Sewage Committee which sat during the Session of 1864. The committee then unanimously agreed to the proposal; and the more I have thought on the subject since that day, the more certain I am that no effective sanitary measure can be carried out without establishing such a board over every watershed.

I will briefly mention some of the grounds for advocating the institution of such boards, and the ends which they are intended to attain; I will then place before the Commission my views as to the means of constituting them, and the powers which they should exercise.

Let me remind the Commission that the evidence which we have taken has proved the correctness of the views which Mr. Simon stated in his last report to the Privy Council; and that we have not as yet overcome the two difficulties which stand (as he said) in the way of any stringent and uniform measure: namely, (1.) What shall be the one local sanitary authority? and (2.) How shall the various special Acts be treated?

The question as to the unity of local authority is a question of area. Shall the parish be our unit, and the union our larger area? or shall petty sessions districts, highway districts, and counties be our areas? In the former case, vestries and guardians must be our local authorities; in the latter, we must resort to highway boards, or the courts of quarter sessions. Some witnesses have been strongly in favour of the one, and some have given as strong evidence in favour of the other plan. It is clear that a county conservancy has no ground in reason for the management of a river. A county has merely a conventional boundary; the boundaries of a county were the limits of the jurisdiction of an iron-clad feudal earl in ancient days. These boundaries had their origin in a mere accident, many centuries ago; while the boundary of a watershed is as old as the flood, and consists in the nature of things. Although we may think that a highway board or the court of quarter sessions might, by its constitution, be a good sanitary authority, yet the areas of these existing authorities evidently do not suit our purpose. The present unit of rating—the parish, and the union, or area compounded of parishes—therefore engaged our attention. But a union is an equally incongruous area in the management of a river. Moreover, whichever of these bodies we may select as our sanitary authority, it is clear that we must have a different sanitary authority in town and country, and various kinds of sanitary authorities in different towns. The two difficulties which Mr. Simon pointed out to the Privy Council therefore face us here in all their force.

We next considered whether we could alter the boundaries of counties and the boundaries of unions, and make the areas coincide, so that we might amalgamate

the existing bodies, and constitute a new body which might in future perform all the functions of local government, and be our sanitary authority throughout the kingdom. Every witness concurred in the impossibility of such an undertaking. The old county, which has stood since the Norman conquest, will not budge for us; and as to unions, the Reports of the Poor Law Inspectors, which have just been laid on the Table of the House, are conclusive against any alteration sufficient for our purpose. Besides the difficulty as to the existence of local government boards in some towns, town councils in other towns, improvement commissioners, &c., &c., in others is not removed. Nor yet do we touch the difficulty of special local Acts. For example, the Manchester Act extends over the borough, but not over the whole town; so that even if we succeeded in such an amalgamation, one part of the town would be under one authority, and another part of the town under another. We can in this way, therefore, make no approach towards a unity of sanitary management. We cannot have a unity if we descend to such a level.

Let us then seek it in a larger, a more influential, a more independent authority, at a higher level, between the central government and the smaller authorities to which I have alluded. From the very first we have heard evidence in favour of a "buffer," or "cushion" between the central and local governments. Mr. Tom Taylor, of the Local Government Act Office, and equally influential and learned witnesses, have spoken in favour of instituting such bodies. For a central government which depends on popularity for its existence, is unable to force boards of guardians to observe the law. Moreover, it is not politic that the central government should incur the odium of a collision with a local government. To avoid this, a large, powerful, and independent body, on whom the central government does not depend, as they do on a town council, must be interposed between the central government and every local authority. This body may then incur the odium without injury to the State; while, on the other hand, it may be guided in its action by the central government. This body will moreover be possessed of more local knowledge than the central Parliament, and less local prejudice than the town councils. Local knowledge is very necessary for legislation; because localities differ so much, that national legislation and uniform systems cannot but be baneful; while, on the other hand, the selfish interests and influences of localities must always in the long run be injurious to the nation. Let us then look to such a body. Let it be our sanitary unit, of which local authorities will become the fractions.

I will now show that the area of jurisdiction of such a body must be a watershed or river basin; and will then suggest how such a body may be constituted.

That the sanitary body must be the intermediate authority, and that its jurisdiction must extend over the entire watershed.—To the greater portion of every county the river is the only source of water supply; it serves for drinking, for irrigation, for carriage, for manufacture, and for culinary purposes. At one time it was, at all events, the great natural source of water supply. What has the river become?

(1.) Sewage. The Thames above London is polluted by the sewage of 800,000 persons; and the evil increases not only with the increase of the population, but with the increasing number of towns which are every year drained and sewered. The Londoners spent 6,000,000 *l.* to get rid of their own excreta; and yet they have to drink the filth of others. On the Medlock the scum is so thick that birds are able to walk over it.* The river Wharfe became so impure that on dipping a carpenter's rule four inches below the surface, it was found impossible to read the marks upon it. The landowner complains of the nuisance thus created by towns higher up the river, but yet he pours his quota of nuisance into the river. The manufacturer says that the water required for his manufacturing process is injured, yet he runs into the river his foul water and the excrements of his workpeople. Every village, every detached house, has its privies over some running stream; and every one below complains of the delinquents higher up the stream.

Every one is injured thereby. To the poor the benefit of a pure river is too apparent to need mention. The ratepayers of a large town spend 2,000,000 *l.* to procure

* Evidence of Mr. Rawlinson in 1864, and see Hansard, vol. clxxvii., p. 1309.

procure pure water from near the confines of the watershed. Manufacturers also would annually save an enormous sum by purifying the river; one calico printing firm alone said that they would thus save 3,000 *l.* a year.* But although every one feels the injury, yet a town or a manufacturer reaps no benefit by desisting from polluting a river with sewage. If one town undertakes the expense, the towns and manufactures below will reap the benefit. Those who suffer cannot apply the remedy. The town of Salford wished to expend 80,000 *l.* in turning its own sewage away from the river, on condition that all the other towns higher up the river would do the same; but Manchester and other towns refused.† It comes to this: it is useless to attempt to apply a remedy unless a unity of action throughout the whole watershed or catchment basin can first be brought about. There must be a board of conservancy to supervise the whole stream, so that the sufferers (the whole board) may compel each fractional authority (the representatives of a local authority) to carry on its business without injury to others.

It is absurd to wait for improvement while the local boards of towns are the chief sanitary authorities, for they are themselves the chief offenders. Each town, for its own health, carries out a system of sewerage, and, to save expense, it sends its sewage on to the towns lower down, to the infinite detriment of the health of the inhabitants. Manufacturers also show a very determined interest in having pure water from above, and in fouling the river for those below. Now the towns higher up will not carry out expensive works in order to purify the stream for the towns lower down; it is therefore necessary to have a superior authority which shall protect every town from the towns above, and restrain it from injuring the towns below. We thus see that, with regard to the pollution of rivers, whether by sewage, by manufactures, dyeworks, printworks, paper mills, tinworks, and mines, the question is indivisible for the whole water shed. Wherever the act complained of is an offence against the purity of a river, the remedy must extend over the whole basin, even up to the smallest tributaries, for the waters of the tributaries are the waters of the river.

(2.) Let us pass to *the fisheries of a river*. A fishery requires protection, at different times of the year, in different portions of the river. The largest fisheries are near the mouth of the river. But as the fish which are caught in a river all belong to the river, and have been bred in it, and year by year return to it to spawn, there will be no fish unless the spawning beds or gravel shoals high up the river, and in the tributaries, are protected. And there will be no fish to spawn if all the fish are stopped by nets low down near the mouth of the river, or if they are poisoned by the pollutions of the water. Now, the owners near the sources will not spend money for the benefit of the fisheries at the mouth; and those below will not pay for watchers a hundred miles higher up. Experience has shown this frequently. A number of different fishery associations have been formed on different parts of a river; but they have not given assistance to each other, because their interests are various and their actions often opposed. They have, therefore, found that their partial attempts have been useless to conquer an evil which extends over a whole river. The spawning beds on the gravel of the upper streams and rivulets were protected by one association; but the lower and the tidal fisheries reaped the harvest and stopped the salmon from going up the river. The fresh-water owners subscribed to the upper association, and the salt-water men obtained all the gain. They soon grew tired of this game; yet all desired the same thing (plenty of salmon). There was a community of interest, but no unity of action throughout the watershed.

What has been said under the former head applies also here; for a very slight pollution of the river kills the spawn; a greater proportion of sewage poisons the fish. One town high up may kill the spawn; while many towns or factories on a river will poison the fish at the mouth. Up to this time (during eight years) Messrs. Buckland and Ponder have turned out 300,000 fish into the Thames. With what result? One fish is said to have been caught somewhere below Greenwich. Yet this number would have stocked all the rivers of Australia. And if the Thames were pure, how great would have been the result. The watershed

* Rivers Pollutions Commission, 1870, p. 129.

† See Evidence of 1864, and Hansard, 8 March 1865.

watershed of the Severn (4,437 square miles) is nearly as large as that of the Thames. The watershed of the Tay is half as large as that of the Severn, viz., 2,283 square miles. The Tay is not half preserved, and yet the yield of salmon is worth 30,000 *l.* The yield of the Severn should, therefore, be more than 60,000 *l.* a year (and yet it is only worth 1,000 *l.*). That of the Thames should be still greater. At the mouth of the Dee, 300 families are maintained by the fishery; how many might be maintained at the mouth of the Thames? For this we require a unity of action throughout the whole watershed, a supervising board over all the local authorities of the river basin.

On this question I will quote the Report of the Inspectors of Salmon Fisheries, which has just been published:—

“The point in question is how to adapt and reconcile the interests of all the proprietors on a river’s bank from the top to the bottom, so that each shall obtain his fair share of the common migratory property. The only possible way of doing this seems to me to be the amalgamation of the interests of all concerned. If these interests be not amalgamated, each person will do what he thinks best for his own interest, without regard to the common good. In other words, the proprietors on the sea and estuaries will destroy all they can; whilst those in the upper waters will be careless in the protection of the breeding fish, even if nothing worse occurs.

“A river, under these circumstances, may be compared to a candle; the lower proprietors light it at one end, and the upper proprietors light it at the other; the ultimate consequence of this policy must be apparent to all. The only possibility, therefore, of developing the resources of a river to its fullest extent, is so to arrange matters, that those who breed the fish shall become entitled to the fair proportion of the results of that breeding; in other words, the lower proprietors should acknowledge the obligation to the upper proprietors under which their property continues to exist, by giving them their fair share of the proceeds of the river. This is to be done in two ways: firstly, by forming, as it were, a joint stock interest of all the proprietors in the whole river.

“That this idea is correct, I feel convinced, because, not only has it been advocated by gentlemen of high position, who have long studied salmon fisheries, but because it is exactly what one of us would do if a river were our own property from source to mouth, and I cannot see why the proprietors of a river should not form themselves, as it were, into one person with but one interest.”
—(9th Report of the Inspectors of Salmon Fisheries, 1870, pp. 51, 52.)

(3.) *Solid refuse which silts up, and weirs which obstruct and dam the water.*
—Let us now consider another source of injury—a threefold injury—an injury to health, a bane of agriculture, and an obstruction to navigation or water carriage. It is the common practice for manufacturers and miners to tip all their ashes, cinders, and solid refuse into the nearest river, in order that the next flood may carry them away to their neighbours further down the river. Every cottager, every gardener shoots his share of rubbish down the river bank; the flood washes it a little way down, and it is there deposited on the bed of the river. Sometimes the whole bed of the river is thereby raised—raised as much on an average as two inches every year. The River Pollution Commissioners tell us that sometimes great banks are deposited on the bed of the river. Thus the navigation of the river is greatly impeded, and railway companies reap, from the abuse, a monopoly in the carriage of goods.

Again: as the bed of the river is raised, the water level is raised through the whole breadth of the watershed, the drains do not run, evaporation is increased, the soil becomes cold, and agriculture is damaged. Mr. Simon has, moreover, proved, in his 9th and 10th Reports to the Privy Council, that where the subsoil is not dry, where there is not sufficient drainage, there consumption increases. He proved by experiments, which, at his suggestion, and with my sanction, were conducted in the autumn of 1867 and 1868, that consumption varies with the sodden condition of the soil. How important, then, it is that the beds of the rivers should not be raised! Yet what are the facts?

The River Pollution Commissioners assert, at p. 12 of their Report, that “the result everywhere is a steady rise in the river beds.” “At a thousand places along its (the Irwell) course, and that of its affluent streams, mineral matter, much of it already in the condition of loose earthy waste, is thrown into the
“river

"river bed for the express purpose of being carried away. At several manufactories along its course many thousand tons of coal are annually burned. Out of every eight tons of coal, one ton of ashes has thus every year to be got rid of, and they have hitherto been very generally thrown into the river. The result is seen in great shoals of black mud and ash appearing at various points below the mills; it is also seen in the occasionally diverted course of the river, as when a great spoil heap on one bank sends the water with increased force against the opposite side below, and it is seen in the gradual rising of the river bed, which in flood time thus raises the level to which the injury then suffered by river-side towns and villages extends."—(Rivers Pollution Commission, 1870, p. 40.)

The Commissioners apply themselves to the consideration of the remedy, and say: "The municipal authorities complain that a flood is sure to leave behind it traces of the malpractices of people above them, in the shape of banks of rubbish, cinders, &c., and as their authority does not extend beyond the municipal boundaries, they have no power to impose any check upon such practices."—(Rivers Pollution Commission, 1870, p. 12.)

Weirs also hinder the drainage of adjacent lands, and render them sodden, unhealthy, and unproductive. Yet what authority would be competent to deal with weirs? Not a county authority, for the weir may lie between two counties. Not the board of guardians, for the same reason; and not a municipal authority, for the weirs are not in towns. To deal with the evils of silting up and of weirs, of consequent floodings and obstructions, we must have an authority which is cognisant with the whole river and its adjacent lands.

(4.) *The arterial drainage of land* is now forced upon our attention. The following principles may be taken for granted. The water level in every soil should not be nearer the surface than four feet, for evaporation takes place at a depth less than four feet. But the water level in the soil cannot be made as low as four feet below the surface, unless the water level in the river is considerably lower, otherwise the water will be pressed up in the soil to the level of river.

The average evaporation in drained land is three quarters of the rainfall, while the mean discharge through the drains is one quarter. That is to say, about six inches of rain, or 135,732 gallons per acre, are discharged through the drains during the year. In other words, this is the average quantity which percolates beyond the reach of evaporation. The remainder evaporates by abstracting heat from the earth.

In warm weather the evaporation is of course quicker, and therefore the discharge is less. From free soils the discharge is quicker than from clays; and therefore it is greater than the discharge from clays, as there is less time for evaporation.

As to undrained lands, the rain takes a long time to percolate through the open soils; but it runs more quickly off clay soils.

Drainage opens or renders free the clay soils, so that the water percolates; and it carries the water more quickly away from free soils.

As the time for evaporation is less in proportion as the water takes less time to percolate the soil and run through the drains, therefore the drier will be the atmosphere, the greater will be the water supply and the volume of the river (for more water will get to the river); the heat will also be greater and the vegetation earlier (for the water abstracts heat in order to evaporate). The converse of this is also true: if the land be wet and sodden, like a sponge full of water, by pressure from a high river, then the evaporation will be continuous, there will be fogs and miasmata, and consumption; the soil will be cold and unproductive, and the river will be robbed of its due proportion of water. Now what authority, I ask, is competent to deal with such evils? is any local authority, except one which extends over a whole watershed, fit to provide against the cause of such injuries?

The proper method of draining every valley is to carry the drains of one district into an adjacent district lower down the river, so as to get a good fall into the river. If this be done the weirs and milldams will not interfere so much with the drainage, and the water power of the river will not be decreased. But to deal with such an extended operation the river basin must be dealt with as a whole; and one landlord must not attempt to drain his property independently of every other landlord.

Again, a regularity of water supply is necessary to every millowner. Now, although draining works do immense good by increasing the productiveness of the soil, by diminishing miasma, by increasing the warmth and sunshine, and by improving the health of the people, yet it certainly damages the millowners, by causing alternate floods and deficient supplies of water in the river. The object of drainage is twofold—it is to abstract the subsoil waters (or the waters which rise from below), and to carry off more quickly the surplus waters of rain. But a flood is caused by a heavy fall of rain finding its way rapidly to the river. We need not be astonished, therefore, by learning that since the Thames Valley has been better drained, the floods in the Thames reach their maximum at Abingdon Bridge in 36 hours; whereas a flood used to take 72 hours to attain its greatest height. On the other hand, the slope of the watershed must be taken into account. Thus, the country about the Tweed is well drained, and yet there are not such floods in the Tweed as there are in the Thames; for the fall of the Tweed is quicker than the slope of the Thames. The Thames is moreover choked and obstructed by shoals and weirs. Therefore the water cannot get away so readily down the channel of the Thames. Moreover, as the water of the Tweed passes off more quickly, there is less time for the deposit of mud, so that the evil of floods does not annually increase.

As floods are augmented by draining, so also is a deficiency of river water. If the water takes a long time to percolate through the soil to the river, the supply to the river is of long continuance. But drainage causes the water to reach the river rapidly; soon, therefore, the drains can yield no further supply. Moreover, the perennial supply is cut off by drains; for nature has its many subterranean stores of water, from which the water used to rise and saturate the soil, and creep down to the river. But the drains cut off these subsoil waters, and hurry them down to the river, and relieve the soil from wet, and allow the air to percolate where the water has been. This deficiency of water, then, is a great evil which no authority less than a watershed board is fit to cope with.

And it is a growing evil. Only a million and a half of acres are drained, and yet there are 56,352,000 acres in Great Britain. What floods and what dry river beds there will be, unless river basins are soon taken in hand by the superintendence of watershed boards over the drainage of their whole valleys! The remedy is easy; but it must be dealt with by a watershed board.

5. As nature stored waters before drainage, so must the watershed board store waters in future. This brings me to *Reservoirs and Water Supply*. Formerly it was the duty of a municipality to supply its townsmen with water, while country folk enjoyed a pure river. Of late years joint stock companies have undertaken this duty as a speculation and matter of gain (*see Report of Commissioners on Water Supply, p. 120*). In future I hope that this will be done by the watershed board. Already many of the most influential towns have found out that it was a great error to let the water supply slip into the hands of joint stock companies, and they have resumed the authority (*e.g., Manchester, Liverpool, Glasgow, Dublin, &c.*). The result has been beneficial. Health and water supply are inextricably combined, and the authority which deals with the one must also deal with the other. This was clearly perceived by the great towns. Again: if the municipality holds the water supply, it is a common possession, and the public has control over it; if it is in the hands of a company it is a monopoly, and the public have no control. An elected municipality can be influenced by the inhabitants, who have the remedy in their own hands; a company is irresponsible, and complaint is useless and unheard. A municipality can seek only the good of the townsmen; a company seeks only to increase its dividends. Now consider these arguments, and see if they will not apply with greater force in favour of a watershed board.

Again, it would be highly injurious to catch all the waters which fall from a watershed. The Legislature has always required that at least one-third should flow down the ordinary channel of the river; that is, of 448,000 gallons which flow off every acre of the watershed,* 365,000 gallons alone (*i.e., the annual supply for 50 persons*) are to be used for water supply by the company. But as the water company does not care about the river, which is its rival, so no more will a town care about all the parts of the river which lie below its own situation,

* Rivers Pollution Commissioners, 1870.

tion. Only by a watershed board will the interests of river and water supply be properly balanced.

Moreover, there are many other interests besides the water companies which will be busy in injuring the river, unless they are all put under a watershed board. For example, canal companies take the water which comes from the up-land districts, and thus reduce the supply in the river. The watershed board must govern these interests.

Water supply, however, must continue, although it be put in the hands of a watershed board. How, then, are we to provide against the reduction of streams by water supply, by canals, by drainage, by mills, &c. We must compensate the river, or else it will lose its scouring power and be silted up. We can compensate the flow only by means of reservoirs and storing water. These reservoirs for the whole watershed must be at high levels in order to scour the river, to supply water to the towns, and for use in irrigating the land; and therefore they cannot be in the hands of any other authority but a watershed board.

We may by this means also decrease the evils of floods; for the flood waters may be caught at their source and stored up for future use.

I have briefly considered the five great evils which afflict us, and I have shown that watershed boards are required to deal with each of them. It is a particular case of the maxim, that what is for the general good must not be left to the action and enterprise of individuals (whether they be towns, companies, or persons), but must be performed by a general action, or by agents or ministers who are responsible to all persons who are concerned and affected. At present it is individuals who act. Town-corporations can deal only with their own districts, and care for that only; and their area is not co-extensive with the evil. Those who are situated high up in a river valley are interested in removing the obstructions from the bed of the river below, because the obstructions injuriously affect the drainage of their land; while the parts below are interested in stopping the pollutions which take place in the streams above them, because these pollutions injuriously affect the health of their own inhabitants. But neither a union, nor a county, nor a parish, nor a highway board, nor a municipality, nor any company, is interested in the whole river basin; for no one of these bodies benefits itself by lowering the bed of the river above, or by preventing the pollutions below. No local authority on a river will undertake expensive works which will benefit a local authority below, and no local authority below will carry out arterial drainage or dredging operations for the good of a local authority above. The parts of a river basin, if the basin be separated into parts, will cease to care for each other; the unity will die, as the man dies whose limbs are torn asunder; but group together the parts above and below, and this unity will be concerned in all the works throughout the whole course of the river. The various interests of land and river, navigation and mills, drainage and water supply, fishing and manufactures, can be adjusted and developed only by one management over the whole river, only by having one government for the river and for the health of towns, and for those advantages of the landward parishes which are connected with the river, I mean one authority for the whole river basin. The absolute necessity of such a combination of parishes was well shown by the evidence which was received by us with regard to the Cray Valley.

4215, 4227, 4264.

If it be conceded that those authorities are useless which have any area of jurisdiction which is less than a river basin, so, on the other hand, an authority greater than a river basin will not be effective. The central Parliament has not sufficient local interest, because very few of its members reside in the watershed; but a watershed parliament will have the requisite interest, because all its members will reside within the watershed.

I do not, however, see any necessity for abolishing the existing local bodies and their special Acts; we may make use of them and regard them as fractions in our calculation. But we must resort to some means of compulsion over them. The question then arises, who is to compel? Say that London, which has spent six millions to drain itself, is injured by the fæces of the 800,000 inhabitants in the towns above, these towns do not feel the injury, and desire to escape all expense on account of the metropolis; but London, seeing that its enormous expenditure has not procured for it a pure river, naturally seeks compulsion over the towns in the river basin above.

Shall we then resort to some despotic central authority? No; bureaucracy is already too strong; chief clerks are now the real rulers of England, they have already a power too despotic. The Ministers above them when first appointed are always ignorant of their subject, and trust to those chief clerks, and so commit themselves, and are subsequently too vain to change. Besides, they depend on the suffrages of the towns, and are afraid to act, lest their supporters should be driven over to the opposition. The helplessness of Ministers has been shown by their futile attempts to save the lives of paupers from the grasp of boards of guardians. The helplessness of Ministers has been shown even in the little matter of the weirs which obstructed the navigation of the Taw, in Devonshire. The Board of Trade in 1864 or 1865 decided that these weirs ought to be removed; but the corporation of Barnstaple are the conservators of the river, and levy rates upon boats, and they simply refused to do their duty; and they were stronger than Ministers.

The courts of law have failed to afford a remedy. The rapid growth of the evils which I have pointed out above are sufficient to prove the inadequacy of the courts of law. Yet various statutes contain prohibitions which are couched in very stringent terms. The Mersey and Irwell Act, for example, has provisions which are ample for every purpose; but the Bridgwater trustees could never enforce those provisions. The offenders were the great towns themselves, and the trustees were possibly a body not altogether independent of the interests which might sway their decisions and lull their sense of duty.

Towns now shoot their sewage, foul water, and rubbish into the nearest stream, ignoring the fact that they thus do not get rid of the nuisance, but merely transfer it to the towns lower down the river, the inhabitants of which thereby suffer much diminution of their comfort, and great detriment to their health. But large towns and large manufacturers will not prosecute each other in a court of law, because they all commit the same illegal acts. Wealthy individuals are not apt to prosecute, because of the odium which follows every endeavour to benefit a whole community, and because they know that the litigation is sure to be dilatory, expensive, and unsatisfactory; and because they know that courts of law have often pronounced judgments which have been futile, and that the Court of Chancery itself has issued injunctions which have been ineffectual. These courts have always proved incompetent to deal with the mischief, and inefficient to stop the evil. Sometimes the peccant town has continued to perform its pollutions, disregarding the injunctions of the court, the threats of penalties, and the law of the land. Sometimes, as in the case of Hitchin, the local board, instead of being forced by the injunctions to carry out the law, has itself been crushed by the injunction, and no local authority has consented to succeed it.

The difficulty of procuring an injunction is moreover very great. A person may proceed against one town or one manufacturer, but he cannot include in his action all the towns and all the manufacturers who pollute the river. The one manufacturer who is sued then answers this partial attempt to enforce justice, by saying that the complainant cannot point to the exact amount of injury which the defendant has caused. Such an answer has, according to the evidence of many witnesses, frequently proved successful in rendering futile any appeal to a court of law. These continual defeats of isolated and partial attempts have discouraged well-doers and served to combine the delinquents in ill-doing. The well-doers were defeated because the attempt to procure justice was partial; and yet the attempt cannot be otherwise than partial, unless there can be an appeal to a legislative and executive court which shall have jurisdiction over the whole area of offence, and shall take cognisance of the condition of the whole river basin; a court which, moreover, shall make the whole area pay the costs of the complainant. There must, in fact, be an executive power which shall be able to disregard the odium of well-doing, and whose interest it will be to enforce the law; while as to the legislative power, we must have a unity of legislative action extending throughout the river basin, if we would bring about a discontinuance of pollutions, and carry out drainage and irrigation works, and preserve the fisheries of a river. For an offence against any stream is an offence against the whole river.

I believe that a watershed board would prove efficient for this object. For every one is keenly sensible of the evils. The towns lower down on the river are injured by pollutions, and therefore it will be their interest to aid the towns
above

above to divert their sewage to the land. The towns above are interested in good drainage, and will assist the towns below in removing obstructions. Dis-united towns injure each other with impunity; unite them, and there will be a power sufficient to coerce each individual authority.

This Commission has been appointed because it was felt that legislation is required. The necessity for legislation is a proof that sanitary matters cannot be left, as at present, to the action of individual authorities; yet past legislation has been sufficiently stringent, but has hitherto failed from a want of knowledge and energy in the individual inhabitants affected. The difficulty, therefore, will be solved by a happy mean between imperial legislation and a local initiative; between the apathy which is always generated under a supervising government, and the active selfishness and isolated views which grow and obtain more sway as the government becomes more local and the action of individuals becomes more free and of more account. We must therefore be careful, on the one hand, to secure co-operation and unity of action between different local governments; and, on the other hand, the area of this action should not be so general that individual interest will be weakened and the responsibility of executives will be lessened. A watershed board will therefore be better than a number of isolated boards, or than one general parliament. Whenever the two parties are far asunder (as a central authority is far above a small local authority), there can be little community of interest and little unity of action. If the initiative rests with the locality, some places will co-operate with the central government, while others will remain inert or recusant. The effects will be partial and scattered, the result will be sporadic. If, on the other hand, the initiative is retained by the central government, the locality will take but little interest in the matter, and there will be no hearty co-operation in the locality, and no responsibility in the government. For co-operation and responsibility always go together. To take an example: when the cattle plague began to devastate the country, the strong interest manifested in the various localities forced a reluctant government to legislate; but as soon as the central government began to act (as I know from my experience in the office), local interest began to wane. In some places the central government then had to urge reluctant local authorities to take the steps necessary to protect themselves. In guarding against the cattle plague the best results were visible, not where towns and small localities legislated for themselves, nor yet where the Imperial Government pressed the small local authorities to act; but where a large county like Aberdeenshire debated and decided the question for the whole of its area.

To a watershed board, governing a river basin, I would leave the decision of all the matters which concern the river basin alone. Why should Parliament waste its time on local Acts? There is now a great pressure on Parliament while it attempts to legislate for localities and particular cases; and then it is sure to legislate wrong (as in the case of the utilisation of the London sewage). Even with regard to the pollution of rivers, there has been a difficulty felt in preparing a general law which shall be good for every place. For this reason an Act was passed in 1866 constituting a watershed board for the Thames basin only. If such boards were constituted for every basin, the general principles of sanitary legislation might be enacted by the central Parliament, while each board could be left to manage its own concerns.

I do not allude to permissive legislation, which must be useless; for the local authorities of towns will never restrain themselves. We have hitherto fallen into the error of allowing towns and parishes to be free from the law, and of permitting a majority in them to make their own laws, until the minority have thought that a more despotic authority would be better. On the other hand, the laws passed by the central Parliament have been so ill adapted to localities that they have been despised by the majority, and have become nearly a dead letter. A watershed board would be more cognisant of the wants of the locality, and yet would not be subject to the self-interestedness and isolation of town legislation.

An objection has been raised against watershed boards on account of the size of some river basins. "If every interest is to be represented, it is said the board will be unwieldy. In the Aire and Calder district, for example, there are 71 local governments alone." Why is not an objection against the central Parliament, where all the interests of the three kingdoms are supposed to be

represented? Why was not this objection found conclusive against the Act of 1866, which established a similar jurisdiction over the Thames basin, which is the largest of all? This very difficulty was stated during the discussion of the local management scheme for the metropolis. In the metropolis parishes, and groups of parishes, each choose members for the Metropolitan Board; and the Metropolitan Board superintends the local works of the parishes, and undertakes general works for the whole metropolis. Let us suppose these 46 parishes and districts to be miles apart instead of being contiguous, and we at once have an example of a watershed board. Further on, I will refute this objection by means of examples.

Moreover, in proceeding to explain the plan which I submit to the Commission, I think it will be found that this difficulty will vanish. It seems to me that the Secretary of State should appoint inspectors with duties similar to those of the Poor Law Inspectors when England was divided into unions. An inspector should go to each river basin to hold an inquiry with a view to the formation of the districts and the boards. This report should be published, and a further inquiry held if necessary. All great interests should if possible be represented on the board; but yet the board should be few in number. These are contrary to each other, and must be balanced according to the peculiar circumstances of each river basin. There must, however, be this limitation; it seems essential that the representation of town councils and that of the quarter sessions should be equal. Town councils spring from and depend upon ratepayers, who are often ignorant and prejudiced; the administrators of counties are not responsible to the populace, but to the Crown; they are independent and educated persons, and are selected by the Crown because of their weight and standing in their county. These two bodies should therefore enjoy an equal representation on the board. I think that the chairman of the board and the executive officer should be appointed and removable by the Crown, and should be paid and controlled by the board. There should be a high qualification for membership, in order to save the travelling expenses of the members, and in order to secure that the candidates should be superior to mere vestrymen or town councillors. But as the condition of each river basin is different, it is impossible to define these matters by Act of Parliament. The area of each river basin, and the constitution of the first board, and provision for the representation of interests, should therefore be determined by provisional order; and the first board should be provisional, and should proceed to draw up permanent regulations for the constitution of succeeding boards.

The powers of these boards should be as follows:—

There should be a power to make bye-laws, and to pass measures for avoiding and remedying obnoxious practices, but with an opportunity for objection on the part of the electors; and these bye-laws should not have any force until they have been confirmed by the Home Secretary (according to the provisions of the Thames Conservancy Act). Also a power to contract for or to make extended works of arterial drainage, for deepening the channel of the river, for the purchase and removal of weirs and mill-dams, and for any other works out of the pale of any local authority and affecting the interests of the whole river. Such powers, in fact, as are given to drainage boards by the Land Drainage Act of 1861, and to the Metropolitan Board by the Metropolitan Management Act, 1855. There must also be a power of acquiring land, and an express authority to take and use banks of the rivers and the portion of the seashore which is in the river basin. Also a power to contract with railway and navigation companies and other bodies for easements and privileges; and a power to take certain easements compulsorily or by provisional order (according to the Land Drainage Act and the Metropolitan Management Act). There should be an inspector for each river basin, with a power of entry and examination (like an inspector of mines, of factories, of fisheries, and of alkali works), whose duty it should be to discover cases of neglect on the part of the local authorities. The board should then either hear and decide cases of pollution or obstruction; or else it should prosecute local authorities in the courts of law. The local authorities would of course possess a similar power within their own precincts with regard to individuals.

With regard to funds, the precedents of the Metropolitan Main Drainage and the Highway Boards might be followed; that is to say, the board might issue
precepts

precepts to the overseers of parishes and the clerks of towns, to pay their proportionate contribution out of the rates and borough funds. There may be a scale of rates according to the benefit accruing, with power to the board to divide their district for such a purpose (as in the arterial drainage of Ireland).

The board should, I think, have a power to hear, and to adjust, compound, or settle by arbitration, any claim for damages on account of pollution, obstructions in the river, stopping the flow of drains, abstracting water from mills, flood and overflow, &c. There should also, I think, be no power to take legal proceedings against the watershed board; but only an appeal for compensation to the Privy Council or to the central Parliament. This would be necessary in order to save litigation, expense, delay, and vexatious thwarting of public works. These provisions have all been worked out in detail in the River Waters Protection Bill which I promoted in 1865.

In conclusion, it is necessary that I should, by citing precedents, prove that such an Act would be in accordance with the course of the previous legislation of the country.

Under the Poor Law Amendment Act, 1834, assistant Commissioners appointed by the Poor Law Commissioners went about the country to form unions out of the combination of parishes. This proceeding was not by provisional order, but was quite arbitrary; they never heard objections, their reports were never published, but an edict was issued to constitute the unions.

Under the Public Health Act, 1848, superintending inspectors were appointed by the General Board of Health. When that board was abolished in 1858 then inspectors were appointed by the Home Office, under the Local Government Act of that year, to form districts for sanitary purposes.

Under the Land Drainage Act of 1861 (England), the Inclosure Commissioners appointed inspectors to define districts for drainage boards; and 22 districts have been formed by them, varying in size from 591 to 11,259 acres. Under the old Act (23 Henry 8, c. 5) Commissioners of Sewers for *all* parts of the realm were to be named by the Lord Chancellor and Lords Justices. Under the Land Drainage Act of 1861 (24 & 25 Vict. c. 133), Commissioners of Sewers are appointed for any part of England, on the recommendation of the Inclosure Commissioners. This recommendation is obtained, (1) on petition from one-tenth of the proprietors of land in the proposed district; or (2) on survey and report by a Government inspector. Again, the proprietors of one-tenth of the land in any area may, instead of acting as just mentioned, petition to place themselves under an elected drainage board; there is then an inspection by the Inclosure Commissioners and a provisional order. The Commissioners of Sewers and the drainage boards have an absolute power to make new works, and to improve old works, and to do anything necessary for the drainage or irrigation of the district. They have also special powers to remove mill-dams and weirs, as being most mischievous in their effect on drainage. Clause 48 of the Act contains a very severe proviso against polluting the water of any watercourse. The qualifications of members of drainage boards, the mode and time of election, &c., are all determined in the provisional order for the formation of the first and of the subsequent boards. The scale of voting is the same as that contained in the Companies Clauses Act of 1847 ("acres" being substituted for "shares"). That is to say, that every 50 *l.* rateable value gives a vote up to ten votes.

Under the Land Drainage Act (Ireland), 26 & 27 Vict. c. 88, the Commissioners of Public Works appoint inspectors to define districts for drainage boards.

Under the Irish Salmon Fishery Acts, 5 & 6 Vict. c. 106, &c., the Commissioners of Public Works appoint inspectors who divide the shores and river basins of Ireland into fishery districts, and the Commissioners are invested with the power to declare boundaries, enact bye-laws, remove obstructions, enforce the law against pollutions, levy rates, and to establish fishery boards over watersheds or other districts.

Under the Scotch Salmon Fishery Act, 25 & 26 Vict. c. 97, Commissioners are appointed by the Secretary of State to fix the limits of districts; clause 4 says, that a river and all tributaries, and the estuary to the sea, may be fixed and defined by the Commissioners as a fishery district. The Commissioners appointed by the Secretary of State have the power to make bye-laws (§ 15); and to propose a plan for the election of district boards for the river basin (§ 18); these latter boards have the power (§ 23) to levy rates.

Clause 19 of the English Fishery Act authorises the Home Secretary to define the limits of an estuary, and to place it under the jurisdiction of the board which rules the whole river, or one of the rivers which flows into that estuary. There was a Salmon Fishery Bill in 1866 which proposed in the preamble to extend the powers over watersheds. Clause 5 enacted that the Secretary of State shall form into a fishery district all the streams and tributaries which flow into a river, or which have a common estuary. The justices of the peace within the river basin were to be the electors of the board, by means of a double election (clauses 6 to 12); and to this board were given great powers over mill-dams, weirs, &c.

The Board of Works for the London main drainage district (which comprises 28 single parishes and 18 districts of combined parishes) consists of elected representatives. This precedent I have already cited.

According to the Thames Conservancy Board, 20 & 21 Vict. c. 147, there are 12 members, the Lord Mayor, six elected by the city, two appointed by the Admiralty, one by the Board of Trade and two by the Trinity House. By the 27 & 28 Vict. c. 113, six more elected conservators were added, viz., two by the owners of shipping, one by the owners of passenger steamers, two by the owners of lighters and steam tugs, and one by the dock owners and wharfingers. This board had power to serve notices on towns prohibiting them from discharging their sewage into the river. The board can now proceed against towns which are disobedient. The two conservancy boards (one extending to Staines, and the other from Staines to Cricklade) were in 1866 consolidated into one board by the Thames Navigation Act, with far more extensive powers over the whole river and tributaries, while the number of the members was much reduced. This board has power to levy rates and receives 5,000 *l.* a-year from the water companies.

The Commissioners for executing the Thames Navigation Act from Staines to Cricklade (35 Geo. 3, c. 10) consisted of the Members of Parliament of the counties of Wilts, Gloucester, Oxford, Berks, and Bucks, and of all the boroughs within the same, and of the University of Oxford; and the Members of Parliament for Middlesex, Surrey, London, Westminster, and Southwark; the Lord Mayor and Aldermen of the City of London and of Oxford, and the dignitaries of Oxford and of Eton College; the incumbents of all the parishes on the banks of the Thames and of the Isis from Staines to Cricklade; the mayors and recorders of Oxford, Abingdon, Wallingford, Reading, Henley, Maidenhead, Windsor; the warden of Great Marlow, the clerk of the board of works of Windsor, the proprietors of 100 *l.* a year in land in Wilts, Gloucester, Oxford, Berks, and Bucks; the heirs apparent of properties of 200 *l.* a-year; proprietors of land to such an amount in any part of England if they resided in those counties; possessors of 3,000 *l.* of personal estate, and holders of loans of the navigation to the amount of 500 *l.* This board was complicated enough; yet Mr. Farrer, of the Board of Trade in his evidence before the Select Committee of the House of Commons in 1862 on the Thames Conservancy, said (Q. 222), "Notwithstanding the complication there has been no complaint, and they are going on with large works." In the Appendix, p. 313, he added, "The case of each estuary (river) is different. Different interests require different modes of representation; and all that can be gathered from precedents is that a principle of direct representation of the interests concerned has been adopted and works well." Captain Sullivan in his evidence said (Q. 1285), "The board worked very well indeed, and although it is made up of so many different bodies, it has worked harmoniously." Sir W. Cubitt, Lord Mayor, in his evidence before the Committee on Fires in the Metropolis, said, "We do not find that in mixed commissions there is much difference of opinion. Take the conservators of the Thames, they are appointed by different bodies, &c. Those men work harmoniously together, all working to one end."

The Thames Conservancy Act of 1864 determined anew the constituency of the board, and gave powers to the board to regulate elections by bye-laws. The Thames Navigation Act of 1866 greatly reduced the number of representatives. There are now 23 members; namely, 12 under the Act of 1857 (viz., the Lord Mayor, the deputy master of the Trinity House, six members of the corporation, two members appointed by the Admiralty, one by the Board of Trade, and one by the Trinity House); six under the Act of 1864 (viz., two elected by ship-owners, one by owners of passenger steamers, two by owners of steam tugs, and one

one by wharfingers); and five under the Act of 1866 (viz., one by the Board of Trade, and four elected by the landowners of the Upper Thames).

The Mersey Dock and Harbour Board, 20 & 21 Vict. c. 142, amended by 21 & 22 Vict. c. 92, consists of 28 members, four nominees of the Mersey conservators (who are great officers of State with no funds and small powers, 5 & 6 Vict. c. 110), and 24 elected by the 10 *l.* ratepayers of the dock.

The river Wear (Sunderland Dock) Conservancy Board, 22 & 23 Vict. c. 57, consists of 52 Commissioners, viz., one nominee of the Admiralty, one customs collector, 21 elected by coal owners, 15 by registered shipowners, three by the importers and exporters of goods, one by the corporation, one by the north dock proprietors, and some named in the Act. The Tyne Improvement Act, 1850, 13 & 14 Vict. c. 63, the Hull Trinity House Conservancy, and the Harwich Harbour Conservancy, 26 & 27 Vict. c. 71, and the Clyde Conservancy, 21 & 22 Vict. c. 149, are similar. The Commissioners for the purpose of the drainage of the river Ouse consist of (23 & 24 Vict. c. 88) every person for the time being the owner, *bonâ fide*, in his own right or his wife's right, seised or possessed, or a trustee or guardian for any owner, and every corporation or body being owner of 200 *l.* or of land liable to the tax therein directed to be assessed; every rector, impropiator, or vicar for the time being of the parishes or townships in which the said lands shall be situate, &c. And the mayor may appoint any owner of 500 *l.* liable to the said tax, to be a deputy, &c.

Under the River Nene Outfall Act, 15 & 16 Vict. c. 128, certain Commissioners were named in the Act. Other Commissioners are appointed by proprietors of 50 acres of land liable to the tax; and owners of 200 acres of taxable land may appoint two Commissioners. And the taxable proprietors may meet to supply vacancies in the nominated Commissioners, having one vote for every 10 acres of land up to five votes. The Corporations of Wisbeach and of Northampton, of the Bedford level, and of the north level, and the Waldersea Drainage Commissioners, may appoint their own Commissioners.

It seems to me then that the tendency of our Legislation has been towards the creation of watershed boards, and it is plain that if those boards which I have mentioned have been successful, then the watershed boards which I now propose could well superintend the water supply of their valley, the storing of waters, the irrigation of lands, the arterial drainage, the removal of sewage to the land, provisions against floods, the navigation, and the fishing interest.

ROYAL COLONIAL INSTITUTE.

RETURN to an Address of the Honourable The House of Commons,
dated 14 March, 1876;—for,

“COPIES of the MEMORIAL of the PRESIDENT, VICE PRESIDENT, and COUNCIL of the ROYAL COLONIAL INSTITUTE to HER MAJESTY, praying that HER MAJESTY would be pleased to assume such additional STYLE and TITLE as would distinctly indicate HER MAJESTY’S SOVEREIGNTY over the whole of Her COLONIAL DOMINIONS :”

“ And, of the ANSWER thereto.”

Colonial Office, }
March 1876. }

J. LOWTHER.

MEMORIAL of the President, Vice-Presidents, and Council of the Royal Colonial Institute.

To the QUEEN’S Most Excellent Majesty.

The humble Petition of Her Majesty’s loyal and dutiful Subjects, the President, Vice-Presidents, and Council of the Royal Colonial Institute,

Showeth,

THAT your Petitioners desire to approach your Majesty with the expression of the most profound veneration and loyalty for your Majesty’s Throne and Person.

That in common with the rest of your Majesty’s subjects, your Petitioners hail with great satisfaction your Majesty’s gracious intention, as announced in your Speech to Parliament, of taking an additional style and title in connection with your Indian Empire.

That your Petitioners venture to express their belief that your Majesty’s loyal subjects inhabiting your vast Colonial Dominions would derive the highest gratification if some similar recognition were accorded to them.

That your Petitioners are led to think that their Memorial will receive your Majesty’s gracious consideration, from the fact that in the Proclamation issued in 1858, notifying your Majesty’s assumption of the Government of India, your Majesty was designated as “Queen of the United Kingdom of Great Britain and Ireland and of the Colonies and Dependencies thereof in Europe, Asia, Africa, America, and Australasia.”

Your Petitioners therefore pray that your Majesty will be graciously pleased to assume such additional style and title as shall distinctly indicate your Majesty’s Sovereignty over the whole of the Colonial Dominions.

And your Petitioners will ever pray, &c.

(signed) *Manchester,*
President of the Royal Colonial Institute.

Colonial Office to his Grace the Duke of *Manchester*.

My Lord Duke,

Downing-street, 7 March 1876.

I AM directed by the Earl of Carnarvon to acknowledge the receipt, on the 4th inst., of the Petition signed by your Grace on behalf of the Royal Colonial Institute, praying that the Queen would be pleased to assume such additional style and title as would distinctly indicate Her Majesty's sovereignty over the whole of the Colonial Dominions, and to inform you that Lord Carnarvon has laid this Petition before Her Majesty.

I have, &c.
(signed) *R. H. Meade.*

ROYAL COLONIAL INSTITUTE.

COPIES of the MEMORIAL of the PRESIDENT, VICE-PRESIDENT, and COUNCIL of the ROYAL COLONIAL INSTITUTE to HER MAJESTY, praying that HER MAJESTY would be pleased to assume such additional style and title as would distinctly indicate HER MAJESTY'S SOVEREIGNTY over the whole of Her COLONIAL DOMINIONS; and, of the ANSWER thereto.

(*Mr. Kinaird.*)

THAMES CONSERVANCY.

GENERAL REPORT of the CONSERVATORS of the RIVER THAMES, from 1st January to 31st December 1875, with ACCOUNTS of MONEYS RECEIVED and EXPENDED by the CONSERVATORS of the RIVER THAMES, for the Year ending the 31st December 1875.

GENERAL REPORT of the PROCEEDINGS of the CONSERVATORS of the RIVER THAMES from the 1st January 1875 to the 31st December 1875.

ON the lower part of the river, between Staines and the limit of the Conservator's jurisdiction at Yantlet Creek, near Southend, the moorings for vessels of all classes and the beacons and buoys have been maintained in an efficient state.

To the plant for maintaining the navigation of the river, two lighters of large capacity have been added, which have been found of the greatest service in raising sunken vessels.

Thirty-one vessels have been raised by the Conservators during the year, some of which were of very large tonnage.

New moorings have been laid down off Deptford Creek and Grays, in Higham Bight, and near Thames Haven.

The steamboat piers have been maintained in proper order, an additional one has been placed near the West India Docks, and the erection of a new pier at Chelsea has been commenced.

The Sections of the Albert Bridge Act, inserted at the instance of the Conservators, have enabled the Albert Bridge Company to enlarge the openings of Battersea Bridge, thereby greatly facilitating the navigation of this part of the river.

The dredging between Teddington and Richmond has been continued; a channel of sufficient depth for the navigation is being made, while the bank and towing path have been greatly improved.

Dredging has also been done at various places in the lower part of the river, where urgently required.

The public stairs and causeways have been kept in an efficient state for the use of the public.

The very heavy and unusual floods commencing in July, and continuing until the end of the year, caused considerable damage to the works on the river, thus involving a large expenditure for repairs.

The annual survey made by the officers of the Conservators at the Barking and Crossness Sewage Outfalls in the months of May and June 1875, shows an increase of the mud deposit from the discharge of the sewage of the metropolis at these points.

In the district of the Upper Navigation, extending from Staines to Cricklade, about 43 miles above Oxford, the following works have been taken in hand; Caversham Lock has been rebuilt in a most substantial manner, and the rebuilding of Whitchurch or Pangbourne Lock and Weir has been commenced.

The weir at Boveney has been rebuilt, and repairs have been effected at the weirs at Bell Wier, Marlow, Temple, Hurley, Hambledon, Marsh, Mapledurham, Cleeve, and Crowmarsh.

The works in this upper district like those in the lower district have been greatly damaged by the excessive and protracted floods during the latter six months of the year.

Notwithstanding the number of locks and weirs either reconstructed or repaired by the Conservators on this part of the river, two locks and several weirs are still in a lamentable state of dilapidation, rendering a further outlay necessary.

The Conservators must again express their regret that when this upper district was transferred to them, sufficient funds were not provided to remedy without delay the generally ruinous condition of the works. Had the necessary

means been at their disposal the whole of the locks and wiers between Staines and Cricklade could have been so effectually put in order as to have reduced to the lowest possible amount the charges for their maintenance and repair.

On the subject of the diversion of the sewage from the river, a statement showing what has been done up to the present time above the intakes of the water companies has been recently laid before Parliament; it is therefore unnecessary to refer in detail to this part of the sewage question, especially as the present Report only deals with the occurrences of the year ending 31st December 1875.

In the district below the intakes of the water companies, but above the western limits of the metropolis, the sewage of the various places, with the exception of Teddington, has not yet been diverted from the river.

In the latter part of 1875, an inquiry was instituted by Colonel Cox, R.E., under the direction of the Local Government Board, and at the instance of the local authorities, as to the best mode of dealing with the sewage of the various places in the Thames Valley below the intakes. The Conservators hope that his Report may help the local authorities to overcome the difficulties which most of them have met with in their attempts to divert their sewage from the river.

In consideration of these difficulties, the Conservators have in the last, as in previous years, granted extensions of time to some of the local authorities to enable them to execute works for the diversion of the sewage, but the Conservators feel that the time has arrived when no further delay should be allowed, and that the compulsory powers of the Act of 1867 should now be enforced.

18 July 1876.

F. W. E. Nicolson, Deputy Chairman.
E. Burstal, Secretary.

THAMES CONSERVANCY.—LOWER NAVIGATION.

AN ACCOUNT of MONEYS Received and Expended by the Conservators of the River Thames, for the Year ending 31st December 1875; under the Thames Conservancy Acts of 1857 and 1864.

THAMES CONSERVANCY.

GENERAL REPORT of the CONSERVATORS
of the RIVER THAMES, from the 1st January
1875 to 31st December 1875, with ACCOUNTS
of MONEYS RECEIVED and EXPENDED by the
CONSERVATORS of the RIVER THAMES, for the
Year ending 31st December 1875.

(Presented pursuant to Act 20 & 21 Vict. (L. & P.) c. 147, s. 163.)

Ordered, by The House of Commons, to be Printed.
20 July 1876.

THAMES CONSERVANCY ACTS.

RETURN to an Order of the Honourable The House of Commons,
dated 12 July 1876;—for,

COPY “of STATEMENT of the Result of the NOTICES served by the CONSERVATORS of the RIVER THAMES, under the THAMES CONSERVANCY ACTS, for the Discontinuance of the Passing of SEWAGE, or any other offensive or injurious Matter, into the River above the In-take of the WATER COMPANIES supplying the METROPOLIS.”

Local Government Board, }
12 July 1876. . }

JOHN LAMBERT,
Secretary.

COPY of STATEMENT of the Result of the NOTICES served by the CONSERVATORS of the RIVER THAMES, under the THAMES CONSERVANCY ACTS, for the discontinuance of the Passing of SEWAGE, or any other offensive or injurious Matter, into the River above the In-take of the WATER COMPANIES supplying the METROPOLIS.

Name of Person or Sanitary Authority on whom Notices have been Served.		REMARKS.
Oxford - - -	Mayor, Aldermen, &c. Local Board - - - - University	Loans amounting to 140,000 l. have been sanctioned by the Local Government Board for very extensive works for sewerage and sewage irrigation and purification. These loans include the cost of the purchase and laying out of 320 acres of land for sewage irrigation. The works for the diversion of the sewage are in progress, and the engineer of the Local Board states that they will be completed in the autumn of next year.

USK ELVER FISHING.

RETURN to an Address of the Honourable The House of Commons,
dated 15 June 1876;—for,

“COPY of all CORRESPONDENCE between the Usk and Ebbw Board of
Conservators, the Fishery Inspectors, and the Home Office, on the
subject of ELVER FISHING in the RIVER USK.”

— No. 1. —

Mr. S. Walpole to Mr. A. D. Berrington.

Sir, Home Office, Whitehall, 30 May 1876.

I HAVE been instructed by the Secretary of State to hold an inquiry at Gloucester on the 8th and 9th, and at Worcester on the 10th proximo, on the subject of the enclosed Bill relating to elvers. Enclosure.

I should be glad if you would kindly inform me:—

1. Whether there are any fisheries for elvers in your district.
2. Whether the provisions of the Salmon Fishery Act, 1873, have been enforced, *quâ* elvers.
3. If so, whether they have created any remonstrance; and,
4. Whether any such alteration in the law, *quâ* elvers, as is contemplated in the enclosed Bill, would, if it were made universal, be accepted or resisted by your Board, or whether your Board would desire any inquiry into the matter.

I have, &c.
(signed) S. Walpole.

A. D. Berrington, Esq.

Enclosure in No. 1.

A BILL to amend the LAW relating to ELVER FISHING.

A.D. 1876.

WHEREAS by the 15th section of “The Salmon Fishery Act, 1873,” it was enacted that “no person between the 1st day of January and the 24th day of June, inclusive, shall hang, fix, or use in any salmon river any baskets, nets, traps, or devices for catching eels or the fry of eels:”

And whereas it is expedient to amend the law relating to elver fishing in the River Severn:

Be it therefore enacted by the Queen’s most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1. From and after the passing of this Act, so much of the 15th section of “The Salmon Fishery Act, 1873,” as prohibits the taking of elvers or the fry of eels in the River Severn between the 1st day of March and the 30th day of April, inclusive, shall be and the same is hereby repealed.

Repeal of part of
15th section of 36
& 37 Vict. c. 71.

— No. 2. —

Mr. A. D. Berrington to Mr. S. Walpole.

Usk and Ebbw Board of Conservators.

Pant-y-Goitre, Abergavenny,

1 June 1876.

Sir,

THIS Board will be very glad to gather from your letter of 30th May, that the question of elver fishing is being considered by the Secretary of State on its general merits, and not merely as regards the Severn.

The 15th section of the Salmon Fishery Act, 1873, was designed to prevent the fixing of eel traps at weirs during those months when they were in point of fact useless for the capture of eels, and could only be designed to take the unclean salmon descending the rivers. A few words introduced during the passage of the Bill through Parliament entirely changed the object of the clause, and converted it from a very salutary provision for protecting kelts into a most mischievous one, forbidding the capture of elvers. This Board have been placed by it in a very difficult position. At first they felt that the interpretation assigned on the Severn to the clause was so entirely at variance with the spirit of the Salmon Fishery Acts—that it would press with such hardship on some of the poorer classes—and that it was so much worse than useless to preserve a fish so destructive to the spawn of salmon and trout in a salmon river where there are no eel fisheries, that it would be prudent to await a more clear decision on the law before taking any steps. The recent decisions with regard to cases in the Severn district seem, however, to indicate that, however reluctantly, it will become the duty of the Board to undertake prosecutions against persons who take elvers.

We shall, therefore, gladly hail any amendment of the law which will relieve us of this difficulty. I should, however, point out that the months named in the Bill are not sufficient. On the Usk the principal run of elvers is in the middle of May; and as, on the 29th of April 1874, I observed them entering the Wye in very large numbers, I believe I may say that the case is nearly the same in that river.

I would suggest that the preferable course would be to provide that the 15th Section of the Salmon Fishery Act, 1873, should be read as if the word "fixed" was inserted after "use in any salmon river any," and as if the words "or the fry of eels" were omitted.

This would restore the clause to what was the original intention of its promoters, and I believe, of the Legislature, as is shown by the marginal heading in the Act. Or it might be enacted that the 15th Section of the Salmon Fishery Act, 1873, shall not be construed to prohibit the capture of elvers or the fry of eels, during their annual migration from the sea, by devices worked by hand.

To reply *seriatim* to your inquiries:—

1. In the Usk district a considerable number of persons have long been in the habit of taking elvers as they ascend the river, and some, I believe, derive considerable profit from their preparation for sale as food.

2. Under the circumstances to which I have referred, no prosecutions of elver fishers have been undertaken.

3. I am aware that a strong feeling of opposition would be raised by any such prosecutions.

4. I know it to be the feeling of the Board that any restriction on the capture of elvers should be removed, and that they would gladly support a general measure which would have that effect. As I have already pointed out, the Bill, as at present worded, would be of no advantage to the Usk, as it does not include the month of May. It seems hardly necessary to ask you to undertake the trouble of an inquiry on the Usk as to subjects on which there is absolutely no difference of opinion; but, should you think it advisable to do so, I would suggest that it should be held at Usk as being the centre of the elver fishing.

I have, &c.

(signed) A. D. Berrington.

Spencer Walpole, Esq.

— No 3. —

Mr. A. D. Berrington to the Secretary of State for the Home Department.

Usk and Ebbw Board of Conservators.

Sir,

Pant-y-Goitre, Abergavenny,
11 June 1876.

I HAVE the honour to forward for your consideration a memorial from the Elver fishers of the River Usk, with reference to a Bill which has been introduced in the House of Commons by Mr. Monk and Mr. Price, and to the inquiry which it is understood you have directed to be held on the subject.

On the part of this Board, I desire to give every possible support to the memorialists. The 15th section of the Salmon Fishery Act, 1873, was designed for the very proper purpose of preventing the use of fixed engines, ostensibly for taking eels, but really for taking unclean salmon and trout at times when these latter fish are descending the stream, and no eels can be taken. It was intended solely to affect descending fish, but the introduction of a few words in Committee appears to have extended the operation of the section, and it is now held to prohibit the capture of elvers, or eel fry ascending from the sea. Whether it is desirable that such a provision should exist in rivers where there are extensive fisheries for large eels, is a question on which I need not enter, but I beg to draw your attention to the working of the section in rivers, such as the Usk, which have no eel fisheries.

It has from time immemorial been the habit of the owners and occupiers of fisheries on this river to allow the farmers, cottagers, and others in the neighbourhood to take the elvers which ascend in large numbers from the sea in the months of April and May. They are captured by men, women, and children with scoops, buckets, canvas nets, and other such devices worked by hand, and are either eaten fresh, or salted in cakes, and laid by for future use, and some persons make a livelihood during the season by their sale. The memorial was only in circulation for three days, and although I observe that in some cases several members of one family have signed, still the total number of signatures appended to it (552) will show that the interest is a considerable one. Had further time been available, I am informed that the number would have been much increased. The Usk Board of Conservators are now placed in a difficult position. On the one hand it would appear that the decisions with respect to cases on the Severn require them to prosecute all persons who take elvers. On the other hand, the conservators feel a natural reluctance to interfere with a useful and profitable pursuit of the poorer classes, and to create indignation and ill feeling, when no useful purpose is to be served, but rather the reverse. Not only are there no eel fisheries in the Usk, but after considering the matter for the last few years, I have satisfied myself that from the nature of the river they could not profitably be established; and indeed, as preservers of salmon and trout, we are rather desirous to prevent the increase of a fish so destructive both to their spawn and fry as the eel.

On behalf, therefore, of this Board, I beg to ask your favourable consideration of the memorial, and to suggest that it is most desirable that all restrictions on the capture of elvers should be expunged from the Salmon Fishery Acts, especially as regards the months of April and May. If restrictions are desirable in rivers where eels can be made a profitable object of fishery, those restrictions should in fairness be confined to such rivers, and should not be imposed upon others where they are not only objectless but injurious.

I have, &c.

The Right Honourable the Secretary of
State for the Home Department,
&c. &c. &c.

(signed) A. D. Berrington,
Chairman.

Enclosure in No. 3.

MEMORIAL from the Inhabitants of the Usk and Ebbw Fishery District.

Sir, June 1876.

WE, the undersigned inhabitants of the Usk and Ebbw fishery district, have heard with pleasure that you have directed an inquiry to be instituted into the advisability of repealing the provision in the Salmon Fishery Act, 1873, which has been held to prohibit the capture of elvers during their ascent from the sea, and we have the honour to submit for your consideration the following statement:—

We have all been in the habit, by permission of the owners and occupiers of fisheries in the River Usk, of taking elvers, either as an excellent article of food for ourselves and our families, or for the purpose of sale to others.

We have learnt with much regret that the 15th section of the Salmon Fishery Act, 1873, has, in consequence of certain words which were introduced during its passage through Parliament, been decided to prohibit our doing so for the future.

We submit that such a provision is at variance with the general spirit of the Salmon Fishery Acts, which in every other respect are designed simply for the protection of fish of the salmon tribe; salmon, migrating trout, common trout, and char; and also that in rivers such as the Usk where no eel fisheries exist, and which are not adapted for their establishment, such a provision is not only useless, but injurious, first as unnecessarily interfering with a wholesome and palatable supply of food for the population in the neighbourhood of the river, and secondly, as encouraging the multiplication of a fish which is acknowledged to be injurious to the more valuable kinds.

We therefore pray that you will take into your consideration the best means of relieving us from the operation of the enactment on which this interpretation has been placed.

We are, &c.,
(signed) *Wm. Park, Cooper, Usk.*
Abraham Rogers, Tiler, Usk.
J. O. Nicholas, Painter, &c., Usk.
Dan Murray.

[And 548 other Signatures.]

To the Right Honourable
The Secretary of State for the Home Department.

COPY from the Board of Trade of all MEMORIALS received from, and CORRESPONDENCE with, Mr. *William Bany Ritchie*, M.D., of *Belfast*, relative to RECLAMATION of SLOB LAND in the Lough of *Belfast*; and also with the Belfast Harbour Commissioners relative to the said SLOB LAND.

— No. 1. —

Dr. *Ritchie* to Board of Trade.

(H. 2849.)

Sir, The Grove, Belfast, 9 June 1870.

HAVING lately purchased, through the Landed Estates Court, a property in Belfast known as The Grove, a considerable portion of which consists of slob land, and having entered into an arrangement with the Belfast Harbour Commissioners in reference to certain portions of said property that were in dispute, as per accompanying copy of that agreement, I am now desirous of embanking off my slob land, and enclose plan and sections in duplicate of what I purpose doing.

I also enclose Ordnance sheet to show the position of this slob land relative to the town and harbour of Belfast.

My intentions are that, in the first instance, I should reclaim that portion between A. C. D., and that when the Harbour Commissioners have completed the embankment specified in their agreement, I should proceed with the completion of the embankment from C. to B.

I beg leave, therefore, to request the favour of your early examination of the accompanying plans, and your sanction to my proposed reclamation.

I have, &c.

(signed) *William B. Ritchie.*

The Assistant Secretary,
Harbour Department, Board of Trade, London.

— No. 2. —

Board of Trade to Belfast Harbour Commissioners.

(H. 2849.)

Sir, Board of Trade (Harbour Department),
Whitehall Gardens, S.W., 13 June 1870.

I AM directed by the Board of Trade to transmit to you, to be laid before the Belfast Harbour Commissioners, the accompanying copy of a letter which they have received from Dr. W. B. Ritchie, of The Grove, applying for their sanction to a reclamation of slob lands of Belfast Harbour fronting his property, together with a plan of the works in question, and I am to request that you will be so good as to move the Harbour Commissioners to favour this Board with any observations they may have to offer on the subject.

I am, &c.

The Secretary to the (signed) *W. R. Malcolm.*
Harbour Commissioners, Belfast.

— No. 3. —

Belfast Harbour Commissioners to Board of Trade.

(H. 3579.)

Sir, Harbour Office, Belfast, 4 August 1870.

REFERRING to your letter of 13th June last, I beg to inform you that the Belfast Harbour Commissioners have considered the application of Dr. Ritchie for the sanction of the Board of Trade to a reclamation of slob lands of Belfast Harbour fronting his property.

Dr. Ritchie, by letter dated 27th June, informed the Harbour Commissioners that he had applied to the Board of Trade for their sanction to the proposed reclamation.

The Harbour Commissioners beg to inform the Board of Trade that their engineer, Mr. Lizars, reports to them that he does not consider that any danger would accrue to the navigation of the river by the reclamation proposed by Dr. Ritchie.

Notwithstanding this opinion, the Commissioners are not prepared, without further inquiry, to recommend the Board of Trade to sanction this reclamation; for it must be borne in mind that the late Mr. Walker, C.E., in his reports dated 6th March 1845, 17th March same year, and 21st July 1848, published in the History of the Harbour of Belfast, compiled by the Admiralty in 1852, states that the tendency of embankments excluding the tidal waters would, under certain circumstances, be injurious to the harbour. It is also not improbable that applications from corporations or private persons may shortly be made for power to embank large portions of the slob lands on both sides of the harbour. The effect of such extensive reclamations on the navigation requires to be carefully considered.

Under these circumstances the Harbour Commissioners now apply to the Board of Trade to appoint an engineer to visit the harbour, and to report generally on the effect of reclamations of slob lands on both sides of the harbour, and specially on the application of Dr. Ritchie now before the Board.

I am, &c.

The Assistant Secretary,
Harbour Department, Board of Trade,
Whitehall Gardens, London.

(signed) William Thompson,
Secretary.

I return the map sent on 13th June.

— No. 4. —

Board of Trade to Belfast Harbour Commissioners.

(H. 3579.)

Sir,

Board of Trade (Harbour Department),
Whitehall Gardens, S.W., 8 August 1870.

I AM directed by the Board of Trade to acknowledge the receipt of your letter of the 4th instant, on the subject of Dr. Ritchie's application for permission to reclaim slob lands fronting his property on Belfast Lough, in which you say that the engineer to the Commissioners has reported that no injury would accrue to the navigation of the river by the reclamation proposed by Dr. Ritchie.

In reply to the request of the Harbour Commissioners of Belfast, that this Board should before assenting to the present application appoint an engineer to report generally on the effect of reclamations of slob lands on both sides of the harbour, I am to beg that you will be so good as to move the Commissioners to inform the Board of Trade whether they are prepared to defray the expenses of an engineer in case this Board see fit to appoint one.

The Board of Trade have no funds at their disposal for such a purpose.

I am, &c.

The Secretary,
Harbour Commissioners, Belfast.

(signed) C. Cecil Trevor.

Board of Trade to Mr. *Hawkshaw*, C.E.

(H. 3947.)

Board of Trade (Harbour Department),
Whitehall Gardens, S.W., 12 September 1870.

Sir,

I AM directed by the Board of Trade to acquaint you that in June last they received an application from Dr. Ritchie for permission to reclaim some slob land near Belfast Harbour, which application was referred to the Belfast Harbour Commissioners for their opinion. In reply, the Commissioners requested the Board of Trade to send down an engineer to report upon the general question of the effect of reclamations of slob lands on both sides of the harbour with more especial reference to Dr. Ritchie's application, the Commissioners promising to pay the expenses of such an inquiry. A list of engineers having been submitted to the Commissioners for their selection, they requested that you might be instructed to hold the inquiry in question, and I am accordingly to request that you will inform this Board whether you are willing to undertake the duty.

It is to be understood that you are to look to the Belfast Harbour Commissioners, and not to this Board, for remuneration for your professional services.

I am to add that if you are prepared to undertake the duty in question, the plans and papers referring to the matter, which are in possession of the Board of Trade, will be placed at your disposal.

I am, &c.

John Hawkshaw, Esq., C.E.,
Great George-street, S.W.

(signed) *Thomas Gray.*

— No. 9. —

Mr. *Hawkshaw*, C.E., to Board of Trade.

(H. 4007.)

33, Great George-street, Westminster,
15 September 1870.

Sir,

I BEG to acknowledge the receipt of your letter of the 12th instant (H. 3947), referring to certain proposed reclamations of slob lands near Belfast Harbour, and stating that the Belfast Harbour Commissioners were desirous that I should visit Belfast and report upon the general question of the effect of reclamations of slob lands on both sides of the harbour, and in reply thereto I beg to say that I shall have much pleasure in undertaking the duties referred to on receipt of the plans and papers now in the possession of the Board of Trade.

I am, &c.

The Assistant Secretary,
Harbour Department, Board of Trade.

(signed) *John Hawkshaw.*

— No. 10. —

Board of Trade to Belfast Harbour Commissioners.

(H. 4007.)

Board of Trade (Harbour Department),
Whitehall Gardens, S.W., 21 September 1870.

Sir,

In reply to your letter of the 7th instant, requesting that Mr. John Hawkshaw, of 33, Great George-street, Westminster, might be directed to report on the probable effect of the reclamation of slob lands on both sides of the harbour of Belfast, I am directed by the Board of Trade to acquaint you that that gentleman has agreed to undertake the duty in question, and to suggest that the Commissioners should place themselves in communication with him.

I am, &c.

The Secretary,
Harbour Commissioners, Belfast.

(signed) *W. R. Malcolm.*

— No. 11. —

Mr. *Hawkshaw*, C.E., to Board of Trade.

(H. 5447.)

Sir,

33, Great George-street,
Westminster, 27 December 1870.

I RETURN you the documents referred to in your letter of the 12th September relating to Belfast Harbour, and I have to inform you that I have reported to the Belfast Harbour Commissioners on the questions submitted to me.

I am, &c.
(signed) *John Hawkshaw*.

The Assistant Secretary,
Harbour Department, Board of Trade.

— No. 12. —

Board of Trade to Belfast Harbour Commissioners.

(H. 5447.)

Sir,

Board of Trade (Harbour Department),
Whitehall Gardens, S.W., 29 December 1870.

REFERRING to your letter of the 7th September last respecting the effect of the reclamation of slob lands in Belfast Harbour, I am directed by the Board of Trade to request that you will move the Belfast Harbour Commissioners to favour them with a copy of any report which Mr. Hawkshaw has made to the Commissioners.

I am, &c.
(signed) *C. Cecil Trevor*.
The Secretary,
Harbour Commissioners, Belfast.

— No. 13. —

Belfast Harbour Commissioners to Board of Trade.

(H. 107.)

Sir,

Harbour Office, Belfast, 7 January 1871.

I DULY received your letter of 29th December last, and laid same before the Belfast Harbour Commissioners.

In reply, I am directed to hand you copies of Mr. Hawkshaw's report on the effect of the reclamation of slob lands in Belfast Harbour, and of the maps accompanying same, all of which I have to-day forwarded by book post.

I am, &c.
(signed) *William Thompson*, Secretary.

The Assistant Secretary,
Harbour Department, Board of Trade,
Whitehall Gardens, London, S.W.

Enclosure in No. 13.

To the Belfast Harbour Commissioners, Belfast.

33, Great George-street, Westminster, S.W.,

22 December 1870.

Gentlemen,

IN furtherance of communications made to me by the Board of Trade, and in obedience to the request, subsequently received, from your secretary, Mr. Thompson, I visited Belfast on the 12th November last.

On my arrival at Belfast I was received at the Harbour Office by Mr. Hamilton, your Chairman, Sir Edward Coey, Mr. Valentine, Dr. Pirrie, and Captain Fitzsimons, Harbour Commissioners, by Mr. Thompson, and by your Engineer, Mr. Lizars.

On the 12th November, and the following day, I examined the River Lagan from above the first weir, the upper part of the Lough, and the slob lands, and also the harbour of Belfast, and the docks, quays, and other works.

On the 13th November I had a meeting with the Commissioners at the Harbour Office, and received from Mr. Lizars numerous reports, plans, and other papers, bearing more or less directly on the questions submitted to me, which questions are more particularly set forth in the following memorandum:—

“Belfast Harbour, 12 November 1870.

“Mr. Hawkshaw is requested to report on the reclamation of slob land, proposed by Dr. W. B. Ritchie, and on the general effect on the navigation which would be caused by a general reclamation of slob lands on both sides of the harbour.

“In event of reclamation being approved of, to what extent should it be permitted, and what extent of land should the Harbour Commissioners retain on each side of the channel, and what width should the channel be made?

“In event of the Belfast Town Council obtaining powers, for which they are now seeking, to reclaim and use for the utilisation of sewage by irrigation the slob lands on both sides of the harbour, how far from the harbour works should the Harbour Commissioners require the irrigation works to be placed.

“To report on the best mode of securing the walls of the new dock works which have in several parts slipped on being backed up.”

Since my return from Belfast I have read the voluminous reports bearing more or less on these questions, and examined the various plans and other documents with which I had been furnished, and have now to report on the matters referred to me.

Two plans, numbered 1 and 2, accompany this report.

The discussion of the question of land reclamation at the head of Belfast Lough may conveniently be divided into two parts,—

Firstly. The effect of a general reclamation of slob lands on the navigation.

Secondly. Whether the advantage to be obtained by the reclamation of land would be proportionate to the expenditure which would be requisite for the works necessary to reclaim it, together with the expenditure which, in consequence of such reclamation, it might be found necessary to incur to maintain the harbour and the access to it in their present state of efficiency.

Firstly. The effect of a general Reclamation of Slob Lands on the Navigation.

Among the reports with which I was furnished there are some which relate to this part of the question. Of these I may mention the report of Captain Beachey, R.N., dated the 24th December 1844; three reports of Mr. Walker, dated respectively the 6th March 1845, the 17th March 1845, and the 29th May 1845; and Mr. Rendel's report of the 20th May 1845; the whole of which deal with the question, but differ in the views taken of certain portions of the proposals which elicited the reports.

Though these reports were written some years ago, the views of the gentlemen (all eminent in their profession) who wrote them are worthy of attentive consideration, and I have, consequently, carefully weighed their opinions.

The question, no doubt, is one of great complexity, and it is not possible to arrive at more than an approximate result as to the changes that might be produced in the condition of the estuary, in the roadstead, and in the channels leading to the harbour. The difficulty of the case is increased by the absence of sufficient data from which to ascertain, with due precision, the changes which have taken place in the shoals and channels, and in the directions and velocities of the tidal currents in past times; and it would be of the greatest value hereafter to those who may have to consider questions relating to the harbour, if cross sections were taken from fixed points on each shore, beginning

beginning at the upper part of the harbour, and extending as far down as the east end of Whitehouse Roads. If this were done, and the sections were preserved, they would form data to compare with subsequent sections to be taken along the same lines, and would afford conclusive evidence as to the changes taking place in the harbour and roadstead.

From the form of the Lough of Belfast there must be a tendency to silt up in its upper part. Fortunately, the Lagan does not bring down any large quantity of detritus, nor do the shores of the Lough itself afford any large amount of material for the formation of shoals, and therefore the rate of deposit is not very rapid.

But as this detritus, whatever its quantity may be, and whether brought down by the Lagan or arising from the abrasion of the sea shores, must be deposited somewhere, any reclamation at the head of the Lough by diminishing the area on which the principal part of this sediment is now deposited, will, to a certain extent, increase the rate at which the depth of water is diminished in the other localities.

The reclamation of the slob land might increase the rate of deposit lower down the Lough in two ways—firstly, as before mentioned, by diminishing the area in which the sediment is now deposited, and necessitating a portion of it being deposited lower down, or nearer to Whitehouse Roads; secondly, by diminishing the flow of water at the Whitehouse Roads, and thereby causing sediment to be deposited there, which is at present carried by the stronger current, beyond the roads. It will be seen, on reference to plan No. 1, that the Whitehouse Roads are situated at a somewhat contracted part of the Lough, and it seems to me probable that the existence of the deep basin forming the roads is in some measure owing to the increased velocity of the current caused by this contraction. Anything which diminished the volume of water passing through the roads, and consequently diminished the velocity of the current through them, would, by removing one cause of the increased depth of water at this point, lead to sediment being deposited there which is now carried further down the Lough.

In order more clearly to explain my views, I will deal with an assumed case, and will suppose that it were contemplated to reclaim, say 1,800 acres on the north side of the Lough, and 1,000 acres on the south side, making a total of 2,800 acres. This, indeed, has been suggested, and I purpose to deal with the whole of this area, collectively, in the following calculations.

First, as regards the quantity of sediment deposited over this area. The only definite information I have been able to obtain as to the rate of deposit, is from a report by Mr. George Smith, dated 12th December 1844, in which it is stated that, in evidence before the Committee of the House of Commons in 1831, the rate of increase of the west bank was half an inch per annum, as deduced from the total increase in the height of the bank in 40 years.

In default of better information, I will assume this rate of deposit to be correct—applying this estimate to the whole area in question, we arrive at a total amount of 188,000 cubic yards deposited annually, which, in the event of this area being reclaimed, will have to be deposited elsewhere. To give some idea of the amount of this quantity, if the whole of it were deposited annually within the area enclosed by the 2-fathom line in Whitehouse Roads (though I do not say that the whole of it would be deposited there) the depth of that portion of the roads would in five years be diminished by three feet.

Attention has already been directed to the position of the Whitehouse Roads at the narrow point of the Lough, and the existence of deep water at that point has been supposed to be in some measure consequent on this diminished width. This led me to consider what would be the effect on the velocity of the water flowing through the roads, consequent on the reduction, by the assumed reclamation, of the quantity of water passing the roads during each tide.

The quantity of water on the assumed area under consideration, if reckoned only up to half-tide level, is about 6,000,000 cubic yards, and the mean area of the section across the Lough at Whitehouse Roads, through which this quantity would have to pass, in the last three hours of the tide, would be about 10,700 square yards; the required velocity per hour would be, therefore, about 560 feet, and the velocity of the water at this part of the Lough would be diminished to that extent, if the above amount of water were prevented, by the proposed reclamation, from flowing up the Lough.

But, though the water running off after half tide may be held by some to be the most valuable portion for keeping the upper and shallower channels clear, it is evident that if the velocity is diminished at high tide, sediment, which is now carried on to the slob lands by the flowing tide, or down the estuary by the ebbing tide, and is so distributed over a considerable area, will be deposited on a more confined area nearer the head of the Lough. If the whole quantity of water, therefore, on the lands which it is proposed to reclaim, be, at high water, about 30,000,000 cubic yards as I estimated it, and the mean area of the channel at Whitehouse Roads, through which this has to flow, in six hours, be 13,300 square yards, then the diminution of the mean velocity throughout that time will be at the rate of 1,100 feet per hour, or say a fifth of a mile per hour—such a diminution of velocity would undoubtedly admit of more sediment being deposited in Whitehouse Roads.

Hitherto I have only considered the amount of sediment which would be legitimately deposited annually at the head of the Lough. But there is another possible effect of the reclamation in question which must not be lost sight of. Such reclamation would probably

affect the direction of the currents, and in so doing might cause portions of the material forming existing shoals to be removed from positions in which they cause little inconvenience, and to be deposited in places where a diminution of a few feet in depth would be a great evil.

Although with the present data it is impossible to arrive at a definite result as to what the effect of the proposed reclamation on the harbour would be, it will be seen from the above considerations that it might be detrimental to the access to the port and to the roadstead.

I will now proceed to the second of the two parts into which it has appeared to me advisable to divide the subject, and consider the question of reclamation on economical grounds, or as I have before stated the question—

Secondly—Whether the advantage to be obtained by the reclamation of land would be proportionate to the expenditure which would be requisite for the works necessary to reclaim it, together with the expenditure which, in consequence of such reclamation, it might be found necessary to incur to maintain the harbour, and the access to it, in their present state of efficiency.

The consideration of the profit or loss likely to arise from the reclamation of slob land, though apparently a matter solely affecting the interests of the proposers of reclamation schemes is one which, in my opinion, should not be neglected by yourselves. It is evident that if pecuniary or other advantage likely to arise from any given scheme appeared doubtful, it would be most imprudent to sanction such a scheme, even though the injury to the harbour likely to arise in carrying it out were problematical, and could not beforehand be definitely demonstrated.

The town of Belfast exists in virtue of the natural and other advantages offered by its harbour, and before incurring the smallest risk of diminishing these advantages, it would be imperative to have the certainty of some proportionate remuneration to arise from the scheme to which such risk was due. In other words, no unremunerative or unprofitable scheme would be worthy of consideration could it be shown to suggest the smallest risk of damage to the port.

My own experience of reclamation schemes (and I have had to examine many and most extensive ones) is, that where exposed to the sea, and unless in shallow water, they have generally proved a source of loss to their promoters. Exceptional cases there have been, no doubt, where land has been reclaimed in the neighbourhood of seaports for commercial purposes, but I think it probable that land reclaimed in the Lough of Belfast would cost more than it would be worth for agricultural purposes.

Again, as the mischief which might arise from reclamation schemes might have to be remedied by increased expenditure on the part of the Harbour Commission, it will be necessary in considering the question, to ascertain whether the advantages to the harbour likely to arise from them are commensurate with the increased expenditure they will entail.

In the course of my investigation, whenever I have been able to trace with any approach to certainty the result of large reclamations on the harbour, there has been indication of probable detriment rather than improvement of the existing conditions, and after giving this question my best consideration, the general conclusion at which I have arrived is, that for the present, at all events, reclamation on a large scale should be avoided.

It remains to be considered whether the advantages to be gained by the reclamation of a comparatively small quantity of land at the head of the Lough would be outweighed by the possible ill effect of such a reclamation on the harbour.

Now it is evident that some such reclamation will be eventually necessary, to accommodate the increasing trade of the port, and though the immediate necessity for it may not yet have arisen, still should a suitable scheme be proposed, and it could be shown that there is no great probability of an increased expenditure being necessary on the part of the Harbour Commission to maintain the existing conditions in the harbour and its approaches, such a scheme would be worthy of attentive consideration.

This being the case, and as moreover you have requested me to report on a reclamation of this nature proposed by Dr. Ritchie, I have shown on plan No. 1, and on a larger scale on plan No. 2, accompanying this report, the extent of land which I think may be reclaimed, having full regard to your interests as Commissioners of the Harbour of Belfast.

I have decided to adopt the limit shown on the plans after a careful examination of the probable effect on the harbour both as regards the diminution of the area for the reception of sedimentary deposit, and as regards the changes likely to arise in the direction and flow of the tidal currents. The reclamation of the area shown on the plans, amounting in all to about 500 acres, will render it necessary to close the gaps to the westward of the Twin Islands. I do not apprehend that any evil will result from closing these gaps. The whole of the tidal water passing through the town up the River Lagan will have to pass through the Victoria Channel instead of flowing in part, as at present, through the gaps in question. The change, if its effects be appreciable, will be beneficial as far as the straight channel is concerned.

As regards the flow of water up the River Lagan, it is of the first importance to the town

town of Belfast that the quantity flowing inwards and outwards between the guiding quays should be as large as possible.

Were it practicable to increase the capacity of the river above the Belfast quays, and cause the tide to flow much further above the town, it would improve the harbour and deepen the entrance channel; the flow of the tide is, however, limited by the weir situate about two miles above the Queen's Bridge. But between this weir and the town quays there is exposed, at low water, an area of about 56 acres of mud. Every acre of this mud removed by dredging to a depth of one yard would admit a proportionate quantity of tidal water. The dredging of each acre to that extent need not cost more than 100 £, so that by an expenditure of 5,600 £ additional tidal water may be made to flow in through the Harbour of Belfast to the extent of 270,000 cubic yards, and you ought, therefore, to allow no encroachment on the water space above the town, and you should be prepared from time to time to increase the water space in the manner indicated, by dredging.

It will follow then that, looking to existing capabilities, and assuming that reclaimed land so near Belfast will be of value and commercial importance to the town, it will not be injurious to your interests, and the trust you hold, under proper and suitable conditions, to agree to such reclamation within the limits I have shown.

Before concluding this branch of the inquiry, I have to remark that I have endeavoured to point out what might result from an extensive enclosure of slob land, and I have also shown that the difficulty of the inquiry is increased by the absence of data sufficiently accurate to enable me to ascertain the changes that have occurred, and have suggested that cross sections should be taken and preserved so as to have accurate records for the future. I would again impress upon you the necessity of having such records. How far as touching your harbour further and future reclamations may be allowed, must depend entirely upon future circumstances, both as regards the effect upon your harbour which the existence of such records would tend to reveal, and how far encountering any evil effects resulting from reclamations may be warranted by the necessity of providing increased dock accommodation consequent upon the extension of the trade of Belfast.

DR. RITCHIE'S RECLAMATION.

It will appear from what I have said, that I consider that it may not be undesirable, under certain conditions, to reclaim land to the extent shown on the plans. There does not, therefore, appear to me to be any substantial objection to the smaller reclamation within the same limits proposed by Dr. Ritchie.

I perceive on the plan of Dr. Ritchie's reclamation forwarded to me, that a small creek is shown running at right angles to the course of the channel. This would prove an obstruction to docks being hereafter extended in that direction, and it should be provided, that in case of dock extension the creek may be closed.

AS TO QUANTITY OF LAND TO BE RETAINED BY THE HARBOUR COMMISSIONERS.

It is not easy to estimate very accurately the quantity of land that will be required by the growth of commercial ports, but in all my experience I have never known a case where the provision for the future has been quite large enough.

The trade of Belfast, looking back 20 years, has gone on increasing at a rapid rate.

Twenty years ago (1850) the tonnage which entered the port was 624,113 tons.

Ten years ago (1860) it was 885,413 tons.

At the end of last year (1869) it was 1,203,776 tons.

The variation in the mode of measurement in the tonnage of ships has made it difficult to draw correct comparisons from rates of progress during the last few years, the tendency of these alterations having been to reduce the tonnage.

But looking to the past rate of progress, I see no reason why the trade of Belfast should not double in 20 years.

If I am correct in this view, it will follow that the dock, harbour, and quay accommodations may have to be doubled in that time, and I am of opinion that the Commissioners should reserve a piece of land, 1,200 feet wide, on each side of the new or Victoria Channel for future docks and quays. I have marked the land to be reserved on the plans accompanying this report. That reserved on the north side of the channel would be bounded by an extension of the street now forming near the new docks, which street, if extended, would become a great convenience to the harbour and the growing trade of Belfast.

The Commissioners possess a considerable quantity of land outside the land recommended to be reserved for docks and quays, which may become very useful for harbour and commercial purposes.

WIDTH OF CHANNEL.

The channel between the Twin Islands is, in my opinion, too narrow, as is also the channel between Queen's Island and the Albert Quay. At each of these points additional width may be obtained by forming the quay, in the first case, behind the west island, and removing that island; and in the second case, by removing a portion of the Queen's Island, adjacent to the river, and setting back the quay. The channel, at high water of spring tides, should not be less than 450 feet wide near the centre of Queen's Island, and should increase regularly in width to 580 feet at the sea end of the Twin Islands.

These alterations, which are shown on the plans, would, if carried out, admit of a freer flow of tidal water up the River Lagan, of which the importance has already been noticed.

As I have already given my opinion as to the inadvisability of reclamation on a large scale, I do not see any immediate necessity for an extension of the guiding banks to the navigable channel. Some extension of these banks at a future time may be of advantage to the harbour in providing a direct channel to deep water. I have accordingly shown on the plans the lines which, in my opinion, it would be advisable to adopt, if the necessity for extension arises.

Though if the cross sections I have suggested were taken from time to time they might afford information which would lead to some modification of these lines.

AS TO DISTANCE FROM THE HARBOUR WORKS THAT THE SEWAGE IRRIGATION WORKS SHOULD BE PLACED.

All experience shows that sewage outfalls should be placed as far as practicable from inhabited places.

I have just advised the town of Brighton to carry their sewage three miles away from the outside limit of the town, and the works necessary to effect this are about to be begun.

It would be desirable, if practicable, that the sewage of Belfast should be delivered into the sea at a like distance, the outfalls being placed where the sewage will not cause any injury to the harbour.

I should certainly not advise sewage irrigation works to be established in the vicinity of the town or harbour works. Were this done, it would create a nuisance which would compel their removal.

It may be convenient if, before I close this report, I briefly recapitulate the conclusions I have arrived at on the questions submitted to me—

1st. I do not disapprove, under the circumstances mentioned, of a present reclamation of slob land, in the position and to the extent, shown on the plans accompanying this report; the area indicated amounting to about 500 acres.

2nd. And as a consequence I see no objection to the reclamation of a portion of it, as proposed by Dr. Ritchie, it being, however, provided that, in case of dock extension, the creek shown on the plan of Dr. Ritchie's reclamation forwarded to me may be closed.

3rd. I have shown, on the plans accompanying this report, the position and the extent of land that should be retained by the Harbour Commissioners for future dock extension, in the event of the reclamation in question being carried out.

4th. I have pointed out that I consider the channel between the Twin Islands too narrow, and I have shown how, in case of dock extension, the channel may be widened.

5th. I have advised that the sewage outfalls should, if practicable, be placed at a distance of three miles from the outside limit of the town, and at a spot where the sewage would not cause any injury to the harbour, and that no sewage irrigation works should be established in the vicinity of the town.

I have thus answered every question submitted to me, excepting as to the best mode of securing the walls of the new dock works. I only received the plans of these walls on the 5th instant, but I hope to report on the question at an early date.

I have, &c.
(signed) John Hawkshaw.

— No. 14. —

Board of Trade to Belfast Harbour Commissioners.

(H. 107.)

Board of Trade, Harbour Department,
Whitehall Gardens, 12 January 1871.

Sir,

I AM directed by the Board of Trade to acknowledge the receipt of your letter of the 7th instant, transmitting copy of the report recently made by Mr. Hawkshaw, C.E., on the effect of the reclamation of the slob lands in Belfast Harbour, and to request that you will convey their thanks to the Harbour Commissioners for their courtesy.

The Secretary to the
Harbour Commissioners, Belfast.

I am, &c.

— No. 15. —

Belfast Harbour Commissioners to Board of Trade.

(H. 1087.)

Sir,

Harbour Office, Belfast, 4 March 1872.

REFERRING to an application made by Dr. Wm. B. Ritchie, dated June 1870, for the sanction of the Board of Trade to the reclamation of slob land in this harbour then proposed by him, and on which, on the application of the Belfast Harbour Commissioners, dated 4th August 1870, Mr. Hawkshaw, C.E., was appointed to report, and whose report, under date of 22nd December 1870, was forwarded to the Board of Trade on 7th January 1871, and receipt of same acknowledged by your letter of 12th January 1871 (H. 107), I beg to inform you that the said Commissioners have, as recommended by Mr. Hawkshaw, arranged with Dr. Ritchie on what they consider very beneficial terms, for the purchase of a portion of the said slob measuring about 95 acres, for the further development of the trade of the harbour, part of the terms of the purchase being that the Commissioners shall embank from the sea, by the deposit of the dredgings of the harbour and the excavations of a proposed dock, the whole of the slob proposed to be reclaimed by Dr. Ritchie.

As the Harbour Commissioners consider that it would be very advantageous to the interests of their trust that they should obtain the land in question, and that they have been offered it on very favourable terms, they are desirous of taking advantage of the offer. I am therefore directed to request that the sanction of the Lords Commissioners of the Privy Council for Trade be given to the proposed reclamation, and to forward herewith, for the information of their Lordships, a map showing embankment proposed to be made by the Commissioners, together with a copy of the report made by Mr. Hawkshaw on the subject, by which it will be seen that he does not object to the reclamation to the extent proposed, and that he is of opinion that the Harbour Commissioners should reserve 1,200 feet in width on each side of the Victoria Channel, as shown on the plan, for future docks and quays.

The land now proposed to be reclaimed is situated within the line laid down by Mr. Hawkshaw, and is the reclamation on which he reported that there did not appear to be any substantial objection.

I am, &c.

Sir,

WITH reference to your letter of the 27th ultimo, forwarding duplicate plans of the proposed reclamation of certain slob lands of Belfast Harbour by the Harbour Commissioners, I am directed by the Board of Trade to request to be informed within what time the Commissioners expect to complete the works, whether within five, seven, or ten years.

I am, &c.

The Secretary to the (signed) *C. Cecil Trevor*.
Harbour Commissioners, Belfast.

— No. 21. —

Belfast Harbour Commissioners to Board of Trade.

(H. 1755.)

Sir, Harbour Office, Belfast, 10 April 1872.

I DULY received your letter of 4th instant, and laid same before the Belfast Harbour Commissioners.

In reply, I am instructed to inform you that the Commissioners expect to complete the works proposed for the reclamation of slob land in this harbour within seven years from the time of obtaining the sanction of the Board of Trade.

I am, &c.

The Assistant Secretary, (signed) *Wm. Thompson*,
Harbour Department, Board of Trade. Secretary.

— No. 22. —

Board of Trade to Belfast Harbour Commissioners.

H. 1755.)

Board of Trade, Harbour Department,
Whitehall Gardens, 17 April 1872.

Sir,

REFERRING to your application of the 4th ultimo, for the sanction of the Board of Trade to the embankment and reclamation works which the Belfast Harbour Commissioners propose to make, I am directed to transmit to you the accompanying duplicate plan of the proposed works, upon which the formal assent of the Board of Trade has been indorsed,* as your authority, so far as their jurisdiction for the protection of navigation is concerned, for proceeding with the works.

It is requested that the inspecting commander and officers of the Coast Guard, or other person authorised by the Board of Trade, may be permitted to inspect the plan and works, whenever he may deem it necessary to do so, for the conservation of the navigation and the protection of the public.

I am, &c.

(signed) C. Cecil Trevor,
Assistant Secretary.

The Secretary to the
Harbour Commissioners, Belfast.

— No. 23. —

Board of Trade to Inspecting Commander of Coast Guard, Carrickfergus Division.

(H. 1755.)

Board of Trade, Harbour Department,
Whitehall Gardens, 17 April 1872.

Sir,

I AM directed by the Board of Trade to acquaint you that they have sanctioned the application of the Belfast Harbour Commissioners to make an embankment and reclamation works at Belfast Harbour, as shown on a plan in the possession of the Harbour Commissioners, on which the formal assent of the Board has been indorsed.

I am to add that the Harbour Commissioners have been instructed to permit you, or any other duly authorised person, to inspect the plan and works whenever it may be deemed necessary, for the conservation of the navigation, and the protection of the public interests.

I am, &c.

(signed) C. Cecil Trevor,
Assistant Secretary.

The Inspecting Commander of the
Coast Guard, Carrickfergus.

* The following is a copy of the assent inscribed on the plans :—

The Board of Trade, so far as the interests of navigation are concerned, and without prejudice to the estate and interest of Her Majesty the Queen, or other the owner or owners in the soil of the tidal lands to be interfered with, approve of the embankment and reclamation which the Harbour Commissioners propose to make at Belfast, as shown upon this drawing and the annexed drawing. And this assent is given upon condition that the said embankment and reclamation be completed within 10 years from the date hereof.

After the 17th day of April 1882 this assent will, unless renewed, be void and of no effect.

Board of Trade,
17 April 1872.

(signed) C. Cecil Trevor.

BELFAST (SLOB LANDS).

COPY, from the Board of Trade, of all MEMORIALS received from, and CORRESPONDENCE with, Mr. *William Bang Ritchie*, M.D., of *Belfast*, relative to RECLAMATION of SLOB LAND in the Lough of *Belfast*; and also with the Belfast Harbour Commissioners relative to the said SLOB LAND.

(*Mr. Biggar.*)

*Ordered, by The House of Commons, to be Printed,
28 February 1876.*

(a) These items include costs incurred in Ireland from 1861, and the heavy expenses the Society were put to with reference to Fishery Legislation, and in maintaining their title to their Fisheries, as also with reference to reclamations in Lough Foyle, and in protecting the Society's properties on Bills introduced into Parliament. A portion of these costs has been repaid to the Society.

(b) Includes cost of new furniture for official residence on appointment of present general agent.

ORDERS, GENERAL RESOLUTIONS, and STANDING ORDERS of the COURT of the Honourable the IRISH SOCIETY from 1820 down to the present Time with reference to the Granting, &c., of LEASES, with Date at which each Order was made.

STANDING ORDER, No. 5, 1832.

That no leases be granted in perpetuity.

RESOLUTION of COURT, held 18 December 1846.

That in all future lettings of lands belonging to the Society, such lettings where practicable be to the actual occupiers, and not in large quantities to persons to re-let to others.

RESOLUTION of COURT, held 17 January 1870.

That, with a view to encourage the outlay of capital in the erection of a better class of buildings on the Society's estates, and also to facilitate the building of warehouses and other accommodation rendered necessary by the increase of trade and commerce of Londonderry, this Society will in future be ready to entertain applications for leases for terms not exceeding 99 years in all cases where the amount to be expended shall be deemed adequate, provided that in such leases there be a covenant that no claim for what is called tenant right shall be made at the expiration of such lease.

IRISH SOCIETY.

STATEMENT of the RECEIPTS and EXPENDITURE of the Honourable the Irish Society for Ten Years, from February 1865 to February 1876 (in continuation of Parliamentary Paper, No. 514, of Session 1866; and, Copy of all ORDERS, GENERAL RESOLUTIONS, and STANDING ORDERS of the COURT from 1820 down to the present Time, with reference to the granting of LEASES, with Date at which each Order was made.

(*Mr. Charles Lewis.*)

Ordered, by The House of Commons, to be Printed,
11 February 1876.

871
IRISH SOCIETY.

IRISH SOCIETY.

RETURN of the RECEIPTS and EXPENDITURE of the Honourable the IRISH SOCIETY from 9 February 1875 to 7 February 1876, as presented to the Court of Common Council of the City of London.

(*Mr. Locke.*)

RETURN from the Honourable the IRISH SOCIETY of London of the Detailed Particulars of the Total RECEIPTS of such SOCIETY in each Year for the Years 1866 to 1875, included in the Column "Total Receipts" in the Return presented to the House of Commons, and ordered to be printed on 11 February last.

(*Mr. Charles Lewis.*)

Ordered, by The House of Commons, to be Printed
3 March 1876.

73.

Under 1 oz.

IRISH SOCIETY.

RETURN to an Order of the Honourable The House of Commons,
dated 27 March 1876;—for,

RETURNS “of the several ANNUAL ACCOUNTS of the RECEIPTS and EXPENDITURE of the IRISH SOCIETY of *London*, presented to the Court of Common Council of the City of *London* in the Month of February in each of the Years 1871 to 1875, both inclusive :”

“Of the Amount of DEDUCTIONS (if any) made from the Item of RECEIPT, ‘for FISHERIES on Account of RENT,’ included in such RETURNS and of the Application of such Deductions :”

“And, of the Amount of the LAW and PARLIAMENTARY EXPENSES incurred by the SOCIETY, in reference to the LONDONDERRY PORT and HARBOUR BILL, introduced into Parliament in the Year 1874, and of the Dates of any Payments made on Account of such Expenses.”

(Mr. Charles Lewis.)

*Ordered, by The House of Commons, to be Printed,
7 April 1876.*

1870-71.

GENERAL STATEMENT of MONIES RECEIVED on Account of the Honourable the IRISH SOCIETY, being the Produce of their ESTATES, FISHERIES, &c., together with the EXPENDITURE of the same, from the 8th day of February 1870 to the 7th day of February 1871.

RETURN to an Order of the Honourable The House of Commons,
dated 15 June 1876;—for,

COPY “of a LETTER dated the 28th day of June 1875, addressed by Mr. L. Counsel, Collector of Inland Revenue, *Athlone*, to **Michael Wallace*, Esquire, of *Springfield*, in the *King’s County, Ireland*, a Purchaser in the Landed Estates Court of the Townland of *Ballyegan*, claiming, on behalf of the Quit Rent Office in *Dublin*, a Quit Rent of 1 l. 6 s. 10½ d. out of said Lands of *Ballyegan*, and 285 l. 2 s. 7 d.† for 183 Years’ Arrears of the same, up to the 25th day of March 1875, and 9 l. 3 s. 2 d. Acquittance Fees.”

KING’S COUNTY.—BALLYBRITT BARONY.

No. on Ledger, 133.

Denomination :—A Parcel of Land in Controversy between Clonkelly and the Barony of Clonliske.

Yearly Quit Rent - - - £. 1. 6 s. 10½ d.

Inland Revenue Office, *Athlone*,
28 June 1875.

Sir,

UNDER instructions from the Quit Rent Office, *Dublin*, I subjoin herewith, for your information, particulars in relation to the yearly quit-rent specified at the head of this letter, and the arrear which has accrued due in respect thereof.

The parcel of land in controversy above referred to, is returned on the book of the Down Survey and Distribution as having contained 72 acres of profitable land, to which 27 acres of unprofitable were appurtenant, and to have been situated in the parish of *Birr*, in the Barony of *Ballybritt*, in the *King’s County*, and these 72 acres are charged in Her Majesty’s rental with a yearly quit-rent of 1 l. 6 s. 10½ d., being the rent specified at the head of this letter.

I enclose herewith a trace from the ancient Down Survey Map of part of the parish of *Birr*, on which the two plots, containing 27 acres unprofitable and 72 acres of profitable land are numbered respectively 3 C and C V, and also a trace from the Ordnance Survey Map for the *King’s County*, on which Mr. Charles P. Brassington, of Upper Sackville-street, *Dublin*, the surveyor usually employed by this Department, has laid down the present position of these two parcels, and shown by a blue colour that they form part of the present townland of *Ballyegan*, containing 799 A. 2 R. 9 P., statute measure, situate in the parish of *Kilcolman*, in the Barony of *Clonliske*, in the *King’s County*.

Having regard to these particulars, I have to acquaint you that it having been ascertained at the General Ordnance Valuation Office, *Ely-place*, *Dublin*, that you are the immediate lessor of *Ballyegan*, it is clear that you are liable to payment of the yearly quit-rent of 1 l. 6 s. 10½ d., to which the 72 acres in controversy, and now forming part of that townland, are subject, and of the arrear which has accrued due in respect thereof; and I have therefore to request that you will cause to be paid into my office, at your earliest convenience, the sum of 255 l. 2 s. 7 d.,† being 245 l. 19 s. 5 d.,‡ the amount of the arrear, 183 years accrued,

* Should be Richard.

† Should be 255 l. 1 s. 3½ d.

‡ Should be 245 l. 18 s. 1½ d.

QUIT RENT CLAIMS (IRELAND).

accrued, due up to and for 25th March 1875, and 9*l.* 3*s.* 2*d.* acquittance fees.

As it appears from the general valuation books that Mr. Joseph Studholme holds a great part, if not the entire, of Ballyegan under you, copies of this letter and of the traces therein referred to, have been sent to him for his information.

I am, &c.

(signed) *L. Counsel*, Collector.

Richard Wallace, Esq., Ballyegan House.

QUIT RENT CLAIMS (IRELAND).

COPY of a LETTER, dated 28 June 1875, addressed by *Mr. L. Counsel*, Collector of Inland Revenue, *Athlone*, to *Richard Wallace*, Esq., of *Springfield*, in the *King's County, Ireland*, a Purchaser in the Landed Estates Court of the Townland of *Ballyegan*; &c.

COPIES of REPORTS of the COMMITTEE appointed to inquire into an INVENTION of Mr. *Dillon* for simplifying the System of REGISTRY of DEEDS, *Ireland*:—And, of REPORTS of the REGISTRAR of DEEDS, *Ireland*, upon the same Subject.

REPORT of the COMMITTEE appointed to inquire into an Invention of Mr. *Dillon* for simplifying the Registry of Deeds, *Ireland*.

Sir, Dublin, 23 September 1874.

In accordance with the desire expressed in the Treasury Letter of the 3rd of June, we have acted as a committee to superintend the experiments which the Committee on the Civil Service in Ireland advised that Mr. *Dillon* should be allowed to make, in order to test his invention for simplifying the mode of recording and indexing the work in the Office of Registry of Deeds.

Considerable time of necessity elapsed before Mr. *Dillon* was enabled to produce a machine of sufficient size for practical purposes as a test of his invention.

Satisfactorily as this machine has on the whole worked, considering the material (wood) of which it is made, it is necessary to state, in fairness to Mr. *Dillon*, that it is only intended as a temporary expedient, and that, for practical purposes, larger and coarser metallic machinery will be requisite.

By the courtesy of Mr. *Thom*, whose letter we enclose, Mr. *Dillon* has been allowed to make use of a room in his office, which is admirably suited for the two purposes essential at present to his experiments, namely, photography and printing.

The former is essential, at all events at present, inasmuch as the Committee requires him to test his index by work from the old abstract books of his office. These books are lent by the Registrar, and such portions as are necessary are photographed by Mr. *Dillon*, and from these photographs the printers work.

As we have been unable, for a reason which will presently appear, to complete the test of the invention, we do not think it necessary to say more than that early in July the Committee were of opinion that the different portions of Mr. *Dillon*'s scheme were separately favourable, and that its mechanical success depended on his being able to form a reliable junction, when requisite, in any portion of the metallic band which he purposes to use in constructing his index.

After repeated trials the Committee arrived at the opinion that a reliable junction had been discovered, inasmuch as with junctions only three inches apart it stood repeated tests on the machine, and has since been tested as a steam-driving belt, such as, when made of leather, are used in steam factories. This experiment was carried on up to 12,000 revolutions, and it was then stopped by the Committee, as further test was considered useless.

At this stage the Committee considered that the invention was of a nature sufficiently promising to justify them in advising the Treasury that the course originally recommended by the Committee on the Civil Service in Ireland should be fully carried out, and Mr. *Dillon* be allowed to protect his invention at the public expense by completing his patent.

Their Lordships consented to this course; but considerable time was, however, not only lost in carrying it out, but on his return from London Mr. *Dillon* informed the Committee that his patent lawyer had urgently advised him to take no step as regards his metallic index until after the 9th of September, the earliest day on which his patent could be sealed.

The Committee considered it fair that this advice should not be disregarded; and they had less hesitation in doing so, since they were of opinion that, though an immense improvement, if practicable, a metallic band was not an item essential to a preliminary test of the possibility of a mechanical index.

They therefore directed Mr. *Dillon* to put in practice his idea of an index formed on linen bands, the "names" and "lands" being printed on slips of

tape and inserted in their proper places in dictionary and geographical order. Such an index has accordingly been made; but, for reasons we have given, it was commenced at a date too late to admit of much work being placed thereon. The work, however, such as it is in quantity, was done very rapidly, under Mr. Dillon's superintendence, by four printers, one paster, and one stitcher. On a linen index, in which any lengths may be inserted at will in any portion, the formation of either a nominal or geographical index is a labour of the simplest description, providing the mechanical arrangement is satisfactory, as in this case it proved to be.

On an index of this description we consider that the work of the office can be very economically and very legibly recorded; but until it has been further tested in its present state, partly as suggested by some of those in the office, and partly by other means, and until Mr. Dillon has had an opportunity of placing fully before the Committee his plan of a metallic index, we forbear from making any comparison between the present mode of recording and indexing in the Office of Deeds and that now existing on Mr. Dillon's machine.

As regards the tests, it has been proposed by three of the principal and most experienced officers of the department, and accepted by Mr. Dillon and the Committee as a fair test of the relative merits of the two systems, that the 2,200 abstracts in which, during the last decennial period, the name of Murphy (the heaviest in their books) occurs, should be copied by writers employed for the purpose, and that these should be printed and indexed by Mr. Dillon.

By searches under the two systems their relative merits can then be tested. The cost of this proposal would probably amount to about 25 *l.* for scrivenry, and 40 *l.* for printers' wages, &c.

In reference to the mode of obtaining copies of the abstracts, the Committee are strongly of opinion that they can be obtained at very slight cost by means of photography, applied at other than office hours through the agency of Mr. Dillon, the abstracts having been selected by the officers of the department. This will in no way interfere with public business, which is the reason assigned by the Registrar for the employment of scriveners. The books of the office, being public property, should be copied, if requisite, in the most economical manner.*

We are of opinion that Mr. Dillon's more complete system of a metallic band should then be tested. If the principle of the index, as exemplified by the linen band, is satisfactorily proved by the "searching" test as above proposed, we should not consider it necessary to test the metallic band by the application of any great length of metal. The cost of this experiment would be merely limited to printers' wages and the purchase of the metal used; and as regards the latter, if the experiment fails, it can be resold at its market value.

But we recommend that Mr. Dillon should be detached from his office for a further period of three months, from a date subsequent to the date of this report, during which time he should continue to act under the superintendence of the Committee.

Your Lordships placed at the disposal of the Committee 150 *l.* to meet the expenditure on the experiments during the three months from the 3rd of June. Your Lordships, at a later date, sanctioned an advance out of this 150 *l.* of 50 *l.* to Mr. Dillon to enable him to meet the expenses contingent on taking out his patent, and by telegram consented, if this expenditure should render it necessary, to increase the amount at the disposal of the Committee.

Up to the 3rd of September, since which no expenditure has been incurred, we understand from the member of the Committee who had charge of it, that there has been expended 180 *l.* 6 *s.*, of which 46 *l.* 5 *s.* 3 *d.* is expenditure on Mr. Dillon's patent and journey, &c., to London, and 134 *l.* 0 *s.* 9 *d.* is expenditure connected with the experiments. As regards the experiments, the Committee have, therefore, not exceeded the amount placed at their disposal.

The heaviest expenditure has hitherto been in the alterations and improvements which day by day it became advisable and necessary to make in the machine and in the general plant, which is now considerable in comparison with the expenditure.

In

* If this test is not considered satisfactory the Committee recommend that correct copies of the abstract sheets, as they are finished each day at four o'clock, be sent down to Mr. Dillon at Mr. Thom's office, in charge of a responsible clerk. They will then be photographed, printed, and placed on the indices day by day.

In continuing the experiments, we do not anticipate that much expenditure will be necessary, except on printers' wages and in the purchase of metal.

In conclusion, the Committee have reason to believe that, altogether independent of the particular advantages which may arise from a successful application of the principle of Mr. Dillon's invention, it will be in their power, as a result of their investigations, to suggest reforms in the existing system of the registry of deeds in Ireland, including printing and photography, which would, in their opinion, lead to important beneficial and economic results.

We would request that your Lordships would come to as early a decision on the subject as may be convenient, with special reference, on account of the season of the year, to the proposal to photograph the abstracts out of office hours.

We have also to request that the Registrar of Deeds may be authorised to defray from the vote for that office the sum of 30 *l.* 6 *s.*, which has been expended in the manner above stated, in excess of the 150 *l.* authorised by the Treasury Letter of 3rd June last.

REGISTRY OF DEEDS OFFICE, IRELAND.

REPORT of the COMMITTEE acting under a Treasury Letter of the 3rd June 1874, in superintending experiments to test an Invention of Mr. *Dillon* for simplifying the existing system in the Registry of Deeds Office, *Ireland*.

Sir, *Dublin*, 13 April 1875.

For the purpose of convenient reference we have divided this Report into four parts :—

Part I.—Deals with the result of the further experiments which we have superintended in connection with Mr. *Dillon's* invention of a mechanical index.

Part II.—Describes in some detail the mechanism of the Index, &c.

Part III.—Contains a general statement of the existing law and system of the registry of deeds, and observations on the improvements which in the concluding paragraphs of our Report of 23rd September last we proposed to suggest.

Part IV.—The general suggestions, which we offer for consideration, based on the results of the inquiry.

PART I.

1. In accordance with the instructions contained in the Treasury Letter of 27th October last (14,964), we have completed the experiments necessary to test the applicability of Mr. *Dillon's* invention to the public business in the Office of Registry of Deeds.

2. Your Lordships left it open to us to test the relative merits of the existing and proposed system by a search, as challenged by the Office of Deeds, and directed experiments to be made to test the practicability of printing on a metallic band.

3. We decided as a matter of economy to test the two points simultaneously, the former, however, in a modified form in order to diminish expense, but to an extent which we deemed sufficient to enable us to arrive at a conclusion.

4. The experiments were delayed for a long time owing to the inability (as was discovered too late of the Admiralty, with its existing machinery, to roll brass to anything like the requisite thinness. Such as it is, however, the metal supplied has been used notwithstanding its thickness, though not to the extent we originally intended.

5. On this subject of the metal necessary for the purposes of Mr. Dillon's invention, we have to observe that since the experiments were made, we have procured from France brass perfectly suitable for the purpose, the existence of which, if known at an earlier period, would have saved more than half the trouble and expense incurred.

6. For the trial search we decided to select the name of Hamilton in the books of the office for the period 1850 to 1854, inclusive (viz., five years, which period we considered sufficient for a preliminary test, instead of ten, as originally intended), and the uncompar'd abstract books for that period were accordingly furnished to Mr. Dillon.

7. Having, after several changes, finally settled on the form in which the record necessary for the office could be most completely and conveniently presented in a compact printed shape, the Hamilton Records of the period in question were printed on a band composed of the Admiralty brass. We were, however, of opinion that one brass band would sufficiently test the printing on metal, and the power of taking copies from it, and that owing to the thickness of the Admiralty metal, it would be more convenient to use linen, as in the former trial, for the band on which the lands index was placed. This arrangement caused considerable delay in the search, but was otherwise practically immaterial.

8. The following conclusions were arrived at:—

(1.) *As to the Printing on a Brass Band.*

A most legible and admirable record was made on a linen surface attached to the band; and notwithstanding the thickness of the metal, and the consequent shallowness of indentation on the opposite side, perfectly legible copies were taken by the use of ordinary carbon paper, and also by the use of a chemical solution, the latter of which produces an indelible copy when required.

We also tested the French brass to an extent sufficient to enable us to state that with either a linen or paper surface, the removal of which is most difficult, the records can be so printed on it as to make them as legible as the page of an ordinary book, and the power obtained of producing from the reverse side of the band, either with carbon paper or the chemical solution, printed copies as legible as the original record.

We did not feel ourselves justified in going to the expense of having a machine made to enable us to take the copies from the band whilst on the rollers. The adaptation of such a machine is stated by competent authorities to be a most simple matter. We were content that it should be done in a clumsy manner by rollers altogether separate.

(2.) *As to the Search.*

We had carefully prepared five forms of requisitions for searches of an average kind, and such as are in general use (referred to hereafter as A, B, C, D, and E); and we decided that these five identical searches should be made in the office, and on the mechanical index. We considered it advisable that the searches should be made in the office by an outside, but very experienced searcher, Mr. Casey (selected by ourselves), as well as by an office searcher selected by the Registrar of Deeds.

On the mechanical index we also employed an outside searcher from a solicitor's office (Mr. Overend), whose experience of the new system was limited to a couple of hours' training.

The result of the searching was as follows:—

	<i>Hrs.</i>	<i>Mins.</i>	
A Search	4	21	(correct).
B „	2	7	(correct).
C „	—	52	(correct).
D „	1	43	(not correct).*
E „	1	48	(correct).

Office Searcher,	Total	10	51
(Mr. Taylor).			

Mr. Taylor was allowed in these searches to make use of an index with the Christian names alphabetically arranged in dictionary order; an index rapid for use, but the compilation of which is laborious, not now continued in the office, and never available for the public until the expiration of a decennial period.

	<i>Hrs.</i>	<i>Mins.</i>	
A Search	5	50	(correct).
B „	4	4	(correct).
C „	1	20	(correct).

Outside Searcher,	Total	11	14
(Mr. Casey).			

Mr. Casey was not employed to make the two remaining searches. We considered it desirable to make Mr. Casey use the “sectional index,” that is, an index arranged only according to the two initial letters of a name. This is the only form of index at present supplied to outside searchers till the end of a decennial period.

The time occupied by Mr. Overend in searching on Mr. Dillon's Index was as follows:—

	<i>Hrs.</i>	<i>Mins.</i>	
A Search	29	$\frac{1}{2}$	(incorrect).
B „	16		(incorrect).
C „	5		(correct).
D „	7		(incorrect).
E „	4		(correct).

Total	1	1 $\frac{1}{2}$
-------	---	-----------------

As A and B were hard and difficult searches, and we were anxious to know whether the mistakes were owing to errors on the index put up by Mr. Dillon, or owing to Mr. Overend's inexperience, we required the latter gentleman to make them over again, with the following result:—

	<i>Hrs.</i>	<i>Mins.</i>	
A Search	34		(correct).
B „	20		(one mistake).

Total	54
-------	----

We were therefore satisfied that the index had been correctly put up, and that searches could most effectually and rapidly be made on Mr. Dillon's principle, and that when searches are required, both on names and lands, there is no comparison between the two systems. Mr. Overend states that if both bands had been of metal he could have made the searches in less time, and that the bad junctions of the Admiralty brass, by obliterating a barony, were partly the cause of his mistakes in search A. In this we concur. If the number of acts with which the office searchers had to deal had been on the mechanical index, the time occupied by Mr. Overend must have been somewhat longer, but to no very great extent, since a “sub-index” which Mr. Dillon places at the head

* This mistake was made in the office copy, and not in the search.

head of each annual division of surnames, and at the head of each barony, guides the searcher to the particular abstracts which he requires to look at, to the exclusion of others which he does not want. Mr. Dillon has also attached to the mechanical index an indicator which enables a searcher to rotate the band at full speed, until it arrives at the required surname, or county, or any subdivisions of the same. This system of indication is capable of any degree of minuteness which may prove necessary.

9. We append forms of each of the office books now in use, on each of which different portions of the same registration are and must be recorded. We also append the identical registration as recorded on Mr. Dillon's system.

10. We consider that Mr. Dillon's plan embraces the following important advantages, which fully recommend it to fuller and to favourable consideration:—

(1.) That an index of lands and names can be made simultaneously and day by day, both containing full and precisely similar information. At present the existing lands index is continually in arrear; on 9th September last it was only up to 3rd June.

(2.) That when once in print all future "comparisons" cease.

(3.) That in *one* place instead of in several, either on the lands or the names index, the *whole* information as to any particular record is seen at once, and a printed *office* copy is cheaply and rapidly obtainable. Some of the leading solicitors expressed to us opinions that this "office copy" will be most valuable to the profession, and tend largely to check the creation, owing to bad spelling, of "alias" denominations of land, a serious and increasing defect in the existing system of copying by hand.

(4.) Greater rapidity in searching as compared with the existing system. Mr. Taylor, the gentleman employed on the trial search, has been lately employed on a search which occupied nearly a month, and in one instance, of which the Committee is aware, a search took nearly two years before it was completed. The value of expedition in searching can be fully appreciated only by professional men.

(5.) That the record cannot be tampered with, and is indestructible except by fire. About the year 1846, an examination was made of the files of memorials from the commencement of the office, and it was discovered that some of the memorials were missing, principally from the earlier files. No further investigation of the condition of these files has taken place. Many of the books of the office are in a most unsatisfactory condition from long and constant wear at the bottom of the pages; and the "gradual obliteration" of names on some of the old lands index, and its consequent inconvenience and danger, was referred to by Mr. Moore, the Registrar, in his evidence before the Committee of the House, so far back as 1832, and has been referred to in subsequent legislation. Erasures, *uninitialed*, are also not uncommon. These are in themselves elements of great danger, and call for early attention. The "blocking" of the current books, moreover, both on names and lands, is of frequent occurrence, and is another disturbing element in searching. We insert in a *foot-note** some observations from Mr. Lane's (Q.C.) Report upon the office in 1860, which, though they refer only

* "It is required by the Statute that there should be a duplicate copy of the Abstract Book kept. The duplicates are made only to the 23rd April 1857, but they are compared up to that date, and are in use. The Abstract Books prior to 1833 are very irregular. From 1708 to 1717 there are 22 volumes not compared, and no duplicates; 10 volumes have been lost. There are not any from 1718 to 1799. From 1800 to 1828 there are 732 volumes, not compared, and no duplicates. From 1828 to 1832 they are compared, but there are no duplicates; so that there are about 800 volumes of books useless for want of comparison, which would be of some use to the searchers if they were compared." And at page 59 he adds—"Some letters of one county of the Lands Index, for a period of 20 years, in the middle of last century, have been torn out and taken away; it is not known when or how; but the loss has been known for many years. I purposely omit the county, letters, and period." (This paragraph was not published in the Blue Book.) It is now stated to the Committee that the original Abstract Books from 1708 to 1828, which contain the Abstracts from 1 to 560, 300 are uncompleted; and that the Transcript Books containing the copies of the Memorials from 1708 to 1832 are in the same condition. As there are 890 of the latter, and 1,860 of the former, there are under these heads alone 2,750 books which ought to be practically useless.

Note.—Since this Report has been drawn, Mr. Dillon has suggested that if to the Sub-Index proposed to be placed at the head of each surname, the barony is added with a numerical reference to it, it will not be necessary to put up the nominal Index. Should this suggestion be found practicable, the Index will be reduced to a minimum.

only to one of the sets of books required under the present system, are not unimportant.

(6.) That a duplicate of the important transactions registered in the office can be deposited elsewhere, as a security against fire or other casualty.

11. We are fully alive to the importance of the Registry of Deeds Office as an established institution; and to the ill-consequences to arise from any sudden alteration of its existing organization; but, having watched carefully the progress of the system which it is proposed should supersede the one now existing, we consider it possesses elements which justify the opinion that its adoption would tend to public advantages, and that its practice should be continued over a sufficient space of time to show its working capabilities on all points, and simultaneously day by day and side by side with the present practice, reports being made as to its results.

12. As regards the comparative expense of the two systems, we are of opinion that the importance of the records of this office is such, that even if the new system was found to be more expensive than the old, we should be justified in recommending it if found to be as feasible as we expect; but we are distinctly of opinion that when in full operation it will be found to be far more economical than the existing system. Bearing on this point, we draw attention to the important facts contained in the extracts at the end of this part of our Report, from Mr. Lane's Report of 1860, merely here observing that the existing staff of the office, including transcribers, is eighty instead of sixty-eight.

EXTRACTS from Mr. Lane's Report of 1860, referred to in Section 12.

"When examining the offices in Scotland and England, I directed my attention very particularly to the numbers employed in each, and found the staff in all of them very small in comparison with that in the Irish office. I endeavoured to ascertain the reason of the difference between the offices in this respect, and have satisfied myself that it arises from the fact, that the work necessary for the purpose of making the registry complete under the Irish system is far beyond that required by any of the other systems which I have seen, and that reform, therefore, is to be looked for only in a change of that system. In Edinburgh the different departments are kept quite separate, the business of the Irish office being represented, I may say, by the department for registering of saisines, or writs relating to lands (where the registry is effected), and the department of the Keeper of the Records, where the indexing and searching are done. In the office of Registrar of Saisines there are 19 persons. The deeds are copied in full, and minutes or abstracts of them are made, which are entered in books called "Minute Books." Of these there is one to each volume of copies. In 1859 there were 126 volumes of each of these books; the volumes of *copies*, containing each 400 pages, of which there were written on, in all, 50,015 pages, 13 by 8½ inches, and containing 32 lines; and all this writing, as well as the minute books, were doubly checked and compared, and kept free from arrear by those 19 persons.

"In the indexing and searching departments—which are carried on, as I have stated, in the office of the Record Keeper—there are, besides himself, 10 persons, including four searchers and four searchers' clerks, by whom the official searching is done; and there were close on 7,800 searches in the year 1859. Thus the entire staff engaged in the two offices is 30 persons. This does not include a staff engaged in printing the old minute books, which has been in progress for some years.

"In the North Riding of Yorkshire (which has the peculiarity of the Registrar performing the duties in person), there are only three persons, including the Registrar. The registry, last year, was about one-sixth of the Irish registry. The deeds, the day I was in the office (December 14th), were indexed to within ten days, and the transcripts made to within about six weeks. The searches are almost all done by the Registrar, but the public have the power of making them if they please. In the East Riding there are four persons, including the deputy, and they do all the searching, the public scarcely ever making searches. The registry of deeds, in 1858, was about one-eighth of the Irish registry. But there is also in the office a separate index of wills, a registry of inclosure awards, and of enrolments, which make the business probably about the same as in the North Riding. The registry of the West Riding is the largest of the three, and the Deputy Registrar, Mr. Dibb, has taken a great deal of trouble in the arrangement and conduct of it, both of which are excellent. The staff consists of the deputy, two assistants, 10 clerks regularly, and occasionally three or four for a short time. The registry of deeds in it amounts to from 8,000 to 10,000 each year. The searches are principally done by the office; and from 5th May to 15th December 1860, they amounted to 684. And with a staff of 13, when I was there on Monday afternoon, the transcripts or copies

of memorials were only 159 pages in arrear, to complete them up to the previous Saturday evening.

"In Middlesex the working staff is 13, including the Deputy Registrar. The registry of *last* year was—of deeds, 16,400; probates, 400; judgments, 600—in all, 17,400, being very nearly one-half more than the amount of the Irish Registry last year. The searching in this office is entirely done by the public. The sheet of each day's index, not in alphabetical order, is ready for public use the following morning. The copying of the memorials was about six months in arrear, but the Deputy Registrar told me that no inconvenience resulted from that delay.

"In Ireland, the registry of deeds, last year, was 11,744; the number of searches was 1,003; and the staff of the office was 68. The causes of this difference must be looked for in the Statute 2 & 3 Will. 4, c. 87, by which the books kept in the Irish office are regulated; and when it is stated that those books have never, since the Act was passed, been all regularly kept—that a very large part of those which should now be ready for the public have not been as yet even attempted—that some of those which have been made are, from various causes, useless—there appears to me to be but one conclusion to be arrived at, viz., that the books used in the Irish system of registry are too multifarious and complicated—that too much is attempted, whilst very little is done perfectly. This, however is, I consider, the fault of the system, not of the officers. To this incompleteness and arrear in the books the greater part of the delay, so far as the public is concerned, is to be attributed; whilst to the complication of the books, and the reiterated copying of the same thing, is to be traced the incompleteness and arrears affecting the public."

PART II.

1. The objects which Mr. Dillon proposes to arrive at by his index are—
 2. First: *Rapidity and accuracy of registry*, so that within 48 hours after each deed has been deposited in the office it will be found registered in a legible type, in its proper dictionary position on the index.
 3. Secondly: *Rapidity of searching*. The index is so constructed that by the simple operation of turning a handle, the whole of the information registered on a roll containing the acts done during a known period will be quickly brought under the searcher's inspection.
- It has been found by trial that what now takes hours, and sometimes days, can be effected by Mr. Dillon's index in a very much shorter period.

CONSTRUCTION OF THE INDEX.

4. The index is composed of a continuous band of thin rolled brass, 10 inches wide, and which can be added to when necessary, and which has a prepared paper or linen surface, suitable to receive deeply indented type printing. This long roll of brass is coiled on two cylinders or cores, the one vertically over the other, at a suitable distance from it. These cylinders revolve freely on bearings, and when set in motion by a handle and multiplying wheel, the one receives what the other discharges from the coil, the handle moving but one cylinder at a time, the other revolving only as the tension of the band in process of uncoiling causes it to do so, and thus the conflict of velocities which would otherwise arise between the two cylinders revolving at the same rate, but the coils contained on which, when in action, would always be of different and varying circumferences, will be avoided. The whole roll can thus be reeled off one cylinder on to the other in a short space of time, allowing each portion to pass under the eye of the observer.

5. Great rapidity of motion is essential to facilitate searching, and any possibility of inconvenience arising from the too rapid passing of the index before the eyes of the observer is ingeniously met by Mr. Dillon's adaptation of an *indicator*, which travelling along an endless screw by the motion of the machine tells on a dial-board the exact position of the index which at that moment is passing under the plate glass which forms the reading desk of the searcher, so that he, keeping his *eye* on the indicator, may allow the roll to run at its full velocity, checking it only when he sees the pointer approaching that part of the dial which tells him that the letter or county (as the case may be) is coming up and close at hand for his inspection.

We have thus secured the means of using a long band, and a vast mass of matter with great rapidity, and yet by the aid of the self-acting indicator, which moves very slowly, with safety.

MODE OF REGISTERING BY MR. DILLON'S INDEX.

6. This may be concisely described as follows :

1st Step.—To photograph the abstracts when handed into the office, if sufficiently long to require it.

2nd Step.—The duplicate of the abstract, which it is proposed to substitute for the old memorial, or its photograph is given to compositors to set up in type.

3rd Step.—Ordinary papier mâché moulds are taken which are required for stereotyping, and which when used can be stored as matrixes for future reproduction if necessary.

4th Step.—The stereotypes having been taken in blocks containing all the abstracts of the deeds registered during that day, are then cut by a circular saw into separate portions, each containing one abstract.

5th Step.—Each of these separate blocks above mentioned is then placed in a powerful press, and the type having been treated with ink, a deeply indented impression is forced into the brass, leaving a perfect print on its white surface, each abstract being stamped on the roll in its proper place in dictionary order.

When it becomes necessary to interpolate, the brass band can be cut, and portions introduced. A means of uniting these portions has been devised, the strength and permanency of which is beyond dispute. On examining the junctions of a composite band (the junctions being at every two or three inches) which was subjected to about 13,000 revolutions on the shaft of a steam-engine, no tendency to fractures could be discovered, though a powerful magnifying glass was used.

MODE OF APPLYING INDEX TO OFFICE WORK.

7. The arrangement of the index is in chronological and dictionary order.

Suppose a search is to be made against the name of Alexander Hamilton (as that is the surname on the specimen forwarded), and that the searcher is at the commencement of the index.

He turns the handle rapidly until he arrives at Ha. Once the indicator shows he is there, he seeks the sub-index or tabulated portion (printed in red ink in specimen) at the commencement of the required year. He is among the Hamiltons. Having found the required year, and Alexander being the christian name of the individual he is searching against, he consults the sub-index under letter A, to see where, if anywhere, Alexander appears. If the sub-index of the year discloses no Alexander, his search for that year is over. Hamiltons have done (in the technical language of the office) certain acts in that year, but Alexander Hamilton has not. If, on the other hand Alexander, does appear on the sub-index, it is followed by certain figures, say 3, 56, 100, 180, and so on; which correspond with the figures attached to the abstracts in which the Alexander Hamiltons have done acts, and by reference to them in connexion with the locality in question, it will appear whether his Alexander Hamilton has done the act he is in search of; the nature of the transaction, and the lands affected by it being disclosed in each entry. Should the searcher desire to check his search a figure or figures on the entry he has found refer him to the entry on the lands index where the similar information is registered, and without searching he can go direct to it, and *vice versa*, since the lands index discloses the same information as the names index. The entries are in fact identical as to contents, but differently arranged, the object of the names index being to show the acts of an individual against lands, that of the lands index being to disclose the names of all parties who have dealt with the denominations of land, the object of the search; each, however, tallies exactly with the other.

8. Again searching on a lands index the same facilities are given by a sub-index, with this difference, that the barony, a well-defined and unchangeable geographical division, is treated as the surname, while the lands figure according to their initial letter in lieu of the christian name. The initial letter is the present mode by which lands are arranged in the books of the office, and it is a

necessary arrangement so long as the registration of "aliases" is continued, or until the ordnance townland is made the basis of the lands registration; in the latter case the ordnance townland names will be treated as the christian names to a barony. If these observations are attended to, a search on a small scale can be made on the specimens sent.

9. The characteristic of the index is, that though a searcher may have to manipulate large masses of matter he need not investigate them, its appliances accurately designating the isolated points where that process becomes necessary.

TO TAKE PRINTS FROM THE INDEX.

10. In order to do away with the necessity of making manuscript copies (or extracts) by searchers, Mr. Dillon has proposed that imprints shall be taken from the under side of the brass index itself (the printing having been indented sufficiently to enable a satisfactory impression to be taken from it), by allowing the band to pass between the rollers of a small specially adapted press, and using carbon paper. He has also tried another process of printing, which depending on the action of metal on a chemical prepared paper or linen, produces a distinct impression of indelible blackness; this latter process requires further development.

11. It is suggested that should it be contemplated to give Mr. Dillon's invention a trial, the rolls on their cylinders should be set in cast-iron stands of suitable form, and be ranged in an apartment separated from the searching room by a partition; thus the outside searcher would have no access to the rolls, but simply have the power of bringing any part of the index under his glance by the motion of the handle (*vide* Sketch No. 1 in Appendix). The apartment in which the rolls are placed should only be accessible to officers and employés of the establishment.

12. Sketch No. 2 exhibits a form of cast-iron stand, which appears to combine all that is required, but which could be modified according to circumstances, retaining always this principle, viz., the power of being able to *ship* and *unship* the rolls, so that the proposal of having duplicate index rolls, one in use, whilst the other is in the hand of the mechanical registrars, can the more readily be carried out.

13. The portions of the sketch shaded represent a cast-iron frame, one of two in which the index is to work; these frames to be set up in pairs for as many indexes as may be required. The projections on the back of the frame are bearings on which the axles of the cylinders are to revolve, and they admit of the index being removed, and of its duplicate, made up to the last entry, being inserted in lieu of it, each counterpart undergoing a similar process in its turn. Several of these projections appear as provision for moving the index, in the event of its outgrowing the space allotted to it. A and B represent the index itself coiled on its cylinder; the line marked throughout C is the index in its transit from one cylinder to the other, C C to C C representing the portion the searcher examines. D and D are two movable guiding rollers.

14. As regards the lasting properties of Mr. Dillon's proposed appliances, we are of opinion that if the machinery is properly constructed the amount of friction will be much less than would be supposed, for it should be observed that, the band being coiled in compact masses round the two cylinders, the only portion exposed to friction is (say) the three feet or so between the cylinders, and that only during its transit from one of them to the other, since when on either, though it revolves rapidly, it does so in a compact, and save that it does revolve, in a quiescent mass; the portion liable to injury being only that which is in process of leaving one cylinder to reach the other, and when once there it relapses, save as above stated, into quietude until again disturbed.

15. It must also be remembered, that so long as the office retains the original moulds, or indented brass, or reproductions of them, they have the means of reproducing the index as often as necessary.

PART III.

1. There are 15 Acts of Parliament which regulate or relate to the existing system and practice of the Registry of Deeds Office in Ireland.* In addition, there are various statutes which relate to the registration of deeds of different kinds.

2. The office was created by the 6 of Anne, chap. 2, its objects generally stated being to secure purchasers, to prevent forgeries and fraudulent gifts and conveyances of land, to make unregistered deeds fraudulent and void against registered deeds, and to make registration a test of priority.

3. The 2 & 3 Will. 4, c. 87, is the statute which takes the most important part in regulating the details of operations in the Registry of Deeds Office, and it has been with some truth observed, that owing to the inflexible rules laid down by it the office is at present in an unsatisfactory state.

4. Amongst the statutes mentioned is the 13 & 14 Vict. c. 72 (known as Sir John Romilly's Act), which has never come into operation, there not having been given the notice required from the Commissioners of the Treasury of the completion of the maps and lands' indices of the Ordnance Survey of Ireland, the adoption of which as the basis of a system of land registry was a leading feature in this measure.

5. In 1862 a Bill was introduced having for its objects the consolidation and amendment of the law relating to the registration of deeds in Ireland, and embracing many of the objects and reforms suggested for consideration in the following pages.

6. The measure referred to was introduced in March 1862, and read a second time in the House of Commons;† but it did not become law.

7. The policy of the law is stated to be, to attach a certain degree of publicity to dealings with land, in order to protect purchasers from the uncertainty and fraud that would otherwise be the result of the complicated systems of conveyancing, of which the law permits land to be the subject-matter.

8. The objects to be attained in a perfect system of registry of deeds appear to be accuracy, simplicity, and facility of reference.

9. The practice which at present prevails for the registry of deeds may be generally stated to be as follows, viz.: the engrossment of the deed having been made from its draft, the latter is handed over by the solicitor to a clerk, for the purpose of preparing the memorial, the document to be put on record. There are special statutory provisions with regard to the contents of a memorial, which may be stated in general terms. It should contain the date of the deed, the parties' names, the lands affected by it, the barony and county in which they are situated, and the fact of its execution. In practice, however, memorials set out the contents of deeds at much greater length. The clerk to whom the draft has been handed, and who may be, and probably often is, an unskilled person, strikes out with a pencil such portions of it as in his judgment should be excluded, and attempts a condensation, often a difficult task to a skilled draftsman. There are frequently included matters altogether outside the statutable requirements, unskilfully and inartistically selected and arranged, and tending to unsatisfactory results. It is not the duty of the registrar to compare with the deed any of the statements contained in the memorial except such as are required by statute, and hence arises a possibility that there may be introduced into it matters not contained in the deed, and at variance with truth. In fact, a memorial may misrepresent the contents of the deed in most important particulars, without in any way invalidating its right to registration,

* 6 Anne, c. 2; 8 Anne, c. 10; 8 Geo. 1, c. 15; 5 Geo. 2, c. 4; 33 Geo. 2, c. 14; 25 Geo. 3, c. 47; 56 Geo. 3, c. 88; 3 Geo. 4, c. 116; 9 Geo. 4, c. 57; 10 Geo. 4, c. 50; 2 & 3 Will. 4, c. 87; 5 & 6 Vict. c. 82; 11 & 12 Vict. c. 120; 13 & 14 Vict. c. 29 & 72; 16 & 17 Vict. c. 78; 22 Vict. c. 105; 27 & 28 Vict. c. 76.

† The measure was introduced by the Solicitor General for England, Sir Roundell Palmer, the present Lord Selborne; at the time of its introduction neither of the Irish law officers had seats in the House.

tration, and a door is thus left open to fraud. This appears to be a very important defect in the existing system.

10. The execution of a deed and memorial having been perfected, they are taken to the Registry Office, and presented for registration. The first step in the process is their receipt and examination by two clerks, who having examined and compared the deed and memorial against each other, and satisfied themselves that the statutable requirements have been complied with, a duty apparently involving a considerable amount of technical skill, they mark their initials on each, and having done so they return them to the party registering, whose duty then is to take them to the local stamp department to have affixed to the memorial the stamp duty to cover the fees for registry. The documents are thus for a time left in the power and control of a person who may have an object in altering or tampering with them before registry; under a practice which previously prevailed, the deed and memorial having been accepted for registry, did not leave official custody. The stamp duty having been affixed, the deed and memorial are handed by the person registering to the registrar, who having examined the stamps, and satisfied himself that the documents are in form for registry, administers the oath to the party verifying the execution. He then, in what may be described as a rough book, writes down the serial number of the deed (which practically indicates the priority of its registry), the name of the solicitor by whom it is registered, and the fee for registry. On the deed and memorial he notes the same information; a docket is given to the person registering, to be returned on getting up the deed, which is usually ready within a day or two. On its return an acknowledgment is taken for it in a duplicate copy of the day-book mentioned further on, and the duty of the person registering an instrument is then discharged.

11. The next official step is the entry of the registration in the "Day Book," in which are given the day, hour, and minute of registration, the names of the grantors and grantees, the county, city, or town in which the lands or premises are situated, the nature of the deed, and the number of reference to the memorial, with the name of the solicitor by whom it was lodged for registration. A duplicate of this book is kept, which serves the purpose of a receipt book to be signed by the person to whom the deed is returned when its registration is completed.

12. The next process is the compilation of the "Index of Names" or "Sectional Index" from the day book. The names of the grantors are arranged alphabetically according to the two first letters of each surname, opposite to each being the name of one or more of the grantees, the county, city, or town where the lands or premises are situated, and the number of reference to the memorial. Formerly this book was kept in duplicate. The practice has been to some extent altered; instead of an actual duplicate, a paper copy, called the "Consolidated Names Index," is made, with spaces with a view to a dictionary arrangement. This book is not open to the public. It is from it the decennial index referred to further on is to be prepared.

13. An "Abstract Book" is compiled, which shows again the date of registration, the number of reference to the memorial, the date of the deed, the names of the grantors and one or more of the grantees, the consideration, the name, description, and situation of the lands, and the general nature of the instrument. A duplicate of this book is required to be kept, but the practice has been discontinued. As stated in a previous part of this Report, there exists in the office the duplicates of these books for very many years, which, owing to their never having been compared, are for all practical purposes utterly valueless.

14. Concurrently the "Lands Index" is prepared. It shows the name of every denomination mentioned in the deed, arranged alphabetically by baronies and counties, opposite to each being the name of the parish, the name of one of the grantors and one of the grantees, and the number of reference to the memorial. The duplicate of this book, under the present arrangement, is not compiled until the end of each quinquennial period.

15. It sometimes happens that the deed does not contain the name of the barony in which the lands are situated. To meet this omission another book called

called the "No Barony Book" is kept. In some cases the deed omits to give the name of either parish, barony, or county; to provide for this another index is kept, simply of denominations, and called "The General Index." All the books lastly referred to are kept in duplicate. Again, there are the quinquennial and decennial parties' names indexes re-compiled in dictionary order, the latter called "The Consolidated Parties' Names Index," likewise kept in duplicate.

16. Some of the indexes of the office are in a very dilapidated condition—many may be said to be almost illegible at the corners of the pages from actual wear and tear. Their renewal was contemplated by the 2 & 3 Will. 4, c. 87; the machinery of the department has not enabled this being done. The matter is one of great importance, and the committee think calls for immediate attention.

17. In a pamphlet written by Colonel Leach on the subject of the Registry of Deeds Office in Ireland, in 1860, it is shown that, including entries and comparisons, 58 distinct operations were involved in the registration of every deed, and that the number of books required to complete the registration and indices for a period of 10 years, was estimated approximately at 1,300*. Independent altogether of the numerous volumes referred to, there are the "Transcript Books," into which are copied all the memorials deposited for registry. There are likewise books which contain copies of negative searches, and names and lands indexes to these searches, likewise in duplicate. It is obvious the multitude of operations described must involve a very considerable amount of risk, responsibility, labour, and consequent expense; the cost of books alone represents a serious item of expenditure; the number required for a decennial period, including the transcript books mentioned afterwards may be approximately stated as costing 600 l. a year.

18. Reference has been made to the transcript books, into which are copied the memorials of all deeds registered, and to which under ordinary circumstances, and as a rule, reference is had to ascertain the particulars of the deed registered. As a matter of fact a very large proportion of these transcripts remain uncompleted; the power of transcribing appears to be in excess of the power of comparing. There are in the transcribing department of the office 13 writers, and but two comparing clerks. On the other hand, it would appear the transcribing power was deficient, as certain of the index books are in arrear—for example, the lands index. It may be generally stated that a deed registered on the 1st of March will not appear on the lands index until about the 1st of June, a state of things hardly contemplated by the statutes under which the department is regulated; and which the Committee consider a defect to the removal of which consideration should be given.

19. There is difficulty in understanding why legislation sanctions the accumulation in one locality of so much of what may be practically termed useless matter. Had it been intended that the records should be distributed so as to give increased security against accidental destruction, it would have supplied a reason. On this particular part of the subject the Committee think it obvious that, altogether apart from any reforms or improvements which may arise from the adoption of the mechanical index, with which the previous portions of this Report are familiar, great reforms and benefits are capable of being effected by a readjustment and reorganization of the system of books and indices at present prevailing in the Registry of Deeds Office, enabling a diminution in the number of books and entries, and a simplification of arrangement.

20. It appears to the Committee that the value and importance of the adoption of the Ordnance maps and survey of Ireland as a basis for a system of land registry can hardly be over-estimated. There now exists a complete set of Ordnance maps on a scale perfectly clear and easy of reference, on which is delineated every county, barony, parish, and townland (the latter the smallest fiscal division recognised) in Ireland, in the case of a city or town, the parish and street being shown. To these maps there is a well-arranged index. As matter of fact, it is as easy to find by reference to it the sheet on the Ordnance map at which

* In consequence of the Abstract Book not now being kept in duplicate, the number now kept may not be so large, although the business of the office has considerably increased since 1860.

which a particular denomination of land will appear as it is to ascertain a name or address in an ordinary directory. Already these maps are easy of access and reference: they are capable of being made so to any extent. The townland denominations, as ascertained, are the result of a Government inquiry carefully and systematically conducted, neither trouble nor expense having been spared to secure accuracy. The index to these maps is published under authority, and can be purchased for a few shillings; it returns Ireland as containing 63,000 townlands the boundaries of which are distinctly and accurately defined.

21. There is scarcely a denomination of land in Ireland which has not from one to five or six or more alias denominations. A leading, and one of the most important results of the Ordnance survey, is the elimination which it has effected of an enormous majority of them without interfering with identification or any other practical or useful purpose. In the county of Londonderry, for example, the townland denominations, as they appear from the Ordnance survey, number 1,306, the number of aliases being 3,705 (the average would be larger in any of the southern or western counties). If it be remembered that in the registry of a deed a separate entry is made of each denomination of land, the benefits which would arise by the elimination of alias denominations become at once apparent. For example, if it be assumed that each day 50 deeds are registered, that each deed contains five denominations of land, each denomination having three aliases, that in the working year, composed of 311 days, the gross number of deeds registered is 15,500, each deed containing 15 (3×5) alias denominations, the result is a total of 232,500 names, each of which must be separately entered in the lands index book, the abstract book, the transcript book, as well as in their respective duplicates.

22. Transcribing in ordinary words conveys no accurate idea of the trouble and difficulty involved in copying out such names as, for example: Farrandahdoremore, Ardmanningmore, Killeenreendowne, or Doughcloyne. If to this consideration be added the difficulty and responsibility of comparison, regard being had to the necessity for extreme accuracy, a strong case is made out for the adoption of the Ordnance survey, legalising for the purpose of registry the townland denominations given in it, and excluding from the indices of the Registry of Deeds all others. The utility of the survey was recognised by the Act of the 13 & 14 Vict. c. 72, already referred to. Over and over again the desirability of its adoption has been urged and advised by the most eminent authorities; and in the Landed Estates Court for many years back, and with immense advantage, the facilities it offers have been availed of. The following case appears worthy of statement as illustrative of the views expressed.

23. In 1868, the owner of a property situated in two baronies in the north of Ireland petitioned the Landed Estates Court for a declaration of title. In this petition it appeared the estate was known by no less than a number of denominations or alias denominations than 511! A difficulty arose in identification of the lands, and the dealings with them: and for purposes of the investigation of the title a direction was given that the denominations and aliases should be identified as far as possible with the names by which they were known on the Ordnance survey. The result was that of the 511, all save 177 were eliminated, and the estate has now passed through the Court, purged of 334 names. It is worth going into a little approximate detail to exhibit some of the economic results of this expurgation. Had the owner of the property, before the Landed Estates Court proceeding, mortgaged it, the description by the then known denominations and aliases would have involved transcribing over 3,066 words (most of them of a difficult kind to write). The professional charge for transcribing would have been 1*l.* 10*s.* For each denomination of land entered on the registry 3*d.* is charged: 511×3 gives, say 6*l.* 8*s.* A search against the lands would cost for each 10 years, for each denomination or alias denomination commencing with a different initial, 5*s.* Assuming there were 20 different initial letters, that the search was for 20 years, the fees would amount to 10*l.*; the total expense would thus be, say 18*l.* The landed estates proceeding reduces the expense in the proportion of 177 to 511, or, say, by two-thirds; thus, in each future dealing with the estate effecting a saving of 12*l.*

24. It is possible cases might occur in which, owing to parties residing abroad, or from other reasonable cause, there might not be immediately available the means

means to enable an accurate statement of the denominations of land intended to be made the subject of the deed. To meet such cases provision might be made by which a sort of interlocutory or intermediate registry could be effected, enabling the recording of the deed in a general index for a limited period; say, for example, a year, the registrar giving a special certificate. If before the expiration of that period the necessary information, to be defined by rules and regulations, was not supplied, the deed to be treated as not validly registered. Or, that in a case in which the Ordnance names of townlands were not given in the deed, the solicitor registering it should give satisfactory evidence (to be in like manner prescribed by rule or regulation) of the townland on the Ordnance map on which the lands, the subject of it, appeared. The probability is that the number of deeds in which it would be necessary to adopt either of the alternative systems proposed would be very small, and would be a decreasing quantity. The tendency of the adoption of a fixed legal townland denomination would be, before very many years had elapsed, to completely get rid of aliases.

25. In March 1862, the practice of the Landed Estates Court with regard to conveyances of land was modified. To secure greater accuracy provision was made that deeds should be printed by the printer to the public departments (Mr. Thom). According to the practice which now prevails a copy of the conveyance, when printed, headed as a memorial, is signed by the judge contemporaneously with his execution of the deed, and subsequently recorded as a memorial in the Registry of Deeds Office. By the existing system in that department the printed memorial so recorded is copied in manuscript into the transcript books. In the matter of one estate the printed memorials, exceeding in length 900 folios of 72 words in each folio—in another case one printed memorial, containing upwards of 200 folios—on their introduction to the Registry of Deeds Office, were subjected to the retrograde process of being converted into manuscript. An experienced writer will on parchment transcribe about 50 folios per working day of six hours, at which rate the memorials in the two cases referred to gave occupation for 22 days. A large majority of all memorials transcribed in the Registry of Deeds Office, as already stated, remain uncompered. It is the transcribed copy which is permitted to public inspection; the original can be referred to, but only on payment of an additional fee.

26. Since March 1862 the number of Landed Estates Court deeds registered may be stated at 7,300; supposing the average length of each deed to have been 30 folios, it gives a total of about 220,000 folios which have been unnecessarily transcribed, at a cost of some 1,375 *l.* for writing, and about 400 *l.* for parchment. Duplicates of the printed memorials, costing a few pence each, could have been procured and deposited for registry, by which means accuracy, facility of reference, economy of money and space, could have been secured. The Landed Estates Court only is referred to to illustrate this particular defect; there are others of the public departments, as, for example, the Board of Public Works, besides the cases of private individuals, in which deeds are printed, and in which a similar practice of recording a printed memorial and its transcription prevails.

27. The volumes into which memorials are transcribed number about 300 parchment pages. Each book costs over 7 *l.*

28. To those professionally familiar with the practical working of the Registry of Deeds Office, the term "a general act" will convey the idea of vexation, trouble, and expense. Upon a "negative search" there is given not only a return of every act done by the person searched against, but also a certificate that there are no other acts appearing on the registry to affect the lands in question. A general act may be described as one in which the particular denomination of land is not expressly mentioned, but in which such general words are used as may possibly include it. If, for instance, incident to a sale of land, a search be directed for acts done by A. B. to affect the lands of Blackacre, and that upon such search it appears that A. B. has executed a deed in which the lands of Blackacre may not be mentioned, but which deed, after naming particular lands dealt with, may contain the words, "And all other the lands of the said A. B.," the searcher will return such deed as "a general act," inasmuch as it may affect the lands searched against as comprised within the words, "and all other the lands of the said A. B.," and the act being returned by the searcher the

vendor is bound to satisfy the purchaser that it does not interfere with his right to sell. The deed may not be within the power or procurement of the vendor, and, although the deed returned may in no way in reality affect its subject-matter, the entire transaction may thus be defeated. The expense and trouble occasioned by this system is a matter of serious moment; the defect is one which would apparently be easily remedied by making it incident and necessary to valid registration that the name of the lands and the barony and county, or in the case when they are situated in a city or town, the street or parish, should be expressly stated in a deed, and that what are designated as "general words" should have no operation or effect. The adoption of this principle would enable the dispensing with the No Barony Book, and practically with the general index already alluded to.

29. Upon every deed registered there is transcribed a certificate, of which the following is a fair example: "A Memorial of the within deed was entered in the Registry Office, in the city of Dublin, on the 27th day of September 1873, at 17 minutes after 2 o'clock, in book 53, page 83, No. 57, and the execution of said deed and memorial was duly proved." Assuming 15,500 deeds to be registered in each year and that the certificate on each contains 50 words, some 12,000 folios per year are transcribed. This form of certificate might be considerably shortened, and in this case a mechanical contrivance of the description used on the issue of railway tickets might be made available.

30. It has been stated on eminent authority that a register thoroughly to answer its purposes must go the length of enabling persons, not parties to an unregistered conveyance, to act as if such conveyance had no existence. In this respect the law regulating the registry of deeds in Ireland appears to fall short.

31. If a person who has a duly registered deed has had previous to its registry, expressly or impliedly through an agent, notice of one not registered, he cannot, as against it, rely on the priority given his own deed by the mere fact of registry. This defect is based on what is legally and technically termed the "doctrine of notice." It was said by Lord Brougham that it looked like repealing the Registry Acts. Legislation enforcing the priority of registered deeds against unregistered, notwithstanding notice, unless in the case of absolute fraud, would apparently tend to the better carrying out in its true spirit and intention the object of a proper registry of deeds system, and be productive of great public advantage.

32. The 2 & 3 Geo. 4, c. 116, provides a very complicated method of registering deeds executed in England, which appears cumbrous and out of date. The repeal of these provisions is worthy of consideration.

33. The 10 Geo. 4, c. 50, s. 62, renders it unnecessary to register any deed conveying land to the Crown. It will not be contended the privilege has ever been availed of to the prejudice of the subject, still it is one out of harmony with the spirit of the age, and might be withdrawn.*

34. The acceptance of the memorial by the Registrar of Deeds is in no case conclusive proof of its being in conformity with either the deed or the requirements of the statute. The existing state of law justifies the assertion that the registration of many deeds, if critically scrutinized, would be found to be invalid, owing to formal matters of omission and defect. The 27 & 28 Vict. c. 76, made valid the registration of certain deeds registered prior to its passing. Its provisions are retrospective only. The continuance of this state of uncertainty calls for redress, which probably might be safely given by a general provision that, subject to proper limitations, the certificate of the register should be conclusive evidence of valid registration.

35. The 33 Geo. 2, c. 14, and 25 Geo. 3, c. 47, introduced a system of registry of deeds which do not relate to lands. The existing law gives no legal effect to the registration of deeds not affecting lands, and their registry confers no real benefit on persons claiming under them, and tends unnecessarily to the accumulation

* There are other statutes which exempt from the operation of the Registry Acts deeds dealing with charges of a public nature affecting lands.

lation of recorded matter and the number of entries, and is another cause of increased trouble and expense. It is not difficult to appreciate the advantage to arise from a system which would permissively authorise for purposes of preservation and reference the recording *in extenso* of a deed, whether relating to land or not. To summarise into the shape of a memorial or abstract, for example, a deed of family settlement, may require considerable professional skill, and even when that has been bestowed, defects and ambiguities tending to litigation or confusion will often arise. In deeds of this class there often is a common property, there may be persons interested, some having interests adverse to others, others to whom safe custody may be of vast importance. A system which would secure the preservation of such deeds in their entirety, or complete evidence of their contents, appears to be matter well deserving of consideration. A power to record *in extenso*, by deposit of a duplicate or certified copy, under proper regulations, to be imposed by rules, would apparently meet this requirement.

36. The 6 of Anne, c. 2, provides for the registry of wills, but it differs from the English Acts in containing no clause declaring unregistered wills void against purchasers for valuable consideration, and in specifying no time within which registration must be effected. In practice wills are very seldom registered in Ireland. By the existing state of law the title to land, which depends upon a will or an intestacy, cannot be considered safe until 20 years shall have elapsed from the death of the testator or the intestate. If, for example, A. be the absolute owner of land, and die, and that the most careful search has failed to discover a will made by him, B., as heir-at-law, succeeds to the estate, enjoys and deals with it as his absolute property. Nineteen years afterwards may be discovered a will of A., devising the estate to C.; the ownership and every act by B. to affect the land in the 19 years interval is then disturbed. It appears desirable that some provision should be made by which wills and intestacies as to real estate should be proved, certified, and recorded.

37. Outside the strict limits of an inquiry into the system observed in the Registry of Deeds Office, but in harmony with it, is the general subject of the judicial system of registering and recording dealings with land which prevails in Ireland. Should the result of the present inquiry tend in any way to a consideration of the propriety of taking legislative action towards reform, it is worthy of attention whether in the interests of economy and convenience, the subject should not be comprehensively dealt with.

38. There are in Duolin eight registering departments, in each or all of which in an ordinary transaction relating to the title to land search may become necessary. They are, 1, the Registry of Deeds; 2, the Registry of Judgments; 3, the Record of Titles Office; 4, the Landed Estates Court Registry of Land Improvements; 5, the Registry of Wills; 6, the Public Record Office; 7, the Record and Writ Office of the Court of Chancery as an enrolment of deeds department; and 8, the Common Pleas, in which acknowledgments of deeds by married women are recorded. The consolidation of some of these departments, if carried out within judicious bounds, would, we think, lead to economy and simplicity. The 17 & 18 Vict. c. 55, provides for the registration in the Court of Queen's Bench of bills of sale; there appears no valid reason why this class of security, although not of a kind which affects land, should not be included in the consolidation proposed.

39. The Record of Titles Office, established under the 28 & 29 Vict., has for its objects the registration of titles to land directly, giving information as to the legal ownership. It has not for some cause answered the expectations of its promoters. The existence of the department involves a considerable annual expense, without apparently producing commensurate benefits. It is deserving of consideration whether, if legislation be sought for, part of it might not with advantage include provision to modify in some respects some of the principles of the Record of Titles Act, and to consolidate the office with the Registry of Deeds.

40. In the Registry of Judgments Office judgments, crown bonds, recognizances, *lis pendens*, &c., are registered and periodically re-registered. Crown bonds and recognizances, upon their entry in the Registry of Judgments Office,

become "*ipso facto*" charges on the land of the debtor, hence necessitating, for purposes of dealing with the title to land, a search in the department. No judgment obtained since 1850 is a charge on land until specially made so by registration in the Registry of Deeds Office, under the 13 & 14 Vict. c. 29. The present system of registry of a *lis pendens* in the Judgment Office occasions considerable and unnecessary expense, owing to the absence of provision limiting its effect to the parties and lands who should be affected by it. This is a defect which could be easily removed by legislation, and with apparently very beneficial results. Upwards of 4,000 judgments yearly are registered in the Registry of Judgments Office at a cost to the suitor of 1 l. each. The only objects achieved by the proceeding are to give the publicity which the bankruptcy and insolvency laws require, and to preserve priority in the administration of real assets. This would apparently be as easily and as effectively secured by provision that the entry of the judgment in the General Judgment Office, suggested in the next paragraph, should have all the force and effect which registry now gives.

41. There now exist separate judgment offices in the Court of Queen's Bench, the Court of Common Pleas, and the Court of Exchequer. In each the judgments of the respective courts are primarily entered up. This entry appears in the index of the respective offices against the name of the plaintiff or party who obtains the judgment. Before the creation of the Registry of Judgments Office, the entry appeared in the indexes of the law courts against the name of the defendant. A search in each against the defendant's name was thus necessitated. In the indexes of the Registry of Judgments Office, judgments, &c., are entered against the name of the defendant or party liable, and one search only thus takes the place of three which were theretofore necessary. It is worthy of consideration whether further reform should not be secured by the abolition of the Registry of Judgments Office, and a consolidation of the three judgment offices of the law courts into what may be designated a "General Judgment Office," in a common index of which there should be entered against the name of the defendant or party liable all judgments, &c. If a step further forward were taken, by providing that Crown bonds, recognizances, *lis pendens*, &c., at present the subject of registry in the Registry of Judgments Office, and which, according to existing law, are charges on land, without special registry in the Deeds Office, were put on the same footing as judgments obtained subsequent to 1850, and were not to be treated as charges on land, unless specially registered in that department, it appears obvious a very considerable saving in departmental expense, of cost to the suitor, and of simplicity of procedure would be secured.

42. The Land Act (33 & 34 Vict. c. 46, s. 6) enables the registration in the Landed Estates Court of claims for lands improvement. A general order prescribes the form and manner of such registration, for purposes of which a system of books and indices has been established. The number of the claims registered to the present time is comparatively small, but there is reason to believe the practice will extend, and that in future dealings with land, the existence of the department, as a source of search, cannot with safety be ignored. If the committee are correct in this view, the Registry of Deeds Office is the natural department to which this system of registry should attach.

43. There is a class of deeds which require enrolment, as for example, deeds of dis entail. Their enrolment is now effected in the Office of Records and Writs of the Court of Chancery. As the great majority of the deeds requiring to be enrolled relate to land, and that registry would save expense of enrolment, and tend to prevent mistakes which often arise from neglect to enrol, it appears a desirable reform to substitute registry in the Registry of Deeds Office for enrolment, in this case the deed being recorded *in extenso*.

44. Many of the defects in the operative system of the Registry of Deeds Office would doubtless have been the subject of official reform had not the inflexible and inelastic letter of the law precluded such action. It is a wise tendency of modern legislation to legalise and define principles, and to sanction under sufficient authority rules and regulations for carrying out their practical details. Probably to no public department could this system of legislation be applied with greater benefit than to a land registry. It is impossible to anticipate

pate all the details and requirements incident to such a system, and its efficient and satisfactory action, so as to include provision for them within the hard and fast lines of an Act of Parliament.

PART IV.

As the amendments and reforms to which attention has been directed in the previous parts of this report cannot be effected without legislation, we submit for consideration the following suggestions :*—

1. That the law which regulates the system of the Registry of Deeds Office in Ireland should be codified, and the practice of the department amended.

2. That in any future enactment for the regulation of the department, so far as possible, general principles should be defined, leaving to rules and regulations, sanctioned and approved by the most competent judicial authority, all matters of practice and detail necessary to carry them out, with powers under like authority to alter or vary such rules or regulations as the occasion might require.

Incident and subsidiary to the adoption of the two previous suggestions, we are of opinion :—

3. That the mechanical index invented by Mr. Dillon, even in its present shape, is a great improvement on the existing system of record and index, and that, with the view to its introduction into the office, its practice, as soon as the duplicate abstract has been established, should be continued in the office over a sufficient space of time to test its working capabilities on all points, side by side and simultaneously with the present system, reports being made to the Treasury as to its results.

4. That connected with or apart from the adoption of a mechanical index, and independent altogether of its success or failure, printing, photography, and every other scientific or mechanical aid which could tend to a system of registry combining accuracy, simplicity, and facility of reference, should be from time to time freely availed of.

5. That a regulated statutable form of abstract should be adopted in print, as a common form,† of uniform size, with space for the prescribed particulars, viz. :—

(1.) Hour and date of registration.

(2.) Date of deed.

(3.) Names of grantors and one grantee.

(4.) Names and situation of lands, viz. ; barony and county, or, in case of a city or municipal town, name of the street, parish, and city or town.‡

6. That with every deed registered there should be lodged for registration by the party registering an abstract in duplicate, containing only the details necessary for the statutable record. This abstract to take the place of the present memorial. Power to be reserved to the party registering to deposit therewith a duplicate or certified copy for purposes of preservation and reference, as provided by Suggestion 15, in relation to deeds not relating to land.

7. That

* In support of many of the opinions and suggestions contained in their Report, the Committee desire to refer to the Report of Sir Thomas Larcom, in 1851; of Mr. Lane, q.c., in 1860; of Colonel Leach, in 1861; and to the Bill "to Consolidate and Amend the Law relating to Assurances in Ireland," introduced in 1862. Notwithstanding perfect unanimity of opinion as to the requirement for reform, as expressed in the reports and proposed legislation referred to, no practical improvement has up to the present time resulted.

† These forms could be conveniently supplied through stamp distributors in the country and elsewhere.

‡ "When a purchaser discovers what deeds were executed, he will, of course, require production of them, and so no mischief arises from strict adherence to the letter of the Act. The intention of the Legislature appears to have been that it should afford all information necessary to identify the parties to the transaction, and its subject matter, in order to put inquirers on their guard, without disclosing more of the private concerns of individuals than is necessary for this purpose."—*Sugden on Vendors and Purchasers*.

7. That active attention should be given to the dilapidated condition of many of the indices, and that the files of memorials should be periodically examined to secure that the numbers are correct.

8. That it should be a leading principle in the department that no uncompleted books of any kind should be allowed to exist, and that no deed or abstract once accepted for registry should leave official custody or control.

9. That the Ordnance survey should be made the basis of the system of land registry, the denominations included in it to be legalised, and made the sole denominations to be recorded in the lands indices, making it incident to valid registration that the Ordnance names of the lands, the barony and county, or in case of a city or town, the street or parish, should be stated, thus getting rid of "general acts," and their cost and inconvenient consequences, provision being made to meet a case of unavoidable temporary inability to meet the requirement, likewise provision securing access to the survey, and aid for the purposes of identification of lands.

10. That duplicates of the abstracts being lodged, transcription of them in the office should be discontinued.

11. That certificates of the fact of registration should be effected by means of an impressed stamp, instead of in manuscript.

12. That registration of a deed should be held as effectual and complete both in law and in equity, according to the priority of time of its registry, as it appeared in the certificate of registration, such priority to be enforced, notwithstanding notice of a deed of prior date unregistered, excepting the case of actual fraud.

13. That no formal matter of omission or defect, subject to defined and reasonable exceptions, should invalidate the registration of any deed.*

14. That deeds conveying lands to the Crown should be placed on an equality with all other deeds relating to land.

15. That there should be excluded from registry by abstract all deeds not relating to land, but with a permissive power to record *in extenso* for purposes of preservation and reference, a duplicate or certified copy, verified in form and manner prescribed by rules and regulations.

16. That provision should be made for registry of wills and certificates of intestacy as to land; such registry to have analogous effect in relation to land, as is given to the registry of deeds.

17. That the Landed Estates Court Registry of Lands Improvements should be consolidated with the Registry of Deeds Office.

18. That the registry of a deed should be substituted for enrolment in the Records and Writs Office of the Court of Chancery.

19. That, with a view to the abolition of the Judgments Registry Office, the present system of registry of judgments in that department should cease, the same force and effect being given to the entry of a judgment as is now given to its registry.

20. That a consolidation of the Record of Titles Office with the Registry of Deeds Office, is deserving of consideration.

21. That the judgment offices of the three law courts should be consolidated into a general office, in which there should be kept a general index wherein should appear against the name of the defendant or party intended to be affected, every judgment entered, all future re-registries of judgments to be effected in this

* It was stated by the Solicitor General, Sir Roundell Palmer, in introducing the Bill of 1862, quoting from Mr. Lane's Report, that the validity of deeds depended on the observance of thirteen conditions; and referring to the opinion of the Lord Chief Justice of the Court of Queen's Bench in Ireland in favour of legislation, that Mr. Lane had observed:—"The importance of the communication of the Chief Justice could scarcely be overrated, when it was known that out of 34,000 memorials not taken consecutively, 1,100 were open to objection, and in an early part of the registry no error or omission which could be made had not been made to render the registration nugatory."

this department, and all bills of sale to be registered there, and to appear in the same index.

22. That a *lis pendens* should in its effect be limited to the lands and parties intended to be affected by it.

23. That the provisions of the 13 & 14 Vict. c. 29, be extended to recognizances, Crown bonds, *lis pendens*, &c., viz., that none of these shall be charges upon land, unless there shall be registered in the Registry of Deeds Office an affidavit setting forth their existence, and that the person whose estate is intended to be effected is the owner of the lands in the affidavit specified, which lands only shall be thereby affected, and that their re-registries should be effected in the same department.

24. Though some of the above suggestions may possibly be considered as beyond the scope of our inquiry, we have thought it desirable to make them as bearing more or less immediately on the question submitted to us. It may not be possible this year to provide for them all by legislation; but we are of opinion that under any circumstances an Act should be passed this Session to enable the suggestions made in paragraphs 3, 4, 5, and 6, to be at once carried out.

25. We, desire, in conclusion, to record our opinion of the ability and perseverance which has been shown by Mr. Dillon in the course of the prolonged experiments which we have superintended, and to recommend him to the favourable consideration of their Lordships.

The Secretary to the Treasury.

Registrar of Deeds.

REPORT of the Registrar of Deeds, *Ireland*, upon "Mr. Dillon's Invention for simplifying the Mode of recording and indexing the Work in the Office of Registry of Deeds."

Registry of Deeds Office, Dublin,

28 September 1874.

Sir,

THE main principle of Mr. Dillon's invention is to substitute printing for manuscript in all the operations of recording and indexing in the Registry of Deeds Office, and to substitute an index to be worked by machinery for the present index books.

In May last he exhibited to some gentlemen, now members of the Committee appointed to examine his plans, and to other gentlemen, a mahogany box about

two feet long and a foot broad, and some inches deep, sufficient to hold rollers turned by handles, and carrying bands composed of sheets of brass, about as thick as Bristol board, attached to each other by the description of brass pins called "paper fasteners," and sufficiently flexible to admit of being wound round the spindles.

Upon these sheets of brass he had pasted slips, about three-fourths of an inch broad, of paper, each slip having a name printed upon it in type; and to provide for names coming in after the space left for them upon the band should happen to be closed, he had a contrivance to detach the band at the place and insert a new piece of sheet brass to receive the additional names. This was to be done by means of holes punched in the brass to receive the brass pins by which the junction was to be effected.

Some of the gentlemen present saw such objections to this plan that they did not think it could work, and one of them suggested that linen or calico bands, upon which the slips forming the index entries could be pasted, would be a more simple arrangement. Mr. Dillon seemed to catch up this idea, and said he would adopt it.

After he had obtained his patent, the Committee were called together to witness the completion of his machine index.

On this occasion he exhibited a mahogany box, nicely made and polished, about the size of an ordinary writing desk, breast high, at which the writer or searcher stands; within it were two rollers of linen, upon which printed slips, with the entries for the indexes, were pasted. It had a sloping top of plate glass, through which the printed slips could be seen. When sufficient room had not been left for the entries, he proposed to have the bands cut across and pieces of linen stitched in.

The box was divided in the middle, having the lands index on the right and the names index on the left, each being about one foot wide.

He stated that he had the entries required for about 270 abstracts on the names index and about 300 on the lands, spaces being left for incoming entries as the index would go on. That quantity, when wound, formed a roll, which he wound and unwound by means of cog-wheels and chains according as a name or land was required to be found; the wheels should be wound by the hand. This he did very rapidly, to show what little time it would take to wind the whole length of band; but so rapidly, that one might as well try to count the spokes of a carriage wheel in rapid motion as to catch an entry. It was evident that in practice of searching, the winding should be carried on much more slowly, and would therefore take more time.

The number of slips (*i. e.* abstracts) necessary for both lands and names indexes were printed off, cut across, and pasted in their proper places down upon the bands. These slips were stated to be set up in type from photographed copies of the abstracts; the arrangement and transposition of the names and lands being done by the printers.

I was under the impression that Mr. Dillon had adopted the linen bands finally as his plan, and had so exhibited them; but it now appears he has abandoned that design, and means to use metallic bands, such as he exhibited to me and other members of the Committee at a recent meeting, and which appeared to consist of a series of thin brass plates, each about 10 or 12 inches long, joined together by laps of the metal on each other, or by some other means, and supposed capable of resisting a strong tension. Upon these bands some white composition was to be spread, and upon this the entries are to be printed from the type, instead of being printed on slips of tape or paper to be pasted down, as in the other specimen index as above mentioned.

Mr. Dillon prints the full abstract for the names index for each grantor, and the full abstract for the lands index for each denomination of land; *e. g.*, suppose there are three grantors in a memorial, A., B. and C., and 10 townlands, Blackacre, Whiteacre, Redacre, Greenacre, Yellowacre, Kingstown, Lurgan, Tara, Dalkey, Aughrim, the whole abstract is printed against A., again against B., again against C., and again against each of the ten denominations of land respectively; that is thirteen different times. For each of these operations the type must be transposed; that is thirteen transpositions, three of the names and ten of the lands. The greater the number of names and lands in a memorial, the greater the number of transpositions and operations. There are then 13 slips to be pasted on linen or printed on brass on the index rollers.

rollers. All these slips should be carefully checked against the original abstract or photographed copy; in the first place, to see that the several transpositions had been correctly made, and again each slip should be carefully checked against the index roller to prove that it was put in its right place. Without these several checks there is no way of guarding against fatal errors. It would certainly be tedious and troublesome to carry out this checking, but it could not be dispensed with, and it could not be left to printers. Many more comparing clerks than we at present employ would be necessary for the supervision of these arrangements. Mr. Dillon (as after mentioned) did not seem to contemplate this check against the rollers as to the proper place of the entries. Our present indexes contain every entry in its regular order, no adding to nor taking from without a perfect check, every entry having its check mark before it or on it corresponding to a like check mark in the day book or abstract book, so that the responsibility as regards correctness is permanently fixed. In this alone is there real security. In our books a mistake can be set right in a minute by the pen. Who could be responsible that in all these cuttings, and shiftings, and junctions, entries might not be shifted or left out, involving interests, perhaps, to a vast amount? Such risks could not occur with books.

Such is an outline of what appeared to be Mr. Dillon's plan.

The operations of the registry, as practically carried out in the office, are as follow:—

A memorial, which must be upon parchment, is presented with the deed. It is a duly executed instrument under hand and seal by the parties registering, and must be witnessed by two persons at least, one of whom must prove its execution by affidavit of record. It is an abstract of the deed, more or less full, according to the desire of the parties, and is required by law to be a true statement from the deed of certain particulars necessary for forming the abstracts.

Every memorial is first compared by officers of the department with its deed, and if material discrepancies be perceived, it is returned to the party to be set right. Sometimes the affidavit has to be re-sworn; sometimes a new memorial becomes necessary, &c. The deed and memorial are then presented to the registrar, who passes them through the several processes required by law for the registry. The memorial is then immediately delivered to the officer who makes out the day book.

The day book is always written up as the deeds come in.

The names index is posted from it forthwith so that the memorials presented for registry are entered upon the names index without delay or cessation.

The lands index which is required generally in tracing title cannot be entered so promptly, because many abstracts contain large numbers of lands which have to be entered on several baronies and counties; nor has this been found necessary. Provision is accordingly made by law for the delay. The names index is sufficient for disclosing immediate dealings with land and incumbrances.

The compiling of the day book is usually the work of one clerk.

Being the root of the names indexes, a duplicate of it is kept, as it enables searches to be carried up by the public to the latest moment.

There are two kinds of names indexes now kept, one called "quinquennial," for a period of five years. This set is also called "sectional;" that is arranged in the letters of the alphabet by the two first letters of each surname; it is the most safe for the public use from its simplicity, but is necessarily more slow than the other index, "decennial" or "consolidated," which is in strict dictionary order of the surnames, and is of rapid reference. It is also posted hourly, concurrently with the quinquennial or sectional index.

The entry on our names index is thus:

Grantor.	Grantee.	County, City or Corporation Town in which any of the Premises granted are situate.	General Charge.	Year of Registry.	Book.	No.
Smith, John	Jones, James	Limerick County		1874	16	284

The entry in the lands index is:—

Limerick County—Barony of Clanwilliam.

Lands.	Grantors.	Grantees.	Year of Registry.	Book.	No.
Ballyduff	Smith, John	Jones, James	1874	16	234

And when a memorial contains more lands than one in the same barony and under the same letter, they are grouped:—

Lands.	Grantors.	Grantees.	Year of Registry.	Book.	No.
Culdaff, Cahir, Clough, &c.	Browne, Patrick	Robinson, Richard	1874	18	248

The figures in both cases being the reference common to the original memorial, day book, abstract book, and transcript book.

Our current series of lands indexes contains 62 volumes.

The current consolidated or decennial series of names indexes has 39 volumes.

These volumes are conveniently placed on shelves and occupy comparatively small space.

There are in addition the current quinquennial names index, 34 volumes, so that 135 volumes of current indexes are available for the public and our official searchers, besides day books, abstract, and transcript books, in constant use. With this supply such an occurrence as a book not being available for use at any moment can scarcely happen. There are besides, of course, hundreds of volumes of indexes for past periods.

Will Mr. Dillon's boxes afford equal accommodation? How many would be required to do so? Certainly a very large number.

The one entry of our abstract being common to all the names and lands in the deed, it is only necessary to take down the abstract book from the shelf at hand, and turn to the abstract, which is done in a moment.

Repeating the abstract over and over again in connection with every entry in the indexes as the proposed plan does, or putting anything beyond the brief entry above, would not only be a useless occupation of time, space, and material, but an embarrassment and delay to the searcher. For instance, a search on names is directed against "John Smith" to affect lands in the county of Dublin. On Mr. Dillon's index the searcher would have to peruse every abstract under the name "John Smith," and pick out those referring to lands in the county of Dublin, until he came upon the land searched for. On our index he sees at a glance in the column what entries under that name concern lands in the county of Dublin, and then turns to the abstract at once.

Now when the plain and simple entries as above are found to answer every purpose, I am not able to see any benefit, economic or otherwise, that can be attained by the roundabout processes of photographing, setting up type, transposing, printing and correcting revises, pastings, fixings, &c., &c. I am satisfied that the entries would be made with the pen, over and over again, in much less time, by merely opening a book and writing eight or nine words, than by winding a long roll, pausing to catch the place, taking up the slip, cementing it, putting it down in its place (or in printing it upon a metal band, if that be possible), all to be done with the care and precision that should be observed.

It is suggested, no doubt, that these operations will take but little time. This I consider to be a miscalculation; they could not be done, if done properly, without time, and much time.

The

The adding in of pieces, whether on linen or metal bands, where proper spaces for the entries had not been left, would alone be an awkward, troublesome, and tedious process.

The proposed plan has been presented under different aspects at different times. First, the machine was to have metallic bands of thin brass, on which printed slips of the entries were to be pasted, the bands to be fastened by pins after each other; these were next abandoned for linen bands; now, apparently, the bands are to be metallic again, to be joined by laps or in some other way, and covered with some white composition qualified to receive printing ink from type.

It is said that the metallic band shall be contrived to pass down perpendicularly within the front of the box, and to have inside each box some substance strong enough to resist a pressure such as printing would require; that should be of metal or some heavy substance. How is the type to be brought to bear against the metallic band, or the band against the type? How is the box to be held fast to bear the pressure? Will not the pressure of the type indent the band and render its surface uneven and unfit for printing? How is the printing ink to be dried and retained on the surface of the composition, and resist obliteration by the friction of the rolling? Whether pasted or printed, the entries must be left to dry; if not, how are they to be prevented from blurring by the rolling? Must each entry be left to dry before another is made? The index cannot be used meantime, so there must then be duplicates.

The public and the official searchers could not work at the same set of boxes, and so there should be at least three sets of boxes. Where are they to be kept? About a dozen of such as I have seen would occupy a room 20 feet square, for there should be space to pass round each, and there should be desks or tables at convenient distances for the searchers to use their papers. They could not take down their notes and references upon the glass lids of the boxes, for they have to look through these to see the index. Their hands will be engaged turning the wheels and working the machine, so they must turn from it to the desk or table to write down the note on their reference papers, and taking off their eye even for an instant will cause them to hesitate, and delay, and mistake. What is to be done with these sets of boxes while one set is in use being pasted or printed, another in use by the public, and a third in use by the official searchers? Where are they to be moved to? How many apartments will be required to hold them?

Another objection to the machine indexes is, that from their weight and structure they cannot be moved about like books, to suit the convenience of the reader and catch the varying shades of light.

There is very little doubt that Mr. Dillon's machine index would be found in practice not merely more complicated, but less lasting than the parchment books. What, then, is the use of it? The wear and tear of the perpetual rolling and unrolling would speedily damage it and obliterate the entries; the machinery would be constantly getting out of order, more or less, perhaps to the entire stoppage of the work, as is liable to happen with every machine which is in constant use. It seems plain, then, that machine indexes would be uncertain, dangerous, and clumsy. They are uncalled for, too, because in no way more facile than those in use. They are unsuited to the purposes of this office, and would soon, in my opinion, be found unworkable.

But the question is, do we want printed books? The registry has gone forward for more than 150 years without such. However, if desired for any object it is easy to have them; it is only a question of expense; there is no objection to printing as printing; it has frequently been proposed. But unless a number of copies of the books and documents were required, which they are not, printing would be a wasteful expense; for a single copy it would be four or five times as costly as manuscript. It would involve the necessity of a printing office and staff of printers with plant, &c. being kept up in the department, as the original documents could not be subjected to risk by removal, nor would the landed proprietors and others interested in land be satisfied with the notoriety as to all their affairs, which printing elsewhere, with all its facilities for multiplying information, would involve.

One most important matter has been entirely ignored by Mr. Dillon, as before mentioned, viz., the careful checking of every entry of every kind, to see that it is put in its proper place, for, if in a wrong place, it might as well be entirely

omitted, as it would not be found when wanted ; and this, it is to be recollected, must be done in duplicates as well as in original books and indexes. To check abstracts and indexes with all the care that is absolutely necessary takes in many cases nearly as much time as to make the entries.

Suppose it is afterwards found that an entry has been omitted or some serious mistake made, how is the entry to be supplied or the mistake corrected, when the type would have been dispersed, and the mistake perhaps occurring in a place where there was no space to receive the entry? It can be only by a new setting up of type and introduction of a piece of the metal plate. What time will this take? How is it to be properly done?

Before so serious a change should be made as superseding the mode of working the registry which has stood the test of time, experiments should be carried out on a much larger scale than mere models founded on a few hundred entries, where in the course of 10 years the enormous estimated number of more than a million of entries has to be dealt with. The scheme should be tested over a sufficient space of time to show its working capabilities in practice on all points, and simultaneously, day by day and side by side, with the present practice. No doubt this would be attended with very heavy cost, but nothing short of it could be satisfactory or safe for those on whom the responsibility of its adoption would rest.

The idea that Mr. Dillon's plan could be carried out with more economy than the present system I consider fallacious. To render its working equal to the present mode would require as many hands, if not many more, printers, comparers, &c. To do the small specimen portion of the index which Mr. Dillon completed (the work of 270 abstracts on the names index and about 300 on the lands), he had four printers, one paster, and one stitcher engaged, and himself revising. I do not know what exact time these persons took, but three months were taken to produce the above result of his machine index.

The name "Murphy" instanced in the Report has about 2,000 entries ; allowing three-quarters of an inch for each would reach 125 feet of band, but addition should be made for the unoccupied spaces which would remain, at least one-fourth more, or about 160 feet of band, which should be wound and unwound as each individual of that single name would have to be referred to. There are many names having as many or nearly as many entries as "Murphy." The thickness of metallic rollers with their lappings and joinings would be much greater than linen.

The proposal to test the respective indexes upon one name as "Murphy" may, of course, proceed ; I have no doubt as to its results, but no piecemeal experiment will be a true test. As before mentioned, the proposed scheme must be tested in its integrity, and all its details from beginning to end, day by day, side by side, and for no inconsiderable period of time with the present system, before any reliable result can be attained. If the proposal to test on the name "Murphy," as above, be carried out, scriveners must be employed in this office to copy the abstracts relating to that name for 10 years, extending over 327 abstract books, and Mr. Dillon must bring his apparatus to this office while the test of searching is being carried on. The books cannot be removed, the Act of Parliament does not contemplate their removal, to say nothing of the public inconvenience and risk it would entail. The abstract books already supplied to Mr. Dillon were not strictly speaking office books ; not being compared, and consequently not in use.

To show that Mr. Dillon's plan is of any use, he must prove that he can photograph, set up in type, transpose, print or paste, dry and check, in accurate and reliable dictionary order easily and economically and satisfactorily, the work of 50 abstracts per day, on a moderate average, to be placed punctually upon workable and easily used indexes ; otherwise, his scheme is not worthy of serious notice, for our simple system, which everyone can understand actually does all that.

Many other objections may be expected to arise to a design so complex in principle. I would welcome any plan really better than the present that could be found to perform the work of the Registry Office, but I do not consider the one now under notice to be such. Indeed, though many schemes have from time to time been suggested, all of them have been abandoned because conceived by persons ignorant of the practical details, the legal bearings, and the rigid precision with which every operation of a land registry must be carried out.

It would be a mistake to suppose that if after having been adopted, and at work for some time, the new scheme should prove a failure, no great harm will have been done. The consequences of any rash or unsuccessful tampering with the existing system would be exceedingly grave, indeed, not merely to the landed proprietary, but to capitalists in the three kingdoms, and to trade and commerce in our large towns; in the latter case by preventing the banking companies, who are now for the purposes of their transactions in the habit of hourly searching our records, from continuing to make advances on the faith of their unerring accuracy.

The Report states, that "as a result of their investigations it will be in the power of the Committee to suggest reforms in the existing system of the registry of deeds, including printing and photography, which would, in their opinion, lead to important beneficial and economic results." Where at the most two copies of any of the indexes or other books are found amply sufficient for all the purposes of the office and the public; how "economic" results can arise from the introduction of printing and photography is open to positive doubt. In fact the "results" would be the direct opposite of "economic." How many comparers, printers, readers, pasters, &c., would it take to do the index and abstract work which we now do with perfect accuracy with 10 or 12 clerks, many of whom are juniors? The "beneficial" results are not shown. This paragraph in the Report I happen to know points to the furnishing of a certified abstract by the solicitor, which (in addition to the comparison of the deed and memorial) should be compared with the memorial by our officers, either before admitting the deed to registry, or accepted without comparison on the faith of the solicitor's certificate alone, or compared after the registry of the deed and memorial by the officers of this department. If the first plan, that of comparison of the abstract before admitting the deed to registry, were carried into effect, many difficulties, complications, and delays to registration would arise, accompanied by loss of proper order and priority. Several pairs of comparing clerks would be required, and it would frequently happen that a subsequent deed would be admitted to registry before one of greater length previously lodged. This would conflict with the very principle of the registry, which requires that the deeds be registered in their proper order. This department would have thrown upon it the task of correcting, *i. e.*, adding to or taking from an abstract already certified to be correct. Insufficient space in the abstract "form" to make corrections would be of common occurrence. It often happens that deeds and memorials are prepared in the remote parts of Ireland, in Great Britain, in the Colonies, in India, America, and other foreign parts. The present memorial is a comparatively simple document; nevertheless I find that a large proportion of these are so defective that they have to be returned at much inconvenience to the parties concerned. Any form of abstract proposed must necessarily require care and attention to particulars in a much higher degree than a memorial, and it is too much to expect that a larger proportion of these abstracts would not be defective than of the memorials.

The preparation of these abstracts requires technical knowledge, official experience, and acquaintance with the requirements of the several registry statutes. The compilers and comparers of the abstract book have at present to refer frequently to the registrar for legal instruction on the construction of these documents. This must always be the case. As a matter of fact, under the present infinitely more simple system mistakes of the most serious character occur at the hands of these outside persons. Under any form of the proposed abstract scheme these mistakes would be innumerable, to the utter blocking up of the registration of the country, and delay of the vast monetary transactions connected with land and landed securities. Again, the solicitor might at any time traverse the official reading of his certified abstract, and say we had done more or less than we ought.

If the second plan, that of accepting the abstract without comparison on the faith of the solicitor's certificate alone, were adopted, the whole value of the abstract as a reliable analysis of the memorial (which our present abstract is) would be lost, inasmuch as in the preparation of the abstract there might be left out or introduced, by accident or otherwise, a necessary granting party or denomination of land, or other important particulars which there would be no means of discovering and preventing, thus rendering the registry valueless as a true record and abstract of the contents of any deed and memorial. The whole

system of entries would depend upon this utterly valueless abstract. As a general rule, few persons, professional or otherwise, would be found to prepare these technical abstracts with that uniformity and correctness, the result of practice, precedent, and experience, with which three or four of our skilled clerks compile and check them.

If the third plan, that of submitting the abstract to comparison after the registry of the deed and memorial, were adopted, the uncomparared and most probably incorrect abstract would be of little or no value as a substitute for the compared and correct memorial from which we now compile our abstract and our day book. The indexes could not be kept up as they are, under this, or indeed under any of these plans. The short interval of time between the last certified posting of the names indexes and the current moment is accounted for by the entries on our day books, original and duplicate, and the public search them momentarily, every day, carrying up their investigations to the very last deed registered. There can be no substitute for this in Mr. Dillon's scheme. In no case could Mr. Dillon's indexes be made out until the abstract was perfect, until it had passed through the hands of comparers, photographers, printers, readers, revisers, pasters. How are the public to search up to the latest moment, as they do now in the interval, whilst all those tedious processes were being carried out, which interval I have no doubt would be considerable?

Our index of names is now kept up to within a day. Under the contemplated system the indexes would be in arrear, I have no doubt, for days, if not weeks, during which time there would be nothing to search on.

I extract from the Report of the Committee of the House of Commons in 1832, the following:—"If all the business of the office were confined to the registration of deeds, and giving certificates, the number and form of the books would be of little importance to the public, and would be only of consequence to the registrar for his own convenience, but the public are admitted to search in the office books. It is essential, therefore, that they should be kept so clear and so accurately that the information sought should be attainable with as great certainty, and as little loss of time as possible."

In reference to the Registration of Assurances (Ireland) Bill, brought into the House of Commons in 1862, in the petition presented against that Bill by the Incorporated Society of Attornies and Solicitors of Ireland, they bear this testimony towards the office:

That it "has been conducted so as to secure public confidence, and that any instances of errors or omissions in the certificates on the searches issued from that office, whereby any individual purchaser or creditor has sustained loss or injury, are unknown to your petitioners, either personally or as matters of repute. . . ."

"That any changes in the system so long established should be made with every degree of caution and certainty, and not loosely and speculatively."

In the debate upon the Assurances Registration (Ireland) Bill in the House of Commons in 1863, Mr. Whiteside, now Chief Justice for Ireland, deprecating the introduction of such a Bill, stated that, "during the 15 years that the Incumbered Estates Court and Landed Estates Court were in existence, the registry office succeeded in accomplishing the duty imposed upon it, though the labour cast upon it was enormous. Its business was conducted with the greatest care and precision, the work was performed with a degree of mathematical accuracy which he never saw rivalled, and he was at a loss to conceive how it was possible by any scheme or contrivance to construct an office in which the work could be better or more securely done."

(signed) M. F. Dwyer,
Registrar of Deeds, Ireland.

The Secretary to the Treasury,
London.

REGISTRY OF DEEDS OFFICE, IRELAND.

REPORT of the Registrar of Deeds, *Ireland*, as one of the Committee acting under a Treasury Letter of 3rd June 1874, in superintending the Experiments to test an Invention of Mr. *Dillon* for simplifying the existing System of Indexes in the Registry of Deeds Office, *Ireland*.

Sir,

Dublin, 26 April 1875.

THE alterations which have been effected in Mr. Dillon's patented apparatus for improving and simplifying the existing system of indexes in the Registry of Deeds Office have probably rendered it as nearly perfect as it is capable of being made, or, at all events, sufficiently so to warrant a definite estimate being now formed of its comparative value, if any, for the particular purposes specified. Indeed, it has been already pronounced by other members of the Committee to be without doubt or qualification, "even in its present shape, a great improvement upon the present system of index and record." I regret, however, that after full and very careful consideration of the invention as a whole, in relation to the particular uses for which it is designed, I should feel obliged to differ altogether from their opinion of its merits and capabilities, as well as from their suggestions relative to the further trial of it. The more I have considered the subject the more satisfied I am that the plan proposed in connection with the mechanical index for the construction of indexes in the registry of deeds is incomparably, and I think demonstrably, inferior to the existing system in every important feature, and in every essential requirement and security against error that indexes for the registration of land should possess. Nor would I be doing justice to my own convictions, or to those of the most experienced and intelligent officials of the department, among whom are the two assistant registrars and chief clerk, who have given this matter the most anxious consideration, if I did not state that in our united opinion the proposed scheme not only would not be any improvement upon the present system, but that, apart from all comparison, it is in itself absolutely untrustworthy, unreliable, and incapable of being applied with advantage or safety to the general public business of the registry of deeds, or indeed to any system of land registry upon an extensive scale.

The distrust expressed by Judge Longfield at the meeting of the Committee on the 10th April, in the mechanical index, as compared with the book indexes now used, shows that while he agrees in the recommendation for giving the mechanical index a further trial, he is anything but confident of its ultimate success. I cannot, of course, go even this length, being quite satisfied already that by no adaptations or contrivances can it ever be safely or advantageously, in any point of view, introduced into the office; but even if I could bring myself to agree in the expediency of the further trial recommended, I could not concur in the preliminary measures deemed necessary for that purpose. At the close of the Report, forwarded by the Treasury Remembrancer, it is suggested that there should be immediate legislation this Session for enabling the recommendations contained in the 3rd, 4th, 5th, and 6th paragraphs of the 4th Part of the Report (*see* page 21 of this Paper) to be carried into effect. Those recommendations, in substance are, that the memorial be discontinued, that a duplicate abstract containing certain specified particulars, and prepared outside the office, be brought in with the deed for registration as a substitute for the memorial, and that as soon as the duplicate abstract has been established, "the practice" of the mechanical index "should be continued in the office over a sufficient space of time, to test its working capabilities on all points, side by side and simultaneously with the present system, reports being made to the Treasury as to its results." It is assumed that unless these very serious legislative changes shall have been previously made, even the mere trial of the mechanical index cannot be further proceeded with. In other words, as the mechanical index is incapable of adaptation to the existing system, the suggestion is that the existing system shall be mutilated for the purpose of adaptation to the mechanical index, or rather for the purpose of enabling the working capabilities of the mechanical index, in connexion with any system, to be tried by a further course of costly experiments, indefinite in their duration and at the same time most disturbing, as similar experiments and the rumours connected with them have proved for the last 12 months,

months, to the business of the department and the minds of those employed in the transaction of it. The effect, too, I need hardly say, of the proposed changes, should they be adopted, would be to disorganise, at once and completely, the existing system, which has for its foundation the memorial from which the materials for the Day Book and Abstract Book, now compiled in the office, are drawn, and which latter again supply, in due course, materials for the names index, and for the index of lands. It must be conceded, at all events, that the possible result of the further trial of the mechanical index may be its rejection. If so, why should there be legislation beforehand on the assumption of its success; and in the by no means improbable contingency of its failure, how will the existing system be affected by changes which are utterly at variance with its whole theory and practice, or how will its efficient working in the meantime be secured? I cannot but think it would be more advisable that legislation should await the trial of the further experiments, if such there are to be, than anticipate their result, and that the well-considered and long-tried working processes of a system so technical and easily deranged as a land registry should not be tampered with or disturbed, except to make way for the immediate establishment in its place of some other definite and better system. The details of a land registry are so numerous, and each detail is so important in itself; the entries are upon so large a scale, and the checks and comparisons necessary to secure correctness are so minute, and must be so critically exact; the searches on the security of which titles depend require such close consideration of the entries and references, and those latter again require such perfection of accuracy in their distribution and classification, that it needs actual and habitual familiarity and contact with the practical operations and working of a system to understand fully its niceties and difficulties, and the danger, consequently, of rash interference with particular portions of it, apart from the rest. I have every possible respect, collectively and individually, for the members of the Committee, but it consists mainly of gentlemen from other departments, having no previous knowledge in particular of the organisation or business of the Registry of Deeds Office, and some of whom, I believe, have never been within its precincts prior to the commencement of the present inquiry. I observe, too, that the most injudicious of the proposed alterations, and the most damaging to the present efficiency of the department, are precisely those which are recommended most urgently by them for adoption by means of immediate legislation, without adequate, or indeed any, time being given for the consideration to which from their gravity they are entitled. It is surely a strong thing to affirm that the mechanical index, which, on the very face of it, presents so many obvious difficulties in the way of its practical application, and which I may say has never been tried, "*is a great improvement*" upon the present system, which for a long series of years has, under a strain of the severest pressure, been subjected to every conceivable variety of tests, and has nevertheless, upon the whole, worked so successfully as to have elicited from the "Incorporated Society of the Attornies and Solicitors of Ireland," who ought to be, and I believe are, the best judges of its merits or defects, the testimony contained in the following passage: "It (the Registry of Deeds Office) has been conducted so as to secure public confidence, and that any errors or omissions in the certificates on the searches issued from that office, whereby any individual purchaser or creditor has sustained loss or injury are unknown to your petitioners, either personally or as matters of repute. . . . Any changes in the system so long established should be made with every degree of caution and certainty, and not loosely and speculatively."

Still stronger, however, than the opinions so confidently expressed in the Report as to the undoubted superiority of the new system over the established one, is the recommendation that the latter should be prematurely disintegrated for the sake of experiments in the interests of the former, and which experiments, if worth trying, may for all that appears to the contrary in the Report, be made without resort to a proceeding so unusual and dangerous to the public service in this department.

I therefore submit that the proposal for the immediate abolition of the Memorial, of the Day Book, and of the Abstract Book, as now compiled in the office, should be considered as a separate question by itself, and should not be entertained, as clearly detrimental to the existing system of which they have hitherto constituted a fundamental portion. I shall deal with this branch of the subject,

subject, and some others incidental to it, in a subsequent part of my Report, and shall now proceed to the consideration of Mr. Dillon's plan upon its own comparative merits, apart from the great variety of extraneous topics which have, I know not why, been mixed up with it.

There can be no difference of opinion as to the essential requisites in a perfect system of deeds registry. These are accuracy in results, simplicity in construction, and facility of reference. Now, it is in these specific particulars precisely that, in my humble judgment, the present system contrasts most favourably with the one by which it is proposed to supersede it. And first, as to accuracy, which is the paramount excellence of a lands registry.

The present system of records, including indexes as directed by the 2 & 3 Will. 4, c. 87, has been in use since the year 1833, and during that long period I am not aware, and I have not heard, of a single instance in which material error of any kind in its operations or results has come to light. Landed property to the amount of millions has been sold by the Incumbered and Landed Estates Courts alone, and those millions duly distributed on the faith of its searches, without a single instance of loss having occurred through inaccuracies in them. If losses had occurred through mistakes or omissions in the searches, my predecessors in the office of Registrar, and I myself would have heard of it, as being personally responsible in heavy securities for their absolute immunity from error. The accuracy of the present system of registry is, therefore, placed in the strongest light by experience, the most unexceptionable of tests, for the searches could not be as correct as they have been if the indexes, and other records from which they are taken, were not equally so. In the Report, at page 10 of this Paper, credit is claimed for accuracy as a special merit of Mr. Dillon's plan, as if his plan, or any plan, admitted of higher excellence in that respect than the existing system, which by the evidence of fact has attained the very *maximum* of accuracy. If Mr. Dillon's system be capable of the highest accuracy, which I believe it is not, it cannot be said to be so far at least "a great improvement" upon the present system, which, not as a matter of opinion, but as a proven fact, has already attained a degree of accuracy upon which there can be no advance or improvement. With respect to the experimental searches which have been made on both indexes, the result in the matter of *accuracy*, which is really the only point determined by them, is just what I should have expected. Of the eight searches made in the office, five by Mr. Taylor (a third class clerk in the office) and three by Mr. Caicy (an unofficial searcher), *all were correct* (the mistake in copying one of these searches after it had been made, not affecting the accuracy of the indexes, or of the searcher, as appears by note (in 2nd Report of the Committee) at foot of page 7 of this Paper in these words: "*This mistake was made in the office copy, and not in the search*;" while of the five searches made on the mechanical index, two only were correct, and of the two searches made a second time upon it by the same searcher, one was correct and another incorrect. There is said to have been only one mistake in the last-mentioned search, from which, having regard to the reticence of the Report as to the mistakes in the other incorrect searches, it is not too much to infer that the mistakes in them were considerable. Somewhat more of detail upon this point would have been desirable. So far, therefore, as *accuracy* is concerned, the test, whatever be its value, is as unfavourable as it could well be, to the mechanical index. But then it is said to be otherwise in respect to time. The apparent advantage, however, in this is easily explained; but even if it were not it must be admitted that time is a secondary consideration in a matter of the kind, as compared with *accuracy*, which is of its very essence. An accurate search is a warranty of title, an inaccurate search is a misrepresentation of the title. The difference, therefore, between a correct search and an incorrect search is just the difference between a good title to an estate and a bad one. It follows that an incorrect search, which is really not a search at all for the purposes of the test in question, or indeed of any other test, is something worse than useless, and it is little better than trifling with a serious subject to talk of the time occupied in making it as against the time required for producing correct and reliable returns. The question at issue was, not the time it would require to make correct searches on one set of indexes, and incorrect, or partially incorrect searches on another set of indexes, but what time it would take to make an equal number of correct and identical searches on each respectively. The results obtained from the mechanical index not being of the kind required for the determination of this issue, it cannot, in the matter of *time*, be said to have been tried at all, nor does the report afford any explanation why the searching was not continued on the mechanical index until

accuracy in all the searches had been obtained. I am not able either to assign any reason why this was not done, as I was prevented by illness from attending at Mr. Thom's office when the searches were being made, and the chief clerk of the registry office, whom I sent to represent me on the occasion, was not allowed by the Committee to be present. If the mechanical index were correct, the searches should have been made upon it over and over again until accuracy had been attained, no matter what further time the operation might have required. Nor, I confess, am I able to understand how the *accuracy* of the index itself can have been otherwise ascertained. If, on the other hand, the mechanical index itself was not correct, the closing of the searches in their present defective state, would be quite intelligible, owing to the want of materials for *accuracy*.

These experimental searches in the manner in which they were conducted, give no proper test of the respective merits of the indexes, except as to *accuracy*, in which their testimony is conclusively in favour of the present system; because from the total mass of abstracts for the period 1850-54, referring to about 9,000 surnames, Mr. Dillon had selected those only which related to the one surname "Hamilton," in all less than 250 abstracts, representing not more than five days' registries, and had put them together upon two short bands, one of which he called his Names Index and the other his Lands Index. Now, if his lands index had been constructed as it must be should it ever come to be applied, or should it ever be of any practicable use, all acts done by all persons of any surname to affect all lands in the particular baronies, counties, and cities for that period of five years, 1850-54, should have appeared upon the lands index band. This would have made his lands index band considerably longer than it really was, and the searches made upon it would, therefore, necessarily have occupied much more time. The Report indeed itself admits (page 7 of this Paper) "that if the number of Acts with which the office searchers had to deal had been on the mechanical index, the time occupied by Mr. Overend must have been somewhat longer, but "to no very great extent." Our searchers had to go over all this ground on our lands index, barony, and no barony books, as well as over the whole of the "general index," as the search on lands could not otherwise be properly made. By having the abstracts referring to the name of "Hamilton" selected and set together in order at his hand, Mr. Dillon had an undue advantage, an advantage which it would be utterly impossible to carry out with each of the 9,000 surnames appearing on the registry, as to do this it would be necessary to make a separate lands index for *every surname*, an idea which I can only characterise as preposterous.

It is to be observed that all the searches, viz., A., B., C., made by Mr. Caicy (who was selected by the Committee), are stated by them to be correct. Mr. Caicy made these searches on the sectional index, which I stated in my Report of 28th September 1874 was "the most *safe* for the public use, from its simplicity, but is necessarily more *slow* than the other index (Decennial or Consolidated)." All the searches made on the office books are, therefore correct.

I have no doubt that the difference in time, if any, in searching under ordinary circumstances the names index books, as against searching Mr. Dillon's names index rollers, would be in favour of the former, but even if otherwise there can be no doubt that any difference as to time would be very much more than compensated for by the safety and mathematical accuracy with which our results would be obtained. No matter what facility is afforded by an index, no matter how ingenious in construction it may be, it cannot be thought of for actual use, unless it is thoroughly accurate and reliable.

Although, however, no inference favourable to the mechanical index can be drawn from the searches attempted to be made upon it, I am of opinion that much importance should not be attached to the result, as I stated in my former Report. The working qualities one way or another, of a new and untried system cannot be found out by any *partial* trial of it, under restricted and selected conditions, as in the present instance. It is not by the application of the mechanical index to the work of the office for a short period, that its capacity to deal with the subject in its totality and in its details can be established. A system of entries and a plan of compilation may answer tolerably well for a year, or two or three, which in a lengthened period may from the vast and complicated mass of entries accumulated by time prove hopelessly imperfect and confused. In like manner, an index may be so constructed as to admit of searches being made upon it with comparative ease for a brief period, owing to the limited number of references to be examined, and yet be so defective in principle

principle as to be in the last degree dangerous and unmanageable, if searches extending over a long series of years, and including several successive decennial periods, had to be prosecuted upon it. In reference to the further trial of the mechanical index, it is suggested that its practice "should be continued in the office over a sufficient space of time to test its working capabilities on all points, side by side, and simultaneously with the present system." I do not know what the authors of the Report mean by a "sufficient space of time," but I am sure that a decennial period would not be more than "sufficient" for the purpose in question, and, of course, the trial should embrace all branches of the office business during that time, including searches. The outlay on the staff that would be required for such a trial must be very considerable, while the test in the matter of searching, more particularly, would not be anything like an identical one, and therefore, necessarily more or less imperfect. The reason of this is that the searches, though equal in number, will not be equal in any other respect. The searches, as they come into the office, will extend as usual over a series of from 20 to 80 years on the office indexes, while of course they could only be made for the current years on the mechanical index. The difference is, therefore, such as will reduce to a *minimum* the value of the test and of the proposed trial.

In simplicity of construction and facility of reference I consider the present system will contrast quite as favourably, as in the matter of accuracy, with Mr. Dillon's plan. The office indexes are expeditiously constructed in books by the simple use of the pen, and are carefully checked and compared without either difficulty or confusion.

The Index of Names and the Index of Lands are both dictionaries of reference to the abstract book, which is common to both these indexes, and is a carefully and skilfully prepared epitome of the principal particulars of the memorial. The "Year, Book, and Number" in either index refer at once and readily to the particular abstract required, and the consulting of these abstract books, *i. e.*, taking the light and handy volume down from the shelf, and reading the abstract referred to, can be done in a much shorter time than the manipulation and adjustment of the mechanical index would require. Should further information be wanted than the abstract book discloses, the same references, *i. e.*, "Year, Book, and Number," refer to the original memorial, or its transcript, which can be consulted with great ease. One abstract may supply the usual particulars as regards a number of surnames or a number of denominations of land. Mr. Dillon's system needlessly and uselessly reproduces on his mechanical indexes the whole abstract in full on each grantor's name, and if the lands be in different baronies or counties, on the lands index. There may be 10 names and 50 lands in one abstract. A person may require to search after only one grantor or one denomination of land. On the office indexes he can do this, but Mr. Dillon's indexes give him the full abstract in connection with each particular grantor, and there may be several grantors in each abstract. Mr. Dillon's indexes also give the full abstract for each parcel of land; a great deal more than the searcher requires, and consequently an irrelevant and confusing superfluity of information; therefore, in simplicity of construction and facility of reference, the present system of book indexes appears to me to have a most decided superiority.

An index upon rollers may look well and simple *prima facie*, but unless it can be made to contain all the particulars and all the information that is to be found in our books, and in as reliable and well arranged a form, it will be defective, and, if so, cannot be worked with the same security to the public. It must be capable of all the care and checking which our books undergo. This is as necessary on one system as on the other. If it be as perfect in these particulars as our indexes are, it cannot be made with less expense or more expedition, and under no circumstances can it afford such facilities to the public for the purposes of searching.

Mr. Dillon's system is beset with difficulties arising from the many processes of shifting, cutting, splicing, winding, and handling incidental to it. Lest the rapidity of motion should become so great as to distract vision, he fixes a contrivance by a large screw working what he calls an "Indicator" back and forward as the coil turns, and expects it can be stopped thereby at the point required. It is difficult to suppose that a large coil could be wound and unwound to a required point, at any rate of velocity, as quickly as the dictionary book would be opened and the name found in it. The mere watching

of the movement of the "Indicator" would occupy more time, though small in amount, than opening the book to find the name or land.

Mode of registering by Mr. Dillon's Index. Report, page 11 of this Paper.

First Step. To photograph the abstracts when handed into the office, if sufficiently long to require it.

Second Step. The duplicate of the abstract which it is proposed to substitute for the old memorial, or its photograph, is given to compositors to set up in type.

Third Step. Ordinary papier maché moulds are taken which are required for stereotyping, and which, when used, can be stored as matrices for future reproduction, if necessary.

Fourth Step. The stereotypes having been taken in blocks containing all the abstracts of the deeds registered during that day are then cut by a circular saw into separate portions, each containing one abstract.

Fifth Step. Each of these separate blocks above mentioned is then placed in a powerful press, and the type having been treated with ink, a deeply indented impression is forced into the brass, leaving a perfect print on its white surface, each abstract being stamped on the roll in its proper place, in dictionary order.

So both systems must start from the point where the abstracts are at hand. The abstracts must be either written out as now, or furnished, as proposed, before the index can be attempted. So thus far both systems are equal.

In our dictionary index of names all we have to do is to open the book and make the entry of eight or nine words, including the reference number. In our index of lands the denominations are written in their alphabetical order in like manner. These entries being checked, the indexes are complete.

In Mr. Dillon's plan, in his names index, he has to open the box containing the roll for the name he wants to register, to take up the section or slip cut by the saw from the stereotype block, fix the roller properly some way or other to receive the impression, to ink the type and bring the pressure, however that is to be contrived, to bear upon it, to remove these adjustments, and close the box containing the roll. He has, in like manner, to check each entry, to see that it is put down upon its *proper position*, and not placed wrongly; each and all of these processes requiring extreme precision. Can it be supposed that all this will be done in as short a time as the simple book entry with the pen?

He thinks, however, that he has great advantage with the lands index by having the abstracts already made, and it being only necessary to print them into their respective baronies. I doubt that any advantage at all will be found here, by the time that he has gone over the lands, cast them into alphabetical order, and made the selection of the numbers of their abstracts, and inserted them in his key index at head of each barony. The difficulty and risk of making these key indexes, checking them, &c. with accuracy will be very great; much greater and more laborious than any comparisons or checkings under the existing system. The adjustments for the printing down of the entries on the lands index bands will be more numerous, and will take more time than on the names index, so that in point of making the index it will most likely be found that the book entries would be made in less time, and probably with fewer hands.

The first four processes, therefore, of stereotyping, &c. are useless, *unless* for the object of a printed copy of the indexes. Then the question is, do we want a printed copy at all, and when? I have said before, and I still think, we can require printing only if a number of copies of our books be wanted, which they are not, and that we can print only when each is completed.

I do not know how Mr. Dillon could print a clean presentable copy or duplicate from his index roll, supposing it to be done in similar roll form. It would have all the spaces and irregularities of the original. The same objection would apply if it were attempted to take it off in sheets in book form; and as it is presumed the copies in either case should be taken with carbonic paper, what assurance is there that they would be permanent? whereas duplicates of our books, for completed periods, could be printed perfectly and clearly, either on parchment or paper.

Mr. Dillon, in his index of names roller, has departed from his original proposition, which was to give a strict dictionary index of Christian and surnames with the *full* abstract referred to thereby, opposite each Christian name. He has abandoned this idea, and now gives a tabular or key index of the Christian names

at the head of each surname, printing the abstracts in their regular order below this table. This is practically an imitation, and a bad one, of the registry of deeds present system; inasmuch as it is equivalent to an index of names *by itself*, and an abstract book *by itself*. His original proposition was that his printed abstract should represent every book, index or otherwise, now in use in the office. His tabular or key index of Christian names gives *less* information than our index of names, and rejects the year, book, and number as the principal reference to each abstract, substituting a number running consecutively throughout the whole year. There is no advantage whatsoever in this system; it is certain to be most difficult to check, and will be very confusing.

Our present abstract book refers to *every* party's name appearing in the whole series of indexes of names for the entire period, whose transactions are covered by that abstract book (each abstract book containing, on an average, from five to six days' registries); thus one abstract contains the necessary information as to one or more names, or one or more lands. Mr. Dillon proposes to print and reprint the abstract over and over again for each surname, and in many cases for each parcel of land. His system involves an amount of the most tedious and careful checking of which he cannot have the most remote conception. I have no doubt he could not keep up the current work on even one of his index bands, whereas he must of necessity have numbers of them.

Perceiving that the process of finding any particular denomination on his lands index among the collection of lands in any memorial would be far too tedious, he tries to facilitate the search by placing what he calls a sub-index at the head of each barony (he also has a sub-index at each annual division of surnames), which, he says, guides the searcher to the particular abstracts he requires to look at.

To construct this sub-index he resorts to the following roundabout process. The sub-index is to be ruled in lines, and to have the letters of the alphabet in their order, and opposite B., for instance, he puts the number of every abstract in the annual index which contains a land beginning with that letter. To accomplish this, he has first to put the lands in each abstract into alphabetical order, so that in a search for the lands of Blackacre, the searcher should take the references for Blueacre, Belgarde, &c. &c., with which he has nothing whatever to do. He proposed, in my presence, in that of Mr. Ray, first assistant registrar, the chief clerk, and Mr. Taylor, to throw the lands into alphabetical order in each abstract, and to check this by counting the number of lands in the original abstract, on each letter, as against the printed copy. But this is no check, inasmuch as where the abstract should have Blackacre, Belgarde, it may have Blackacre twice, and omit Belgarde altogether. *Counting* the lands would not check this, or *identify* each land as duly entered, and a land charged might be entirely left off the registry without any means of discovering the error. To throw the lands in a long abstract into dictionary order, and to check them properly afterwards, would be a long, laborious, and dangerous task. Besides, throwing them into dictionary order would destroy the *natural* order in which they were originally set out in the deed (an order kept up from one deed to another from time immemorial), a most important matter, as the aliases where they began with different initial letters would thereby be separated, as well as lands having compound names. This would be a disastrous disturbance of their sequence, and confusion of their identity, and so could not be allowed. In our lands index books any land or lands wanted are found by the initial letter in the index, and the numerical reference takes at once to the abstract where the lands, aliases and all, are found exactly as they are given in the memorial from the deed. Mr. Dillon said his lands index was not checked; neither was it, as we found by looking from his reference numbers in the key-index to some of the abstracts which did not contain the lands these numbers affirmed they ought to contain.

This sub-index or key-index (before referred to) must be turned to, and the number or letter for each abstract, as the registry proceeds, entered upon it. This in itself will be a most critical process, fully as critical as the construction of the indexes themselves, hazardous lest a number should be omitted or wrongly placed in carrying the figure in the mind from the end of the roll to the key-index. These entries should, I presume, be made with the pen; I do not see how they could be done with type.

The fact is that to make a search on Mr. Dillon's index upon lands, if it could be so made in a true and careful manner, would take as much time, if not

more, than on the office books. Mr. Dillon stated that his land indexes were not checked. How then is it that the Report states (page 7 of this Paper), "We were therefore satisfied that the index had been correctly put up, and that when searches are required, both on names *and lands*, there is no comparison between the two systems," meaning that Mr. Dillon's is much superior. Mr. Dillon divides his index into years. This is a return to a practice condemned and long discarded in the office. Such an arrangement involves, moreover, a separate key-index for each annual division, than which nothing could be more likely to interrupt and confuse a searcher.

The Report (Part 1, sec. 5, page 8 of this Paper) states "the record cannot be tampered with." What is to prevent any person having access to such an index, more than any other, from tampering with it, if so disposed? And, for instance, cutting out or detaching an entry, which with all the joinings and insertions spoken of, there would be no reliable means of ever detecting. The brass band would not probably be found one bit more lasting than good parchment books, nor would these latter be more, if so much, liable to obliteration by friction or accident in course of time. We have an instance of this with Mr. Overend, even on the trial index. (Report, page 7 of this Paper.)

The Report also states (page 8 of this Paper, Part 1, sec. 5) that "erasures *uninitialled* are not uncommon." No alteration is ever made on the books of late years without being initialled and dated; and the facilities for correcting errors with the pen, when found, are much greater on the book system than on the type index. If a mistake be found on Mr. Dillon's printed machine index, how is that to be corrected? I apprehend, at all events, there should be a new setting up of the type, with all the processes of checking, stereotyping, cutting the band, splicing, &c. &c. What risk would not attend these disturbances? What loss of time?

In the Report (page 8, sec. 5) it is stated that "the blocking of the current books, moreover, both on names and lands, is of frequent occurrence and is another disturbing element in searching." This is not the fact; these blockings, or more properly transfers, are at present of rare occurrence, and lead to no practical disturbance or inconvenience when they occur. The index of names has, as before stated, been carried on in surname dictionary order, concurrent with the registries, since 1st January 1870, now more than five years, and but few transfers, and these of a nature to cause no confusion or inconvenience, have been found necessary. Any transfers, however, can under the present system certainly be more accurately made and more safely and easily arranged and accounted for than on Mr. Dillon's index, with its multiplicity of cuttings and joinings. The complaint, therefore, about blockings in the books has no force whatever as bearing on the case. When Mr. Dillon's index gets blocked he proposes to insert a piece of the brass coil to receive the further entries coming at the place. To do this he has to take up the band, to cut it across, and then insert the required length of band by joining it at both ends into the roll, to effect which he has to make holes, to insert brass pins, to clinch them, and smooth the joints. Now, unless these critical operations be carried on with mathematical precision, the band will not run square. It is plain that a joint of this kind will take some time to make properly, and with all the care possible there will be a certain clumsiness about it. Surely it could not be made as easily as a transfer could be entered in another page of a book by the pen. Too much reliance should not be placed on the permanence of these joinings, although the Report (Part 2, page 11 of this Paper, sec. 6) states that this is "beyond dispute." The fact can only be decided by long wear and tear. The original *natural continuity* of the indexes, which is now preserved in our *paged books*, would be utterly destroyed by cutting and adding to the bands. This continuity of paging is essential to show that the indexes have not been tampered with.

In reference to the statement in the Report (page 9, sec. 12) it should have been noticed that the business of the Registry of Deeds Office has greatly increased since 1860, as attested by the fact that in 1860 the number of deeds registered was 11,744; this past year, 1874, it has been 15,170. The working strength of the office must be, of course, at all times kept up to the demand upon it. The fees and duties arising from the increase bear natural proportion to that increase, and go towards meeting the expense of an increased staff.

In my opinion Mr. Dillon's system will be found at any time far more expensive than the present, and far less remunerative in respect to fees and duties payable under it.

To take prints from the index.

In Part 2, page 12, sec. 10 of the Report, it is said:—"In order to do away with the necessity of making manuscript copies or extracts by searchers, Mr. Dillon has proposed that imprints shall be taken from the under side of the brass index itself (the printing having been indented sufficiently to enable a satisfactory impression to be taken from it), by allowing the band to pass between the rollers of a small specially adapted press, and using carbon paper."

The abstracts on searches are generally brief extracts containing three or four lines (*see below*); seven or eight of them usually fit on a folio page of paper used for searches. In the last volume of recorded negative searches (vol. 112), containing 288 searches, of those which exceeded the length in this example, nine occupied about half a page, 14 about a quarter, while few only occupied full pages. Now by the time that the machine would have been opened, the roll unwound to come to the abstract, the machine by which the impression is to be made, the paper laid on which it is to appear, the carbon paper placed, the impression made, the whole apparatus then removed, and the index case closed, as I suppose all these processes would be necessary, I think it is evident that any ordinary abstract would be copied from the abstract book with the pen sooner than it would be obtained by printing from the band.

Long abstracts no doubt might be copied sooner by printing than by manuscript, but such are the exception. It is a common occurrence that all the lands dealt within a memorial do not require to be set out in the abstract on a search. A negative search may be directed against the lands of Blackditch, for instance, by James Hamilton. A lease by him of that land is found, and the short abstract returned on the search. He executes a deed also affecting that denomination with many others, perhaps his entire estate, in the county. In returning this latter "Act" on our search the name of Blackditch only will be given in the lands column, together with the words "and others," excluding all the rest. In Mr. Dillon's imprinted transfer, the whole abstract would be set forth containing probably 50 denominations, or more, although but the single one of them "Blackditch" was required. This instead of a convenience would be worthless and embarrassing.

The following form (taken from Recorded Negative Search Book, No. 112) is an example of the ordinary abstracts upon a negative search. It was copied in less than half an hour. The work upon it is about equal to six folios of ordinary "solid" writing.

Date and Day of Registering, Name of the Year, and Number of the Memorial.	NAME of the Instrument.	DATE of the Instrument.	Names of the Grantors, and One or more Grantees.		Consideration, Rent, Renewal Fines, Term.	Name, Description, and Situation of the Premises.	General Nature of the Instrument, whether Trust, Marriage Settlement, Mortgage, or Absolute Conveyance.
			Grantor.	Grantee.			
2: 23. 90 18 Nov.	Conveyance -	30 July 1842.	Hicks, Edward, Rev. Wilson, James, Rev. Gausson, James, M'Intyre, William.	M'Collum, William, and another.	Consideration, 120 L.	Ballymaguigan, barony Loughinshollen, county Londonderry.	Conveyance.
7: 12. 212 3 Aug.	Memorandum of a declaration.	19 July 1847.	Drainage Commissioners M'Intire, Mr., and others.	Deed - - -	Consideration in deed.	Ballymaguigan and others barony Loughinshollen, county Londonderry.	Memorandum of a declaration.
2: 32. 90 17 Sept.	Mortgage -	13 Sept. 1862.	M'Intire, William	Hyndman, Ellen -	Consideration in deed.	Ballymaguigan, barony Loughinshollen, county Londonderry.	Mortgage.
3: 41. 8 22 Dec.	Fee-farm grant	16 Dec. 1863.	M'Intire, William	Bell, Charles D., Rev.	Rent, 2 l. 18 s. 10 d.	Ballymaguigan, in the manor of Castledawson, barony Loughinshollen, county Londonderry.	Fee farm grant.
5: 8. 295 14 Mar.	Assignment of mortgage.	17 Dec. 1864.	Bell, Charles D., Rev. Bell, Frederick J. M'Intyre, William. Bell, Warwick P.	Patterson, William R.	Consideration in deed.	Ballymaguigan, in the manor of Castledawson, barony Loughinshollen, county Londonderry.	Assignment of mortgage.
8: 27. 183 1 Sept.	Vesting certificate.	1 Sept. 1868.	Blair, John (of Carrickfergus, woollen draper and grocer), by Bankruptcy, &c., Court certificate.	Bankruptcy, &c., Court, Official Assignees, and another.	-	Real and personal estate of said John Blair.	Vesting certificate.
8: 36. 167 12 Dec.	Re-conveyance	10 Nov. 1868.	Bell, Elizabeth, or Bessie	M'Intyre, William	Consideration in deed.	Ballymaguigan, barony Loughinshollen, county Londonderry.	Re-conveyance.

To print that sheet Mr. Dillon would have to open four different cases for the letters H, D, M, B, supposing each of these letters to have a case to itself, which is likely, as they are "heavy" letters. For the letter M, he would have to refer to three distant portions of the band, viz., 1842, 1862, 1863; for B, three in 1865, 1868. At all events, supposing all these bands to be held in the one case, he would have to wind and unwind to find out upon each the abstract which he wanted.

Then he would have to bring his adjustments to bear, printing press, carbonic paper, or whatever might be his apparatus, upon the reverse of the band, which should be displaced for the purpose while he was taking the imprint, and then restored to its place, the press and other appliances having been removed.

Will anyone say that one of these simple abstracts necessary for our negative search, and which contains less than one office sheet of writing, would not be copied with the pen in far less time than it could be printed from the band with all these intricate and troublesome operations?

What time and trouble would it take to remove the printing press from band to band alone? How long would it take him to print the seven short abstracts on the annexed sheet? By what means would he produce the copy clean, neat, regular, and useable like the manuscript; every abstract of it being printed from a different band, how would he keep them square and properly fitted? It would be found impossible to do so.

It has been mentioned that abstracts of greater length than the examples here shown are not frequent in the recorded negative search books, but even if they were, it would not be worth the trouble and interruption of opening the cases and stopping the office work to take printed copies, even although they could be done perfectly.

It is a question if it would not take as much time, or nearly, to produce an imprint of any one of the abstracts as was taken to copy the seven on the sheet with the pen.

Observe that the second abstract on the search form, page 39 (1847, 12, 212) gives only one denomination, "Ballymaguigan," the land against which the search was directed, with the addition "and others." There are 440 denominations in that abstract. It refers to five counties and one town. They fill four pages and a half of the abstract book. "Ballymaguigan" is found towards the end. Now Mr. Dillon would print the entire of that collection of lands on his abstract return for the negative search, although one land only was required; that is giving 439 denominations uselessly.

It is to be presumed that the printing press spoken of in the Report, Part 2, page 12 of this Paper, sec. 10, must be of sufficient strength to bear strong pressure; that it must be brought under the several bands for each entry that is to be printed or they must be brought to bear upon it, and that some sort of *matrix* must be fixed every time to receive the indentation of the type, and also removed each time. How are all these processes to be done with the expedition necessary to complete the printing in the way proposed from day to day of so large a number of daily entries of lands and names, and then check them? How many printing presses must there be? If but one, how can the bands be handled and lifted on and off for the purposes of printing with safety, or rather without destruction?

I cannot but think it would be extremely hazardous to commit the intricate and responsible work of the registry to tradesmen, printers, machinists, photographers, &c., and take it out of the hands of skilled and experienced officers trained to its operations.

There are many other objections which present themselves to Mr. Dillon's machine index as its working becomes looked into. For instance, what security is there that the machine will not from time to time become disarranged and out of repair in some important portion? Not only the entering of the index itself, but the searching work of the office would be stopped until the necessary repairs were made, which might demand the assistance of artizans, perhaps for days.

From what appears in the Report, it might be supposed that a reference to the lands key index would at once direct to the particular land searched after, but that is not so. The number in this key index directs only to those entries or abstracts where lands are to be found which commence with the same initial letter as the land searched for, and the searcher would have to inspect all the abstracts in the baronial indexes referred to by the numbers found in the key index, and search through the groups of denomi-
tions

tions to find if the land or lands he seeks be among them. Where is the facility given by this process?

In our books the land is found in its alphabetical order in the barony where it is situate, and the reference opposite the land takes immediately to the abstract book, where all the particulars of the instrument by which it is dealt with are seen in a moment.

The abstracts upon a negative search, or the required particulars from them, are written out upon it in due order and distinctness. (*See form, page 39.*)

Will Mr. Dillon be able to produce his printed abstracts in equally regular form? He could not get the abstracts in regular order, as they must appear on the search, from his index together in one place. He would have to resort to several different bands, or to different parts of the same band, to obtain the abstracts required. What time will it take to shift his appliances from place to place? Will he be able to print them in close order and proper shape, straight and regular on the sheet? If this *can* be done, would it be possible without an amount of fixings and settlings with a precision that would require excessive skill and take much time? And, after all, will his imprints be permanent, plain, and indelible, as print or manuscript, if he take them off by means of carbonic paper? Will they bear handling without being defaced or blurred? If he cannot do this, they could not be used. It would not answer to take them on separate slips; the sheets of a negative search have to be made up and sealed together with tapes and wax, much in the manner of a deed. They could not otherwise be certified by the Registrar. But it seems to be forgotten in Mr. Dillon's scheme that the requisition must appear in full at the head of each search. How is he to print that?

The Report, page 8, of this Paper, sec. 3, has the following:—"In *one* place, instead of in several, either on the lands or the names index, the *whole* information as to any particular record is seen at once, and a printed *office* copy is cheaply and rapidly obtainable. Some of the leading solicitors expressed to us opinions that this 'office copy' will be most valuable to the profession, and tend largely to check the creation owing to bad spelling of alias denominations of lands, a serious and increasing defect in the existing system of copying by hand."

I must here observe that the "bad spelling of alias denominations of lands" arises with the solicitors and their clerks themselves. We copy accurately from the memorials prepared by them. These difficulties of spelling must be common to all systems. What is known as an "office copy" is not an office copy of an abstract, but a full copy of the memorial itself, which Mr. Dillon has no provision for giving in print, as he does not print the memorials; he only prints the abstracts.

Office copies of abstracts have in some few instances been called for. (Within the last 12 months only 36 such copies were ordered; these were nearly all for the purpose of showing that certain judgment mortgages had been satisfied.) But no general demand has been made for such, nor do I see of what considerable use they could be. As said before, the variations in spellings of townlands spoken of do not arise from mistakes in the transcribing of the memorials in this office, but from the original memorial itself. The office must follow, and does follow, strictly the spellings given in the original documents; probably the same lands may be differently spelled in different deeds, in which case the difference would of course appear in the transcripts. For ordinary purposes of a solicitor's business, office copies of abstracts either would not be cheaply obtained, for they would be liable to a stamp duty of 1s. each. I may here observe that Mr. Dillon's system does not provide, nor can it, for the entry of the certificate of satisfaction on the abstracts of judgment mortgages, a most serious omission.

Part 2, page 12 of this Paper, sec. 11 of the Report, says, "It is suggested that the rolls "on their cylinders should be set in cast-iron stands, &c."

Sect. 12.--The rolls to be capable of being "shipped and unshipped, so that "duplicate index rolls, one in use while the other is in the hand of the "mechanical registrars, can the more readily be carried out."

Sect. 13 relates to the mode of interchange of the rolls.

Sect. 14. "As regards the lasting properties of Mr. Dillon's proposed appliances, we are of opinion that if the machinery is properly constructed the "amount of friction will be much less than would be supposed."

I am still of opinion that it will not be more lasting than good books. The constant "shipping and unshipping" can hardly be done without damaging the rolls; the handling of them would, I fear, break or injure the thin brass edges of the bands, no matter what care might be taken.

By reason of the projection of the type the bands will be much thickened. A roll of the size of that of Mr. Dillon's on the surname "Hamilton," which contained only 341 entries, can give small idea of what the bulk that several hundred thousand entries in a ten years' index would make. The number of boxes should be sufficient to accommodate between 30 and 40 persons. We have over 20 official searchers, and there are generally as many more, on an average, searching in the public office. Our index admits of considerable division of labour in searching, indexing, &c., by reason of the number of our books, and thus gives employment without interruption to several persons at the same time. Each of Mr. Dillon's stands can be used only by one person at a time. The office searchers too, and the public, will constantly require to use the same stand at the same time. How then is the searching to go on? What space would be required to contain these cases? How would they be accessible to the public? How could our searchers work safely among a crowd of strangers, or should there be separate sets of machines? If so, what will these cost?

I venture to say that with photographers, printers, stereotypers, artists, and the other assistants that should be engaged, comparers, copyists, &c., the cost of the system would be equal to, if not more, than the cost of our present staff.

THE MEMORIAL.

Under the present registry code, the memorial which is the basis of the entire system, besides supplying materials for the entries in the day book, abstract book, and the names and lands indexes, was designed to serve other important legal purposes. Being an epitome, verified upon oath, of the deed, the memorial is good secondary evidence of the existence and contents of the deed, as against the parties signing such memorial, being an admission under their hand and seal of the facts stated therein, and, so far, is a permanent public record of the transaction to which it relates. It remains in official custody in the Registry Office, where it is available at all times for public or private use, and in judicial or other legal inquiries is procurable either by the production of the original instrument or by certified copies, as the case may be. The constant use made of the memorials in the investigation and proof of title, or for other purposes of evidence in legal inquiries, is shown by the large demand for office copies of those instruments, and by the number of instances every year in which the original memorials themselves have to be produced in courts of justice, both in Dublin and throughout the country at large during the assizes and sessions. If the convenience and practical value of the memorial are to be estimated by the use made of it, it must be regarded as very considerable indeed. Nor, bearing in mind how very liable deeds are to be lost or destroyed, or from other causes rendered inaccessible or unavailable when most required, is it surprising that the memorial should be found so useful in practice.

The memorial contains the following most useful particulars, which the abstract does not:—Descriptions, residences, and signatures of parties and witnesses, acreable contents, and boundaries of lands and tenements; particulars of great importance, which are constantly made use of. When different parties deal with different lands in the same deed, as in the case, for instance, of marriage settlements, the memorial shows, as in the deed, the parties, as they affect the particular lands, and the lands as they are dealt with by the particular parties. The abstract, necessarily, cannot discriminate in such cases. The memorials are daily referred to by solicitors, by our searchers, and by other persons, for these particulars.

I extract the following from the Report of the Committee of the House of Commons of 1832, preparatory to the passing of the 2 & 3 Will. 4, c. 87, the present Registry Act:—

"As original deeds are frequently lost or rendered illegible through neglect, or may be in the hands of parties who are not willing to give
"up

“ up possession of them, their memorials are occasionally admitted in
 “ courts of justice as evidence of the existence and contents of the original
 “ documents. It is obvious, therefore, how essential it must be to the
 “ landed proprietors of Ireland that these memorials should be placed in
 “ a situation the least liable to be defaced or fraudulently used.”

For several important purposes the memorial discharges the functions of a duplicate deed, without a third part of the expense to the public and of labour to the office. From the necessary length of deeds affecting lands, the lodgment of duplicates engrossed on parchment would involve very considerable increase of expense to the parties as would copies of these afterwards entail proportionate increase of charge to the public, while to the office the additional labour caused would be very great indeed. It would be the difference, in the first place, between reading two long deeds against one another, instead of a comparatively short memorial against certain portions of a single deed; and in the next, the reading of the duplicate deed in full against the abstract.

The discontinuance of the memorial would reduce to a *minimum* the information which the office could afford the public with respect to the contents and nature of the deeds to be hereafter registered. It would be confined, in fact, to the few particulars to be found in the abstract, and without any of the explanatory circumstances or recitals in the memorial which throw light upon the subject of each particular transaction, and make the scanty particulars in the abstract clear and intelligible. So useful is the memorial in the interpretation of the abstract book that both the public and official searchers are in the constant habit of resorting to the former for explanation of entries in the latter; nor would an official searcher feel himself warranted in returning or in omitting certain acts from his returns without consulting the memorials in cases of any doubt or apparent ambiguity. I need scarcely say that in my opinion the suppression of the memorial now so constantly availed of by courts of justice as secondary evidence would be a public disadvantage, for which no compensation would be found in a duplicate abstract, a skeleton document that would be comparatively, if not absolutely, worthless for such a purpose.

The Report, Part 3, page 13 of this Paper, sec. 9, complains that there is a possibility that there may be introduced into the memorial “ matters not contained in the deed, and at variance with the truth.”

I can only say that the memorial is a document as formal as the deed to which it relates. It is under hand and seal of the parties to the deed, or some or one of them, verified on oath; and this is as good a guarantee of its integrity as the affidavit of execution is that the deed to which it relates is not a forgery. I never heard of a case such as the above, where matter not in the deed was introduced into the memorial; but if the possibility of its occurrence is worth guarding against, it could be provided for by a slight modification in the verifying affidavit to the effect that the memorial contained no matter or statement not in the deed.

The 2 & 3 Geo. 4, c. 116, which, according to the Report (par. 32, page 18 of this Paper, Part 3) “ provides a very complicated method of registering deeds “ executed in England, and which appears cumbrous and out of date,” was passed at the instance of English solicitors, for their accommodation and the safety of deeds belonging to their clients. Under that Act it is not necessary, as in all other cases, to exhibit the deed to the registrar for inspection at the time of registration, the production in its place of a certified memorial and copy being made sufficient. So far from being “ cumbrous and out of date,” most, indeed nearly all, the deeds executed in England are registered by means of the certified memorial, a pretty good evidence, surely, that in the opinion of English solicitors the “ method ” is not very “ complicated ” or inconvenient, when they habitually prefer it to the other course of registry by production of the deed itself. This statement is made, I presume, in the Report, not so much in the interest of English solicitors or English clients, as in the interest of the suggestion that all memorials should be done away with, for the purpose of trying the mechanical index. But then the practice referred to should not be represented as “ complicated,” when it is evidently considered quite the contrary by English solicitors, who ought to know best what is or is not for their convenience.

The fiscal consequences of suppressing the memorial, though not noticed in the Report forwarded by the Treasury Remembrancer, are nevertheless well

worth consideration. There were 15,170 memorials filed in the office from the 1st January 1874 to the 31st December following. The general stamp duty on these memorials may be stated approximately as averaging 5s. each, and the fee stamps as averaging 10s. each, giving an estimated total from both sources of 11,377l. The abolition of the memorial would therefore involve in the first instance a large sacrifice of revenue, and it is quite possible that much difficulty might be experienced subsequently in recouping the loss when the new scale of duties and fees came to be adjusted. I am apprehensive that the legal public would not be easily reconciled to the imposition of the same charges upon a meagre memorandum such as an abstract, sometimes not exceeding three lines, as upon a formal legal document and record like a memorial, which is always evidence of the deed and of its contents to a large extent, and answers such a variety of official and judicial purposes.

The Duplicate Abstract.

The duplicate abstract which it is proposed to substitute for the memorial is substantially the same as the abstract at present framed in the office from the memorial under the provisions of the 2 & 3 Will. 4, c. 87. The suggestion is, that the compilation of the abstract in the office should be discontinued, and in lieu thereof, that the parties having deeds to register should henceforth bring in with the deed a ready-made abstract in duplicate. I think it is almost impossible that this suggestion could have proceeded from anyone practically conversant with the working of the registry of deeds, or who has followed its operations with any degree of intelligent observation even for one day. It is not stated whether the proposed abstract in duplicate is to be revised in the office or not before the deed is admitted to registration; if not, then the basis of the registry system, which at present rests upon the memorial previously compared in the necessary particulars with the deed by two clerks in the office, will be changed, and will have for its sole foundation in the future an abstract in duplicate, which will not have undergone any official examination, and which nevertheless will be absolutely certain in a large proportion of instances every day to be incorrect. The inaccuracies of the unrevised abstract will thus vitiate all subsequent entries taken from it, and make the records of the office a tissue of errors. If, on the other hand, the duplicate abstract is to undergo official revision, the consequence will be to delay very considerably beyond what is now found necessary the registration of deeds, and so needlessly inconvenience attorneys and solicitors. The comparison of the abstract must, in the absence of the memorial, be, with the deed itself, generally lengthy, and will necessitate quite as close and attentive a perusal of the deed as is now bestowed on the memorial, when, after registration of the deed, according to present practice, the abstract is being compiled and revised in the office from the memorial. There is no comparison between the time necessary for reading the memorial against the necessary parts of the deed and the final revision *from the deed* of the abstract, which involves questions of construction on several points, and more especially as regards the position of parties in the record, whether as grantors or grantees or as silent parties. In my opinion, and in the opinion of the assistant registrars, who have much longer official experience, the inconvenience of the course suggested would be found so intolerable to the persons doing business in the office, that before six months there would be a peremptory demand for a return to the present system. Another and most serious objection to the duplicate abstract is, that it would cause the rejection on technical but necessary grounds of deeds in innumerable instances where they would be now admitted without difficulty or disadvantage to registration. At present, if the materials required by law to be in the memorial are there, the deed is registered, and the proper collocation and adjustment of these materials carried out subsequently by the clerks who compile and revise the abstract book. But though all the necessary materials for a correct duplicate abstract book, prepared outside the office, as suggested, may be contained in it, yet, by reason of some mistake in their arrangement, for instance, representing a party to the deed as "grantor" when he should be described as "grantee," would necessitate the rejection of the deed from registration, as the error, though discovered, could not be rectified in the office; for the abstract, being either certified or verified on oath, could not of course be tampered with. The deed, and with it the duplicate abstract, must then be returned for amendment and re-verification, and

the registration be deferred to the possible loss of priority in the meantime. It would be erroneous to suppose that the number of cases would be few in which such miscarriages would happen; they would, on the contrary, be of frequent daily occurrence; nor should this be matter of surprise when we consider what an abstract is, and how it would generally be prepared outside the office. The deeds brought in for registration constantly deal with a variety of subjects and interests, with trusts, with terms for years, with powers, with sums of money charged on lands, with legal estates, and with equitable estates. The *précis* of an instrument like this, which will necessarily have many parties to it, acting in different capacities and interests, requires a correct analysis of its contents, or which habitual accuracy and some considerable technical knowledge are essential. Some of the best and most experienced clerks in the department are always engaged on the abstract book as now kept, and yet, though in the habit of making and comparing the entries in it for years, are constantly obliged to bring cases before myself for directions, owing to the difficulties they experience in special instances which day by day turn up. Nothing, I am satisfied, more ill advised for the public interest in connection with the Registry of Deeds Office could be suggested, than to transfer this portion of the work now done in the office by skilled and trained clerks, whom long practice has familiarized with its requirements, to the miscellaneous class of imperfectly qualified persons upon whom it would be devolved, and whose unfitness for it is shown by the mistakes made in memorials which are so much simpler in their nature than the abstract book. As a rule, the less technical precision, consistently with correctness otherwise attainable, exacted from the public the better in the transaction of general business, and particularly with business relating to a land registry. This is an excellent feature in the present system, whose comparative simplicity is one of its chief merits. It is proper also to observe that the retrenchment to be effected by means of the duplicate abstract would be very insignificant indeed, as all that would be saved is the expense of compilation alone, which has hitherto been generally done by one clerk, as in any case the necessity for revision would still remain.

It is not therefore because the abstract would be better made, or as well made, outside the office as it is at present within it that the establishment of the duplicate abstract is recommended, but simply as being supposed necessary or convenient for the further trial of the mechanical index.

If the duplicate abstract be considered absolutely essential to the mechanical index, this is a strong reason in itself against its adoption, were that otherwise feasible. The elimination of the memorial, and consequently of the day book and abstract book, as now compiled in the office, would appear to me, in the last degree, and in equal proportions, detrimental to any system of deeds registry, whatever be its machinery, nor can the saving of expense, if any, to be thereby effected be set down to the credit of one system more than another, for it is equally possible under both, and would be equally injudicious. The question of economy between the two systems is confined to the construction of the indexes alone, and I believe that in this particular, as in all others, the existing system, everything considered, has here largely the advantage.

The Ordnance Survey.

The feasibility of making the ordnance survey the basis of the land registry in Ireland has been repeatedly discussed, and has provoked much diversity of opinion. The most competent authorities differ about it, but the preponderance of professional judgment is strongly opposed to its adoption. The difficulties which beset the question are entirely overlooked in the report as if they had no existence. This is not judicious in the public interest. At page 15 of this Paper, Part 3, section 20, it is said:—

“It appears to the Committee that the value and importance of the adoption of the Ordnance maps and survey of Ireland as a basis for a system of land registry, can hardly be over-estimated.”

For my own part, I can have no objection to the registry being based upon the Ordnance survey. It would very materially shorten and simplify the work of the land registry in the Deeds Registry Office. The question is, can it be effected.

This subject was very much discussed some 10 years ago, and some of the

objections to Mr. Torrens's proposal to base the registry on the Ordnance survey in his Bill introduced in 1864, are stated in the following extract from a work published at that time:—

"It is a well-known fact that the Ordnance maps of Ireland are not legal evidence at present of any single fact which is recorded upon them. No one who has examined them but will admit their artistic finish, and acknowledge their general accuracy, but no attempt has ever yet been made to declare the boundaries shown upon them or the names entered on them, binding and conclusive evidence before any legal tribunal of the country. In many hundreds of instances this could not be done, as that survey at present stands, without the greatest injustice being inflicted upon landed proprietors. Some cases of great inaccuracy existing on these maps have come under my own notice during the past few years, and I cannot do better than illustrate my argument by reference to two of them."

"A. B. was entitled in fee simple to lands called 'Ballynagowan,' which appeared by the Ordnance maps to contain only 83 acres, 3 roods, 6 perches, statute measure. On inquiry, however, it turned out that the townland boundary as given on that map, excluded portions of ground which were in reality parts of Ballynagowan, and were in the occupation of the owner's tenants, and had been dealt with by all his family deeds as his property, under the name of Ballynagowan, while the same map gave to those excluded portions wholly different names, one being mapped as part of Richhill, and another as part of Mount Shannon, townlands to no part of which under these names was A. B. entitled."

"In the other case the townland boundary on the Ordnance map of Ballysallagh lands, excluded a field which in truth belonged to that townland, while in another place it included as part of those lands that which in reality belonged to another townland altogether. These two instances are sufficient to show that even the 'outlines and designations' of lands as shewn upon the Ordnance maps of Ireland, cannot be relied on as accurate, and should not, without further inquiry, be made the basis of any judicial proceedings to bind the world."

"Every landed proprietor in Ireland knows that even where the boundaries are correct, in very many instances the names given to the townlands upon the Ordnance maps, materially differ from those by which they are known in the neighbourhood, or *dealt with by the title deeds*."

"And if any other proof was needed of the impossibility of dealing with that survey as it stands as absolutely correct, it is to be found in the fact that the judges of the Landed Estates Court refuse to adopt it, even when the boundaries of the particular property have been marked upon it by the officials of the Government Valuation Office, and verified by the owner, or his agent, as correct, without a special survey which is now made by the Ordnance Department after much delay and at great expense. One of the judges refuses to act without such a special survey in any case, except where the property to be sold is a short leasehold interest; the other two sometimes dispense with it, but only in very exceptional cases."

"One of two courses will have to be adopted, either to have the entire survey of Ireland reviewed on proper notice to all landed proprietors and their tenants, so as to bind all parties by its outlines and designations, or in every case to require a special survey to be made before the conveyance or declaration of title is executed."

On this subject the present Lord Chief Justice of the Queen's Bench, Ireland, expressed himself in the House of Commons in 1863, to the following effect:—

"On that matter which went to the whole root of the Bill, namely, the townland basis on which the proposed system of registration was to proceed, the Bill was in diametrical opposition to the opinion of the gentleman who, under the directions of the Government, made the report on which the Bill was founded. That gentleman rejected as impracticable the townland or Ordnance survey as a basis of registration. The names of the townlands in the Ordnance survey did not correspond with the names in the deeds. The Bill before the House not only recommended, but enforced a compulsory alteration of the present survey. He contended that the clause of the Bill which had reference to the boundaries of the townland, was altogether

"wrong,

"wrong, illusory, and he ventured to say impracticable, and he submitted that "it ought not to be sanctioned by the House."

I may here observe that Messrs. Law and Chisholm, in their Report, page 19, state that "Mr. Lane agrees in opinion with the practical men in the office that "the Ordnance Map Registry, such as contemplated in the Act 11 & 12 Vict. c. 120, could not be effectually worked."

It is also a difficulty in the way of adopting the Ordnance survey that it is subject to revision and alteration. If the Act to enforce it be passed, say in 1876, and conveyances made according to it in that year, the descriptions from it may not apply to the same lands conveyed in 1886. What, then, is to be done? Must the maps as they were in 1876 be perpetuated, and conveyances in 1886 follow their designations and boundaries although known to be wrong at the time?

However desirable it might be to have the Ordnance survey established for Mr. Dillon's registry, I apprehend it cannot be done, and that lands in Ireland must continue to pass by the old verbal descriptions in the deeds and conveyances by which they have passed and are popularly recognised.

This view appears to have been taken by the Legislature at the time of the passing of the Record of Title Act, 28 & 29 Vict. c. 88, although the original intention was to make the Ordnance survey a basis of this Act.

The plurality of alias names of the same land is no doubt an inconvenience (Report, Part 3, page 16 of this Paper, sec. 21), but it amounts only to a somewhat more scrivenery work in the documents, a matter after all of no great moment. It will not embarrass a searcher for a land; Moneymore, for instance, will always have its alias names in connection with it in the memorial and the abstract book as we have it: Moneymore alias Moneybeg, alias Carnogue, alias Drumglas, &c.

(Report, Part 3, secs. 4 and 22, pages 13 and 16 of this Paper). As I have said, the question as to the advantage of the Ordnance survey is, can it be brought into use? The circumstance that the proper authorities did not give the notice required to bring the Act 11 & 12 Vict. c. 120, into force, seems rather to imply a well-considered doubt than a certainty of its utility.

GENERAL REMARKS.

I have endeavoured hitherto to confine myself within the limits prescribed by the Treasury letters dated respectively the 3rd June 1874, No. 9,019, and the 27th October 1874, No. 14,964, by which the Committee was authorised to superintend and report upon the experiments directed to be made for testing Mr. Dillon's invention. The other Report extends to 30 pages, some 10 of which only relate to that subject, while the rest is devoted to a variety of topics wholly unconnected with it. Some of these, as for instance, the doctrine of "notice" in connection with the registration of deeds, involve the modification of established legal principles, and others again, such as the consolidation of various legal departments in the courts, and their amalgamation with one another, or with the Registry of Deeds Office, involve extensive administrative changes. I do not feel called upon, or indeed (having regard to the limited authorisation given by the Treasury letters above referred to) warranted, in discussing these serious questions, for which, as a member of the Committee, I feel that I have no commission. It is even with reluctance I bring myself to notice some miscellaneous observations scattered through the Report, which though they relate to the office generally, have no bearing on the subject of the mechanical index, and the experiments made with reference to it. But I trust I shall be excused under the circumstances for shortly adverting to them.

In reference to a Bill for amending the law relating to the registration of deeds in Ireland which was before Parliament in the year 1862, it is said at page 13, Part 3 of the Report, "it did not become law." I do not know if the members of the Committee have read the Bill in question, but they should have added that the entire scheme encountered so determined an opposition in the House of Commons, owing to the general disapproval which it excited among the legal public in this country, as to necessitate its abandonment. It was upon the discussion of this measure in 1863 that the present Lord Chief Justice Whiteside expressed himself to the following effect:—

"During the 15 years that the Encumbered Estates Court and Landed Estates Court were in existence, the Registry Office succeeded in accom-

“plishing the duty imposed upon it, though the labour cast upon it was
 “enormous. . . . Its business was conducted with the greatest
 “care and precision, the work was performed with a degree of mathematical
 “accuracy which he never saw rivalled, and he was at a loss to conceive
 “how it was possible by any scheme or contrivance to construct an office
 “in which the work could be better or more securely done.”

The observations in the Report (Part 3, page 15 of this Paper, sec. 16) that “some of the indexes of the office are in a very dilapidated condition” is not quite accurate. It is true that the corners of the pages are in some of the older books somewhat defaced from long use, but great attention is given to the restoration of them from time to time, and they can always be fully restored from the original memorials and day-books. It should be borne in mind that they are the production of the labour of more than a century. The matter is noticed in the Report of Messrs. Law and Chisholm in 1865.

The statement of Colonel Leech, referred to in paragraph 17, Part 3, page 15, as to the number of operations involved in the registration of each deed, is perhaps hardly worth reproducing, and it was shown at the time that the number of operations under his system would entail very much the same amount of labour, besides being otherwise objectionable and wholly unworkable. His plan also came under the notice of Messrs. Law and Chisholm.

As regards the statement in Report (Part 3, page 15 of this Paper, para. 18), “a very large proportion of the transcripts remains uncompar’d,” the fact is so, and is also mentioned in the Report of Messrs. Law and Chisholm, as is the further fact that the lands index is likewise in arrear, for the reasons already assigned. I quite agree here that it would be most desirable to have the transcripts all compar’d, and to have the lands index also brought down to the latest time possible. But it is right to state, at the same time, that the inconvenience to the public from the present state of things, which can be only temporary, is very inconsiderable, as the names indexes and the abstract books are compar’d, and contain the most important of the particulars in the memorial and in the lands indexes; indeed, all the information that the new system could by possibility afford, were it successful to the utmost extent expected, and free in addition from all the defects inherent in it.

It is said at page 15 of this Paper, paragraph 19, Part 3 of the Report, that “there is a difficulty in understanding why legislation sanctions the accumulation in one locality of so much of what may be practically termed useless matter.” What is meant by “useless matter” is not explained. Every record in the office, from the original memorials deposited in the fire proof vaults of the establishment to the day book and abstract book in the hands of the compilers and comparers, are liable to be consulted and referred to at all hours of the day by the public and the officers of the department, and therefore must be “accumulated” within its precincts. If by “useless matter” be meant the uncompar’d books, the answer is that for certain purposes they are not useless, and further, that the intention is, and the suggestion in the Report itself is, that they be compar’d and made available for all office purposes.

With regard to the practice referred to in page 17 of the Report, Part 3, paragraph 25, of transcribing the printed memorials of deeds from the Landed Estates Court, I beg for shortness’ sake to refer to my letter, dated 3rd November 1874, on the subject, to the Lords Commissioners of Her Majesty’s Treasury, by which it appears that the expense of transcribing memorials of this class for the space of 10 months was about 72 *l*.

The fact of an original memorial being in print does not dispense with the necessity of having it copied for public and official use, as in any other case, but if the authorities of the Landed Estates Court had thought proper hitherto, or would now agree, to send in a duplicate memorial in print, and suitable in size and shape for being bound up with the current volumes of transcripts, the expense of copying could be saved. It occurred to me to write to the judge of the Landed Estates Court, requesting that he would have the goodness to do so, but on consideration, I feared that this course might look like presumption on my part, and that a communication to that effect would come with more propriety from higher quarters.

The “General Acts” described in paragraph 28, page 17 of this Paper, Part 3, are no doubt, as stated in the Report, a source of much inconvenience to the public and

and the office. But the recording of such acts is essential to the completeness of the registry so long as deeds are allowed to be placed upon it which do not contain the names of the townlands or premises affected by them. The rule of law, too, which in certain instances gives legal effect to those general acts must be altered, or it must be enacted that such general acts shall be inoperative for the future in conveyances so far as they derive effect from registration of the deeds in which they are used. I may observe that the attempt to exclude from registration deeds which did not contain the baronies in which the lands were situate, was tried under the provisions of 9 Geo. 4, c. 57, expressly passed for the purpose, and that after an experience of some four or five years it was repealed by the 2 & 3 Will. 4, c. 87. Indeed it had never been enforced, owing to the great number of deeds which would have been deprived of registration if it had been carried out in practice. This is not adverted to in the Report, but I drew attention to it in my letter to the Lords Commissioners of Her Majesty's Treasury, already referred to, when the expediency of dealing with this matter was under their consideration.

The certificate of registration alluded to in the 29th paragraph, page 18, admits of abridgment, perhaps, and might be limited to the words "*duly registered*" with the hour and date of registration, and the reference to the office books. This could be done without legislation, no form of certificate being prescribed. The present form of certificate is merely adopted from the English Act.

The registration of deeds not affecting lands may be discontinued at once if the Treasury should be so advised, and should authorise me to decline taking them, as there is no obligation on the office under the Registry Acts to receive them. But the suggestion which is made in paragraph 35, page 18 of this Paper, of registering such deeds *in extenso* by deposit of a duplicate or certified copy, appears to me ill considered. Grantors in personal deeds are now found on the index of names, but the above suggestion would require a separate names index to be kept up for this class of grantors alone, and sometimes it would be necessary to have the names of the same grantors entered twice over, as in the ordinary instance where parties deal with *real* and with *personal* estate in one and the same deed. In such a case the names of the grantors should be in the names index applicable to lands, and also in the names index appropriated to pure personalty. The result would be that there should be two sets of names indexes instead of one as at present.

The statement on page 7 of the Report that the index with the Christian names alphabetically arranged in dictionary order is not now continued in the office is misleading. Indexes of this class are in use both by the public and the official searchers up to the end of the last decennial period 1860-69, and since the commencement of the current decennial period we have kept as an experiment in the office a current surname index of names, which is posted up from day to day concurrently with our sectional index of names, and is the index used by our official searchers. I extract here a paragraph from my letter to my Lords of 7th February 1871 on this subject: "We are now keeping, side by side with the quinquennial names index, and in lieu of the duplicate thereof, a prospective consolidated names index, but in surname only, which if successful will answer all necessary searching purposes, and is at the same time incomparably more simple than the one previously attempted."

I can now safely say that the experiment above referred to has been successful, and that were these indexes copied on parchment (in quinquennial periods), I see no reason why the public should not be allowed to use them from day to day. They are constructed on paper; as being experimental, it was deemed advisable not to go to the expense of parchment in the first instance.

If the present abnormal pressure did not exist the index of lands would be much more forward. The arrear at present in this index is principally caused by the exceptionally large and numerous investments of money in landed securities—in the form of loans by the representative church body, for instance. They generally lend sums of money upon large estates, having a great number of different denominations of land, and often in more than one barony and county. For example, a large landed proprietor borrows 100,000*l.* from the representative church body, and charges it upon one, two, or three hundred different townlands in one or more counties. This necessitates only one entry upon the index of names, while it compels one, or two, or three hundred

entries on the index of lands, if not more. Cases of this kind have of late been frequent, and it is perhaps only surprising that under the circumstances this index is not more in arrear.

It is to be carefully noted here that since neither names nor lands index under Mr. Dillon's system could be entered up until the abstracts were fully and carefully compared *for both indexes*, the index of *names* which we keep up day by day, nearly to the hour, would be *actually retarded* as much as the index of lands. The searching work of the office would therefore be delayed, sometimes for days, a circumstance which would not be tolerated now by the public for a moment.

I am not aware of any instance, as mentioned in the Report (page 8 of this Paper, sec. 4), of a search taking nearly two years before it was completed, nor can I learn that any such case ever occurred. Neither date, name, nor any other particulars in warranty of this statement are given in the Report to enable me to trace it. There must be some misapprehension about this. Many searches have been left for two years, or more than two years, in the office though completed, owing to many causes, as for instance, the postponement or abandonment of the purchase or loan to which these searches referred.

The increased and increasing number of deeds registered, proves that the facilities for searching keep pace with the demand for searches, as all mortgages, assignments of mortgages, and conveyances, registered are preceded by searches, some extending over lengthened periods.

The greater part of the above details, and some others to which I have not adverted, are to be found in the Report of Messrs. Law and Chisholm in 1865, and though I have felt bound to notice them, I am not able to understand what they have to say to the mechanical index, or why they should be mixed up in the consideration of a subject so limited and so specific in itself.

The codification of the Registry Acts recommended at page 21 of this Paper, Part 4, of the Report is unobjectionable, of course, and is desirable in every case alike, where there are several detached enactments dealing with one and the same subject. No practical inconvenience, however, occurs in the present case, owing to the fact that there are no discrepancies between the several Acts which appear to have been all pretty carefully adapted to one another. The practice of the department is regulated by the 2 & 3 Will. 4, c. 87, and the codification and amendments suggested have, I apprehend, for their real object the repeal of this Act, which is referred to in paragraph 44, page 21, wherein it is stated that "many of the defects in the operative system of the Registry of Deeds Office would doubtless have been the subject of official reform had not the inflexible and inelastic letter of the law precluded such action." A very different estimate from the above has hitherto prevailed among legal and professional people of this enactment which it is now proposed to get rid of summarily, in the whole or in part, and, apparently for no other immediate necessity than as a prelude to further experiments with the mechanical index.

Few legal measures have been better considered than the 2 & 3 Will 4, c. 87, by which the present working processes of the Registry of Deeds Office are regulated, and which it is proposed forthwith to repeal. It was passed in accordance with a long and very elaborate report prepared by a Special Committee of the House of Commons from evidence given before it by Mr. Moore, an eminent barrister and King's Counsel, who was then registrar and had had long previous official experience of the department, as well as from the evidence of some attorneys and solicitors, in leading practice at that time in Dublin, whose suggestions subsequently incorporated with the report show their minute and practical knowledge of the subject on which they were examined, and their competency to advise upon it.

The Act, prepared and passed under these circumstances, has now been in operation for more than 40 years, and its working capabilities severely tried, especially in connection with the enormous sales of land carried out by the Incumbered Estates Court and the Landed Estates Court respectively extending over a series of years. The rapidity, amounting almost to precipitancy, of these sales is as well known as their extent, and as they must have been in every case preceded by searches, it is hard to conceive how the latter could have kept pace with the former, if the system established by the 2 & 3 Will. 4, c. 87 be so cumbrous and unwieldy as it has been represented. I am sure that such is not the opinion generally of practical men having business relations with the office, and I believe

that

that the attorneys and solicitors for the most part would incline to say that if anything were wanted for its improvement it would be, not a change in the system itself, but an addition to the staff engaged upon it. The business has increased, as already stated, by fully one-third since the year 1866, when the staff was fixed in conformity with the full and able report of Messrs. Law and Chisholm; and this fact explains why the lands index is somewhat behind hand. If the business had fallen off during the interval in the same proportion as it has increased grounds would be established for the reduction of the clerks, but the fact being otherwise, the opposite inference would be equally obvious, if the increase could be regarded as certain to continue. I incline to think, however, that it is not, being attributable chiefly, in my opinion, to temporary causes connected with the Church Act, and therefore I have not felt it my duty to bring the subject before the Treasury, more especially as the slight arrears referred to in the report do not interfere with the requirements of the public, which, to use the language of Lord Percy's Report, are "adequately and faithfully met," as matters at present stand.

It is quite a mistake to represent as "inelastic" and prohibitory of well-considered modifications an Act of Parliament which provides, as the 2 & 3 Will. 4, c. 87, does, by the 35th Section, expressly for such modifications, and prescribes a suitable mode for effectuating them. Too much facility for tampering with and disturbing a system which requires so much uniformity, precision, and continuity of practice as a land registry, is not, I submit, desirable in any point of view, and not the least among the merits of 2 & 3 Will. 4, c. 87, is the comparative security it has hitherto afforded against hasty and unnecessary changes of more than doubtful expediency.

The Secretary to the Treasury,
London.

(signed) *M. F. Dwyer*,
Registrar of Deeds, Ireland.

REGISTRATION OF DEEDS (IRELAND).

COPIES of REPORTS of the COMMITTEE appointed to Inquire into an INVENTION of Mr. *Dillon* for simplifying the System of REGISTRY of DEEDS, *Ireland*: and, of REPORTS of the REGISTRAR of DEEDS, *Ireland*, upon the same Subject.

(*Mr. William Henry Smith.*)

Ordered, by The House of Commons, to be Printed,
11 August 1876.

WASTE LANDS (IRELAND).

RETURN to an Order of the Honourable The House of Commons,
dated 6 August 1875;—for,

RETURNS “of the ACREAGE under (a) CROPS; (b) GRASS; (c) PLANTATION;
(d) FALLOW; (e) BOG WASTE, in each POOR LAW UNION wholly within
the Counties of *Mayo*, *Galway*, and *Donegal*, in the Year 1874:”

“Of the Number of PROPRIETORS in each of such UNIONS:”

“Of the Number and Amount of LOANS Made to and Expended by them since
1847, for Purposes of LAND RECLAMATION and IMPROVEMENT within
each of such UNIONS:”

“Of the Number and Amount of LOANS made to OCCUPIERS, not being
PROPRIETORS, and Expended by them since 1847 for Purposes of LAND
RECLAMATION and IMPROVEMENT within each of such UNIONS:”

“And, of the ACREAGE of the LANDS with respect to which each of such LOANS
was made.”

Note.—The Return comprises only those Unions which lie wholly within the
County of Mayo, the County of Galway, and the County of Donegal, and does
not refer to any of the Unions which lie partly in any of them.

Dublin Castle, }
20 March 1876. }

T. H. BURKE.

(Mr. O'Connor Power.)

Ordered, by The House of Commons, to be Printed,
24 March 1876.

RETURN of the ACREAGE under (a) CROPS; (b) GRASS; (c) PLANTATION; (d) FALLOW; and (e) BOG and WASTE, in each POOR LAW UNION wholly within the Counties of *Mayo, Galway, and Donegal*, in the Year 1874.

GENERAL SUMMARY.

COUNTIES.	Total Number of Loans.	Total Amount of Loans.	Total Amount Expended.	Total Number of Acres Reclaimed.	Total Number of Acres Improved.
		£.	£.		
MAYO - - -	80	114,270	59,690	2,767	7,395
GALWAY - - -	162	101,150	68,050	1,816	7,023
DONEGAL - - -	79	96,845	63,135	1,892	5,745
	321	312,265	190,875	6,475	20,163

Note.—Where Loans have been granted upon properties which are in more than one Poor Law Union they have been included in the Union in which the largest Expenditure occurred.

In those cases where no result is shown opposite the amount expended, the improvements consist of the construction of fences, farm roads, and main drains, which works do not admit of being brought out in acreable quantities.

No Loans have been “made to Occupiers not being Proprietors.”

Officer of Public Works, Dublin,
14 March 1876.

John W. Penny,
Examiner of Land Improvement.

WASTE LANDS (IRELAND).

RETURNS of the ACREAGE under (a) CROPS; (b) GRASS; (c) PLANTATION; (d) FALLOW; (e) BOE WASTE, in each Poor Law Union wholly within the Counties of *Mayo, Galway, and Donegal*, in the Year 1874; of the Number of Proprietors in each of such UNIONS; of the Number and Amount of Loans Made to and Expended by them since 1847, for Purposes of LAND RECLAMATION and IMPROVEMENT within each of such UNIONS; of the Number and Amount of Loans made to Occupiers; &c.

(*Mr. O'Connor Power.*)

*Ordered, by The House of Commons, to be Printed,
24 March 1876.*
